Zheng He

2006 Michael S. Yamashita Over 28 years during the beginning of the 15th century, Admiral Zheng He made seven voyages, visiting 30 countries. With his fleet of hundreds of junks, he travelled from Southeast Asia to Africa, from India to the Middle East, gathering riches, scientific knowledge, fame, and power for his emperor. He came close to conquering the world, until the Ming Dynasty's power shrivelled and the explorer's accomplishments were all but forgotten. In this volume, acclaimed photojournalist Michael Yamashita traces each journey made by Zheng He, and pays tribute to the remarkable achievements of this early intrepid explorer. Following an insightful historical introduction, Yamashita presents the details of each voyage, chronicling the interactions and commercial exchanges, and documenting, through his exceptional photographs, the diverse locales Zheng He discovered over close to three decades of intense exploration.

Admiral Zheng He and Southeast Asia

2005-01 Leo Suryadinata Admiral Zheng He and Southeast Asia commemorates the 600th anniversary of Admiral Zheng Hes maiden voyage to Southeast Asia and beyond. The book is jointly issued by the Institute of Southeast Asian Studies, Singapore and the International Zheng He Society. To reflect Asian views on the subject matter, nine articles written by Asian scholars Chung Chee Kit, Hsu Yun-Tsiao, Leo Suryadinata, Tan Ta Sen, Tan Yeok Seong, Wang Gungwu, and Johannes Widodo have been reproduced in this volume. Originally published from 1964 to 2005, the articles are grouped into three clusters. The first cluster of three articles examines the relationship of the Ming court, especially during the Zheng He expeditions, with Southeast Asia in general and the Malacca empire in particular. The next cluster looks at the socio-cultural impact of the Zheng He expeditions on some Southeast Asian countries, with special reference to the role played by Zheng He in the Islamization of Indonesia (Java) and the urban architecture of the region. The last three articles deal with the route of the Zheng He expeditions and the location of the places that were visited.

Seven Voyages

2021-01-19 Laurence Bergreen From New York Times bestselling author Laurence Bergreen and author Sara Fray comes this immaculately researched history for young readers detailing the life of Zheng He, his complex and enduring friendship with his emperor, and the epic Seven Voyages he led that would establish China as a global power. 1405. The central coast of China. At nearly seven feet tall, Admiral Zheng He looked out at the sea before him. For the next three decades, the oceans would be his home, as he would command over 1,500 ships and thousands of sailors in seven journeys that would predate the heart of the European Age of Exploration. Over his seven epic journeys, Zheng He explored the Northern Pacific and Indian Oceans, traveling as far as the east coast of Africa, expanding Chinese power globally, warring with pirates, and capturing enemies along the way in the name of his emperor, Zhu Di. But this giant figure was not always at the helm of a ship.

When China Ruled the Seas

2014-12-02 Louise Levathes One hundred years before Columbus and his fellow Europeans began their voyages of discovery, fleets of giant junks commanded by the eunuch admiral Zheng He and filled with the empire's finest porcelains, lacquerware, and silk ventured to the world's "four corners." Seven epic expeditions brought China's treasure ships across the China Seas and Indian Ocean, from Japan to the spice island of Indonesia and the Malabar Coast of India, on to the rich ports of the Persian Gulf and down the East African coast, to China's "El Dorado," and perhaps even to Australia, three hundred years before Captain Cook's landing. It was a time of exploration and expansion, but it ended in a retrenchment so complete that less than a century later, it was a crime to go to sea in a multimasted ship. In When China Ruled the Seas, Louise Levathes takes a fascinating and unprecedented look at this dynamic period in China's enigmatic history, focusing on the country's rise as a naval power that briefly brought half the world under its nominal authority. Drawing on eyewitness accounts, official Ming histories, and African, Arab, and Indian sources, many translated for the first time, Levathes brings readers inside China's most illustrious scientific and technological era. She sheds new light on the historical and cultural context in which this great civilization thrived, as well as the perception of China by other contemporary cultures. Beautifully illustrated and engagingly written, When China Ruled the Seas is the fullest picture yet of the early Ming dynasty—the last flowering of Chinese culture before the Manchu invasion.

2007 Edward L. Dreyer This new biography, part of Longman's World Biography series, of the Chinese explorer Zheng He sheds new light on one of the most important "what if" questions of early modern history: why a technically advanced China did not follow the same path of development as the major European powers. Dreyer, Zheng He outlines what is known of the eunuch Zheng He's life and describes and analyzes the early 15th century voyages on the basis of the Chinese evidence. Locating the voyages firmly within the context of early Ming history,itaddresses the political motives of Zheng He's voyages and how they affected China's exclusive attitude to the outside world in subsequent centuries.
