Terpstra This book first and
foremost looks into experiences
of Greenlanders in Denmark,
and in addition offers a
Canadian comparative
perspective. It presents my
representation of Greenlanders
in Denmark/Inuit in southern
Canada. It is heavily based on
interviews with Inuit, but
presented in this publication
through my eyes. This book
uses discussions on Arctic
urbanization, migration and

experiences of Greenlanders in

experiences into a broader
context by referring to
experiences in Canada as well.

An island is a cosmos in a nutshell, where the stars slumber in the grass beneath the snow. But occasionally someone tries . . . Ingrid Barrøy is born on an island that bears her name - a holdfast for a single family, their livestock, their crops, their hopes and dreams. Her father dreams of

building a quay that will connect them to the mainland, but closer ties to the wider world come at a price. Her mother has her own dreams - more children, a smaller island, a different life - and there is one question Ingrid must never ask her. Island life is hard, a living scratched from the dirt or trawled from the sea, so when Ingrid comes of age, she is sent to the mainland to work for one of the wealthy families on the coast. But Norway too is waking up to a wider world, a modern world that is capricious and can be cruel. Tragedy strikes, and Ingrid must fight to protect the home she thought she had left behind. Muslims and the New Information and Communication Technologies 2014-01-10

Thomas Hoffmann This volume deals with the so-called new Information and Communication Technologies (ICT) and their interrelationship with Muslims and the interpretation of Islam.

This volume taps into what has been labelled Media Studies 2.0, which has been

characterized by an intensified focus on everyday meanings and 'lay' users – in contrast to earlier emphases on experts or self-acclaimed experts. This lay adoption of ICT and the

subsequent digital 'literacy' is not least noticeable among Muslim communities. According to some global estimates, one in ten internet users is a Muslim. This volume offers an ethnography of ICT in Muslim communities. The contributors to this volume also demonstrate a new kind of moderation with regard to more sweeping and avant-gardistic claims, which have characterized the study of ICT previously. This moderation has been combined with a keen attention to the empirical material but also deliberations on new quantitative and qualitative approaches to ICT, Muslims and Islam, for instance the digital challenges and

changes wrought on the Qur'an, Islam's sacred scripture. As such this volume will also be relevant for people interested in the study of ICT and the blooming field of digital humanities. Scholars of Islam and the Islamic world have always be engaged and entangled in their object of study. The developments within ICT have also affected how scholars take part in and influence public Islamic and academic discussions. This complicated issue provides basis for a number of meta-reflexive studies in this volume. It will be essential for students and scholars within Islamic studies but will also be of

interest for anthropologists, sociologists and others with a humanistic interest in ICT, religion and Islam.

Editionshistorie 2014-11-27
Johnny Kondrup Editionshistorie er en ny videnskab, opstået omkring år 2000 forskellige steder i Europa. Dens emne er udgavernes historie, især de videnskabelige udgavers, med alt hvad dertil hører: metoder, teorier, motiveringer, finansiering, udgiverselskaber og fejder. Editionshistorie er en gren af videnskabshistorien, men rækker også ind over andre felter, fx bevidstheds- eller ideologihistorien (hvad har man ment at kunne bruge

udgaverne til?) litteratursociologien (hvordan er udgaverne blevet finansieret og afsat?) boghistorien (hvilket udstyr har man givet dem?) bibliotekshistorien (hvor har man fundet materiale, hvordan er udgaverne blevet opbevaret?) mediehistorien (hvad sker der ved overgangen fra trykte til elektroniske udgaver?) Editionshistorie var emnet for en konference afholdt af Nordisk Netværk for Editionsfilologer og Dansk Editionshistorie i 2011. Dette bind rummer konferencens ni foredrag i bearbejdet og udvidet form. Johnny Kondrup er dr.phil. og professor ved Institut for Nordiske Studier og

Sprogvidenskab, Københavns Universitet. Klaus Nielsen er ph.d. og udgaveleder ved Grundtvigs Værker, Aarhus Universitet.

Usynlige trusler Jette Rank Kemikalier i hverdagsprodukter er et stadigt stigende problem. Det skyldes, at stoffernes skadelige effekter ikke har været tilstrækkeligt analyseret, før de er taget i brug. Emnet er vanskeligt at forholde sig til, da kemikalierne ikke kan ses. De er alle vegne og dog "usynlige". Indledningsvis beskrives, hvordan kemikalieloven REACH virker, og hvordan kemikalier risiko vurderes. Det danner baggrund for beskrivelse af en

række stofeksempler. Nogle af de mest problematiske og mest diskuterede kemikalier behandles med forskellige synsvinkler, således at læseren sættes ind i kemiske, toksikologiske og samfundsmæssige forhold. Samtlige kemikalier har en fælles historie, idet de alle er blevet udviklet med henblik på at løse vigtige teknologiske formål, men efterfølgende har det vist sig, at de havde effekter, som ikke var kortlagt på forhånd. Det har blandt andet været kræftfremkaldende effekter, som ikke var belyst tilstrækkeligt. Og de seneste årtiers opdagelse af hormonforstyrrende effekter har

også en fremtrædende rolle i bogen. Bogen kan, udover at være en lærebog, også læses som et indlæg i debatten om, hvordan de farligste kemikalier bliver reguleret på en langsommelig måde, der ikke tager tilstrækkelig hensyn til sundhed og miljø

Blue Latitudes 2003-08-01 Tony Horwitz In an exhilarating tale of historic adventure, the Pulitzer Prize-winning author of Confederates in the Attic retraces the voyages of Captain James Cook, the Yorkshire farm boy who drew the map of the modern world Captain James Cook's three epic journeys in the 18th century were the last

great voyages of discovery. His ships sailed 150,000 miles, from the Arctic to the Antarctic, from Tasmania to Oregon, from Easter Island to Siberia. When Cook set off for the Pacific in 1768, a third of the globe remained blank. By the time he died in Hawaii in 1779, the map of the world was substantially complete. Tony Horwitz vividly recounts Cook's voyages and the exotic scenes the captain encountered: tropical orgies, taboo rituals, cannibal feasts, human sacrifice. He also relives Cook's adventures by following in the captain's wake to places such as Tahiti, Savage Island, and the Great Barrier Reef to discover Cook's embattled

legacy in the present day. Signing on as a working crewman aboard a replica of Cook's vessel, Horwitz experiences the thrill and terror of sailing a tall ship. He also explores Cook the man: an impoverished farmboy who broke through the barriers of his class and time to become the greatest navigator in British history. By turns harrowing and hilarious, insightful and entertaining, BLUE LATITUDES brings to life a man whose voyages helped create the 'global village' we know today.

synlige universet som hvelver seg over oss om natten skjuler det seg noe annet og mye større. De fleste astronomer i dag tror at 95 prosent av innholdet i universet er usynlig. Alt vi kan se rundt oss i det daglige utgjør trolig bare fem prosent av det som finnes der ute. Resten er mørk materie og mørk energi – en del av virkeligheten som vi vet lite om. Hva er disse mørke, usynlige substansene for noe? Og hvordan kan vi være så sikre på at de finnes? Det usynlige universet tar oss med utover i universet, forbi solsystemet og Melkeveien. Vi går bakover i tid, helt til Big Bang og universets begynnelse. Vi dykker ned i den

mikroskopiske kvanteverdenen. Vi blir kjent med tyngdekrefter, lys, usynlighetens fysikk, eksploderende kjempestjerner, kolliderende galakseklumper, hyperfølsomme detektorer, geniale forskere, sfæriske drittsekker og universets skjebne. Alt i et forsøk på å forstå universet og dets merkelige, usynlige ingredienser. Denne boka er en populærvitenskapelig fortelling om universet vi bor i. Jostein Riiser Kristiansen (f. 1981) har en doktorgrad i astrofysikk fra Universitetet i Oslo. Han jobber nå som førsteamanuensis ved Høgskolen i Oslo og Akershus, der han forsker på universet og underviser i fysikk og

Han er også en av grunnleggerne av den populærvitenskapelige bloggen kollokvium.no, og er medforfatter av læreboka Fysikk for lærere (Gyldendal 2011)

Religious Enlightenment in the eighteenth-century Nordic countries 2023-10-17 Johannes Ljungberg This book explores the concept of religious Enlightenment in the Nordic countries during the long eighteenth century. It argues that Lutheran confessional

culture became intertwined with Enlightenment ideas and practices in this European region. In the book's three parts, specialist historians explore themes central to students of the early modern era – historical writing, material culture, ecclesiastical and legal reform, censorship, cameralism and innovative medical practices. It offers a timely reconsideration of a complex period in European history from a northern perspective.

Education and Democracy in the Nordic Countries 2023-07-14 Ann Elisabeth Gunnulfsen This book discusses principals'

prerequisites and work within the five Nordic countries and focuses on schools as formal institutions that carry out functions delegated to them by the social collective. It includes a discussion about what kind of state policy demonstrates autonomy in Nordic schools, as well as the ways in which school leaders as sense makers in local schools possess and enact policy in a globalized economy and a changing world. The book draws both on a range of theoretical frameworks and educational leadership and policy research to provide multiple comparative perspectives of school leadership in the Nordic

countries, the moral purpose of schooling, school governance and power relations, expectations towards school leadership, handling of crises, and cultures of trust. The chapters range from in depth-case studies and policy document analyses to large-scale data sets and literature reviews. All chapters have multiple messages for practitioners, policy makers and researchers as they seek to engage with school leadership as a core activity in times of societal changes. As democratic welfare states, the five Nordic countries have many similarities, but also differences which makes it interesting to

understand more about various ways to strive towards democracy and well-educated citizens.

The Marketization of Employment Services

2017-06-23 Ian Greer Across Europe, market mechanisms are spreading into areas where they did not exist before. In public administration, market governance is displacing other ways of coordinating public services. In social policy, the welfare state is retreating from its historic task of protecting citizens from the discipline of the market. In industrial relations, labor and management are negotiating with an eye to competitiveness, often against new non-union market players. What is marketization, and what are its effects? This book uses

employment services in Denmark, Germany, and Great Britain as a window to explore the rise of market mechanisms. Based on more than 100 interviews with funders, managers, front-line workers, and others, the authors discuss the internal workings of these markets and the organizations that provide the services. This book gives readers new tools to analyse market competition and its effects. It provides a new conceptualization of the markets themselves, the dilemmas and tradeoffs that they generate, and the differing services and workplaces that result. It is aimed at students and researchers in the applied fields

of social policy, public administration, and employment relations and has important implications for comparative political economy and welfare states.

remains behind because he can't imagine life anywhere else, doing anything else besides felling the trees near his home. This is a novel about belonging - a tale of powerful and forbidden friendships forged during a war, of unexpected bravery and astonishing survival instincts. The Burnt-Out Town of Miracles is not a novel about war, but about the lives of ordinary people dragged into war, each of whom only wants to find the path back home. Roy Jacobsen uses the dramatic natural landscape of light and darkness, fire-blazing heat and life-robbing cold to spectacular effect.

Child Wonder 2011-09-27 Roy Jacobsen *Winner of the prestigious Norwegian Booksellers' Prize* *A Barnes & Noble Discover Great New Writers Selection (Holiday 2011)* A glorious evocation of a Norwegian childhood in the early sixties by an author short-listed for the 2009 Dublin IMPAC Award Little Finn lives with his mother in an apartment in a working-class suburb of Oslo. Life is a struggle to make ends meet, but he does not mind. When his mother decides to take a lodger to help pay the bills, he watches with interest

as she freshens up their small apartment with new wallpaper and a sofa paid for in installments. He befriends their new male lodger, whose television is more tempting to him than his mother would like. When a half sister whom he never knew joins the household, Finn takes her under his wing over an everlasting summer on Håøya Island. But he can't understand why everyone thinks his new sister is so different from every other child. Nor can he fathom his mother's painful secret, one that pushes them ever farther apart. As summer comes to a close, Finn must attempt to grasp the incomprehensible adult world

and his place within it. *Child Wonder* is a powerful and unsentimental portrait of childhood. Roy Jacobsen, through the eyes of a child, has produced an immensely uplifting novel that shines with light and warmth.

provides a platform for authors to discuss and debate the implications of research findings on current practices that reflect policies of each country. The research presented spans from challenges in teacher training to case studies of family practices around early child development to problematise the key components of teacher education and family practices that impact young children's education and care. By problematising the key issues, chapter authors discuss the shifting paradigm of early childhood education and the importance of future research in informing these changes.

Offering key policy and practice

insights across 19 different countries, this book is a must-read for early childhood educators, researchers, early childhood organisations, policy makers and those interested to know more about early childhood within an international perspective.

work are undergoing massive and rapid changes, in the context of global competition, efficiency drives, as well as social and economic transformations in emerging economies. Work, families and organisations in transition illustrates how workplace practices and policies impact on employees' experiences of work-life balance in contemporary shifting contexts. Based upon cross-national case studies of public and private sector workplaces carried out in Bulgaria, Norway, Portugal, Slovenia, Sweden, the Netherlands and the UK, this innovative book demonstrates the challenges that parents face

as they seek to negotiate work and family boundaries. The case studies demonstrate that employed parents' needs and experiences depend on many layers of context - global, European, national, workplace and family. This book will be of interest to undergraduate and postgraduate students of organisational psychology, sociology, management and business studies, human resource management, social policy, as well as employers, managers, trade unions and policy makers.

Ulrich Duchrow Luther übt systemische Kritik am Frühkapitalismus. Er durchschaut den religiösen Charakter des Kapitalismus auf der Basis des 1. Gebots. Seine Schriften zum Handel und Wucher (Finanzsystem) sind zwar im Protestantismus am Rande wirksam geblieben (wie z. B. bei Winstanley im 17. Jh.), aber insgesamt sind die lutherischen Kirchen dieser kritischen Perspektive nicht gefolgt. Erst in jüngster Zeit sind die Potentiale der Position Luthers für die Kritik am Neoliberalismus und für eine politische Ethik der Parteinahme und der Versöhnung wiederentdeckt worden. Luther

systemically criticizes early capitalism. He is aware of the religious character of capitalism on the basis of the first commandment. His writings on trade and usury (finance) only marginally effected later protestantism (cf. e.g. Winstanley in the 17th century) but mainline Lutheranism did not follow this critical line. Only recently the potentials of Luther's position for the theological critique of neoliberalism and for a political ethics of partisanship and reconciliation were rediscovered.

De første moder mellem skandinaver og grønlandske inuitter fandt sted i det sydvestlige Grønland omkring 1300. Samtlige beretninger fra dengang og de næste par århundreder er nedskrevet af europæere og siger derfor ikke meget om, hvordan inuitterne oplevede de fremmede. Først i 1721 oprettedes en varig forbindelse mellem Grønland og Danmark, da præsten Hans Egede ankom som Frederik 4.s udsending med det mål for øje at gøre grønlænderne kristne, ligesom handelsstationer på primært vestkysten blev etableret i perioden. Det er denne tid og de næste 300 år, som er i fokus i

Grønlændernes syn på Danmark. Historiske, kulturelle og sproglige perspektiver. I bogen næstundersøger forskere fra Grønland og Danmark en række af de kilder, som giver adgang til grønlændernes noget blandede mening om danske missionærer, købmand og embedsmænd i Grønland såvel som de meget forskellige indtryk, grønlænderne tog med sig hjem fra rejser i Danmark og Europa. Tilsammen afdekkes disse skrifter, myter og kunstværker det komplekse forhold, grønlænderne ofte har til Danmark og danskere. Både historisk og i dag, hvor kærligheden til det danske

Gender Divisions and Working Time in the New Economy 2006

Diane Perrons Contemporary societies are characterised by new and more flexible working patterns, new family structures and widening social divisions.

This book explores how these macro-level changes affect the micro organisation of daily life, with reference to working patterns and gender divisions in

Northern and Western Europe and the United States. Through detailed comparative analysis and case studies from France, Norway, Sweden, the UK and the US, this collection demonstrates how, despite globalisation and the spread of neo-liberalism, states still exercise some autonomy in terms of the implementation of equalities and 'city time' policies. These policies affect people's capacity to organise their daily lives and ameliorate the adverse impact of new working patterns. However, the authors also show that, despite the proliferation of work-life balance policies which potentially encourage a greater

reconciliation of caring and paid work, inequalities in the distribution of paid work and caring between men and women remain remarkably resilient. Bringing together academic analysis and policy studies, Gender Divisions and Working Time in the New Economy will appeal to students and scholars of comparative social policy, economic sociology, economic geography and sociology. In particular, those with an interest in issues of employment relationships, gender, welfare states, working time, work-life balance and 'city time' will find the book to be of great value.

Anthropology. The anthology gathers contributions from leading researchers from various Nordic universities, architectural schools, and architectural firms as well as prominent international scholars like Tim Ingold, Albena Yaneva, and Sarah Pink – all exploring, developing, and innovating the cross-disciplinary field between anthropology and architecture.

Several contributions are co-written by architects and anthropologists, merging approaches from the two disciplines in order to fully explore the dynamics of lived space. Through a broad range of empirical examples, methodological approaches,

and theoretical reflections, the anthology provides inspiration and tools for scholars, students, and practitioners working with lived space. The first part focusses on homes, walls, and boundaries, the second on urban space and public life, and the third on processes of creativity, participation, and design.

Hauptfigur Justine ihre Schwester Claire und deren Sohn auf, die Augen zu schließen und sich ihren eigenen phantasmatischen Vorstellungen hinzugeben. Im programmatisch blinden Sehen wird die Katastrophe zu einem ästhetischen Erlebnis - nicht zuletzt für den Zuschauer. In ihrer grundlegenden Studie legt Sophie Wennerscheid dar, inwiefern von Trier mit dieser Szene die Kraft der Imagination beschwört und damit an die Literatur der skandinavischen Moderne anschließt, welche den Zusammenhang von Phantasma, Kraft und Dunkelheit intensiv erforscht und poetisch produktiv gemacht

hat. Die Arbeit zeigt, wie bis in die zweite Hälfte des 19. Jahrhunderts hinein Kraft als berechenbar betrachtet wurde, sie dann aber in der Moderne als zunehmend rätselhaft und chaotisch ästhetisiert wird. Skandinavische Autoren wie J. P. Jacobsen, August Strindberg, Knut Hamsun oder Johannes V. Jensen schaffen Figuren, die lustvoll delirierend durchs Leben treiben und den Tod Gottes gleichsam im Selbstversuch erproben. Die Arbeit macht Kraft als einen Schlüsselbegriff der literarischen Moderne erkennbar und leistet einen Beitrag zu einer Theorie des sich selbst dunklen Subjekts.

Seeing Cities Change

2013-01-28 Professor Jerome

Krase Cities have always been dynamic social environments for visual and otherwise symbolic competition between the groups who live and work within them.

In contemporary urban areas, all sorts of diversity are simultaneously increased and concentrated, chief amongst

them in recent years being the

ethnic and racial transformation produced by migration and the gentrification of once socially marginal areas of the city.

Seeing Cities Change

demonstrates the utility of a visual approach and the study of ordinary streetscapes to document and analyze how the built environment reflects the changing cultural and class identities of neighborhood residents. Discussing the manner in which these changes relate to issues of local and national identities and

multiculturalism, it presents studies of various cities on both sides of the Atlantic to show how global forces and the competition between urban

residents in 'contested terrains' is changing the faces of cities around the globe. Blending together a variety of sources from scholarly and mass media, this engaging volume focuses on the importance of 'seeing' and, in its consideration of questions of migration, ethnicity, diversity, community, identity, class and culture, will appeal to sociologists, anthropologists and geographers with interests in visual methods and urban spaces.

høyrepopulistiske statsledere verden over. Sosiale medier er hans foretrukne kanal – og Gud, familien og fedrelandet er hans evangelium. Bolsonaros politikk har vært et angrep på kultur og medier, miljø og menneskerettigheter, ja på selve det brasilianske demokratiet. Lenge fornektet han pandemien, og kritikerne beskylder ham for å ha hundretusenvise av koronaofre på samvittigheten. Presidenten har bånd til landets organiserte kriminelle miljøer og har uttalt at han ønsker seg tilbake til militærdiktaturets dager. Hva har Bolsonaros år i presidentpalasset betydd for brasilianere flest og for

demokratiet i landet? På hvilken måte sammenfaller utviklingen i Brasil med en internasjonal, høyrepopulistisk trend? Og hvordan skal Brasil bli et mer rettferdig og mindre polarisert samfunn? Disse spørsmålene forsøker forfatter Torkjell Leira og finne svar på, når han reiser i Bolsonaros fotspor. Han møter også presidenten over en frokost i Morgengryets palass. Torkjell Leira (f. 1972) er samfunnsgeograf, capoeiratruener, skribent, foredragsholder og en av Norges ledende Brasil-eksperter. Han har jobbet i og med Brasil i en årrekke, blant annet i Regnskogfondet og for Universitetet i Oslo – for

Klimahuset og på et forskningsprosjekt om Amazonas i samarbeid med Hydro. Leira står bak nettstedet brasileira.no og har tidligere skrevet bøkene Kampen om regnskogen. Sannheten om Norge i Brasil (2020) og Brasil. Kjempen våkner (Aschehoug, 2014).

Tonje Brenna Alle barn skal oppleve læring, trivsel og mestring i skolen, men mange elever føler at skolen ikke er for dem. Er skolen praktisk nok, er undervisningen variert og motiverende? Og møtes alle de flinke ansatte i skolen med den tilliten de fortjener?

Industriarbeider Richard Storevik skriver om veien fra yrkesfag til arbeidsliv, VG-kommentator Shazia Majid viser at skolen er en nøkkel til integrering, hjerneforsker Per Brodal forklarer hva som skjer inni hodene våre når vi lærer – og kokk Bent Stiansen forteller om hvor viktig det er å anerkjenne både praktisk og teoretisk kunnskap. Til sammen 24 ulike stemmer med kjærlighet til skolen forteller om utfordringer, skisserer løsninger og inviterer til debatt om det norske skolesystemet. Fellesskolen har aldri vært viktigere – både for den enkelte og for et samfunn med økende forskjeller mellom folk.

The Invisible Gorilla 2010-05-18
Christopher Chabris Reading
this book will make you less sure of yourself—and that’s a good thing. In The Invisible Gorilla, Christopher Chabris and Daniel Simons, creators of one

of psychology’s most famous experiments, use remarkable stories and counterintuitive scientific findings to demonstrate an important truth: Our minds don’t work the way we think they do. We think we see ourselves and the world as they really are, but we’re actually missing a whole lot. Chabris and Simons combine the work of other researchers with their own findings on attention, perception, memory, and reasoning to reveal how faulty intuitions often get us into trouble. In the process, they explain:

- Why a company would spend billions to launch a product that its own analysts know will fail
- How a police

officer could run right past a brutal assault without seeing it • Why award-winning movies are full of editing mistakes • What criminals have in common with chess masters • Why measles and other childhood diseases are making a comeback • Why money managers could learn a lot from weather forecasters

Again and again, we think we experience and understand the world as it is, but our thoughts are beset by everyday illusions. We write traffic laws and build criminal cases on the assumption that people will notice when something unusual happens right in front of them. We're sure we know where we were on 9/11, falsely believing

that vivid memories are seared into our minds with perfect fidelity. And as a society, we spend billions on devices to train our brains because we're continually tempted by the lure of quick fixes and effortless self-improvement. The Invisible Gorilla reveals the myriad ways that our intuitions can deceive us, but it's much more than a catalog of human failings. Chabris and Simons explain why we succumb to these everyday illusions and what we can do to inoculate ourselves against their effects. Ultimately, the book provides a kind of x-ray vision into our own minds, making it possible to pierce the veil of illusions that clouds our

thoughts and to think clearly for perhaps the first time.

Skyggens lærling 1 - Gorlans ruiner 2015-10-12 John Flanagan Fantasy-serie, som udspringer i et middelalderligt univers. Will kommer som 15 årig i lære hos Skyggen, som arbejder i det skjulte for kongens efterretningstjeneste. For at klare opgaverne og bekæmpe de onde kræfter, som truer kongen, kræves mod, kløgt, hurtighed og snedighed. Følg Will og hans tro væbnere på deres mange farefulde eventyr. Will har altid været lidt bange for dem. Rangerne. For de virker mystiske og gådefulde i deres mørke kapper. Og så

har han hørt, at de kan gøre sig usynlige, når de selv vil. 15-årige Will kan ikke komme ind på ridderskolen, fordi han ikke er høj nok. I stedet bliver han tilbudt en læreplads hos Skyggen for at blive uddannet som ranger. Will har de egenskaber, der skal til, siger man. Han er hurtig, han kan bevæge sig lydløst, han kan klatre, og han er skarpsindig. Men han får også brug for at være modig. For Morgarath, herre over Regn- og Nattebjergene, er ved at samle sine frygtindgydende tropper til et angreb mod kongeriget. En kamp, som Will slet ikke har fantasi til at forestille sig, skal til at begynde. ...»Action-fantasy ...

The Filter Bubble 2011-05-12

Eli Pariser An eye-opening account of how the hidden rise

of personalization on the Internet is controlling-and limiting-the information we

consume. In December 2009, Google began customizing its search results for each user.

Instead of giving you the most broadly popular result, Google now tries to predict what you are most likely to click on.

According to MoveOn.org board president Eli Pariser, Google's

change in policy is symptomatic of the most significant shift to take place on the Web in recent years-the rise of

personalization. In this groundbreaking investigation of

the new hidden Web, Pariser uncovers how this growing

trend threatens to control how we consume and share

information as a society-and reveals what we can do about

it. Though the phenomenon has gone largely undetected until

now, personalized filters are sweeping the Web, creating

individual universes of information for each of us.

the links it believes will appeal to you so that if you are a liberal, you can expect to see only progressive links. Even an old-media bastion like The Washington Post devotes the top of its home page to a news feed with the links your Facebook friends are sharing. Behind the scenes a burgeoning industry of data companies is tracking your personal information to sell to advertisers, from your political leanings to the color you painted your living room to the hiking boots you just browsed on Zappos. In a personalized world, we will increasingly be typed and fed only news that is pleasant, familiar, and confirms

our beliefs-and because these filters are invisible, we won't know what is being hidden from us. Our past interests will determine what we are exposed to in the future, leaving less room for the unexpected encounters that spark creativity, innovation, and the democratic exchange of ideas. While we all worry that the Internet is eroding privacy or shrinking our attention spans, Pariser uncovers a more pernicious and far-reaching trend on the Internet and shows how we can- and must-change course. With vivid detail and remarkable scope, *The Filter Bubble* reveals how personalization undermines the Internet's

original purpose as an open platform for the spread of ideas and could leave us all in an isolated, echoing world.

Metamateriale 2022-01-27

Fouad Sabry Hva er metamateriale Et metamateriale er ethvert materiale konstruert for å ha en egenskap som ikke finnes i naturlig forekommende materialer. De er laget av sammenstillinger av flere elementer laget av komposittmaterialer som metall og plast. Materialene er vanligvis ordnet i repeterende mønstre, i skalaer som er

Metamaterialer henter ikke sine egenskaper fra egenskapene til basismaterialene, men fra deres nydesignede strukturer. Deres presise form, geometri, størrelse, orientering og arrangement gir dem deres smarte egenskaper som er i stand til å manipulere elektromagnetiske bølger: ved å blokkere, absorbere, forsterke eller bøye bølger, for å oppnå fordeler som går utover det som er mulig med konvensjonelle materialer. A term paper is a research paper written by students over an academic term, accounting for a large part of a grade. Its a crucial component of your college education, often assigned towards the conclusion of a semester. The paper is a vehicle through which educators gauge your comprehension of the course content.

Writing a term paper isnt just about summarizing facts. It requires a combination of organization, deep research, and the art of presenting your findings in a way thats both clear and analytical. This means structuring your arguments logically, citing relevant sources, and critically evaluating the information youve gathered. When grading a term paper, there are three important aspects to consider. First, the paper should be passionately written and captivating to read. Second, it should have good grammar and style (following MLA, APA, or CMS style). Third, it should be well documented with in-text references (in parentheses) linking their assertions to scholarly articles in the list of references at the end of

the paper.

The Secret Behind The Forbidden Door

Alice was perpetually intrigued by the timeworn mansion perched at the end of the street. Stories of its mysterious owner, who never ventured out of his confined abode, had always piqued her curiosity. Whispers circulated about his identity, ranging from a hermit to a prodigy or even a madman, depending on the source. Alice yearned to unravel the truth behind these tales and uncover the secrets concealed within the bolted door on the second floor. Driven by an irresistible urge to delve into the mansions mysteries, Alice embarked on a reckless escapade. With a heart pounding with a mix of apprehension, she discreetly ventured into the mansions grounds, her senses heightened as she approached the forbidden door on the second floor. Standing before the threshold, her hand trembling slightly as she reached for the doorknob, Alice braced herself for the revelations that awaited her beyond. With a
