Frankenstein - Third Edition Mary Shelley 2012-06-20 D.L. Macdonald and Kathleen Scherf's edition of Frankenstein has been widely acclaimed as an outstanding edition of the novel—for the general reader and the student as much as for the scholar. The editors use as their copy-text the original 1818 version, and detail in an appendix all of Shelley's later revisions. They also include a range of contemporary documents that shed light on the historical context from which this unique masterpiece emerged. New to this edition is a discussion of Percy Shelley's role in contributing to the first draft of the novel. Recent scholarship has provoked considerable interest in the degree to which Percy Shelley contributed to Mary Shelley's original text, and this edition's updated introduction discusses this scholarship. A new appendix also includes Lord Byron's "A Fragment" and John William Polidori's *The Vampyre*, works that are engaging in their own right and that also add further insights into the literary context of Frankenstein.

Frankenstein Rosie Dickins 2008 Victor Frankenstein dreams of creating life. As lightning flashes across the sky, his creature stirs. Will it be the perfect being he imagines, or a monster?

Frankenstein Mary W Shelley 2021-04-11 "Frankenstein is a novel written by English author Mary Shelley that tells the story of Victor Frankenstein, a young scientist who creates a hideous sapient creature in an unorthodox scientific experiment. Shelley started writing the story when she was 18, and the first edition was published anonymously in London on 1 January 1818, when she was 20. Her name first appeared in the second edition published in Paris in 1821. Shelley traveled through Europe in 1815 along the river Rhine in Germany stopping in Gernsheim, 17 kilometers away from Frankenstein Castle, where two centuries before, an alchemist engaged in experiments. She then journeyed to the region of Geneva, Switzerland, where much of the story takes place. The topic of galvanism and occult ideas were themes

of conversation among her companions, particularly her lover and future husband Percy B. Shelley. Mary, Percy, and Lord Byron had a competition to see who could write the best horror story. After thinking for days, Shelley dreamt about a scientist who created life and was horrified by what he had made, inspiring the novel."

Frankenstein (Modern English Translation) Mary Shelley 2019-05 Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobbles together a body he's determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's Frankenstein, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in British literature. It is as relevant today as it is haunting.

Frankenstein Harold Bloom 2009 Presents a collection of writings exploring the characters from Mary Shelley's Frankenstein.

Frankenstein Mary Wollstonecraft Shelley 1985 Victor Frankenstein discovers the secret of creating life and fashions an eight-foot monster, only to bring danger and destruction to the lives of those he loves after the creature is rejected by society.

Frankenstein (Annotated) Mary Wollstonecraft 2018-09-26 annotations Today we are going to briefly analyze a well-known classic book, one that does not need a presentation. It's about Frankenstein from Mary Shelley. There are numerous adaptations of this title, which is already part of popular culture. As you probably know, there are several films based on the character of Shelley like Dr. Frankenstein of 1931, The Bride of Frankenstein of 1935 and Frankenstein of Mary Shelley of 1994. There are also audiobooks, comics and I remember that he even adapted to a series of cartoon, being the monster of Frankenstein a very popular character. This work is considered by many the first science fiction novel. Remind you that science fiction is part of the popular imagination, of the traditional stories and legends of many peoples. Thus, we find precursory stories already in Classical Greece that, without being called science fiction, contain basic elements of the genre. Mary Shelley (1797-1851, United Kingdom) is an English novelist and dramatist who wrote several novels and travel books, as well as some short stories and poetry. She is known for the novel in question that she published in 1818 and for which she wrote three different versions. The first is from 1816 and was written because Lord Byron, during a stay of the Shelley couple in his home, challenged his guests to write a horror story to entertain themselves in a few days of bad weather. 1816 was the so-called year without summer, due to the ashes that the Tambora volcano expelled to the atmosphere. The author's husband, Percy Bysshe Shelley, modified the novel and helped correct it. The final version was rewritten from previous versions in 1831. Other known works of the author are The Last Man of 1826 and Mathilda of 1819.

What Is the Story of Frankenstein? Sheila Keenan 2019-08-13 Your favorite characters are now part of the Who HQ library! One of the most iconic monsters of all time comes to life in our What Is the Story Of? series. She will not only navigate you through the pitfalls that trap readers today, but show you how to read them in light of the gospel, and to the glory of God.

Frankenstein: Annotated Mary Shelly 2021-04-23 in a series of letters, Robert Walton, the captain of a ship bound for the North Pole, recounts to his sister back in England the progress of his dangerous mission. Successful early on, the mission is soon interrupted by seas full of impassable ice. Trapped, Walton encounters Victor Frankenstein, who has been traveling by dog-drawn sledge across the ice and is weakened by the cold. Walton takes him aboard ship, helps nurse him back to health, and hears the fantastic tale of the monster that Frankenstein created. Victor first describes his early life in Geneva. At the end of a blissful childhood spent in the company of Elizabeth Lavenza (his cousin in the 1818 edition, his adopted sister in the 1831 edition) and friend Henry Clerval, Victor enters the university of Ingolstadt to study natural philosophy and chemistry. There, he is consumed by the desire to discover the secret of life and, after several years of research, becomes convinced that he has found it. Armed with the knowledge he has long been seeking, Victor spends months feverishly fashioning a creature out of old body parts. One climactic night, in the secrecy of his apartment, he brings his creation to life. When he looks at the monstrosity that he has created, however, the sight horrifies him. After a fitful night of sleep, interrupted by the specter of the monster looming over him, he runs into the streets, eventually wandering in remorse. Victor runs into Henry, who has come to study at the university, and he takes his friend back to his apartment. Though the monster is gone, Victor falls into a feverish illness. Sickened by his horrific deed, Victor prepares to return to Geneva, to his family, and to health. Just before departing Ingolstadt, however, he receives a letter from his father informing him that his youngest brother, William, has been murdered. Grief-stricken, Victor hurries home. While passing through the woods where William was strangled, he catches sight of the monster and becomes convinced that the monster is his brother's murderer. Arriving in Geneva, Victor finds that Justine Moritz, a kind, gentle girl who had been adopted by the Frankenstein household, has been accused. She is tried, condemned, and executed, despite her assertions of innocence. Victor grows despondent, guilty with the knowledge that the monster he has created bears responsibility for the death of two innocent loved ones. Hoping to ease his grief, Victor takes a vacation to the mountains. While he is alone one day, crossing an enormous glacier, the monster approaches him. The monster admits to the murder of William but begs for understanding. Lonely, shunned, and forlorn, he says that he struck out at William in a desperate attempt to injure Victor, his cruel creator. The monster begs Victor to create a mate for him, a monster equally grotesque to serve as his sole companion. Victor refuses at first, horrified by the prospect of creating a second monster. The monster is eloquent and persuasive, however, and he eventually convinces Victor. After returning to Geneva, Victor heads for England, accompanied by Henry, to gather information for the creation of a female monster. Leaving Henry in Scotland, he secludes himself on a desolate island in the Orkneys and works reluctantly at repeating his first success. One night, struck by doubts about the morality of his actions, Victor glances out the window to see the monster glaring in at him with a frightening grin. Horrified by the possible consequences of his work, Victor destroys his new creation. The monster, enraged, vows revenge, swearing

that he will be with Victor on Victor's wedding night. Later that night, Victor takes a boat out onto a lake and dumps the remains of the second creature in the water. The wind picks up and prevents him from returning to the island. In the morning, he finds himself ashore near an unknown town. Upon landing, he is arrested and informed that he will be tried for a murder...
