Diritto penale 2021-03-10 PULITANÒ DOMENICO Il manuale di diritto penale è arrivato alla nona edizione, aggiornato all’inizio dell’anno 2021. È mantenuta la struttura d’insieme, che parte dai problemi e dalle concezioni generali del diritto penale, e si sviluppa come esposizione sistematica degli istituti ‘di parte generale’ dell’ordinamento italiano. Viene dato conto dell’evoluzione dal codice Rocco alle modifiche via via introdotte nei decenni della Repubblica. Particolare attenzione è dedicata al linguaggio della teoria, ai principi costituzionali, alla giurisprudenza costituzionale, agli orientamenti più significativi della giurisprudenza ordinaria. Rispetto alle precedenti edizioni sono state operate alcune semplificazioni nell’esposizione, anche eliminando dettagli non più attuali. Maggiore spazio è dedicato ai problemi di oggi.

Investigating and Preventing Crime in the Digital Era 2022-10-07 Lorena Bachmaier Winter The aim of this book is to delve into the impact of the Information and Communications Technologies in the criminal prevention and investigation, by addressing the state of the art of different measures and its implementation in different legal systems vis à vis the protection of human rights. Yet this research not only pursues a diagnostic goal but furthermore aims at providing a reconstruction of this problematic area in light of modern, human rights-oriented notion of criminal justice. This broadens the scope of this investigation, which encompasses both unprecedented safeguards to traditional, or anyway widely recognized individual rights and the emergence of new rights, such as the right to informational self-determination, and the right to information technology privacy. The book addresses the problems and potentials in the areas of criminal prevention and criminal investigation, taking into account that due to electronic surveillance and the progress in the use of big data for identifying risks, the borders between preventive and investigative e-measures is not clear-cut.

L'addebito di responsabilità nella separazione. Seconda edizione 2013-03-22 BUONADONNA ANNA LISA Nel 1975, allorché fu varata la riforma del diritto di famiglia, una parte dei riformatori intendeva cancellare definitivamente il secolare istituto della “colpa” nella separazione personale dei coniugi. La loro idea apparentemente prevalse, ma la colpa, come è stato detto, “appena uscita dalla porta, rientrò dalla finestra”, sotto forma di addebito. Addebito e colpa sono concetti diversi, per definizione, presupposti e conseguenze. Tuttavia, il loro alternarsi dimostra quanto sia radicata l’idea che un rapporto matrimoniale non possa sciogliersi senza attribuzione di responsabilità e conseguenti castighi. Ancora oggi, benché da più parti venga richiesta l’abolizione dell’istituto dell’addebito, vi è una corrente di pensiero che propone forme di responsabilità patrimoniale e di risarcimento del danno, da decretare al momento della separazione, per gli illeciti e le violazioni commesse in costanza di matrimonio. La materia può dirsi, pertanto, di interesse fortemente attuale. Viene affrontata la materia anche dal punto di vista penale, poiché per ragioni di completezza sono state esaminate anche le interconnessioni tra la sfera penale e civile e la possibilità che alcuni eventi (come i maltrattamenti o il mobbing familiare) abbiano rilevanza autonoma in ciascuna di esse. Vengono esaminati gli aspetti di maggiore interesse legati a questa materia, quali l’addebito visto in connessione agli istituti della separazione e del divorzio, il mobbing in ambito familiare, i risvolti penali e processuali. È interessante segnalare il capitolo IV, Domande e risposte, che racchiude, raccolte in maniera semplice ma efficace, i principali dubbi e le più dibattute problematiche legate alla materia dell’addebito.

La diffamazione mediatica 2012-02-21 Maurizio Fumo Il volume tratta le problematiche relative al delitto di diffamazione, consumato attraverso i media, con specifico riferimento alla giurisprudenza penale della Corte di cassazione. L'Autore riporta, commenta e interpreta le pronunce del Giudice di legittimità su tale tema. L'indagine sui limiti, sull'esercizio, sulle conseguenze del diritto di cronaca-critica è centrale, riponendo altresì grande attenzione alle questioni che la nascita e la diffusione dei nuovi media ha comportato e continua a comportare (c.d. "diritto penale della rete"). Il volume, corredato da una banca dati che raccoglie la giurisprudenza citata, risulta essere uno strumento prezioso ed utile per la pratica quotidiana del professionista, ma anche per l'approfondimento scientifico su una materia oggetto di frequenti pronunce giurisprudenziali. Reati contro il patrimonio culturale Vincenzo Musacchio In seguito all’entrata in vigore della legge, 9/03/2022, n. 22, nel nostro ordinamento giuridico, recependo in parte quanto richiesto dalla Convenzione di Nicosia, ratificata in Italia con la legge, 21 gennaio 2022, n. 6, sono state inserite, in seno al codice penale, delle apposite norme incriminatrici - tra cui alcune di esse richiamano in buona parte quanto già preveduto dal codice dei beni culturali e del paesaggio - che introducono i reati contro il patrimonio culturale. Scopo del presente scritto è quello di esaminare siffatte disposizioni legislative al fine di comprendere in cosa consistono gli elementi costitutivi che connotano siffatti illeciti penali.

Il riciclaggio e i reati affini 2017-03-02 Vincenzo Pacileo Il contrasto del riciclaggio ha fatto il suo ingresso nella legislazione penale nel 1978, ma solo dal 1990 data la previsione del reimpiego dei proventi illeciti in attività economiche e finanziarie, a dimostrazione della originaria scarsa consapevolezza politica del fenomeno, che peraltro in epoca più recente ha assunto forme sempre più sofisticate e pervasive. Infatti, l’occultamento della ricchezza criminale e la sua reimmissione nel mercato costituisce uno dei fattori più destabilizzanti di una sana economia, compromette gravemente la concorrenza e favorisce la corruzione, oltre a irrobustire ulteriormente i gruppi delinquenziali da cui proviene. Ciò nonostante, non mancano i problemi interpretativi che suscita l’attuale stesura delle disposizioni incriminatrici, per esempio quanto ad applicabilità ai reati fiscali come reati presupposto. Un importante salto di qualità, pur con le imperfezioni tecniche di formulazione, è dato dalla introduzione del delitto di autoriciclaggio, varato con la legge n. 186/2014. L’opera si offre allora come un utile strumento di disamina agile, ma approfondita, della giurisprudenza e della dottrina in materia, non dimenticando una incursione illustrativa delle disposizioni penali contenute nel d.lgs. n. 231/2007.

requieren de una Administración pública legal. Realmente el fenómeno de la corrupción no es nuevo pero las últimas y novedosas macrocausas que ha sufrido nuestro país en los últimos tiempos han aumentado la preocupación o alarma social sobre un tema tan complejo como es la corrupción. Y por ello en la presente obra se analizan los delitos de cohecho antecedente regulados en los artículos 419 y 420 CP para la corrupción del funcionario y 424 CP para la del particular, que son aquellos casos en los que el funcionario recibe ventaja por la realización de un acto administrativo previamente pactado y para ello hemos partido de un concepto unívoco de corrupción para poder interpretar correctamente los tipos penales y aportar posibles soluciones para estos tipos penales, que son la figura estrella de los delitos de corrupción pública.

Governare il conflitto 2019-03-06T00:00:00+01:00 Xenia Chiamonte Straordinaria attenzione mediatica, cinquanta procedimenti penali, più di 1.500 indagati, un maxiprocesso con 53 imputati, carcerazioni preventive e accuse di terrorismo: queste le principali caratteristiche della criminalizzazione del più lungo e pervicace movimento sociale in Italia. Fenomeni simili sono diffusi a livello internazionale, laddove progetti dal forte impatto ambientale, come le grandi opere, incontrano l’opposizione delle popolazioni, una resistenza a cui si risponde sistematicamente con la gestione penale del conflitto. Qui il potere giudiziario s’inserisce nella dinamica politica e non opera un bilanciamento fra diritti in cui anche l’opposizione riceverebbe tutela; al contrario, tende a proteggere la società da questo dissenso e a difendere le scelte di politica economica dello Stato. Una lettura inedita della criminalizzazione dei movimenti sociali che sviluppa la strategia dell’accerchiamento teorizzata da Foucault e costituisce il primo tassello di una genealogia del principio di difesa sociale.

La ocupación de inmuebles en el Código penal español 2018-06-06 José Miguel Jiménez París La realidad social evidencia que la ocupación de bienes inmuebles, lejos de ser un fenómeno aislado y tendente a la eliminación, se ha multiplicado exponencialmente en los últimos años, ocasionando perjuicios a los titulares de los inmuebles ocupados y al resto de ciudadanos por los problemas de convivencia que generan en su entorno social (ruidos, suciedad, enganches ilegales de suministros, tráfico de sustancias estupefacientes...). La tipificación de esta conducta antisocial (actualmente degradada a delito leve por un error del legislador) fue reintroducida como delito en el artículo 245.2 del Código Penal de 1995 para tutelar la propiedad inmobiliaria, frente a los ataques subrepticios, clandestinos o realizados con fuerza en las cosas. A pesar de la existencia de una oposición por diversos operadores jurídicos a la aplicación de este precepto legal, una gran permisividad institucional a favor de las ocupaciones, diversos intentos parlamentarios de derogación, e interpretaciones del precepto penal que suponen una derogación de facto del mismo, la tutela penal es compatible con los principios propios del Derecho Penal (principios de intervención mínima, de carácter fragmentario, subsidiario, y de ultima ratio), pues, no sólo se protege el patrimonio inmobiliario, sino también el orden público y la seguridad del tráfico. La obra se dedica a la búsqueda, con apoyo de Doctrina y Jurisprudencia, de una interpretación del precepto penal que no lo vacíe de contenido, así como al análisis de la distinción entre okupas, ocupas, e inmobiliarias ocupas; concluyendo con diversas propuestas de reforma del Ordenamiento jurídico.

Crimes associativos 2021-03-22 Renato de Souza Matos Filho A necessidade de reprimir associações voltadas para o crime levou legisladores de todas as

partes do mundo a criarem crimes associativos, isto é, tipos penais associativos, que sancionam as condutas de seus sócios. São exemplos de tais crimes no Brasil: associação criminosa, organização criminosa, constituição de milícia privada, organização terrorista, dentre outros. A obra do criminalista Renato Mats que ora se apresenta tem por objetivo o estudo desses crimes. Num primeiro momento, o autor reconstrói historicamente tanto o contexto da criminalização das "associações de malfetores" do período Napoleônico na França, como também as dantescas aventuras criminosas de cangaceiros no nordeste brasileiro, que chocaram a opinião pública da nossa jovem República e ensinaram a criação do primeiro crime associativo do nosso ordenamento jurídico ("Quadrilha ou bando", antigo art. 288 do Código Penal). Após tais esclarecimentos, o autor analisa e comenta então juridicamente cada um dos crimes associativos brasileiros, sem se limitar à mera reprodução de posições doutrinárias e jurisprudenciais majoritárias. A obra menciona ainda doutrina e jurisprudência estrangeiras, discorrendo sobre como se tem dado a criminalização das associações de tipo mafioso na Itália e da Organizacija na Rússia. Nasce assim um livro cativante, objetivo e reflexivo, capaz de informar juristas sobre um tema espinhoso do Direito Penal através de uma linguagem técnica e abalizada. Um livro isento e sem preconceitos sociológicos, capaz de abordar desde os costumes da Máfia até os rituais de iniciação do Primeiro Comando da Capital; de analisar desde a autopoiese do Comando Vermelho até a estrutura das temíveis organizações criminosas russas; de relacionar a dissolução do ETA com a do grupo do escândalo do Mensalão... enfim, uma obra única sobre o fascinante tema dos crimes associativos. Women and the Mafia 2007-09-04 Giovanni Fiandaca The insightful essays in this book shine a new light on the roles of women within criminal networks, roles that in reality are often less traditional than researchers used to think. The book seeks to answer questions from a wide range of academic disciplines and traces the portrait of women tied to organized crime in Italy and around the world. The book offers up accounts of mafia women, and also tales of severe abuse and violence against women.

Mantenimento per il coniuge e per i figli nella separazione e nel divorzio 2017-02-28 Bruno De Filippis Viene analizzata la figura del mantenimento del coniuge e dei figli, in caso di separazione o divorzio, che da sempre costituisce uno degli argomenti più importanti e controversi del diritto di famiglia. Il matrimonio determina l’obbligo reciproco, per i coniugi, di assistenza materiale. Questo dovere non cessa con la separazione, ma si trasforma, per il coniuge economicamente più forte, nell’obbligo di corrispondere l’assegno di mantenimento eventualmente previsto dal giudice. L’obbligo di provvedere al mantenimento della prole, in costanza di matrimonio, è previsto dall’art. 147 del codice civile. Esso non si estingue con la separazione ed il divorzio, né termina con il raggiungimento della maggiore età da parte dei figli, proseguendo fino a quando gli stessi, entro termini ragionevoli, non abbiano raggiunto la piena indipendenza economica. Da decenni la giurisprudenza, interpretando la legge, elabora criteri per la quantificazione dell’obbligo di mantenimento. Nell’attualità, in altri Paesi, il criterio della conservazione del tenore di vita goduto in costanza di matrimonio è in via di superamento, venendo sostituito dal criterio della tendenziale autosufficienza di ciascuno dei coniugi, quanto meno allorché la fine

Handbook on European data protection law 2018-04-15 Council of Europe The rapid development of information technology has exacerbated the need for robust personal data protection, the right to which is safeguarded by both European Union (EU) and Council of Europe (CoE) instruments. Safeguarding this important right entails new and significant challenges as technological advances expand the frontiers of areas such as surveillance, communication interception and data storage. This handbook is designed to familiarise legal practitioners not specialised in data protection with this emerging area of the law. It provides an overview of the EU’s and the CoE’s applicable legal frameworks. It also explains key case law, summarising major rulings of both the Court of Justice of the European Union and the European Court of Human Rights. In addition, it presents hypothetical scenarios that serve as practical illustrations of the diverse issues encountered in this ever-evolving field.

International Law 2019 Carlo Focarelli International Law provides a comprehensive theoretical examination of the key areas of international law. The Cultural Defense 2005 Alison Dundes Renteln Publisher's description: In a trial in California, Navajo defendants argue that using the hallucinogen peyote to achieve spiritual exaltation is protected by the Constitution's free exercise of religion clause, trumping the states' right to regulate them. An Ibo man from Nigeria sues Pan American World Airways for transporting his mother's corpse in a cloth sack. Her arrival for the funeral face down in a burlap bag signifies death by suicide according to the customs of her Ibo kin, and brings great shame to the son. In Los Angeles, two Cambodian men are prosecuted for attempting to eat a four month-old puppy. The immigrants' lawyers argue that the men were following their own "national customs" and do not realize their conduct is offensive to "American sensibilities." What is the just decision in each case? When cultural practices come into conflict with the law is it legitimate to take culture into account? Is there room in modern legal systems for a cultural defense? In this remarkable book, Alison Dundes Renteln amasses hundreds of cases from the U.S. and around the world in which cultural issues take center stage—from the mundane to the bizarre, from drugs to death. Though cultural practices vary dramatically, Renteln demonstrates that there are discernible patterns to the cultural arguments used in the courtroom. The regularities she uncovers offer judges a starting point for creating a body of law that takes culture into account. Renteln contends that a systematic treatment of culture in law is not only possible, but ultimately more equitable. A just pluralistic society requires a legal system that can assess diverse motivations and can recognize the key role that culture plays in influencing human behavior. The inclusion of evidence of cultural background is necessary for the fair hearing of a case.

Legal Anthropology 1994-01-01 Norbert Rouland This account of the anthropology of law is remarkable in its command of the Anglo-American and Continental literatures in this field; and it is timely in addressing contemporary issues. Two central projects are carried through in successive parts of the book. In the first, the author outlines the history of the "anthropology of law," drawing on the intellectual context of legal development. In the second, Professor Rouland examines the legal ideas, institutions and processes of small-scale non-Western societies, moving finally towards an anthropology of modern law. The author has published widely within the field of legal anthropology.

The Grammar of Criminal Law 2019-09-30 George P. Fletcher To understand the international legal order in the field of criminal law, we need to ask three elementary questions. What is international law? What is criminal law? And what happens to these two fields when they are joined together? Volume Two of The Grammar of Criminal Law sets out to answer these questions through a series of twelve dichotomies - such as law vs. justice, intention vs. negligence, and causation vs. background events - that invite the reader to better understand the jurisprudential foundations of international criminal law. The book will appeal to anyone interested in the future of international cooperation in a time of national retrenchment, and will be of interest to students, scholars, and policymakers around the world.

Precedent in Law 1987 Laurence Goldstein It has been said that precedent is the life blood of legal systems. Certainly, an understanding of precedent is vital to an understanding of the workings of law. The principle that decisions should follow those of past similar cases seems simple enough, yet it turns out to be beset with difficulties. What is the justification for following precedents? Do we want absolute, unswerving following of past decisions or a weaker implementation that allows for limited departures? What social and theoretical forces wrought changes in the doctrine? Are judicial pronouncements on precedent rules or just conventions? How do we identify the ratio decidendi of a case? What are the means by which a general "projectable" conclusion may be elicited from a particular judgment? These are some of the problems addressed by contributors to this volume.

Bitcoin 2014-09-01 Jose Pagliery Bitcoin first appeared in 2009, and it's already challenging everything we've come to accept about money, financial institutions, and even government. The digital currency can be nearly anonymous. And it can be traded internationally—without the fees, government regulation, and bank oversight of paper money. But Bitcoin is still risky. Its value fluctuates wildly. More than \$400 billion of it disappeared overnight with the fall of a single trading exchange. How is that possible? And why is it so popular? CNNMoney reporter Jose Pagliery explains it all. He details the digital currency's mysterious origins. He explores the dark side of Bitcoin: a world of drugs and assassins for hire. And he examines the economic impact of this revolutionary concept through interviews with pensive economists, wary bank regulators, and free market proponents such as Ron Paul. Bitcoin: And the Future of Money explains how it works and why it matters. The book is essential reading for anyone looking to understand a financial innovation that will forever change how we think about money.
