Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a highly regarded vocabulary test that has been in use for close to half a century. Formulated by Lloyd M. Dunn and Douglas M. Dunn, the assessment is crafted to measure vocabulary comprehension for Standard American English. It is quick and effortless to carry out, preserving important time so that attention can be placed on executing successful interventions.

The PPVT-4 assessment content encompasses a broad array of vocabulary comprehension grades, ranging from pre-kindergarten through adulthood. The evaluation problems widely sample words that portray 20 subject fields (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and home and educational vocabulary.

The test offers two equal editions which contain different vocabulary terms, ensuring that the test-taker has not “memorized” the test. One edition can be used before intervention to evaluate individuals’ vocabulary knowledge and the alternative form can be utilized for re-evaluation to measure and record progress. The PPVT-4 also includes a special Growth Scale Value (GSV) which is responsive to minor changes over time.
