Star Wars that Changed History

It was the year 2023, and the world was on the brink of war. The United States and China, the two superpowers, were locked in a fierce rivalry, competing for resources, influence, and dominance. They had also secretly built space stations, that could launch nuclear missiles, that could destroy the planet. They were ready to use them, if necessary. But they were not alone. There was a third force, a hidden force, that had been watching them, waiting for them, preparing for them. They were the aliens, and they had come to stop them. They had come to save the world, or to end it. They had come to start the star wars that changed history.
