Dunn, the assessment is made to assess vocabulary comprehension for Standard American English. It is quick and simple to administer, preserving valuable time so that attention can be put on executing

successful strategies.

The PPVT-4 test material encompasses a wide range of vocabulary comprehension levels, ranging from pre-kindergarten through adult age. The evaluation items extensively feature words that represent 20 topic areas (e.g., actions, vegetables, tools), parts of speech (nouns, verbs, attributes), and household and educational vocabulary.

The test provides two equal versions which include different vocabulary terms, making sure that the person has not “mastered” the assessment. One version can be used before intervention to measure people’s vocabulary understanding and the second edition can be utilized for re-assessment to measure and note improvement. The PPVT-4 also features a distinctive Growth Scale Value (GSV) which is responsive to minor changes over time.
