From Taranto to Trieste Jennifer Mallinson 2019-10-16 Taranto to Trieste is an account of the author’s fascinating journey to retrace the actual path of the 2nd New Zealand Division in Italy from its arrival in October 1943 until the end of the European war. Although a personal journey with personal reflections, the real story is about the largely off-the-beaten track places which the troops passed through, what they saw and experienced along the way and, in some cases what they missed. To complement the Division’s story, the historical context and military actions are explained with many maps as well as war-time photographs and colourful quotations from official military histories. As the author says, “There are many people of the post-war generation, and their children, with direct connections to the Italian campaign, who would like to know more about the small, mysterious places the Division passed through which appear in diaries, letters and on the back of photographs, but many of which do not appear on maps.” The author’s own photographs, descriptions of the places visited, the landscapes travelled and the roads followed will delight those wanting to follow in the footsteps of the 2nd Division in Italy.

Wooden Eyes Carlo Ginzburg 2001 Ginzburg, "the preeminent Italian historian of his generation [who] helped create the genre of microhistory" ("New York Times"), ruminates on how perspective affects what we see and understand. 26 illustrations.

Oh my God! Bamboo scaffolding on Myanmar pagoda variable dimensions Hilario Isola 2017 Il libro d'artista 'Oh My God!&

raccolge una serie di scatti fotografici realizzati nella primavera del 2017 da Hilario Isola in Myanmar, nei luoghi sacri del buddismo dove il terremoto ha recentemente danneggiato diverse centinaia di templi. Le pagode terremotate, ricoperte ora da esili strutture di bambù, hanno preso forme inedite e sorprendenti sospese a metà tra architettura e arte, tra vita e distruzione. Questo stato transitorio ha dato spazio all'artista per una sorta di catalogazione/studio e al contempo a una forma di appropriazione.

Pan'ino, the (reduced Price) Maria Teresa Marco 2001-06-10 - Ninety-four delicious recipes for Italy's answer to fast food - Chef Alessandro Frassica emphasizes the use of fresh ingredients in imaginative combinations What could be more simple than a pan'ino? Take some bread and butter, slice it through the middle and fill it. Seen in this way, the sandwich is almost an "anti-cuisine", a nomadic shortcut that allows for speed and little thought. But when Alessandro Frassica thinks about his pan'ino, he considers it in a different way, not as a shortcut, but as an instrument for telling stories, creating layers of tales right there between the bread and its butter. Because even if the sandwich is simple, it is not necessarily so easy to create. Alessandro searches for ingredients, and in the raw foods he finds people: producers of pecorino cheese from Benevento, anchovies from Cetara, 'nduja spicy salami from Calabria. Then he studies the combinations, the consistencies and the temperature, because a pan'ino is not just a random object; savoury must be complemented by sweet; tapenade softens and provides moisture; bread should be warmed but not dried; thus the sandwich becomes a simple way of saying many excellent things, including finding a complexity of flavours that can thrill in just one bite.

Big Questions Anders Nilsen 2011-08-16 A New York Times Notable Book of 2011, included on Amazon.com, Publishers Weekly, and NPR'S Best Comics lists A haunting postmodern fable, Big Questions is the magnum opus of Anders Nilsen, one of the brightest and most talented young cartoonists working today. This beautiful minimalist story, collected here for the first time, is the culmination of ten years and more than six hundred pages of work that details the metaphysical quandaries of the occupants of an endless plain, existing somewhere between a dream and a Russian steppe. A downed plane is thought to be a bird and the unexploded bomb that came from it is mistaken for a giant egg by the group of birds whose lives the story follows. The indifferent, stranded pilot is of great interest to the birds—some doggedly seek his approval, while others do quite the opposite, leading to tensions in the group. Nilsen seamlessly moves from humor to heartbreak. His distinctive, detailed line work is paired with plentiful white space and large, often frameless panels, conveying an ineffable sense of vulnerability and openness. Big Questions has roots in classic fables—the birds and snakes have more to say than their human counterparts, and there are hints of the hero's journey, but here the easy moral that closes most fables is left open and ambiguous. Rather than lending its world meaning, Nilsen's parable lets the questions wander where they will.

Clear, readable and easy to consult via its two indexes, this is an essential reference for learners seeking access to the finer nuances of the Italian language.

Barrow's Boys Fergus Fleming 2007-12-01 From the author of Ninety Degrees North, a spellbinding account of how officers of the British Navy explored the world after the Napoleonic Wars. In 1816, John Barrow, second secretary to the British admiralty, launched the most ambitious program of exploration the world has ever seen. For the next thirty years, his handpicked teams of elite British naval officers scoured the globe from the Arctic to Antarctica, their mission: to fill the blanks that littered the atlases of the day. Barrow’s Boys is the spellbinding story of these adventurers, the perils they faced—including eating mice, their shoes, and even each other to survive—and the challenges they overcame on their odysseys into the unknown. Many of these expeditions are considered the greatest in history, and here they’ve been collected into one volume that captures the full sweep of Barrow’s program. “Here is all the adventure you could want, stirringly and generously told.” —Anthony Brandt, National Geographic Adventure “History at its most romantic.” —The Columbus Dispatch “A sure bet for fans of Caroline Alexander’s The Endurance, this captivating survey of England’s exploration during the nineteenth century illuminates a host of forgotten personalities.” —Publishers Weekly “Travel history of the best kind: entertaining, informed and opinionated.” —The Sunday Times

Deutschland, Deutschland Über Alles Kurt Tucholsky 1972 "Kurt Tucholsky (1890-1935) achieved popular success in Germany before the First World War with a witty and sensitive novel of young love. But he is best known for his work as a satirist and critic, most of it written as a left-wing journalist in Berlin during the twenties and the years leading up to the Nazis, the fateful Weimar years. He is considered by some an exemplar of the intemperately critical spirit that doomed Weimar—a cautionary and bitter footnote to an era; by others, an indispensable moral and prophetic voice of the period, basically correct in his assessments and values.” -- Book jacket.

The Cheese and the Worms Carlo Ginzburg 2013-10-15 “Offers a study of culture in the sixteenth century as seen through the eyes of one man, the miller known as Menocchio, who was accused of heresy during the Inquisition and sentenced to death. This book illustrates the confusing political and religious conditions of the time”--Publisher marketing.

The Future of the Classical Salvatore Settis 2006-10-20 Every era has invented a different idea of the 'classical' to create its own identity. Thus the 'classical' does not concern only the past: it is also concerned with the present and a vision of the future. In this elegant new book, Salvatore Settis traces the ways in which we have related to our 'classical' past, starting with post-modern American skyscrapers and working his way back through our cultural history to the attitudes of the Greeks and Romans themselves. Settis argues that this obsession with cultural decay, ruins and a 'classical' past is specifically European and the product of a collective cultural trauma following the collapse of the Roman Empire. This situation differed from that of the Aztec and Inca empires whose collapse was more sudden and more complete, and from the Chinese Empire which always enjoyed a high degree of continuity. He demonstrates how the idea of the 'classical' has changed over the centuries through an unrelenting decay of 'classicism' and its equally unrelenting rebirth in an altered form. In the Modern Era this emulation of the 'ancients' by the 'moderns' was accompanied by new trends: the increasing belief that the former had now been surpassed by the latter, and an increasing preference for the Greek over the Roman. These conflicting interpretations were as much about the future as they were about the past. No civilization can invent itself if it does not have other societies in other times and other places to act as benchmarks. Settis argues that we will be better equipped to mould new generations for the future once we understand that the 'classical' is not a dead culture we inherited and for which we can take no credit, but something startling that has to be re-created every day and is a powerful spur to understanding the 'other'.

Fear, Reverence, Terror Carlo Ginzburg 2017 Preface and third chapter translated from the Italian by Anne C. Tedeschi and John Tedeschi. **The State of the World's Biodiversity for Food and Agriculture** Food and Agriculture Organization of the United Nations 2019-03-12 The State of the World's Biodiversity for Food and Agriculture presents the first global assessment of biodiversity for food and agriculture worldwide. Biodiversity for food and agriculture is the diversity of plants, animals and micro-organisms at genetic, species and ecosystem levels, present in and around crop, livestock, forest and aquatic production systems. It is essential to the structure, functions and processes of these systems, to livelihoods and food security, and to the supply of a wide range of ecosystem services. It has been managed or influenced by farmers, livestock keepers, forest dwellers, fish farmers and fisherfolk for hundreds of generations. Prepared through a participatory, country-driven process, the report draws on information from 91 country reports to provide a description of the roles and importance of biodiversity for food and agriculture, the drivers of change affecting it and its current status and trends. It describes the state of efforts to promote the sustainable use and conservation of biodiversity for food and agriculture, including through the development of supporting policies, legal frameworks, institutions and capacities. It concludes with a discussion of needs and challenges in the future management of biodiversity for food and agriculture. The report complements other global assessments prepared under the auspices of the Commission on Genetic Resources for Food and Agriculture, which have focused on the state of genetic resources within particular sectors of food and agriculture.

LA LOMBARDIA Antonio Giangrande E' comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere “C’era una volta....” e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompihalle che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere “C’è adesso....” e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale, che per logica ti perseguitano per parti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si ricordi di Dante Alighieri e della fine che fece il primo saggista mondiale. Le vittime, vere o presunte, di soprasi, parlano solo di loro, inascoltati, pretendendo aiuto. Io da vittima non racconto di me e delle mie traversie. Ascoltato e seguito, parlo degli altri, vittime o carnefici, che l’aiuto cercato non lo concederanno mai. “Chi non conosce la verità è uno sciocco, ma chi, conoscendola, la chiama bugia, è un delinquente”. Aforsima di Bertolt Brecht. Bene. Tante verità soggettive e tante omertà son tasselli che la mente corrompono. Io le cerco, le filtro e nei miei libri compongo il puzzle, svelando l’immagine che dimostra la verità oggettiva censurata da interessi economici ed ideologie vetuste e criminali. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italici. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso!

Italian Identity in the Kitchen, or, Food and the Nation Massimo Montanari 2013-07-16 How regional Italian cuisine became the main ingredient in the nation's political and cultural development. *Made In Sicily* Giorgio Locatelli 2012-12-26 From Giorgio Locatelli, bestselling author of Made in Italy, comes an exquisite cookbook on the cuisine of Sicily, which combines recipes with the stories and history of one of Italy’s most romantic, dramatic regions: an island of amber wheat fields, lush citrus and olive groves, and rolling vineyards, suspended in the Mediterranean Sea. Mapping a culinary landscape marked by the influences of Arab, Spanish, and Greek colonists, the recipes in Made in Sicily showcase the island’s diverse culinary heritage and embody the Sicilian ethos of primacy of quality ingredients over pretentiousness or fuss in which “what grows together goes together.” *Grande dizionario della lingua italiana* Salvatore Battaglia 1961

Young Dracula Michael Lawrence 2005

The Felt Hat Lucrezia De Domizio Durini 1997 From the beginning of the Sixties until his death, Joseph Beuys (Krefeld, Germany, 1921 - Dusseldorf, 1986) dominated the contemporary avant-garde art scene. After participating in the Fluxus group's first exhibitions, he channeled his efforts into performance and political, social, and ecological projects. He founded cultural movements such as the Union for the New Democracy and the Free International University. Many of his conceptual propositions are memorable through their slogans: "All Men are Artists", "Kunst = Kapital", "We are the Revolution", "Defense of Nature". A participant in the most prestigious international exhibitions, from Kassel's "Documenta" to the Venice Biennial, Beuys also has important retrospective in 1979 at the Guggenheim Museum in New York. The artist's works are exhibited in the world's major museums. The anti-traditionalist ideas of Beuysian art aim to renew and improve the manner in which man lives. The German master's prophetic beliefs establish him as an emblematic figure as one of the forerunners in the post-war art world. *Nevertheless* Carlo Ginzburg 2022-01-25 From the master of "micro-history" a reconstruction of two contrasting early-modern thinkers Nevertheless comprises essays on Machiavelli and on Pascal. The ambivalent connection between the two parts is embodied by the comma

(.) in the subtitle: Machiavelli, Pascal. Is this comma a conjunction or a disjunction? In fact, both. Ginzburg approaches Machiavelli's work from the perspective of casuistry, or case-based ethical reasoning. For as Machiavelli indicated through his repeated use of the adverb nondimanco ("nevertheless"), there is an exception to every rule. Such a perspective may seem to echo the traditional image of Machiavelli as a cynical, "machiavellian" thinker. But a close analysis of Machiavelli the reader, as well as of the ways in which some of Machiavelli's

most perceptive readers read his work, throws a different light on Machiavelli the writer. The same hermeneutic strategy inspires the essays on the Provinciales, Pascal's ferocious attack against Jesuitical casuistry. Casuistry vs anti-casuistry; Machiavelli's secular attitude towards religion vs Pascal's deep religiosity. We are confronted, apparently, with two completely different worlds. But Pascal read Machiavelli, and reflected deeply upon his work. A belated, contemporary echo of this reading can unveil the complex relationship between Machiavelli and Pascal - their divergences as well as their unexpected convergences.
