DELIVERING AID DIFFERENTLY

2010-11-01 Wolfgang Fengler We live in a new reality of aid. Gone is the traditional bilateral relationship, the old-fashioned mode of delivering aid, and the perception of the third world as a homogenous block of poor countries in the south. Delivering Aid Differently describes the new realities of a \$200 billion aid industry that has overtaken this traditional model of development assistance. As the title suggests, aid must now be delivered differently. Here, case study authors consider the results of aid in their own countries, highlighting field-based lessons on how aid works on the ground, while focusing on problems in current aid delivery and on promising approaches to resolving these problems. Contributors include Cut Dian Agustina (World Bank), Getnet Alemu (College of Development Studies, Addis Ababa University), Rustam Aminjanov (NAMO Consulting), Ek Chanboreth and Sok Hach (Economic Institute of Cambodia), Firuz Kataev and Matin Kholmatov (NAMO Consulting), Johannes F. Linn (Wolfensohn Center for Development at Brookings), Abdul Malik (World Bank, South Asia), Harry Masyrafah and Jock M. J. A. McKeon (World Bank, Aceh), Francis M. SADC Gender Protocol 2018 Barometer

2018-08-20 Morna, Colleen Lowe The SADC Protocol on Gender and Development is the only sub-regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability. The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol, it's updating, implementation and tracking. Originally aligned to the Millennium Development Goals that expired in 2015, SADC Gender Ministers updated the Protocol and aligned it to the Sustainable development Goals (SDGs), Beijing Plus Twenty and the Africa Agenda 2063 in 2016. In July 2017, the Ministers adopted a Monitoring, Evaluation and Results Framework (MERF) that is now the basis of reporting. 2018 marks the tenth anniversary of the SADC Gender Protocol and the Barometer. Moving with the times, the Alliance has expanded the two yardsticks in the Barometer: the SADC Gender and Development Index (SGDI) and the Citizen Score Card (CSC). The Barometer incorporates many MERF and SDG indicators, as well as its own unique measures of voice, choice and control. The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region. A wealth of data, insights and analysis awaits all readers of the Barometer, that will also be made available online and in multi-media formats. The "SADC we want" is one in which citizens engage; step it up for gender equality, and make sure we achieve Planet 50/50 by 2030!

Public Health Humanitarian Responses to Natural Disasters

2017-02-10 Emily Ying Yang Chan The pressure of climate change, environmental degradation, and urbanisation, as well as the widening of socio- economic disparities have rendered the global population increasingly vulnerable to the impact of natural disasters. With a primary focus on medical and public health humanitarian response to disasters, Public Health Humanitarian Responses to Natural Disasters provides a timely critical analysis of public health responses to natural disasters. Using a number of case studies and examples of innovative disaster response measures developed by international agencies and stakeholders, this book illustrates how theoretical understanding of public health issues can be practically applied in the context of humanitarian relief response. Starting with an introduction to public health principles within the context of medical and public health disaster and humanitarian response, the book goes on to explore key trends, threats and challenges in contemporary disaster medical response. This book provides a comprehensive overview of an emergent discipline and offers a unique multidisciplinary perspective across a range of relevant topics including the concepts of disaster preparedness and resilience, and key challenges in human health needs for the twenty-first century. This book will be of interest to students of public health, disaster and emergency medicine and development studies, as well as to development and medical practitioners working within NGOs, development agencies, health authorities and public administration.

THE WAR ON DRUGS IN SPORT

2015-10-23 Vanessa McDermott This book is an innovative and compelling work that develops a modified moral panic model illustrated by the drugs in sport debate. Drawing on Max Weber's work on moral authority and legitimacy, McDermott argues that doping scandals create a crisis of legitimacy for sport governing bodies and other elite groups. This crisis leads to a moral panic, where the issue at stake for elite groups is perceptions of their organizational legitimacy. The book highlights the role of the media as a site where claims to legitimacy are made, and contested, contributing to the social construction of a moral panic. The book explores the way regulatory responses, in this case anti-doping policies in sport, reflect the interests of elite groups and the impact of those responses on individuals, or "folk devils." The War on Drugs in Sport makes a key contribution to moral panic theory by adapting Goode and Ben-Yehuda's moral panic model to capture the diversity of interests and complex relationships between elite groups. The difference between this book and others in the field is its application of a new theoretical perspective, supported by well-researched empirical evidence.

Evaluation of the Information on Nutrition, Food Security and Resilience for Decision Making

(INFORMED) Programme

2021-01-28 Food and Agriculture Organization of the United Nations The INFORMED programme, implemented by FAO from 2015 to 2019, was designed to contribute to "increasing the resilience of livelihoods to threats and crises and contributing to the reduction of food insecurity and malnutrition". The programme's increased focus on Early Warning for Early Action (EWEA) was very relevant to fill existing gaps with a comparative advantage for FAO in slow onset and food chain crises contexts. Promoting the use of pre-agreed plans and pre-identified anticipatory actions, the project effectively improved risk analysis and decision making, including through the Global Report on Food Crises, and increased access to appropriate financing instruments, while the EWEA country toolkit initial positive spinoffs need to be built on. Efforts to support resilience measurement and analyses by applying the resilience index measurement and analysis (RIMA) methodology are relevant given the significant investments in resilience programming and the continuing methodological gaps. However, although RIMA provides a basis for creating evidence on resilience investments, and FAO has been an important pioneer in resilience measurement, a wider system supporting resilience analysis is needed, based on a range of methodologies, responding to the information needs of decision-makers. Also, RIMA baseline lacks sufficient detail to allow articulating the feasibility of possible response options and have a practical impact on planning decisions; it has not demonstrated its added value over pre-existing food security, nutrition and risk indicators to help target interventions, and is not well adapted as an impact evaluation tool. Assessing INFORMED results against its intention to support knowledge production and sharing, to promote the replication of good practices and circular learning, the evaluation questioned the choice of creating a new knowledge management platform versus adopting a collaborative approach building on similar initiatives' strengths. Poor strategic choices represented a fundamental constraint to reach intended objectives, such as, an insufficient understanding of users explaining the difficulty to trace the uptake and use of knowledge products. Nevertheless, the evaluation recognized the progressive investments in knowledge management and sizeable accomplishments of a relatively small team. The evaluation suggests strengthening capacities for the production and dissemination of forecast, scenario-based early warning as a basis for early action; developing a corporate strategy for partnering to strengthen early warning system capacities at various levels; promoting the use of a toolkit of approaches and investing in a knowledge management function dedicated to capturing and disseminating lessons on the effectiveness of EWEA and resilience interventions.
