Alec Wilder

2013-03-01 Philip Lambert The music of Alec Wilder (1907-1980) blends several American musical traditions, such as jazz and the American popular song, with classical European forms and techniques. Stylish and accessible, Wilder's musical oeuvre ranged from sonatas, suites, concertos, operas, ballets, and art songs to woodwind quintets, brass quintets, jazz suites, and hundreds of popular songs. In this biography and critical investigation of Wilder's music, Philip Lambert chronicles Wilder's early work as a part-time student at the Eastman School of Music, his ascent through the ranks of the commercial recording industry in New York City in the 1930s and 1940s, his turn toward concert music from the 1950s onward, and his devotion late in his life to the study of American popular songs of the first half of the twentieth century. The book discusses some of his best-known music, such as the revolutionary octets and songs such as "I'll Be Around," "While We're Young," and "Blackberry Winter," and explains the unique blend of cultivated and vernacular traditions in his singular musical language.

The Psychology of Genocide

2008-05-29 Steven K. Baum Genocide has tragically claimed the lives of over 262 million victims in the last century. Jews, Armenians, Cambodians, Darfurians, Kosovovs, Rwandans, the list seems endless. Clinical psychologist Steven K. Baum sets out to examine the psychological patterns to these atrocities. Building on trait theory as well as social psychology he reanalyzes key conformity studies (including the famous experiments of Ash, Milgram and Zimbardo) to bring forth an understanding of identity and emotional development during genocide. Baum presents a model that demonstrates how people's actions during genocide actually mirror their behaviour in everyday life: there are those who destruct (perpetrators), those who help (rescuers) and those who remain uninvolved, positioning themselves between the two extremes (bystanders). Combining eyewitness accounts with Baum's own analysis, this book reveals the common mental and emotional traits among perpetrators, bystanders and rescuers and how a war between personal and social identity accounts for these divisions.

Jet Cutting Technology

2012-12-06 A. Lichtarowicz This volume contains papers presented at the 11th International Conference on Jet Cutting Technology, held at St. Andrews, Scotland, on 8-10 September 1992. Today, however, jet cutting is used in operations as diverse as removing cancerous growths from the human body, decommissioning sunsea installations and disabling explosive munitions. The diversity is reflected in the papers presented at the conference. The papers were divided into several main sections: jetting basics -- materials; jetting basics -- fluid mechanics; mining and quarrying; civil engineering; new developments; petrochem; cleaning and surface treatment; and manufacturing. The high quality of papers presented at the conference has further reinforced its position as the premier event in the field. The volume will be of interest to researchers, developers and manufacturers of systems, equipment users and contractors.
