ENCICLOPEDIA GIURIDICA della Sovranità per un sano patriottismo costituzionale 2018-02-14 Giuseppe Palma L'«Enciclopedia Giuridica della Sovranità per un sano patriottismo costituzionale» è un'Opera enciclopedica che Giuseppe Palma aveva in mente già da diverso tempo, finché si è deciso – sacrificando per oltre un anno sia la famiglia che gli affetti più cari – di mettersi a lavoro e realizzare finalmente questo primo volume che a sua volta si suddivide in due parti: la Parte Prima raccoglie tre libri e un paper scritti e pubblicati da Palma dal 2014 al 2017 in ordine sia ai Principi Fondamentali della nostra Costituzione secondo quelle

che furono le intenzioni dei Padri Costituenti, sia al difficile rapporto tra Costituzione e Trattati europei, oltre che all'incostituzionalità dell'eventuale realizzazione degli "Stati Uniti d'Europa" e al rapporto impossibile tra Costituzione e moneta unica europea; mentre la Parte Seconda raccoglie – sempre sui medesimi argomenti - alcuni degli scritti più incisivi dei giuristi Luciano Barra Caracciolo, Paolo Maddalena, Giuseppe Guarino, Paolo Becchi, Vladimiro Giacché, Marco Mori e Luigi Pecchioli. In Appendice, oltre ad ulteriori articoli di Palma sul rapporto tra Costituzione da un lato e Trattati europei, euro ed eventuali "Stati Uniti d'Europa" dall'altro (alcuni dei quali scritti insieme ad altri autori), è altresì riportato il testo integrale della nostra Costituzione. Sempre in Appendice, il lettore potrà consultare un disegno di legge costituzionale (il n. 2703/2017 – XVIIa Legislatura) interamente redatto da Giuseppe Palma, presentato in Senato (comunicato alla Presidenza) il 15 febbraio 2017 a firma di due senatrici della Repubblica, riguardante principalmente l'abrogazione del vincolo del pareggio di bilancio e la

costituzionalizzazione dei "contro-limiti", della piena occupazione e della preminenza dell'interesse nazionale. Per il prossimo anno dovrebbe uscire anche il secondo ed ultimo volume dell'Enciclopedia che riguarderà i tentativi di revisione costituzionale – quindi l'obiettivo dichiarato di costituzionalizzare i vincoli esterni – e l'approfondimento circa i principali profili di criticità della moneta unica europea, entrambi argomenti affrontati in questo primo volume ma che nel Volume II saranno approfonditi con gli scritti anche dei principali economisti italiani che nell'ultimo decennio ne hanno studiato tutti gli aspetti (vi saranno infatti gli scritti di Alberto Bagnai, Claudio Borghi, Antonio Maria Rinaldi, Paolo Barnard, Marco Cattaneo, Cristiano Manfré e altri). Ciò che serve al Paese in questo preciso momento storico, scrive Palma nell'introduzione, è risvegliare un sano patriottismo costituzionale. Questo primo volume dell'Enciclopedia è editato in e-book, sia in formato pdf che in formato epub. L'edizione epub, al solo scopo di facilitarne la consultazione considerato l'alto numero di pagine (circa mille), non contiene le note a piè di pagina,

che sono invece interamente riportate nell'edizione pdf. I riferimenti bibliografici a piè di pagina si trovano pertanto nella sola versione pdf. La prefazione a questo primo volume dell'Enciclopedia è a cura di Paolo Maddalena, già vicepresidente della Corte costituzionale. Scrive Palma nell'introduzione: «Sono davvero contento che Paolo Maddalena abbia accettato di dedicare il suo tempo all'Opera, non solo perché siamo amici - e questo per me è motivo di orgoglio e di vanto -, ma anche perché era giudice della Corte costituzionale quando questa emanò l'importantissima sentenza n. 284/2007, la prima in ordine cronologico sui cosiddetti "contro-limiti"».

SODOMA come sarà il mondo tra cinquant'anni  
2016-07-14 Giuseppe Palma Questo nuovo racconto di Giuseppe Palma è ambientato nell'anno 2066 sull'immaginaria isola di Sodoma, scoperta casualmente nel 2034 a sud delle Canarie, nell'oceano Atlantico, e divenuta in pochi decenni l'emblema della modernità Restauratrice. Palma ha quindi cercato di narrare,

attraverso una breve opera in prosa inquadrabile nella struttura del racconto, quelli che potrebbero essere gli sviluppi e le conseguenze di quanto d'assurdo propina ormai da diversi anni una certa politica nazionale e sovranazionale, tentando un esperimento narrativo certamente difficile ma non impossibile. Come sarà la nostra vita tra cinquant'anni se determinate proposte o soluzioni, che sembrano al momento inarrestabili, dovessero trovare attuazione? Cosa ne sarà di noi? Che ne sarà dei nostri figli? Cosa ne sarà della libertà, del lavoro e della democrazia? Pur trattandosi di un racconto di pura fantasia, questo nuovo tentativo letterario di Palma mira proprio a fornire alcune risposte a simili domande, evidenziando le drammatiche conseguenze cui condurrebbero alcune scelte e/o soluzioni prospettate dalla classe dirigente del nostro Paese su imposizione della sovrastruttura europea, entrambe – scrive l'autore - a libro paga del capitale internazionale e che quotidianamente stuprano i principi supremi scolpiti col sangue nelle Costituzioni nazionali di tutti gli Stati membri dell'Unione Europea. Con

particolare accanimento nei confronti della Costituzione italiana - nata nel 1946-47 dalla sofferenza del genere umano - non a torto definita la più bella del mondo. Considerati i temi affrontati nel racconto è impossibile non accorgersi di un parallelismo con il romanzo “1984” di George Orwell, infatti questo nuovo esperimento letterario di Palma – ch’egli stesso definisce del tutto indegno a confronto del romanzo di Orwell - mira proprio a rendere omaggio alla straordinaria lungimiranza dello scrittore britannico. Nomi, situazioni, personaggi e luoghi sono puramente casuali e frutto della fantasia, fatta eccezione per la cornice generale in cui si colloca l’intero racconto all’interno del quale l’autore fa in alcuni casi riferimento a situazioni e cose strettamente attinenti e connessi alla realtà dei giorni nostri. Sceneggiatura realistica inquadrata in un racconto di pura fantasia. Non manca, come in tutte le opere narrative di Palma, un pizzico di “poesia”. Epilogo tutto da scoprire.

Palma Questo libro, il terzo di Giuseppe Palma sul Sommo Poeta, si inserisce con un anno di anticipo nelle celebrazioni per la ricorrenza del settecentesimo anniversario della morte di Dante Alighieri (1321-2021). Un saggio letterario col quale l’autore tratta due tematiche in particolare: la nascita della lingua italiana col contributo fondamentale del Dolce Stil Novo e la concezione di «patria» in Dante. Seppur di contenuto essenziale il libro è arricchito, nelle conclusioni, da un estratto del proemio che Gabriele d’Annunzio scrisse per l’edizione monumentale della Divina Commedia del 1911, realizzata in occasione del cinquantesimo anniversario dell’Unità d’Italia. La lingua che gli italiani parlano ancora tutt’oggi è pressappoco la stessa del XIII-XIV secolo, per questo l’autore afferma che siamo ancora “Figli del Duecento”. La ricorrenza sia dunque occasione non solo per celebrare il Sommo Poeta, che pure ha la sua importanza come simbolo nazionale, ma soprattutto per riscoprire e valorizzare la lingua italiana, vero motivo perché tutti i cittadini - da Nord a Sud - possano riscoprire un sano e genuino senso

di appartenenza alla Patria.

Poesie nel Borgo tra Globalismo e Medioevo  
2019-07-04 Giuseppe Palma «Poesie nel Borgo» è una raccolta di ventidue Poesie scritte dall'avv. Giuseppe Palma e dedicate al suo paese di origine, Ostuni, dove l'autore ha vissuto per circa un quarto di secolo, conosciuta in tutto il mondo come “Città Bianca” o “Dama Bianca”. Nel tempo della globalizzazione selvaggia che uccide l'animo degli uomini e i diritti sociali costati al genere umano indicibili sofferenze, la strada per salvare l'Umanità – scrive Palma nell'Introduzione - è quella di percorrere un sentiero che conduca verso una nuova forma di “Umanesimo”, quel “piccolo mondo antico” evocato da Antonio Fogazzaro. Ed è proprio in tale contesto sociale che si inserisce questa raccolta poetica di Palma, tant'è che il sottotitolo (“tra Globalismo e Medioevo”) mette in risalto il significato di quasi tutte le composizioni poetiche qui raccolte, quindi la bellezza dell'eredità antica (“Medioevo”) e il burrone verso cui l'Umanità si sta

dirigendo (“Globalismo”). La Prefazione è a cura del prof. Lorenzo Cirasino, poeta ostunese e sindaco della “Città Bianca” dal 1994 al 2002. Oltre a definire il libretto un “Manifesto poetico”, Cirasino riassume il significato dei Versi di Palma qui raccolti evidenziando «il messaggio di fedeltà alla propria terra e alla sua storia, così come alla vita e all'esperienza di chi l'ha abitata prima di noi, viste e sentite non come memoria regressiva ma come custode di valori identitari utili per non farsi travolgere dal fiume del conformismo ed orientarsi nell'orizzonte difficile della modernità [...]». Il libretto è disponibile sia in e-book che in formato cartaceo.

Anime del Sud 2016-09-09 Giuseppe Palma Novella ambientata in Ostuni, conosciuta in tutto il mondo come la Città Bianca, nella giornata di giovedì 23 giugno 2016... Questo nuovo tentativo letterario di Giuseppe Palma è senza dubbio inquadrabile nella struttura narrativa della novella, quindi l'autore ha cercato – in breve – di raccontare una giornata qualunque vissuta da

un giovane ragazzo del Sud Italia, laureato e disoccupato, che scopre la verità su quello che accade a lui e al suo Paese. Ma, forse, non è proprio una giornata qualsiasi... La novella pone anche degli interrogativi e cerca di fornire delle risposte: perché un giovane laureato non riesce più a trovare un'occupazione stabile e che si addica agli studi svolti? Perché non esiste più la possibilità di accedere ad impieghi che garantiscano un reddito stabile e dignitoso? Per quale motivo è necessario imparare l'inglese per andare a fare il lavapiatti a Londra o a Madrid? Perché i principi fondamentali della nostra Costituzione vengono continuamente stuprati da chi invece è pagato per difenderli? Quali sono le conseguenze di tutto questo? E cosa c'entrano l'euro e l'Unione Europea? Il genere narrativo della novella, a partire dalla seconda metà del secolo scorso, ha certamente lasciato spazio al racconto nelle sue più svariate forme (racconto breve, lungo o semplicemente racconto), ma Palma – con questo suo nuovo esperimento narrativo – tenta di riportare la novella al suo antico e glorioso posto nel panorama

letterario nazionale. Vi riuscirà? Ai lettori l'ardua sentenza... Sceneggiatura realistica inquadrata in una storia di pura fantasia. Nomi, situazioni, luoghi e personaggi sono puramente casuali, fatta eccezione per la cornice generale in cui si colloca l'intera novella. Non manca, come sempre nelle opere narrative di Palma, un pizzico di "poesia". Per chi non lo sapesse, Ostuni è la città dove l'autore è nato e cresciuto prima di trasferirsi a Milano, ma questa storia NON è autobiografica. Epilogo che fa riflettere. L'immagine di copertina raffigura il dipinto "Ostuni" della pittrice pugliese Chiara Tota (di Corato), acquerello e china (48x17).

Spicchi di mela verde 2020-01-22 Giuseppe Palma «Spicchi di mela verde» è una raccolta di ventisette poesie dell'avvocato Giuseppe Palma. L'Opera è la terza raccolta poetica di Palma del 2019 per Gds, dopo «Rialzati, Italia! Poesie per la Patria, per il Cuore e per le Tradizioni» e «Poesie nel Borgo. Tra Globalismo e Medioevo». Dal punto di vista prettamente metrico siamo di fronte ad un esperimento letterario innovativo,

a differenza dei due libretti precedenti che raccoglievano Versi attentamente costruiti, anche se anisosillabici irregolari. «Spicchi di mela verde», pur rispettando poche regole metriche basilari, raccoglie poesie scritte in stile contemporaneo al di fuori di cornici metriche e, il più delle volte, senza rispettare né la punteggiatura né le maiuscole o le minuscole. Pur essendo di fronte, anche in questo caso, all'anisosillabismo irregolare, parecchio evidenti sono le molteplici licenze e libertà poetiche. L'esperimento letterario, da inglobare nel vasto panorama della poesia contemporanea, ha l'obiettivo di contribuire allo sviluppo di nuove forme poetiche all'interno dello sterminato spazio della poesia del Terzo millennio. L'Opera completa il trittico poetico di Palma del 2019. In appendice, a titolo di contributo culturale e letterario idoneo ad arricchire il libretto, è riportato un saggio breve di Palma sulla nascita della Letteratura italiana.

scrittrice sfortunata e un viaggio che li costringerà a stare fianco a fianco... Da vera fangirl del true crime e aspirante autrice di romanzi polizieschi, so che è meglio non accettare un passaggio da uno sconosciuto. Soprattutto uno sconosciuto bello e sicuro di sé con un sorriso affascinante. È proprio questo che caratterizza i sociopatici. Ma non ho scelta. Bloccata in un bar della stazione degli autobus dopo aver lasciato quel traditore del mio ex, sono infreddolita, stanca e appesantita, portando con me tutto ciò che possiedo in un enorme zaino. Quindi colgo al volo l'offerta di Mark Sullivan di darmi un passaggio fino allo stato di New York. Starete forse pensando che questa sia la parte in cui mi innamorò del ragazzo, scrivo un bestseller e stravolgo tutta la mia vita? Siete completamente fuori strada. Cose che andranno male durante il mio viaggio: ✓ Rovescio il caffè su Mark Sullivan. ✓ Faccio pipì davanti a Mark Sullivan. (È stato un incidente!) ✓ Una tempesta di neve mi costringe a condividere una stanza di motel con Mark Sullivan. E come se tutto ciò non bastasse, quando torno nella mia piccola città natale con la coda tra le gambe e

mi presento per il mio primo turno alla tavola calda, scopro che Mark Sullivan è in realtà Matthew Sullivan. Famoso scapolo miliardario. Avvoltoio capitalista. Bugiardo. E il sostituto del mio capo per qualche mese. Forse avrei dovuto aspettare quell'autobus, dopotutto. Road Trip with the Billionaire è una commedia romantica, emotivamente dolce, a volte piccante, che ti farà sicuramente ridere a lungo, anche dopo aver finito l'ultima pagina. Spero che ti piaccia leggerla tanto quanto mi sono divertita a scriverla!

Happy Road Trip to You: Chantal e Louis Negli Stati Uniti 2020-07-21 Sophie Rouzier Chi non ha mai sperato di ricevere un viaggio come regalo di compleanno? Se si chiedesse ai francesi qual è la destinazione dei loro sogni per un regalo del genere risponderrebbero, senza esitazione, gli Stati Uniti. Tutti? Tutti, con una sola eccezione: Louis. Questo ragazzone, con un vocabolario da giovane gentiluomo, geek sui generis, che preferisce i numeri e il suo appartamento ai suoi consimili, è sicuramente felice ma con moderazione. La sua ragazza Chantal, di origini nepalesi, è una ragazza ordinata, timida e sempre nell'ombra. Lei aveva pensato di renderlo felice pianificando la loro vacanza. Le tappe principali? La Silicon Valley poi San Diego e un evento molto speciale: il Comic-Con. Se ogni credente ha il suo luogo di pellegrinaggio, anche i fan dei supereroi hanno il loro. Lì, le star del cinema e delle serie televisive incontrano i

loro fan in costume provenienti da tutto il mondo. Doveva andare così ma... se non ci fosse stato un errore nelle prenotazioni! Giusto Chantal? Costretti a cambiare il loro programma, i nostri piccioncini scopriranno tutti i luoghi emblematici del West americano e allo stesso tempo si troveranno catapultati lontano dalla loro zona di comfort. Attraverso incontri inaspettati e molto sorprendenti, i nostri eroi scoprono un'intero settore della cultura americana, rompendo alcuni cliché e confermandone molti altri. Due cose sono sicure: durante questo viaggio Chantal e Louis faranno buon uso dei loro costumi da supereroi e non ripeteranno mai più l'esperienza road trip. Non li troveremo di nuovo! Troppa avventura uccide l'avventura.

Matteo, insieme a Morena, decide di fare un road trip nell'Anatolia orientale, zona della Turchia ricca di fascino e storia. Arrivati in Cappadocia, si mettono subito in macchina, una vecchia Hyundai che non dà troppe speranze, ma che invece li porterà in lungo e in largo per la regione, a visitare antichi siti archeologici che raccontano di epoche lontane e civiltà misteriose, a scoprire le piccole cittadine disseminate tra deserti e foreste, a conoscere persone e culture molto diverse da quelle occidentali, e li salverà persino dall'aggressione di due temibili cani Kangal. Quello che Matteo si porterà a casa non sarà solo un diario di viaggio, ma la netta sensazione di non essere la stessa persona che era partita dall'Italia. Piemontese di origine e Veneto di adozione è nato nell'81 sotto il segno dei Gemelli da cui ha attinto anche alcuni vantaggi tra cui un'innata abilità di vedere opportunità in ogni tipo di situazione e di non sentirsi mai arrivato. Dopo il viaggio in Anatolia, che lo ha cambiato profondamente, non si è mai fatto mancare lo spirito del viaggiatore vivendo sempre in luoghi diversi dalle Langhe a Milano, da Verona a Recoaro Terme,

dove attualmente risiede, selezionando prodotti enogastronomici di alta gamma e proponendoli in enoteche e ristoranti in Italia e all'estero. Gli studi in geologia, la passione per l'avventura, la filosofia e l'esoterismo sono parti integranti di una figura eclettica in continua crescita ed evoluzione.

Lady Nicotina. Riflessioni di un ex fumatore 2023-10-30 James Matthew Barrie Oggi, il narratore di questa storia è sposato, e non fuma più. Tuttavia, non riesce a non ripensare ai suoi tempi da scapolo, quando, insieme ai suoi compagni, fumava e venerava la miglior miscela di tabacco mai esistita, l'Arcadia. Rievoca così i tempi in cui con i suoi amici si tenevano svegli per raccontarsi le loro fantasticherie sull'amore, in cui scommettevano su quando una confezione di tabacco sarebbe volata via da davanti alla sua finestra, e in cui elencavano i danni del non fumare. Un'opera che è un inno alla stravaganza e all'originalità, oltre che una perla dell'umorismo surreale.

Rolling Stones, Keith Richards ha creato canzoni che hanno scosso il mondo intero, vivendo in puro stile rock'n'roll. Ora, finalmente, è lui stesso a raccontare la storia di una vita scampata a un uragano di fuochi incrociati. L'ascolto ossessivo dei dischi di Chuck Berry e Muddy Waters, lo studio della chitarra e la nascita della band, fondata insieme a Mick Jagger e Brian Jones. L'iniziale successo dei Rolling Stones e i famigerati arresti per possesso di stupefacenti, che ne hanno consacrato l'immagine duratura di eroe popolare e fuorilegge. L'invenzione di riff immortali come quelli di Jumpin' Jack Flash e Honky Tonk Women. L'amore per Anita Pallenberg e la morte di Brian Jones. L'espatrio in Francia per motivi fiscali, i tour incendiari negli Stati Uniti, l'isolamento e la tossicodipendenza. Il nuovo amore per Patti Hansen. L'amaro allontanamento da Jagger e la successiva riconciliazione. Il matrimonio, la famiglia, gli album solisti e gli X-Pensive Winos, e la strada che non finisce mai. Con la disarmante onestà che è il suo marchio di fabbrica, Keith Richards ci consegna la storia di una vita che tutti avremmo voluto conoscere

meglio, sfrenata, impavida e autentica.

Scandito in tre parti – «Le vittime», «Gli imputati», «La corte» –, V13 raccoglie, rielaborati e accresciuti, gli articoli (apparsi a cadenza settimanale sui principali quotidiani europei) in cui Emmanuel Carrère ha riferito le udienze del processo ai complici e all'unico sopravvissuto fra gli autori degli attentati terroristici avvenuti a Parigi il 13 novembre 2015 – attentati che, tra il Bataclan, lo Stade de France e i bistrot presi di mira, hanno causato centotrenta morti e oltre trecentocinquanta feriti. Ogni mattina, per quasi dieci mesi, Carrère si è seduto nell'enorme «scatola di legno bianco» fatta costruire appositamente e ha ascoltato il resoconto di quelle «esperienze estreme di morte e di vita» – le testimonianze atroci di chi ha perduto una

persona cara o è scampato alla carneficina strisciando in mezzo ai cadaveri, i silenzi e i balbettii degli imputati, le parole dei magistrati e degli avvocati –, e lo ha raccontato, come solo lui sa fare, senza mai scivolare nell'enfasi o nel patetismo, e riuscendo a cogliere non solo l'umanità degli uni e degli altri (sconvolgente, ammirevole o abietta che fosse), ma anche, talvolta, la quasi insostenibile ironia dei discorsi e delle situazioni. Da questo viaggio al termine dell'orrore e della pietà, da questo groviglio di ferocia, di fanatismo, di follia e di sofferenza, Carrère sa, fin dal primo giorno, che uscirà cambiato – così come uscirà cambiato, dalla lettura del suo libro, ciascuno di noi.

Un tempo smarrito 2015-02-11T00:00:00+01:00 Marie-Laure de Cazotte Éric Meyer è un potente quanto spietato uomo d'affari, il tipo che non guarda in faccia nessuno, abituato a vincere, con uno stuolo di belle donne sempre ai suoi piedi. La situazione precipita

quando una delle sue amanti tenta il suicidio. La moglie, costretta ad aprire gli occhi, decide di lasciarlo. Il doppio shock è fatale all'equilibrio di Éric che, in stato confusionale, finisce nell'ospedale psichiatrico diretto dal professor Kaplan. In quel luogo diverso, confuso tra i "pazzi", per la prima volta in vita sua si ritrova a far parte del mondo degli emarginati, le persone che non hanno potere, quelle che lui ha sempre guardato dall'alto in basso. Per Éric Meyer è l'inizio di un viaggio a ritroso dentro se stesso alla scoperta delle menzogne accumulate negli anni e di memorie rimosse: un lento lavoro di ricostruzione, pilotato dal professor Kaplan, che lo porterà a rivalutare certi affetti e legami e che, soprattutto, gli farà capire come l'arroganza e il cinismo non possono costituire gli unici valori di un uomo, per quanto baciato dal successo. Attenzione, però: a innescare la guarigione profonda di Éric Meyer non saranno né farmaci né terapie, bensì la medicina più soave di tutte: la poesia.

Come una filastrocca 2019-11-11 Mathias P. Sagan A trent'anni, Corentin scappa dalla vita che si è costruito. Le domande che ha cominciato a porsi gli fanno abbandonare il compagno con cui ha vissuto per sette anni e un lavoro che gli piace. Corentin non è felice. Pensa di aver sbagliato tutto nella sua vita. Ritorna a vivere con sua madre, nella stessa casa dove è cresciuto, luogo in cui non mette piede da quindici anni e ritrova David, il suo migliore amico d'infanzia. Oltre a sua madre, ritrova anche Corinne, la madre di David, e la sorella di lui, Charlotte, con il figlio quattordicenne. Nel corso degli anni, Corentin è diventato po' arrogante, ha un ego smisurato e ha sviluppato un forte pregiudizio riguardo le persone modeste, tanto che per gli altri il suo comportamento è al limite del detestabile. Nonostante

Pharmako/Gnosis 2021-11-26 Dale Pendell  
Pharmako/Gnosis è la più completa esplorazione scientifico-poetica delle piante psicoattive e dei relativi sintetici: un universo di conoscenza proibita che ha il potere di guarire. Ayahuasca, mescalina, amanita muscaria, peyote, San Pedro, jurema, DMT, ketamina, toloache, alcaloidi tropan e molte altre specie e sostanze sono raccolte in uno studio enciclopedico e interdisciplinare in cui si incontrano farmacologia e neuroscienze, etnobotanica, antropologia e mitologia. Scritto nella lingua della psilocibina e illustrato seguendo l'antica tradizione degli erbari, questo capolavoro della letteratura psichedelica accompagna il lettore lungo la via venefica, lo immerge nel mondo culturale e spirituale dei veleni e dei medicinali, in un viaggio giocoso ed erudito i cui riferimenti spaziano da Anaïs Nin a Friedrich Nietzsche, da Carlo Ginzburg a Timothy Leary, da William Blake e Rainer Maria Rilke. Il mondo vegetale è alleato e insegnante, noi comunichiamo con le piante e loro con noi. Pendell condivide la magia di questa reciprocità, questo libro è una presentazione

Bookmapping 2011 Terence W. Cavanaugh  
Bookmapping allows students to plot the locations of a story on an interactive map, adding multimedia and hyperlinks about the setting, characters, and plot. They can add a photograph of a historical figure or an audio clip of regional music. And maps offer much more, helping students see places in the book firsthand - the vastness of the ocean their hero must cross, or the density of a city that hosts colorful and varied characters. In Bookmapping: Lit Trips and Beyond,

Terence W. Cavanaugh and Jerome Burg show you how this dynamic, interactive activity is a cross-curricular tool that helps students not only develop a better understanding of places, cultures, and the books they are reading, but also make connections among the subjects they learn in school.

Along with doctor consultation, a psychologist must also be consulted who can deal with the emotional challenges of the adolescent. The family should also play an active role in making the youngster feel better. The family should work in collaboration with physician, dietitian and diabetes educators. Teachers, counselors, school nurses, day care providers, and other community members can provide extended support and guidance. They can provide help with transportation, mental health counseling, health education, social services and financial services.

### **Eating Disorders in Adolescents**

Since the adolescence is the age where bones are sprout and grow rapidly, well nourished food must be given to the adolescent to facilitate normal growth & development. The nutritional intake must be monitored regularly and modified depending upon the growing needs. Teenagers tend to develop eating disorders which affect their

nutritional health. The eating behavior must be corrected as early as possible as it can lead to the development of complex illnesses. Eating disorder is the third common chronic illness, especially in adolescent females and the number has been increasing rapidly from the past thirty years.

*Revenge t t i p che cos cosa:*When adolescents wear braces they have to take certain precautions in order to avoid any more oral health complications. The most important precautionary measure is to brush the teeth regularly after every meal. Since the food can be easily lodged in braces, it is a good idea to brush carefully with soft bristles toothbrush and fluoride toothpaste. In the morning, the adolescent must floss between the braces and teeth. Food stuffs which are sticky or hard must be avoided as they are very difficult to remove. Foods like caramel, chew candy, popcorn, and nuts must be avoided. Cleaning must be done by the orthodontist or general dentist, every five to six months. The wisdom teeth or third molars can grow in people of the age fifteen to twenty five. These teeth cause problem, because most of the mouths are too small to adjust new teeth and hence they need to be removed. If the wisdom tooth has place to grow, without affecting other teeth, they can be left to themselves. But if the adolescent experiences pain, facial swelling, mouth infection and gum-line swelling, then they should be extracted immediately. They can also destroy the second molars and impact other tooth. Various gum and jaw diseases can be caused. There can be a tumor development; cysts development and plaque build up. Hence, a surgery is performed to remove the tooth or teeth. The gum tissue covering the wisdom tooth is removed and the connective tissue connecting the tooth to the bone is detached. The tooth is then removed and the opening is sutured. A general dentist can perform wisdom tooth surgery in the local office using anesthesia.

Five times common than asthma is tooth cavities. The tooth above the gum line is made up of enamel, the hardest tissue within the human body. The tooth below the gum-line comprise of nerves, roots and dentin. Dentin is another type of tissue, and isn't as hard as the enamel. The acid which leads to tooth decay is produced by bacteria. These

acids, along with dietary sugar, attack the enamel and eat away the minerals within the enamel, until a cavity is formed. This is known as tooth cavity. The biggest prevention against dental cavities is brushing teeth twice a day and even better, after every meal with fluoride toothpaste and soft bristle toothbrush. Carbonated drinks must be avoided strictly and must be replaced with fruit juices and sugary food must be avoided. Intake of fluoridated water also helps a lot or fluoride supplements can be used as replacement.

### **History t t i p che cos cosa, Depression in Adolescents**

Depression in adolescents is a disorder which occurs due to persistent sadness, loss of interest, loss of self worth and discouragement. Depression is normally a temporary reaction towards situations of stress. Depression is a normal part of the maturation process of adolescents. It is even induced due to production of sex hormones. Adolescent females are depressed twice more than adolescent boys according to a study.

Adolescent behavior is normally marked with good and bad moods. The transition from a good mood to bad mood and vice-versa, can take minutes, hours and even days. That is the reason why true depression is very difficult to find out. Depression in adolescents can be caused due to bad school performance, break up with boyfriend or girlfriend, and failing relations with friends and family. These causes can lead to persistent depression. Other serious causes are chronic illness, obesity, child abuse, stressful lifestyle, poor social skills, unstable care giving and depression in family history.

### **Challenge t t i p che cos cosa**

The needles used helps the body balance the serotonin levels since it is a neurotransmitter that affects blood vessels and has a role to play in migraines. In fact the more frequent these sessions are the better. It may even come to a point where the specific point of contact is no longer needed but the general stimulation itself.

The end result of undergoing acupuncture is amazing. If you experience 15 to 20 days of agonizing pain, this may be count down to only 8 days. You won't even need to use that much medication anymore as before.

For those who are working, this is good so that they are not absent from work that much and there won't be that much deductions in their salary.

**Best Seller : t t i p che cos cosa...**Once he or she knows the reason, this is the time that the needles are inserted into different parts of the body. One way is called the multi-targeted approach which is designed to lower the body's weight by increasing the output of the pituitary gland.

The areas where the needles will be inserted will be in the ear and in two of three body points. These areas could also include the mouth, the stomach, the lung, the endocrine, the spleen, kidney or thyroid.

During the initial treatment, the "Four Gate" points would be used to circulate energy throughout the entire body. It is also possible that electro simulation will also be done to increase endorphin release and stimulate metabolism.

### **Acupuncture is an Example of Holistic Healthcare**

Holistic healthcare by definition is being able to cure an illness through the use alternative means. This means no medication is given to the patient and an instrument like a bunch of needles could do the trick.

Acupuncture has been around for than 2000 years. It is only recently that this holistic form of healthcare has reached the US. Studies have shown that it can treat minor problems and prevent some from happening.

The needles used in acupuncture are very thin but thicker than the human hair. This makes it smaller than those used on hypodermic needles.

### Acupuncture Can Help Treat Migraines

Acupuncture can help treat migraines. This was discovered after a comparative study was done with conventional medical care. In some cases, it even prevents it from happening which helps improve the quality of life for the patient.

To understand how acupuncture helps migraine sufferers, you have to understand that in traditional Chinese medicine, it is believed that an imbalance in the flow of blood and energy causes this to happen.

In order to treat it, the specialist must relieve the tension by inserting needles into the body to improve the blood flow to the brain thus reducing the pain experienced during an attack.

*Investment t t i p che cos cosa...*The lists of subjects you will be learning in school include anatomy, body therapy, massage therapy and the other sciences. Training will be done also in a clinical setting so you are able to put theory into practice but this will only happen in your third year.

While some schools will let you finish a program in three years, there are those that can be completed after five. Lately, acupuncture school has also gone down the digital path by offering cyber distance programs for those who cannot go to school. Some of these offer CEU's or continuing education units to advance programs.

Study case t t i p che cos cosa:Should there be a school near where you live, you should probably take it so you don't have to worry about boarding and lodging as this is just added cost to this long term investment.

If you like the school but cannot afford the cost of tuition, find out if they offer scholarships or if they have a grant in aid program. If there are none, then check with the federal government because they should have one and they

will give it to deserving students who plan to enroll in a school accredited by the National Commission for

Acupuncture and Oriental Medicine.

Some states do not require you to get a license once you graduate from the program. However, if you plan to practice this elsewhere, you should prepare yourself for the state board exam as this is a requirement.

### **Eight Myths About Acupuncture**

There are a lot of myths with regards to acupuncture. Some of these are true; others are silly while the rest only have a half truth. As you read on, you will learn which ones are worth believing.

The first myth is that acupuncture is painful. This is not true because those who have tried it claimed they only experienced a tiny prick while others did not feel anything at all. There is no tissue damage when the needle is inserted into the skin or pulled out and only in very rare cases are there traces of bruising.

The second myth is that you can get hepatitis or AIDS from acupuncture. This is true only if the needles used are not sterilized. In the US, this will never happen because acupuncturists are required to use disposable needles thus you are not at risk from these two diseases.

### **Acupuncture For All Those Simple Aches And Pains**

If, like me, you have quite a fear of needles and injections, then acupuncture, that practice of sticking needles onto different parts of your body to cure sicknesses might seem scary at first.

However, if youve been long been suffering from some problems like headaches or chronic pains and your regular visits to the doctor dont seem to be helping you, then why not consider a trip to an acupuncture specialist? After all, who hasnt heard of somebodys aunt somewhere suffering from arthritis and trying out everything that the doctors

recommended all to no avail, only to finally be cured by a really good acupuncturist?

Perhaps you were wondering if it could actually work for you. You might feel a bit skeptical since traditional Chinese medicine doesn't immediately coincide with theories in modern Western medicine. In fact, the use of needles to cure people was discovered thousands of years ago in China long before microscopes or x-ray machines were invented or before bacteria and germs were discovered.

Are you very much interested in accounting? Well, if you are, you should take up accounting education. By doing so, you will gain systematic knowledge about the different practices and skills involved in accountancy and business. What is the meaning of accounting? It is defined as the art of systematic recording and analyzing of financial business transactions. The history of accounting dates back many years ago. Accounting is already an essential part of modern education. Every nation needs accounting because it is the key to economic development.

If you want to pursue an accounting course, you should first choose a university or college. There are local universities and colleges that you can enroll in for an accounting course. If you prefer attending college abroad, you may do so. But make sure that you choose the university or college wisely. You also have to determine where you will stay when you're already there; you can either stay at the dormitory or you can rent an apartment. Expenses are a

great consideration as well.

## History t t i p che cos cosa

As more people are opening their minds to this practice, people should know that getting an acupuncture degree will not replace traditional medicine since there are limits to what it can do for the patient. It is merely a form of holistic healthcare that works hand in hand with science to help the person deal with an illness.

When you think about it, that might be something that the practice has going for it. If it has existed already for thousands of years and is still being practiced by millions up to now, then it must have worked already for quite a number of people.

### **What typically happens when you go to an acupuncturist?**

When you go to an acupuncturist, you would typically first be asked about your medical history, how you're feeling and any symptoms of sicknesses you might have. The specialist would observe features of your face, including your tongue. According to specialists, your tongue is a good indicator of the health of your internal organs. The acupuncturist would listen to sounds that your body makes like the sounds coming from your lungs. How your body smells could also be an indicator of your overall health for the acupuncturist's diagnosis.

## *Project t t i p che cos cosa*

Based on what the acupuncturist finds out about your sickness, he or she would then formulate the treatment that your body needs. With traditional Chinese medicine, sicknesses are seen as a kind of imbalance and loss of harmony between your body's organs. You can consider the use of needles on your body as just a way to push your body and its organs back into balance.

The specialist would begin inserting very thin needles into the right places in your body. To many people, inserting these needles doesn't really hurt. After all, an acupuncturist's needles are usually much thinner than the needles that are used for injections. Many have claimed that inserting these needles actually calms them down and relaxes them.

## **How does the use of these needles help you?**

A lot of problems have been claimed to have been alleviated through this practice. These include headaches, the common cold, arthritis, back pains, asthma and even infertility.

## **Study t t i p che cos cosa**

Patients of acupuncture typically experience very minimal or no pain at all, however most of the points are located near nerve endings and muscle tissues. As the needles are embedded in the body, signals are sent to the brain thus promoting the release of endorphins from the pituitary gland.

There are also other points in the body that serve as gateways for better weight management. One of these placements promotes a decrease in an individual's appetite, while another has the ability to reduce water retention in the body. The acupuncturist may choose a multi-targeted approach, depending on the requirements of the patient.

**Liberation t t i p che cos cosa**\_\_\_Even though acupuncture isnt part of Western medicine, Western medicine experts have studied it extensively. Some theories as to why it works involve acupuncture perhaps stimulating the brains release of the bodys natural painkillers. Acupuncture could also stimulate proper circulation in the human body.

Western medicine is still studying acupuncture and trying to find out how to best integrate it with practices in Western medicine. That is why, along with Western medicine and trips to the doctor, one could certainly try acupuncture.

It couldnt hurt and it might actually be the one to finally relieve you of a lot of your bodys aches and pains and even make you healthier.

*Guide t t i p che cos cosa*~A lot of people are unaware that acupuncture is not yet legal in every state. You can find work or start your own practice in California, New York, Texas, Hawaii and Oregon with 8 more states that are still pending legislation.

We mentioned that you have to study in a school certified by the Council of Colleges of Acupuncture and Oriental Medicine (CCAOM). One more hurdle you have to face before getting your license is passing an exam given by them except in the state of California which has its own regulating body and board certification exam in order for you to practice your profession.

An acupuncturist degree is just the first step in becoming your own boss. To become a master, you have to learn everything there is to know as a student so those who entrust themselves to you in the future will not have any problems.

**Concepts t t i p che cos cosa**-OCD is a sign of brain circuitry's unusual functioning and it involves the striatum part of the brain. The brain activity patterns of such people differ from normal people and people with other mental disorders. Researchers have concluded that OCD is usually a family problem and is a disorder of the brain. Streptococcal bacterial infection can create or worsen the condition of OCD. Adolescents with no family history of OCD can also develop it. Most of the adolescents feel embarrassed to talk about their OCDs. They think that people will label them as crazy and this will make them feel ashamed. This will make it difficult for the parents to talk to their children about their OCD, in order to solve them. Parents need to develop good communication skills for this purpose. Parent's support is also very important to the adolescent. Cooperation is extremely important along with treatment, because if the problem is not treated the adolescent will grow into a disturbed adult.

Most of the adolescents with OCD can receive effective treatment. The treatment can include psychotherapy and intake of medications such as fluoxetine, clomipramine, fluvoxamine, paroxetine, sertraline and other serotonin

reuptake inhibitors. When OCD is caused due to streptococcal infection, the adolescent can be administered with antibiotics to kill the bacterium which is causing it. Exposure and response prevention behavioral therapy is very useful in solving OCD. In this therapy, the adolescent is wontedly exposed to his/her fears which give him/her obsessive thought. After that he/she is trained to avoid these thoughts and the rituals which he/she carries out to tackle the anxiety.

An adolescent having OCD can also have depression, substance abuse, attention deficit hyperactivity disorder, eating disorders, and other types of anxiety disorders. When a person with OCD and other mental illness, is treated, OCD becomes more difficult to treat and even diagnose.

The other virus called cytomegalovirus which also belongs to the family of herpes simplex causes the cells to become enlarged. According to statistics, about eighty percent of adolescents infected with this virus generally don't see any further symptoms. Although EBV has potential to develop infectious mononucleosis in adolescents the virus could make throat and blood cells its home for the lifetime. The virus has the capability to bounce back and reactive from time to time but the consolation is that it would reactivate without symptoms.

The condition usually lasts for 1-2 months. The symptoms may vary from one adolescent to other but may include inflamed lymph glands in areas such as groin, neck and armpits, fever, continuous fatigue, enlarged spleen, sore throat as a result of tonsillitis that can make things difficult to swallow and last but not the least minor liver damage that can lead to short-term jaundice. Some adolescents may also experience symptoms such as abdominal pain, petechial hemorrhage, muscle ache, headache, depression, loss of appetite, skin rash, weakness, dizziness, enlarged prostate, dry cough, swelled genitals and puffy and swollen eyes. Some parents are puzzled by the symptoms of mononucleosis as it may be similar to other medical conditions. It is safe to consult a doctor in such cases.

The viruses are usually transmitted to other people through saliva (the reason why it is also called kissing disease), blood, sharing drinks and sharing utensils. The symptoms usually lasts for 4-6 weeks and do not cross 4 months. The disease is diagnosable but requires a thorough medical history of the adolescent. The diagnosis also involves physical examination of the adolescent and is based on symptoms reported to the physician. The diagnosis is further supported by laboratory test like blood test, antibody test and test to count white blood cells.

#### **How does sticking needles into your body help manage the stress?**

In traditional Chinese medicine, much of the treatments depend on an understanding of the balance in our bodies and its internal organs. The sicknesses we sometimes develop are seen to be caused by imbalances in our lifestyles and environment. Stress is also affected by this imbalance. That is why when there is something wrong with your body, youd typically have less of an ability to deal with stress. Youd get more irritable and find it really to difficult to relax.

By sticking these very thin needles past the surface of our skin, the acupuncturist stimulates nerves in our body. These nerves send signals to our brain and scientists believe that the brain then releases its natural painkillers into our system. This immediately causes a feeling of relaxation for many people.

The needles could also help your body by stimulating its circulation. With the circulation between the organs of the body improved, a lot of the bodys wastes could be cleansed properly. Your organs would also receive the full benefit of the oxygen from your lungs making its way into the cells of your body without any blockages. This makes your organs much healthier and leaves you feeling much better in the long term as well.

Hypertension is diagnosed by blood test and urinalysis. The kidney function will also be checked, along with blood cholesterol levels. Family history check is another important factor. Adolescents' eating habits, exercise levels, activities in school and home will also be studied thoroughly. High blood pressure is dealt with by weight reduction, healthy diet, and increase in physical activity. If hypertension is due to illness, the illness is treated first. These treatment measures will decrease the systolic blood pressure and diastolic blood pressure. It will also strengthen the heart and decrease the level of cholesterol in blood. This also helps to keep heart diseases at bay. The good thing is that only one percent of the adolescents, who have high blood pressure, need medication to bring back the blood pressure to normal.

### **Infectious Mononucleosis**

Also known as mononucleosis or mono Pfeiffers disease or glandular fever, infectious mononucleosis can be identified by inflamed lymph glands and constant fatigue. The disease is named so as the amount of mononuclear leukocytes which belong to white cells increase in number. The cause of the disease is EBV (Epstein - Barr virus) or in some cases cytomegalovirus. Both these viruses belong to the family of herpes simplex. According to statistic majority of the adults in the United States are exposed to the virus Epstein – Barr, a very widespread virus. Although the virus does not show any visible affects in children but it does in adolescents which can lead to infectious mononucleosis in nearly fifty percent of cases of exposure to the virus.

Heat cramps are the mildest of all heat related injuries and constitute aching muscle cramps and also spasms that occur during intense exercising and also after intense exercising and also sweating in high heat. The symptoms of heat cramps include cramps that are painful in the legs. Flushed and moist skin is also symptoms of heat cramps. The symptoms could also include mild fever generally below 102 degree Fahrenheit. Teens suffering from heat cramps should move to a cool place and take adequate rest. Remove any excessive clothing and wear or put cool clothing on skin or cool skin using air conditioner or fan. Sports drinks which are cool and which contains sugars and salts can also be taken. Stretching out cramped muscles slowly and steadily also helps reduce heat cramps.

On the other hand heat exhaustion is more serious and severe compared to heat cramps and occur due to heavy loss of salt and water from the body. Extreme heat conditions, inadequate fluid intake and excessive sweating results in this conditions. Also, heat exhaustion occurs as a result of inability of the body to maintain the body temperature below the normal which can deteriorate further and also result in a heat stroke which is even worse. The symptoms of heat exhaustion are: muscle cramps, moist skin, pale skin, nausea, fever above 102 degree Fahrenheit, diarrhea, vomiting, fatigue, headache, weakness, anxiety and faint feeling. Teens suffering from heat exhaustion should stay in cool surrounding and take enough rest. Removing excessive clothing, putting on cool clothes and sitting in fan or air conditioning also helps the situation. Intake of cold sports drinks which contains salts and sugars are also advisable.

If a teen does not show any sign of improvement even after taking all these measures a physician should be consulted

immediately.

The earliest account of this is found in the book called Nei Jing which in English means the Yellow Emperor's Classic of Internal Medicine. The contents of this book date somewhere around 200 BC. Back then, they did not use metal needles and instead used those made out of stone, moxibustion and herbs to treat a patient.

Acupuncture prevents and treats diseases by inserting very fine needles into the skin specifically at the anatomic points of the body.

The principle behind this concept is that illnesses occur because there is an imbalance in your life force otherwise known as Qi. It is believed that this flows in 14 channels in the human body known as meridians which branch out to bodily organs and functions. If there is a blockage or obstruction in any of them, this is when you succumb to a disease or an illness.

### **Best Seller : t t i p che cos cosa...Acne in Adolescents**

Acne is one of the most common problems in adolescent teens affecting nearly seventeen million people in the United States. Acne is nothing but a disorder involving sebaceous glands and hair follicles. Acne results from the clogging of sebaceous glands leading to the formation of pimples and cysts. The condition usually begins with the onset of puberty. Going by the facts, as teens attain puberty the androgens also called male sex hormones are produced in high number leading to sebaceous glands becoming over active which results in sebum being produced in high proportions.

Sebum, which is nothing but oil is produced by sebaceous glands which travel to the skin surface through hair follicles. But, skin cells block the follicles which results in oil also being blocked. When these hair follicles are

blocked it results in the development of skin bacteria known as Propionibacterium Acnes within the follicles which in turn results in swelling of the skin called Acne. If the hair follicles are partially blocked it results in blackheads. If the follicles are completely blocked they result in whiteheads. But if these plugged follicles are not treated they ultimately burst causing the oil, bacteria and skin cells to spill all over the skin resulting in irritation and formation of pimples. Acne can be shallow as well as deep in various individuals depending on the nature of skin and amount of oil produced.

Teenagers suffering from asthma often have allergic reaction to cold and get asthma attack is another example of allergies. Some kinds of allergies trigger multiple symptoms. Allergic reactions in very rare cases also produce severe reaction known as “anaphylaxis” for which the signs are difficulty in breathing, difficulty in swallowing, swelling in tongue, lips and throat and dizziness. This allergic reaction occurs as soon as the system is exposed to substances that trigger allergic reactions like peanut although some reactions are delayed by as much as four hours.

The reasons why people get allergies can be various and one of the reasons could be hereditary but that that does not necessarily mean that children are bound to get allergies from their parents. Some of the common allergens include food, airborne particles, insect bite and sting, medicines, chemicals etc. Food allergies typically occur in infants and usually vanish as the child grows. The list of food allergens includes milk & dairy products, wheat, soy, eggs, peanuts, and seafood. Some people are allergic to stings and bites of certain insects. The venom in the bite is the one which actually causes reaction and can be as serious as anaphylactic in some teens. Some teens are also allergic to airborne particles which are also known as environmental allergens. They are also the commonest of all the allergens. Examples of these allergens include dust mites, animal dander, mold spores, grass pollens, trees and ragweed. Some adolescents are also allergic to certain antibiotic medicines. Another common allergen is chemical, certain chemicals present in laundry detergents or cosmetics can cause rashes that are itchy in nature.

Allergists usually treat allergic problems. They may ask questions like symptoms of the allergy and whether it is hereditary. They may also prescribe certain diagnostic tests like blood or skin test depending on the type of allergy.

The best way to treat allergies is to completely avoid the substances that cause allergies. However there are certain

medications and injections are also available to treat allergies.

There is a great consensus among the parents whether their children would outgrow asthma as they grow up. But the truth is it depends from child to child. While some children experience improvement in their teens others see asthma becoming even more severe. But almost half of the children who have asthma outgrow asthma as they grow although some symptoms may come back later.

Many parents have questions like whether their children can take part in sport activities. The answer is both yes and no. Some kids may get an asthma attack when they participate in exercises like running. But with proper management a teenager suffering from asthma can actively participate in sports. Special aerobic exercises can improve airway function. This strengthens the breathing muscles. Some of the ways that one can participate in sports is to follow the regimen of stretching the muscles prior to and after exercising, nose-breathe instead of breathing through the mouth and make sure that humidified air passes through the airways. Also parents should make sure that the adolescent has taken all prescribed medication supposed to be taken before they begin exercising. Carrying a reliever is a must for asthmatic teens which would come handy if asthma attack occurs. Asthmatic teenagers should make sure that they wear something over their mouth and nose to stop cold air from entering.

It is not easy for adolescent teens to attend school when they have asthma but it is not difficult also at the same time if proper coordination is made among the teenager, doctor, family and school employees. It is a good idea to consult teachers, nurses and other pertaining employees of the school and let them know that the teenager has asthma and may have special requirements. Also, let the school management know on medications the teenager regularly takes and how to help the teenager when an attack occurs. The school staff should be asked to treat the teen normally once the attack subsides. The physical education coach should also be informed about the condition so that he/she can let

the kid stretch the muscles before any exercises or to deal with asthma attack induced due to exercises. Also, before admitting the teenager to a new school care must be taken to check the quality of air, irritants and allergens if any present in the school. The school staff should take considerations to avoid symptoms which could hamper the energy level kids. Also asthmatic teens should be assured from time to time that they are no different from others and asthma in any way does not slow them down, They need this emotional confidence otherwise they may have personality problems.

*observation t t i p che cos cosa:*Most patients that undergo acupuncture will not feel any significant change after one session which is why a few sessions are needed. Best of all, it is painless so your body will not feel sore afterwards. Several studies have been conducted about acupuncture and there have been positive results. For instance in the UK, 400 participants who were suffering from migraines claimed they felt better after 3 months worth of sessions. In the US, acupuncture has also proven to be effective in helping people deal with arthritis because the needles help the body fight against this chronic illness that is much cheaper and more effective than conventional medicine.

Practitioners of Chinese traditional medicine believe in energy flows. This energy, called Qi, circulates around the body using pathways called meridians. Meridians run very close to the surface of the skin in certain areas and can be accessed by needles. Much like plumbing, these pipes can get blocked or go the wrong way, causing health problems. The insertion of needles at these points is aimed to help loosen blocks and normalize flow.

### **Acupuncture and Autism**

Studies have shown that there is an increase in the number of children that have been diagnosed with autism. Until now, doctors have not yet found a cure to this illness which is why some parents want to experiment with alternative

forms of treatment and one example is acupuncture.

Acupuncture is a holistic approach in treating and preventing certain diseases. Its main tool are very thin needles that are inserted to targeted points in the body. The body has about 400 of them linked through a system known as meridians or pathways. Once these are stimulated, these are supposed to create balance in the body.

Autism on the other hand is a brain disorder that is long term. This disease is characterized by deficits in language, social communication and cognition. Children who are diagnosed with this illness may also suffer from secondary problems such as aggression, irritability, stereotypes, hyperactivity, negativism, volatile emotions, temper tantrums, short attention span and obsessive-compulsive behavior.

**Guidet tip che cosa...**The needles used in acupuncture are very small and you will probably feel a slight twitch when the needle goes in. They will be inserted carefully to  $\frac{1}{4}$  or an inch in depth and will stay there from 45 minutes to an hour depending on the condition of the patient.

If inserted properly, you should feel some cramping, distention, electric sensation or tingling which means that the treatment is working.

Needles used for acupuncture especially in the US are clean because they are required to be disposable. This prevents any chance that those who go for treatment will be contaminated by a communicable disease like hepatitis or HIV.

Modern acupuncturists nowadays use disposable fine stainless steel needles that are 0.007 to 0.020 inches in diameter, which are sterilized with either ethylene oxide or by autoclave. Since they are way finer than hypodermic

syringe needles, being poked by these needles are relatively painless. The upper third of the needle is covered with either a thicker bronze wire or plastic to make the needle sturdier and easier to handle. The length of the needle and how far they are inserted is all up to the acupuncturist and his practised style of acupuncture.

### **Example Of Treatment**

If a patient has a headache, he/she is diagnosed and is treated by stimulating the sensitive points located at the webs between the thumbs and palms. In acupuncture theory, these points are connected to the face and head and can be used for treatment of headaches and other ailments involved. Needles are then carefully inserted into the skin until the patient feels a twinge, which is usually accompanied by a slight involuntary twitching of the area. During this treatment, a number of things may occur.

- Sensitivity to pain in where needles are inserted.
  - A hint of nausea during treatment in case of bad headaches.
  - Near-immediate headache relief.
