The Money Book for Freelancers, Part-Timers, and the Self-Employed 2010-03-02 Joseph D'Agnes This is a book

for people like us, and we all know who we are. We make our own hours, keep our own profits, chart our own way. We have things like gigs, contracts, clients, and assignments. All of us are working toward our dreams: doing our own work, on our own time, on our own terms. We have no real boss, no corporate nameplate, no cubicle of our very own. Unfortunately, we also have no 401(k)s and no one matching them, no benefits package, and no one collecting our taxes until April 15th. It's time to take stock of where you are and where you want to be. Ask yourself: Who is planning for your retirement? Who covers your expenses when clients flake out and checks are late? Who is setting money aside for your taxes? Who is responsible for your health insurance? Take a good look in the mirror: You are. The Money Book for Freelancers, Part-Timers, and the Self-Employed describes a completely new, comprehensive system for earning, spending, saving, and surviving as an independent worker. From interviews with financial experts to anecdotes from real-life freelancers, plus handy charts and graphs to help you visualize key concepts, you'll learn about topics including:

- Managing Cash Flow When the Cash Isn't Flowing Your Way
- Getting Real About What You're Really Earning
- Tools for Getting Out of Debt and Into Financial Security
- Saving Consistently When You Earn Irregularly
- What To Do When a Client's Check Doesn't Come In
- Health Savings Accounts and How To Use Them
- Planning for Retirement, Taxes and Dreams—All On Your Own

Understanding Money 2017-01-16 Hayden Burrus This book, Understanding Money, is the first in my five part series on personal finance. The goal of this book is to begin to get you thinking about your attitudes and beliefs regarding the basics of personal finance: Money, earning, spending, saving, and investing. In thinking about these topics, you will begin to understand how your beliefs shape your financial behaviors for better or worse. This book is the foundation for all the information and discussion contained in the remaining four books on personal finance topics that you are almost sure to face in your life. Continue your journey through all five books and you'll be certain to Never Make an Uninformed Financial Decision Again. My name is Hayden Burrus. I am a Registered Investment Adviser and founder of Forward Financial Planners, LLC. Each week for several years I have educated and informed readers of TypeZFinance.com on personal finance topics with the goal of enabling readers to manage their finances intelligently without the assistance of a financial adviser. That's right, I am a financial adviser (actually I call myself a Financial Coach) encouraging people to fire their financial adviser! For decades I have been researching financial products and services offered to individuals. During that time I concluded that virtually all of the offers from financial advisers are grossly overpriced compared to do-it-yourself options available to those investors willing to make a modest time investment understanding personal finance. I've met advisers who have stated "I've never met anyone that doesn't need more life insurance". I've met advisers who recommend widely discredited investments that underperform and have expenses 10x as large as the do-it-yourself options. I've met advisers who hide from their clients the fact that they are being paid to recommend financial products. I'VE HAD ENOUGH and I want to help free investors from predatory financial advisers. The second book is titled Starting to Make Money. The goal of this book is to get you thinking about everyday money issues that everyone faces. I talk about car loans, everyday spending and saving decisions and money issues affecting your social life. This book takes the personal finance foundation developed in book one and applies it to the real world. After reading this book you'll be comfortable effectively managing your personal budget. You'll be generating positive cash flow in your life and will be starting down a path that will lead to traditional investing and wealth building. The third book is titled An Adult Relationship with Money. This book is where most personal finance books start. To me, starting with this book is kind of like starting to build a house on the third floor. There's no way you can be successful in managing your taxes, investments, loans, and financial advisers until you have the foundation contained in the first two books. This is the book most similar to traditional personal finance books. The fourth book is titled Now You Have Money. This book discusses financial issues and decisions you'll face if you follow the guidance in the first three books. It discusses retirement investing, annuities, and other issues related to managing a six or seven figure net worth. If you're not in that wealth category yet, you will be soon enough. Just follow the guidance from the first three books. It's great to be ahead of the game and have the piece of mind knowing how to handle your future wealth before you actually have it. The fifth and final book is titled Extra Credit - Money for Fun. This book is the final step of the personal finance journey.

Among other things it discusses personal finance issues around being set for life and keeping yourself educated about personal finance. If you're not set for life yet, don't fret. Just follow the guidance in the first four books and be patient. NEVER MAKE AN UNINFORMED FINANCIAL DECISION AGAIN!

Finance for the People 2022-02-01 Paco de Leon An illustrated, practical guide to navigating your financial life, no matter your financial situation "a potent mix of deeply practical and wonderfully empathetic" –Erin Lowry, author of Broke Millennial "one of the most approachable financial books I've ever read." –Refinery 29 We are all weird about money. Whether you have a lot or a little, your feelings and beliefs about money have been shaped by a combination of silence (or even shame) around talking about money, personal experiences, family and societal expectations, and a whole big complex system rigged against many of us from the start. Begin with that baseline premise and it's no surprise so many of us find it so difficult to save enough money (but way too easy to get trapped in ballooning credit card debt), emotionally draining to deal with student loans, and nearly impossible to understand the esoteric world of investing. Unlike most personal finance books that focus on skills and behaviors, FINANCE FOR THE PEOPLE asks you to examine your beliefs and experiences around money—blending extremely practical exercises with mindfulness, and including more than 50 illustrations and diagrams to make the concepts accessible (and even fun). With deep insider expertise from years spent in many different corners of the financial industry, Paco de Leon is a friendly, approachable, and wise guide who invites readers to change their relationship with money. With her holistic approach you'll learn how to: • root out your unconscious beliefs about money • untangle the mental and emotional burden of student loans to pay them off • use a gratitude practice to help you think differently about spending • break out of the debt cycle and begin building wealth This book is for anyone who feels unseen, ignored, or bored to death by the way personal finances are approached and taught, and is ready to go on a journey of self-discovery and step into their financial power.

You will get the basics of money management as you learn how to: make a budget and stick to it; build an emergency fund; get out of debt as easily and quickly as possible; splurge--the smart way; and more. Saving young adults from feeling like they're facing impossible odds, this book will explain, ease, and eliminate your worst financial fears.
