The HIV Hoax

2014-12-09 Captain Obvious Dr. Kary Mullis, Biochemist, 1993 Nobel Prize for Chemistry: Dr. Kary Mullis "If there is evidence that HIV causes AIDS, there should be scientific documents which either singly or collectively demonstrate that fact, at least with a high probability. There is no such document." (Sunday Times (London) 28 nov. 1993) Dr. Heinz Ludwig Sanger, Emeritus Professor of Molecular Biology and Virology, Max-Planck-Institutes for Biochemy, Munchen. Robert Koch Award 1978: "Up to today there is actually no single scientifically really convincing evidence for the existence of HIV. Not even once such a retrovirus has been isolated and purified by the methods of classical virology." (Letter to Suddeutsche Zeitung 2000) Dr. Serge Lang, Professor of Mathematics, Yale University: "I do not regard the causal relationship between HIV and any disease as settled. I have seen considerable evidence that highly improper statistics concerning HIV and AIDS have been passed off as science, and that top members of the scientific establishment have carelessly, if not irresponsible, joined the media in spreading misinformation about the nature of AIDS." (Yale Scientific, Fall 1994) Dr. Harry Rubin, Professor of Molecular and Cell Biology, University of California at Berkeley: Prof. Harry Rubin "It is not proven that AIDS is caused by HIV infection, nor is it proven that it plays no role whatever in the syndrome." (Sunday Times (London) 3 April 1994) Dr. Richard Strohman, Emeritus Professor of Cell Biology at the University of California at Berkeley: "In the old days it was required that a scientist address the possibilities of proving his hypothesis wrong as well as right. Now there's none of that in standard HIV-AIDS program with all its billions of dollars." (Penthouse April 1994) Dr. Harvey Bialy, Molecular Biologist, former editor of Bio/Technology and Nature Biotechnology: Harvey Bialy "HIV is an ordinary retrovirus. There is nothing about this virus that is unique. Everything that is discovered about HIV has an analogue in other retroviruses that don't cause AIDS. HIV only contains a very small piece of genetic information. There's no way it can do all these elaborate things they say it does." (Spin June 1992) Dr. Roger Cunningham, Immunologist, Microbiologist and Director of the Centre for Immunology at the State University of New York at Buffalo: "Unfortunately, an AIDS 'establishment' seems to have formed that intends to discourage challenges to the dogma on one side and often insists on following discredited ideas on the other." (Sunday Times (London) 3 April 1994) Dr. Gordon Stewart, Emeritus Professor of Public Health, University of Glasgow: Prof. Gordon Stwart "AIDS is a behavioural disease. It is multifactorial, brought on by several simultaneous strains on the immune system - drugs, pharmaceutical and recreational, sexually transmitted diseases, multiple viral infections." (Spin June 1992) Dr. Alfred Hassig, (1921-1999), former Professor of Immunology at the University of Bern, and former director Swiss Red Cross blood banks: Prof. Alfred Hassig "The sentence of death accompanying the medical diagnosis of AIDS should be abolished." (Sunday Times (London) 3 April 1994) Dr. Charles Thomas, former Professor of Biochemistry, Harvard and John Hopkins Universities: "The HIV-causes-AIDS dogma represents the grandest and perhaps the most morally destructive fraud that has ever been perpetrated on young men and women of the Western world." (Sunday Times (London) 3 April 1994) Dr. Joseph Sonnabend, New York Physician, founder of the American Foundation for AIDS Research (AmFAR): Joe Sonnabend "The marketing of HIV, through press releases and statements, as a killer virus causing AIDS without the need for any other factors, has so distorted research and treatment that it may have caused thousands of people to suffer and die." (Sunday times (London) 17 May 1992) Read the book. You are about to find out how sick the CDC and Government are

David Lynch

2015 Dennis Lim A revealing look at the life and work of David Lynch, one of the most enigmatic and influential filmmakers of our time Every frame of David Lynch's work, from the '70s midnight movie Eraserhead to the groundbreaking TV series Twin Peaks, to the digital-video DIY feat Inland Empire, bears his unmistakable imprint. But the paradox of the Lynchian is that it's easy to recognize and hard to define. Lynch is a master of the inscrutable gesture, the opaque symbol. His career evades the usual categories: pop culture icon and subject of academic study, cult figure and industry outsider. He's a Renaissance man—musician, painter, photographer, carpenter, entrepreneur—and a vocal proponent or transcendental meditation. Dennis Lim, the newly minted director of Cinematheque programming at Lincoln Center, is a skilled cinephile wary of over-interpretation.David Lynch preserves the strangeness of the Lynch's universe and offers a personal meditation on the most distinctive filmmaker in modern American culture. It leaves what Lynch likes to call "room to dream," honoring the allure of the unknown and the unknowable.
