Paper Made! 2012-05-09 Kayte Terry Announcing the biggest, best, most innovative book ever on paper craft. Even better, this is not about how to use costly, artsy paper, but how to turn stuff around the house--magazines and shopping bags, candy wrappers and paint sample cards, wrapping paper, old maps, and paper towel tubes--into stunning jewelry, gifts, home decor, party favors, and much more. Chances are you've seen the author's cutting-edge work in the windows of Anthropologie, where she is the chain's merchandising manager. An inveterate crafter who creates projects and styles photo shoots for magazines like Parents and Vogue Knitting, Kayte Terry takes the most versatile of materials and the most basic of crafts (remember snipping valentines out of construction paper?), and creates something completely trans- formative. Turn a sheaf of any white or graph paper into an amazing Scrap Hippy Globe Lantern for the dining room. Fashion colored tissue paper into Songbird Votives, leftover raffie tickets into a Prizewinning Bowl, that out-dated pile of holiday catalogs into a picture frame. There's a necklace made of playing cards, a gum wrapper bracelet, and barrettes made by quilling--a paper technique that goes back to the Renaissance. Every project is photographed in full color, and includes step-by-step illustrations and instructions. Truly a book that shows how to think outside the (cardboard) box.

I Had a Favorite Dress 2011-10-01 Boni Ashburn Open up a fresh and stylish story about growing up and keeping hold of your favorite memories. As the year passes, the narrator's favorite dress goes through a series of creative changes, from dress to shirt to tank top to scarf and so on, until all that's left of it is a good memory. Assisted by her patient and crafty mama, the narrator finds that when disaster strikes her favorite things, she doesn't need to make mountains out of molehills--she "makes molehills out of mountains" instead! Structured around the days of the week, the story is also illustrated to show the passing of the seasons, a perfect complement to the themes of growing older and keeping hold (and letting go) of special mementos. Praise for I Had a Favorite Dress "A spunky story about adjusting to change with creativity and style. Tailor-made, so to speak, for the Etsy generation of DIY enthusiasts." --Publishers Weekly "Everyone is smiling in the buoyant confections created by illustrator Julia Denos--including, it's fair to say, young readers looking at them. Endearing picture book." --Wall Street Journal "What could have been yet another example of kindergarten consumerism instead becomes one of resourcefulness and resilience." --New York Times "Denos's multimedia illustrations reinforce the narrator's vibrant personality and the amazing transformations of the dress while capturing the action and emotion of the story. This book is sure to capture the imaginations of would-be seamstresses; children who can't bear to part with a favorite item; and those who want to reduce, reuse, recycle." --School Library Journal "Breezy in style, they smartly stitch each scene of alteration as the not-so-little girl sashays through the days of the week and the seasons. A charming interpretation of an old story that will speak to young fashionistas." --Kirkus Reviews

How to Make Out 2016-09-06 Brianna Shrum Sixteen-year-old Renley needs three thousand dollars for the math club's trip to New York City, and she knows exactly how to get it: she's going to start a how-to blog where people pay for answers to all of life's questions from a "certified expert." The only problems: 1) She doesn't know how to do anything but long division and calculus. 2) She's totally invisible to people at school. And not in a cool Gossip Girl kind of way. So, she decides to learn to do . . . well . . . everything. When her anonymous blog shifts in a more scandalous direction and the questions (and money) start rolling in, she has to learn not just how to do waterfall braids and cat-eye makeup, but a few other things, like how to cure a hangover, how to flirt, and how to make out (something her very experienced, and very in-love-with-her neighbor, Drew, is more than willing to help with). As her blog's reputation skyrockets, so does "new and improved" Renley's popularity. She's not only nabbed the attention of the entire school, but also the eye of Seth Levine, the hot culinary wizard she's admired from across the home-ec classroom all year. Soon, caught up in the thrill of popularity both in and out of cyberspace, her secrets start to spiral, and she finds that she's forgotten the most important how-to: how to be herself. When her online and real lives converge, Renley will have to make a choice: lose everything she loves in her new life, or everyone she loves in the life she left behind.

With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all" - Sew magazine "A wonderful insight into the work of a truly skilled artist" - PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in The Art of the Fold. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, The Art of the Fold is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers - how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordian and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of The Art of the Fold attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with deceptiv books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

The Beginner Book of Things to Make 1977 Robert Lopshire Step-by-step instructions for making such handicraft items as a huffel hat, flibbers, and limp lamps.

Medical Heroes and Heretics 1977 Wayne Martin Orthodox science -- particularly in the medical profession -- has for centuries resisted change. It traces back at least as far as Socrates who was done to death for corrupting youth with his innovative ideas. In recent times, practically all the great advances in medicine have been made against a powerfully entrenched orthodoxy. Wayne Martin's book is about some of the men involved -- then and now: Oliver Wendell Holmes, Sr., who made physicians wash their hands; Louis Pasteur, who postulated the connection between bacteria and certain diseases; Frederick Banting, who discovered insulin; Jonas Salk, who solved the mystery of polio, to mention but a few. These men all braved the wrath of the medical establishment of their day. Heretics they were, but heroes they became. Similarly, today a group of brave pioneers are fighting the same fight. They are, says the author, the heroes of tomorrow: Ernst Krebs, Jr., Evan Shute, Dean Burk, Denis Burkitt, Virginia Livingston and a dozen others, all of whose careers and findings are described here by a man who has pursued his topic for the past ten years.

Born into the Thembu royal family, he was bestowed with the name Rolihlahla, meaning "troublemaker" in Xhosa. Mandelas upbringing unfolded amidst a backdrop of racial inequality, where he witnessed firsthand the unfair practices inflicted upon the Black majority by the ruling white minority government. Driven by a deep sense of equality, he dedicated his life to the struggle for freedom and justice, joining the African National Congress (ANC), a political organization dedicated to dismantling apartheid, the system of racial separation that plagued South Africa. Emerging as a inspiring lawyer, activist, and leader, Mandela faced numerous arrests and imprisonments for his unwavering resistance and defiance. For 27 years, he endured the harsh conditions and isolation of Robben Island, a notorious prison island, where his hope never wavered. His unwavering commitment to justice continued to inspire and mobilize his people and the world at large.
