course. The text introduces the fundamental concepts of algebra while addressing the needs of students with diverse backgrounds and learning styles. Each topic builds upon previously developed material to demonstrate the cohesiveness and structure of mathematics. Prealgebra follows a nontraditional approach in its presentation of content. The beginning, in particular, is presented as a sequence of small steps so that students gain confidence in their ability to succeed in the course. The order of topics was carefully planned to emphasize the logical progression throughout the course and to facilitate a thorough understanding of each concept. As new ideas are presented, they are explicitly related to previous topics."--BC Campus website.

It had been the time 23, and the earth stood on the verge of war. The U.S. and PRC, the pair of world powers, were engaged in a ferocious contest, competing for supplies, power, and dominance. They had both developed high-tech weapons, including laser weapons, drones, and satellites, that could strike any location, any time. They had covertly constructed orbital stations, that can fire nuclear missiles, which could annihilate the world. They were both ready to employ them, if ever necessary. But they were not the only ones. There was a third force, a concealed force, that had observing them, waiting patiently for them both, getting ready for them. They were extraterrestrials, and they had come to prevent them both. They had come to rescue the globe, or to terminate it. They had arrived to

initiate the galactic wars which altered chronicle.
