Algerian War and the French Army, 1954-62

2002-08-21 Martin S. Alexander The Algerian War 1954-62 was one of the most prolonged and violent examples of decolonization. At times horribly savage, it was an undeclared war in the sense that no formal declaration of hostilities was ever made. Bringing to an end one hundred and thirty two years of French rule, the Algerian struggle caused the fall of six French prime ministers, the collapse of the Fourth Republic and expulsion of one million French settlers. This volume, bringing together leading experts in the field, focuses on one of the key actors in the drama - the French army. They show that the Algerian War was just as much about conflicts of ideas, beliefs and loyalties as it was about simple military operations. In this way, the collection goes beyond polemic and recrimination to explore the many and varied nuances of what was one of the historically most important of the grand style colonial wars.

A Savage War of Peace

2012-08-09 Alistair Horne Thoroughly sharp and honest treatment of a brutal conflict. The Algerian War (1954-1962) was a savage colonial war, killing an estimated one million Muslim Algerians and expelling the same number of European settlers from their homes. It was to cause the fall of six French prime ministers and the collapse of the Fourth Republic. It came close to bringing down de Gaulle and - twice - to plunging France into civil war. The story told here contains heroism and tragedy, and poses issues of enduring relevance beyond the confines of either

geography or time. Horne writes with the extreme intelligence and perspicacity that are his trademarks.

Algeria

2008-01-14 Martin Evans After liberating itself from French colonial rule in one of the twentieth century's most brutal wars of independence, Algeria became a standard-bearer for the non-aligned movement. By the 1990s, however, its revolutionary political model had collapsed, degenerating into a savage conflict between the military and Islamist guerillas that killed some 200,000 citizens. In this lucid and gripping account, Martin Evans and John Phillips explore Algeria's recent and very bloody history, demonstrating how the high hopes of independence turned into anger as young Algerians grew increasingly alienated. Unemployed, frustrated by the corrupt military regime, and excluded by the West, the post-independence generation needed new heroes, and some found them in Osama bin Laden and the rising Islamist movement. Evans and Phillips trace the complex roots of this alienation, arguing that Algeria's predicament-political instability, pressing economic and social problems, bad governance, a disenfranchised youth-is emblematic of an arc of insecurity stretching from Morocco to Indonesia. Looking back at the pre-colonial and colonial periods, they place Algeria's complex present into historical context, demonstrating how successive governments have manipulated the past for their own ends. The result is a fractured society with a complicated and bitter relationship with the Western powers-and an increasing tendency to export terrorism to France, America, and beyond.

Nations and Nationalism

2005 Philip Spencer Nationalism is a key area of political theory, with a huge amount of literature available. This text includes both the core texts in this area and a selection of less mainstream pieces, with the aim of engaging readers with contemporary debates which have reconfigured understanding of nationalism.

Algerians Without Borders

2012 Allan Christelow This account of Algeria through its migratory history begins in the last quarter of the eighteenth century by looking at forced migration through the slave trade. It moves through the colonial era and continues into Algeria's turbulent postcolonial experience.

The Algerian War, The Algerian Revolution

2020-11-07 Natalya Vince "This book is an incredibly clear presentation of why the Algerian War mattered, what happened, the key contexts which produced this conflict and those that shaped it, as well as offering a brilliant entry point to teach or demonstrate how historiography works, how historians do history." - Todd Shepard, Arthur O. Lovejoy Professor of History, John Hopkins University, USA "This is a fantastic book which fills an important gap in the historical scholarship. Natalya Vince has managed the seemingly impossible task of presenting a nuanced history of the Algerian War / Algerian Revolution in clear, concise terms." - Sarah Frank, Associate Lecturer of History, St Andrews University, UK "This brilliant and beautifully written book achieves the seemingly impossible task of offering a lucid and nuanced guide to the massive body of historical writing on the Algerian war. The book will immediately become essential and indispensable reading not only for students at all levels but also for teachers and historians." - Julian Jackson, Professor of Modern French History, Queen Mary University of London, UK This book provides a new analysis of the contested history of one of the most violent wars of decolonisation of the twentieth century - the Algerian War/ the Algerian Revolution between 1954 and 1962. It brings together

an engaging account of its origins, course and legacies with an incisive examination of how interpretations of the conflict have shifted and why it continues to provoke intense debate. Locating the war in a century-long timeframe stretching from 1914 to the present, it multiplies the perspectives from which events can be seen. The pronouncements of politicians are explored alongside the testimony of rural women who provided logistical support for guerrillas in the National Liberation Front. The broader context of decolonisation and the Cold War is considered alongside the experiences of colonised men serving in the French army. Unpacking the historiography of the end of a colonial empire, the rise of anti-colonial nationalism and their post-colonial aftermaths, it provides an accessible insight into how history is written.

A History of Algeria

2017-04-24 James McDougall Covering a period of five hundred years, from the arrival of the Ottomans to the aftermath of the Arab uprisings, James McDougall presents an expansive new account of the modern history of Africa's largest country. Drawing on substantial new scholarship and over a decade of research, McDougall places Algerian society at the centre of the story, tracing the continuities and the resilience of Algeria's people and their cultures through the dramatic changes and crises that have marked the country. Whether examining the emergence of the Ottoman viceroyalty in the early modern Mediterranean, the 130 years of French colonial rule and the revolutionary war of independence, the Third World nation-building of the 1960s and 1970s, or the terrible violence of the 1990s, this book will appeal to a wide variety of readers in African and Middle Eastern history and politics, as well as those concerned with the wider affairs of the Mediterranean.

1950s this ugly conflict dominated Europe's media to almost the same extent as would Vietnam ten years later. It brought France to the very verge of military coup d'etat; it destroyed thousands of careers; bitterly divided the French military and political classes for a generation; and sent hundreds of thousands of European settler families into often ruinous exile. This title details the history, organisation, equipment and uniforms of the forces involved in the Algerian War (1954-1962).

England's Last War Against France

2010-11-25 Colin Smith Genuinely new story of the Second World War - the full account of England's last war against France in 1940-42. Most people think that England's last war with France involved point-blank broadsides from sailing ships and breastplated Napoleonic cavalry charging red-coated British infantry. But there was a much more recent conflict than this. Under the terms of its armistice with Nazi Germany, the unoccupied part of France and its substantial colonies were ruled from the spa town of Vichy by the government of Marshal Philip Petain. Between July 1940 and November 1942, while Britain was at war with Germany, Italy and ultimately Japan, it also fought land, sea and air battles with the considerable forces at the disposal of Petain's Vichy French. When the Royal Navy sank the French Fleet at Mers El-Kebir almost 1,300 French sailors died in what was the twentieth century's most one-sided sea battle. British casualties were nil. It is a wound that

has still not healed, for undoubtedly these events are better remembered in France than in Britain. An embarrassment at the time, France's maritime massacre and the bitter, hard-fought campaigns that followed rarely make more than footnotes in accounts of Allied operations against Axis forces. Until now.

Eva had always been fascinated by magic, but she never expected to find out that she was a witch. She had grown up in a normal family, in a normal town, with no signs of anything supernatural. But on her sixteenth birthday, everything changed. She received a mysterious package from her grandmother, who had died years ago. Inside was a leather-bound book with the words “The Book of Shadows” engraved on the cover. Eva opened it and felt a surge of power run through her veins. She realized that the book contained the secrets of her family’s magical heritage, and that she was the last of a long line of powerful witches. But she also learned that she was not alone. There were others like her, and some of them wanted to use their magic for evil. Eva had to decide whether to embrace her destiny as a witch, or to reject it and live a normal life. But either way, she knew that her life would never be the same again.
