## Air Regulations

2007-01-01 Wg. Cdr R. K. Bali Aviation-related regulations are spread out in several volumes of documents published by various agencies. Pilots, Air Traffic Controllers, Flight Dispatchers and other personnel associated with flight operations have to refer to numerous ICAO, Government of India, DGCA and Airport Authority of India publications to prepare for examinations and for handling day-to-day situations. It is not easy to access and co-relate information contained in these publications. With his background as an Air Force Officer and Instructor, Indira Gandhi Rashtriya Uran Akademi, the author have attempted to compile and blend together useful information on Air regulations to make it easy to be referred by the personnel concerned. The compilation will be useful for CPL (Air Regulations), Air Traffic Controller and Flight Dispatcher examinations. The information will also be useful to personnel associated with aviation activity.

## Aircraft Electrical and Electronic Systems

2009-06-04 David Wyatt The Aircraft Engineering Principles and Practice Series provides students, apprentices and practicing aerospace professionals with the definitive resources to take forward their aircraft engineering maintenance studies and career. This book provides a detailed introduction to the principles of aircraft electrical and electronic systems. It delivers the essential principles and knowledge required by certifying mechanics, technicians and engineers engaged in engineering maintenance on commercial aircraft and in general aviation. It is well suited for anyone pursuing a career in aircraft maintenance engineering or a related aerospace engineering discipline, and in particular those studying for licensed aircraft maintenance engineer status. The book systematically covers the avionic content of EASA Part-66 modules 11 and 13 syllabus, and is ideal for anyone studying as part of an EASA and FAR-147 approved course in aerospace engineering. All the necessary mathematical, electrical and electronic principles are explained clearly and in-depth, meeting the requirements of EASA Part-66 modules, City and Guilds Aerospace Engineering modules, BTEC National Units, elements of BTEC Higher National Units, and a Foundation Degree in aircraft maintenance engineering or a related discipline.

## Airframes and Systems

2004-01-01 Atlantic Flight Training Ltd. Airframes & Systems, Electrics, Powerplant, and Emergency Equipment (ASEPE) - Aeroplanes, subject 021, covers a broad swathe of information that is examined in one paper. To make this information manageable, the 021 subject is broken down into three volumes; these are Airframes & Systems [which incorporates Emergency Equipment], Electrics, and Powerplant. Airframes & Systems provides a good grounding in the technical aspect of an aircraft's structure and systems, detailing, for examination purposes where required, the regulations that the student has to know and the methods by which these requirements are met. As with other subjects, there will always be areas that the student has studied that are not questioned in the exam. Learning this information is not effort wasted, as the information given within the volume provides the foundation knowledge on which the type rating course can be built.
