2004, both the number of people using eBay, and the number of amazing stories of their experiences, have continued to grow at an amazing rate. In the last year alone, over 1 million new users signed up to eBay.co.uk, and the total number of users hit the 10 million mark in February 2005. In fact, people in the UK spend more time on eBay than on any other website, making it the most popular brand name on the internet. It has over 3 million items for sale in its auctions at any one time, and among these are every type of collectable and consumer goods imaginable. eBay provides a simple and amazingly

effective way for anybody to auction items that they want to sell - whether they are antiques, books, computers, sports equipment, vinyl records, DVDs, clothing, jewellery, celebrity memorabilia or in fact almost anything - and allows potential buyers to browse and bid on this vast catalogue from the comfort of their own homes. In this fully revised and updated edition of The eBay Book, David Belbin, a long time eBay user, explains how eBay.co.uk works, and how to get the most out of it, whether you are a buyer or a seller. He takes you through the key features of the site, step-by-step, advising on the tactics

you can employ when bidding and selling, and explains how to minimise the fees you pay and just why your feedback rating is so important. He also explores the best ways to pay for goods and what to do if your transactions go wrong. This hugely readable book also contains a wealth of case studies, which draw on the knowledge and experience of a wide variety of eBayers, each with their own view of the eBay phenomenon. For newcomers, this is an indispensable

eBay Introduction: Quit Your 9-to-5 Job and Become a Solopreneur 1. Your phone's alarm goes off. 2. It's time to get up, shower, grab a bagel and coffee on the way to work, and drive there. 3. You appear to be on autopilot every day. There's no need to think about it; just do it. For many people, a traditional 9-5 job, while somewhat secure, is not what they expected when they signed up for it. You may only have two weeks of vacation per year; the pay is pitiful; the people are a bunch of gossipers; and the work - well, let's just say you don't really need your degree to do what you're doing. People,

particularly Millennials, are increasingly abandoning full-time employment. Climbing to the top of a company is no longer a common career path. Millennials, on the other hand, frequently see eBay, starting your own company, or growing your own business as the new norm. And the data backs this up: eBay is on the rise. eBay is one of the most active online marketplaces, with a multibillion-dollar turnover and over 180 million users. They were only of the workforce seven years ago. And it's only going to get worse as more people realize the freedom that being a solopreneur provides. If having \*no\* boss is what

you're looking for, here's how to get it right away. There are some people who despise their 9-5 jobs. When they describe their job, it sounds like a prison sentence, complete with roadside manual labor and the old' shackle and chains. Their job makes them a prisoner, which they despise. Others adore their 9-to-5 jobs. They go to work and enjoy the fact that they have no ownership in the company and can leave at any time without incurring any liability. I've had several jobs. I spent the first half of my twenties starting seven businesses, six of which failed miserably and one of which became an overnight

success (that I later walked away from). I then got a corporate job in a bank and had to wear a suit to work. The lobby resembled a hotel, and the language used was never profane. My next position was a cross between a startup and a corporate, with a focus on people management. You're trapped. As each day passes, you can't wait for the weekend to be over, so you don't have to think about work. No more bosses breathing down your neck, no more pre-planned breaks, and certainly no more long commutes. Weekends are your life. You know you don't want this job, but you're stuck with it. You want out but

don't know how, whether you want to quit your job to travel more, try something new, or if you're just bored or unhappy with what you're doing. What are you going to do? How do you leave a stable and secure job to pursue a life of hustling for work? And can you make a living from eBay? Rarely Revealed Secrets to Making Money on eBay that Are Ideal for Complete Beginners “Do you believe you squandered an eBay opportunity? Consider again. eBay is one of the most active online marketplaces, with a multibillion-dollar turnover and over 180 million users. Its business model is so simple that you

can start making money from your unwanted items in your cupboards, garage shed, or basement in as little as seven days. It's the ideal first side hustle, and this book will show you how. It's written for ambitious people who want to make money on eBay as quickly as possible. From your very first listing, you'll discover a step-by-step plan for generating consistent sales for your new business. It makes no difference whether you're selling your old items or have discovered a fantastic product that everyone requires. You'll get a behind-the-scenes look at what it takes to make money from day one.
