The Best Halloween Ever 2011-01-04 Barbara Robinson The Herdmans plus Halloween have always spelled disaster. Every year these six kids -- the worst in the history of Woodrow Wilson School, and possibly even the world -- wreak havoc on the whole town. They steal candy, spray-paint kids, and take anything that's not nailed down. Now the mayor has had it. He's decided to cancel Halloween. There won't be any Herdmans to contend with this year, but there won't be any candy, either. And what's Halloween without candy? And without trick-or-treating? The Herdmans manage to turn the worst Halloween ever into the best Halloween ever in this uproarious sequel to The Best Christmas Pageant Ever.

The Writing Revolution 2017-08-07 Judith C. Hochman Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Writing Kit Carson 2020-10-28 Susan Lee Johnson In this critical biography, Susan Lee Johnson braids together lives over time and space, telling tales of two white women who, in the 1960s, wrote books about the fabled frontiersman Christopher "Kit" Carson: Quantrille McClung, a Denver librarian who compiled the Carson-Bent-Boggs Genealogy, and Kansas-born but Washington, D.C.- and Chicago-based Bernice Blackwelder, a singer on stage and radio, a CIA employee, and the author of Great Westerner: The Story of Kit Carson. In the 1970s, as once-celebrated figures like Carson were falling headlong from grace, these two amateur historians kept weaving stories of western white men, including those who married American Indian and Spanish Mexican women, just as Carson had wed Singing Grass, Making Out Road, and Josefa Jaramillo. Johnson's multilayered biography reveals the nature of relationships between women historians and male historical subjects and between history buffs and professional historians. It explores the practice of history in the context of everyday life, the seductions of gender in the context of racialized power, and the strange contours of twentieth-century relationships predicated on nineteenth-century pasts. On the surface, it tells a story of lives tangled across generation and geography. Underneath run probing questions about how we know about the past and how that knowledge is shaped by the conditions of our knowing.

The English Classroom in the Computer Age 1991 William Wresch Written by middle school, high school, and college writing teachers, the 30 lesson plans collected in this book represent a mix of computer-based units for teaching writing. They cover many types of writing from journalism to literary essays, fiction, and poetry, and many aspects of the writing process, from brainstorming for ideas to prewriting warm-ups, electronic library research, revision, and desktop publishing. Most of the lessons in the book are adaptations of lessons used for years without computers; a small number of lesson plans in the book represent wholly new activities. The lessons in the book follow a set format designed to help readers quickly find out which activities are most appropriate for them, and are divided into categories for students with little, moderate, or substantial computer experience. Probability, Choice, and Reason 2021-09-16 Leighton Vaughan Williams Much of our thinking is flawed because it is based on faulty intuition. By using the framework and tools of probability and statistics, we can overcome this to provide solutions to many real-world problems and paradoxes. We show how to do this, and find answers that are frequently very contrary to what we might expect. Along the way, we venture into diverse realms and thought experiments which challenge the way that we see the world. Features: An insightful and engaging discussion of some of the key ideas of probabilistic and statistical thinking Many classic and novel problems, paradoxes, and puzzles An exploration of some of the big questions involving the use of choice and reason in an uncertain world The application of probability, statistics, and Bayesian methods to a wide range of subjects, including economics, finance, law, and medicine Exercises, references, and links for those wishing to cross-reference or to probe further Solutions to exercises at the end of the book This book should serve as an invaluable and fascinating resource for university, college, and high school students who wish to extend their reading, as well as for teachers and lecturers who want to liven up their courses while retaining academic rigour. It will also appeal to anyone who wishes to develop skills with numbers or has an interest in the many statistical and other paradoxes that permeate our lives. The Mother's Day Mice 1986 Eve Bunting With such seminal movies as The Exorcist and The French Connection, Academy Award-winning director William Friedkin secured his place as a great filmmaker. A maverick from the start, Friedkin joined other young directors who ushered in Hollywood's second Golden Age during the 1970s. Now, in his long-awaited memoir, Friedkin provides a candid portrait of an extraordinary life and career. His own success story has the makings of classic American film. He was born in Chicago, the son of Russian immigrants. Immediately after high school, he found work in the mailroom of a local television station, and patiently worked his way into the directing booth during the heyday of live TV. An award-winning documentary brought him attention as a talented new filmmaker, as well as an advocate for justice, and it caught the eye of producer David L. Wolper, who brought Friedkin to Los Angeles. There he moved from television (one of the last episodes of The Alfred Hitchcock Hour) to film (The Birthday Party, The Boys in the Band), displaying a versatile stylistic range. Released in 1971, The French Connection won five Academy Awards, including Best Picture and Best Director, and two years later, The Exorcist received ten Oscar nominations and catapulted Friedkin's career to stardom. Penned by the director himself, The Friedkin Connection takes listeners on a journey through the numerous chance encounters and unplanned occurrences that led a young man from a poor urban neighborhood to success in one of the most competitive industries and art forms in the world. Written with the narrative drive of one of his finest films, The Friedkin Connection is a wonderfully engaging look at an artist and an industry that has transformed who we are ? and how we see ourselves.

Rampage 2008-08-01 Katherine S. Newman In the last decade, school shootings have decimated communities and terrified parents, teachers, and children in even the most “family friendly” American towns and suburbs. These tragedies appear to be the spontaneous acts of disconnected teens, but this important book argues that the roots of violence are deeply entwined in the communities themselves. Rampage challenges the “loner theory” of school violence and shows why so many adults and students miss the warning signs that could prevent it.
