### *Corporate Credit Risk Management*

2014-02-24 Christian Langkamp The financial crisis has shown that a significant proportion of the assets held by large corporations are exposed to credit risk that must be managed. This doctoral thesis sets out to analyse the contextual and organisational framework within which these activities are set and the practices employed by professionals in the field. This analysis draws on a set of interview-based data from large corporations in Europe and Brazil, predominantly from the chemical, energy, trading, and general manufacturing industries. Due to their diverse natures, the subjects of customer and financial institution counterparty credit risk are treated separately, addressing for each the organisation of the function, data acquisition process, and IT setup recommendable in order to effectively drive risk management, including a review for the practitioner to analyse his or her processes. A final chapter with analyses regarding trade credit insurance, sovereign risk, and quantitative special items rounds off the text making it into a comprehensive treatise on credit risk management in an industrial corporation.

how to integrate and use project portfolio management with SAP to support your business processes. Focused on cProjects and RPM — as well as the integration with SAP Project System — this guide describes the implementation and usage of the SAP tools for project portfolio management in a process-oriented way. It uses sample customer examples and projects to illustrate specific solution options, is based on the latest SAP releases, and includes an entire chapter on project procedures. Readers get a detailed overview of the typical requirements for a PPM solution, and learn how SAP supports the integration of sub-processes such as portfolio planning, project execution, time recording, and reporting. Expert insights into SAP RPM and its detailed configuration options: master data management, financial and capacity planning, questionnaires, scoring models, and metrics management serve to make this book indispensable. In addition, the configuration options and functions of cProjects are explained clearly with special attention paid to customizing the project structure, document and resource management, project alerts, evaluations, and more. Plus, find out how SAP RPM and cProjects integrate with SAP PS, SAP NetWeaver Portal, SAP NetWeaver BI, MS Project, and SAP ERP. Real-world customer examples illustrate how customer enhancements extend the scope of the solution scenario, including custom fields, cross-system versioning, and more.
