**Construction Administration** Patrick C. Mays 1997 A flexible, proven method for organizing construction administration paperwork—for architects and those who work with them. Construction Administration provides a simple, fully integrated system for organizing the complex paper trail that crosses the architect's desk during every construction project. Compatible with computerized or paper-based administrative systems, this time-saving method enables you to improve record-keeping during construction, track the decision-making process, and monitor a project's progress efficiently and effectively. This self-contained book and disk set comes ready to implement—with the forms, instructions, and detailed cross-referencing and indexing procedures you need to create an easily traceable record of the construction process. Covers all major construction administration document types—meeting minutes, requests for information, proposal requests, change orders, submittal checklists, field reports, and more. Works in tandem with official American Institute of Architects (AIA) forms. Includes user-friendly disk versions of all forms in the book. Contains extensive examples throughout that demonstrate the system in action. Adapts effortlessly to fit the requirements of any project type.
