construction management students master the principles of financial management, and adapt and apply them to the challenge of profitably managing construction companies. It integrates content that has traditionally been taught through separate accounting, finance, and engineering economics texts. Students learn how to account for a construction company's financial resources; how to manage its costs, profits, and cash flows; how to evaluate different sources of funding a company's cash needs; and how to quantitatively analyze financial decisions. Readers gain hands-on experience through 220 example problems and over 390 practice problems, many of them based on situations actually encountered by the author. This edition

The Mystery of the Missing Diamond

It was a gloomy and turbulent night. The downpour was falling heavily, and the wind was howling. In the middle of the town, there was an exhibition, where a precious diamond was on exhibit. The diamond was named the African Star, and it was the largest and most gorgeous diamond in the earth. It was protected by an advanced security mechanism, and a team of armed guards. No one could steal it, or so they thought. But somebody did. An individual succeeded to circumvent the protection, to avoid the sentinels, to smash the glass, and to take the diamond. And no one saw them, no one listened to them, no one knew who they were. They exited no mark, no clue, no testimony. They disappeared into the darkness, with the Star of Africa. And the enigma of the missing diamond commenced.
