Dalhuisen on Transnational and Comparative Commercial, Financial and Trade Law Volume 5

2022-06-16 Jan H Dalhuisen "... presents a very different case: that of a civilized and cultivated cosmopolitan legal scholar, with a keen sense of international commercial and financial practice, with an in-depth grounding in both comparative legal history and comparative law, combined with the ability to transcend conventional English black-letter law description with critical judgment towards institutional wisdom and intellectual fashions." (International and Comparative Law Quarterly) Volume 5 of this new edition uses the insights developed in Volumes 3 and 4 to deal with financial products and financial services, the structure and operation of banking and of the capital markets, and the role of modern commercial and investment banks. Sections on products and services address the blockchain and its potential in the payment system, in securitisations, in the custodial holdings of investment securities, and in the derivative markets. The complete set in this magisterial work is made up of 6 volumes. Used independently, each volume allows the reader to delve into a particular topic. Alternatively, all volumes can be read together for a comprehensive overview of transnational comparative commercial, financial and trade law.

Belonging to the Nation

2016-04-14 Edmund Terence Gomez This study reviews developments in the ethnic and national identity of the descendants of migrants, taking ethnic Chinese as a case study. Our core question is why, in spite of the debates worldwide about identity, exclusion and rights, do minority communities continue to suffer discrimination and attacks? This question is asked in view of the growing incidence in recent years of 'racial' conflicts between majority and minority communities and among minorities, in both developed and developing countries. The study examines national identity from the perspective of migrants' descendants, whose national identity may be more rooted than is often thought. Concepts such as 'new ethnicities', 'cultural fluidity', and 'new' and 'multiple' identities feature in this examination. These concepts highlight

identity changes across generations and the need to challenge and reinterpret the meaning of 'nation' and to review problems with policy initiatives designed to promote nation-building in multi-ethnic societies. This book was originally published as a special issue of Ethnic and Racial Studies.

Studies of CP-Violation in Charmless Three-Body b-Hadron Decays

2018-11-02 Daniel O'Hanlon This book highlights two essential analyses of data collected during the LHCb experiment, based on the Large Hadron Collider at CERN. The first comprises the first observation and studies of matter-antimatter asymmetries in two three-body b-baryon decays, paving the way for more precise measurements of the relatively unknown decay properties of b-baryon decays. The second is an analysis of a charged B meson decay to three charged pions, where previously large matter-antimatter asymmetries were observed in a model-independent analysis. Here a model of the decay amplitude is constructed using the unitarity-conserving 'K-matrix' model for the scalar contributions, so as to gain an understanding of how the previously observed matter-antimatter asymmetries arise; further, the model's construction yields the most precise and comprehensive study of this decay mode to date.

Provocative Alloys

2013 Clemens Apprich Edited by Clemens Apprich, Josephine Berry Slater, Anthony Iles and Oliver Lerone Schultz. Felix Guattari's visionary term 'post-media', coined in 1990, heralded a break with mass media's production of conformity and the dawn of a new age of media from below. Understanding how digital convergence was remaking television, film, radio, print and telecommunications into new, hybrid forms, he advocated the production of 'enunciative assemblages' that break with the manufacture of normative subjectivities. In this anthology, historical texts are brought together with newly commissioned ones to explore the shifting ideas, speculative horizons and practices associated with post-media. In particular, the book seeks to explore what post-media practice might be in light of the commodification and homogenisation of digital networks in the age of Web 2.0, e-shopping and mass surveillance. With texts by: Adilkno, Clemens Apprich, Brian Holmes, Alejo Duque, Felipe Fonseca, Gary Genosko, Michael Goddard, Felix Guattari, Cadence Kinsey, Oliver Lerone Schultz, Rasa Smite & Raitis Smits, and Howard Slater Part of the PML Books series. Mind Over Batter

2019-05-16 Graeme Fowler '[An] honest and courageous book' Mike Brearley 'Engrossing...it looks back and thinks ahead, jumps between wit and woe' Lawrence Booth, Mail on Sunday Following the critical and commercial success of Absolutely Foxed, Graeme Fowler returns with a stunning new book that takes the reader inside the mental side of cricket. Few sports can be played as much in the mind as cricket. When bowlers are hurling the ball down at your head at 90 mph, or fielders are crowded round the bat waiting to snap up an edge, only the most resilient can thrive. In Mind Over Batter, former Test batsman, commentator and coach Fowler looks into all facets of the game to assess the mental aspect of cricket. What is mental strength? And how can you improve it, or why do some people suddenly lose it? Can the environment in a dressing room have any impact on both mental strength and mental health? When a game builds up to a dramatic climax - how do you train yourself to cope? Can pressure really lead to catastrophic decision-making and even lead players to bend the rules? Told with his familiar mix of brilliant insight, hilarious anecdotes and moving personal experience of his own mental demons, Fowler delivers a superb portrait of the game. Mind Over Batter will not only shed light on the top echelons of cricket, but it will also provide the reader with many useful ideas on how they can improve their own game and performance - in

cricket or in other walks of life. Finally, having resisted for many years despite his own mental health issues, Fowler decides to take a closer look inside his own mind and for the first time undergoes therapy to see if he can work out what makes him tick. What he discovered surprised even him.

Absolutely Foxed

2016-05-05 Graeme Fowler With riotous stories of life on England tours, partying with Ian Botham and Elton John, combined with a moving account of his battle with mental-health issues, Graeme Fowler's *Absolutely Foxed* is a cricket memoir unlike any other. Seen by many as a maverick, happy-go-lucky figure, Fowler became a hugely influential coach, and is one of the most original thinkers about the game. He's battled and won against the best spinners in India, and the fastest bowlers from the West Indies - he's even found himself at the centre of a tabloid storm. In this book, he looks back over his 40 years in the professional game, spending 16 years on the county circuit with Lancashire and Durham, and three years as an England international - a period that was cut short by a life-threatening injury. He followed that with a spell working on Test Match Special, before running the Durham Centre of Excellence for 18 years. Alastair Campbell provides an Afterword in which he commends Fowler's support for others suffering from mental-health problems; Fowler's own experiences should provide help and inspiration for those dealing with similar problems. In his Foreword, lifelong friend Sir Ian Botham describes Fowler as 'one of the gutsiest I ever encountered', but also points out how he 'made a dressing room tick'. Those elements of courage, knowledge and humour are all present in *Absolutely Foxed* - a truly unmissable read.

The book goes through authentic examples of casual conversations entailing participants differing in age, gender, ethnicity, and socio-economic class¹². Deriving on insights from sociology, linguistics, and critical semiotics, the work equips readers with the analytic skills to portray the layers of structure and critical interpretive frameworks to elucidate the 'social work' that happens on through chat.
