Brunanburh Located Through Egil's Saga

2020-11 Björn Vernharðsson We focus attention to the possible sites for the Battle of Brunanburh by paying extra attention to all known sources known for the battle. We focus on two known poems that describe the events in detail; that is the Brunanburh poem and the poems in Egil's saga as well as other known sources for this battle. The poems in Egil's saga are contemporary with the events, even though the saga was written in the 13th century, the poems are older and are thought to be the work of Egill Skallagrímsson himself. We also use other references that conform to elements in other known sources like the issue of silver in this time. We conclude from all these sources that the Battle might have been fought in Hunwick in County Durham. We revive the poems in Egil's saga, the Brunanburh poem and the relation these poems have with the old Icelandic poem Völuspá and we conclude that the Brunanburh poem is much related to these Old Icelandic poems and Egill Skallagrímsson might have been the poet of the Brunanburh poem.

Hadrian's Wall and the End of Empire

2012-08-21 Rob Collins There is no synthetic or comprehensive treatment of any late Roman frontier in the English language to date, despite the political and economic significance of the frontiers in the late antique period. Examining Hadrian's Wall and the Roman frontier of northern England from the fourth century into the Early Medieval period, this book investigates a late frontier in transition from an imperial border zone to incorporation into Anglo-Saxon kingdoms, using both archaeological and documentary evidence. With an emphasis on the late Roman occupation and Roman military, it places the frontier in the broader imperial context. In contrast to other works, Hadrian's Wall and the End of Empire challenges existing ideas of decline, collapse, and transformation in the Roman period, as well as its impact on local frontier communities. Author Rob Collins analyzes in detail the limitanei, the frontier soldiers of the late empire essential for the successful maintenance of the frontiers, and the relationship between imperial authorities and local frontier dynamics. Finally, the impact of the end of the Roman period in Britain is assessed, as well as the influence that the frontier had on the development of the Anglian kingdom of Northumbria.
