The Peabody Picture Vocabulary Test Fourth Edition (PPVT-4) is a widely recognized vocabulary assessment that has been in operation for nearly half a century. Created by Lloyd M. Dunn and Douglas M. Dunn, the test is made to evaluate vocabulary comprehension for American English. It is quick and effortless to administer, preserving important time so that concentration can be placed on applying intelligent interventions.

The PPVT-4 assessment subject matter encompasses a wide range of receptive vocabulary grades, spanning from preschool through adulthood. The test items broadly feature words that depict 20 content fields (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and home and educational vocabulary.

The assessment offers two identical editions which hold distinct vocabulary words, ensuring that the individual has not "learned" the test. One form can be used prior to intervention to measure test-takers' vocabulary knowledge and the alternative version can be employed for re-evaluation to evaluate and record advancement. The PPVT-4 also features a distinctive Growth Scale Value (GSV) which is sensitive to slight changes over time.
