The Peabody Picture Vocabulary Test Fourth Edition (PPVT-4) is a highly regarded vocabulary assessment that has been in practice for close to half a century. Formulated by Lloyd M. Dunn and Douglas M. Dunn, the assessment is designed to measure vocabulary comprehension for American English. It is quick and simple to administer, saving valuable time so that focus can be put on implementing effective strategies.

The PPVT-4 assessment content covers a wide range of receptive vocabulary grades, ranging from preschool through adult age. The test questions extensively include words that represent 20 content areas (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and educational vocabulary.

The evaluation gives two equal editions which contain various vocabulary items, making sure that the person has not “mastered” the test. One edition can be used ahead of intervention to evaluate individuals’ vocabulary understanding and the alternative edition can be utilized for re-testing to assess and document improvement. The PPVT-4 also includes a distinctive Growth Scale Value (GSV) which is responsive to minor changes in time.
