## **Candle in the Storm**

2009-10-27 Morgan Howell The malign shadow of the Devourer has darkened the land, extinguishing life and hope. The followers of the benevolent goddess Karm are hunted mercilessly and cut down by an army of bewitched slayers led by Lord Bahl, the Devourer's flesh-and-blood incarnation. Only two people stand in the way of an apocalyptic bloodbath that will literally bring hell to earth: a man and a woman linked by a love as strong as it is unlikely—Honus, a grim-faced warrior dedicated to Karm, and Yim, a beautiful former slave with the divine power to stop Lord Bahl. But that power will prove a terrible curse as Yim is called upon to make a costly sacrifice—a sacrifice that will not only put her love for Honus to the test but call into question her very faith. As the evil storm descends, can the flame of hope endure?

## **Storm Kings**

2013-03-05 Lee Sandlin In Storm Kings, Lee Sandlin retraces America's fascination and unique relationship to tornadoes and the weather. From Ben Franklin's early experiments, to "the great storm debates" of the nineteenth century, to heartland life in the early twentieth century, Sandlin shows how tornado chasing helped foster the birth of meteorology, recreating with vivid descriptions some of the most devastating storms in America's history. Drawing on memoirs, letters, eyewitness testimonies, and numerous archives, Sandlin brings to life the forgotten characters and scientists that changed a nation and how successive generations came to understand and finally coexist with the spiraling menace that could erase lives and whole towns in an instant.

## **Hurricane Almanac**

2007-05-29 Bryan Norcross Essential Information from CBS News' Hurricane Analyst Bryan Norcross's pioneering and courageous TV coverage of Hurricane Andrew in 1992 helped millions of people in Florida cope with the killer storm. This revised and updated version of last year's popular almanac adds detailed stories of the powerful hurricanes of the past that would be catastrophes if they happened today and explores how explosive coastal development during a time of relatively few hurricanes has set the stage for mega-disasters. If hurricanes make landfall today at the rate they did in much of the twentieth century, how could we prevent the unimaginable destruction? A new section will also help you better understand hurricane advisories. Bryan Norcross's Hurricane Almanac is two books in one. The first half is hurricane science, history, and perspectives on how we, as a society, deal with hurricanes. The second half is a personal guide to "Living Successfully in the Hurricane Zone." In addition to reviewing and explaining the relatively mild 2006 hurricane season, it looks forward to hurricane seasons to come, highlights the fascinating history of hurricanes interacting with civilization, and details our rapidly increasing ability—but still with limitations—to predict the severity and tracks of storms. With preparation checklists and shopping lists, an easy-to-understand guide to the technical information coming from the National Hurricane Center, and critical practical information, Hurricane Almanac is your essential guide to coping with Mother Nature's greatest storms. A provocative chapter entitled: How I'd Do It Better details Norcross's ideas for a better hurricane system. -Family Communications -Evacuation Decision-making -Staying in a House -Staying in an Apartment -Shutters -Hurricane-proof Windows -Backup Power -Generators -Computer Hurricane Plan -Post-storm Air-Conditioning -Candles -Pool Preparation -Pets, Boats, Cars, and

### Storm of the Century

2019-08-01 Willie Drye In 1934, hundreds of jobless World War I veterans were sent to the remote Florida Keys to build a highway from Miami to Key West. The Roosevelt Administration was making a genuine effort to help these down-and-out vets, many of whom suffered from what is known today as post-traumatic stress disorder. But the attempt to help them turned into a tragedy. The supervisors in charge of the veterans misunderstood the danger posed by hurricanes in the low-lying Florida Keys. In late August 1935, a small, stealthy tropical storm crossed the Bahamas, causing little damage. When it entered the Straits of Florida, however, it exploded into one of the most powerful hurricanes on record. But US Weather Bureau forecasters could only guess at its exact position, and their calculations were well off the mark. The hurricane that struck the Upper Florida Keys on the evening of September 2, 1935 is still the most powerful hurricane to make landfall in the US. Supervisors waited too long to call for an evacuation train from Miami to move the vets out of harm's way. The train was slammed by the storm surge soon after it reached Islamorada. Only the 160-ton locomotive was left upright on the tracks. About 400 veterans were left unprotected in flimsy work camps. Around 260 of them were killed. This is their story, with newly discovered photos and stories of some of the heroes of the Labor Day 1935 calamity.

## Two on a Bridge

2011-06 Linda L. Stampoulos Volumes have been written to address personal problems and dedicate themselves to the theme of "self help." The term itself seems to place the responsibility of healing on the individual who is already expressing a need for assistance. Often the mire and the muck we find ourselves in require more energy to cope than we alone can give. This guidebook can be another approach to healing. "Two on a Bridge" picks up where "self help" leaves off. Through guided discussion, you and someone you choose will begin to explore the ancient powers and energy sources that surround us today. In addition to the guidebook you will benefit from having the companion workbook. The workbook suggests activities you and your partner can complete during your time together. These activities are designed to help you access the different energy sources and hopefully make them a part of your life. The basic concept is quite simple: Strength and healing can be enhanced when two join together, share a short journey, and discover the healing energy that can come from the power of two. About the Author Linda L. Stampoulos lives in New Jersey, and often travels to the West to research material for her books. After completing her Undergraduate and Graduate Degrees at Montclair State University, she went on to Columbia University to earn her Doctorate in Education. She has taught at both the Undergraduate and Graduate levels in the Schools of Health Foundations and Educational Foundations at Montclair State University. A large portion of her curriculum included the works of Joseph Campbell. In addition, she has devoted over twenty-five years to work in the field of Substance Abuse Prevention and Treatment Services. Her last book, "The Redemption of Black Elk" was published in English as well as in German, "Black Elks Vermachtnis." She has also contributed to the Images of America series: "Visiting the Grand Canyon, Views of Early Tourism" which was listed among the Southwest Books of the Year, Best Reading 2004. In addition, she has previously worked on several projects with Native American author Kenny Shields, Jr. to produce: "Fort Peck Indian Reservation; The Little Bighorn, Tiospaye;" and "The Grand Canyon: Native People and Early Visitors." If the church doesn't want to hire a skilled force of financial experts, they can simply make use of the church accounting software. Accounting experts designed the software and it can assist church officials in managing finances. The software engineers are already well-acquainted with the church's various needs and so they can easily tailor-fit a certain church's software according to its particular requirements.

The church accounting software is quite different from other software. Ordinary accounting software is designed to suit the needs of modern businesses. The church accounting software on the other hand focuses mainly on the necessities of the institution. The church has no ambition or any financial interest. Remember, the church is not being taxed by the government and so its expenditure and resources takes a different curve altogether. Aside from that, the church has several expenditure and income account heads.

### Insomnia

Acupuncture has become a popular alternative to common remedies such as sleeping pills. It works at the nerve levels, relaxing and soothing your senses. Acupuncture is thought to be a safer route for insomnia because it brings back your natural sleeping cycle

through natural means and not through chemicals, which can turn into an addiction. Using acupuncture for insomnia usually starts working after the very first session. The treatment is usually stretched out for a period of time, until your body returns to its natural sleeping cycle.

### **Infertility**

Studies show that acupuncture is a beneficial form of complementary therapy for women who are having undergoing treatments for fertility problem. Acupuncture is believed to relieve the anxiety of women undergoing fertility treatment. Also, acupuncture's success in aiding fertility is more pronounced in in-vitro fertilization. In addition, the rate of miscarriages has been found to be lower for women who do acupuncture.

### *Project candles in the storm a powerful and* **Reactions And Research**

Not everyone is impressed with acupuncture itself. Most western medical professionals have expressed either doubt or indifference to the oriental method while others have downright driven it down into the earth with criticisms and brutal skepticism. However, recent research shows the efficacy (or lack thereof) of acupuncture, and while more research has to be done, it has been proven to actually positively affect some, but not all, forms of ailments that it claims to cure.

So as the doors open to a new age of acupuncture, give it a try when you feel the need for pain relief and you will not be disappointed. As the Chinese have used it for many centuries, so should we.

### **Reading candles in the storm a powerful and The History of Acupuncture**

Acupuncture comes from two Latin words namely "acus" which means needle in English and "pungere" which means prick. Its history originated in China more than 2000 years ago and has evolved into various forms.

Some of the techniques of acupuncture do not even use needles anymore. Vibrating objects, ultrasound and even the fingers of the practitioner have taken some of the work to make the person feel better.

### observation candles in the storm a powerful and

This has resulted in the establishment of clinics nationwide that only use acupuncture as the means of rehabilitation.

Acupuncturists in the US charge from \$75 to \$150 per session. This usually gets lower in the succeeding treatments. The person will probably have to undergo 10 to 15 treatments 2 to 3 times a week but this really depends on the condition of the patient.

Before you go to one, you should check if this is covered by your insurance. If it isn't, perhaps you should suggest that it should be included as it is much cheaper than having to undergo surgery.

### **Guide candles in the storm a powerful and**

The eighth myth is that acupuncture is only used in third world countries. This is not true because this technique originated in China more than 2000 years ago and this has spread to developed nations in Asia such as Japan, South Korea, Singapore and Malaysia.

Here at home, acupuncture been practiced for more than 2 decades and is legal in 30 states. In fact 22 of them, license professionals after they graduate once they pass the state board examination.

Although acupuncture has been around for a very long time, there is still a need for this form of holistic healthcare which is why this is being taught in colleges and in use today. It is painless and cost efficient and a lot of studies have shown that it is effective in treating various illnesses and preventing some of them.

### **First candles in the storm a powerful and**

Although there are risks if you decide to go undergo acupuncture, these can be avoided as long as the one doing it is a licensed professional who makes sure that the needles used are sterilized before they are inserted into the body.

These days, a lot of people in the medical field have accepted the fact that alternative medicine such as this can also help the patient which is why they may refer someone when it is needed.

So, if you are tired of experiencing the side effects of conventional medicine and want to try a holistic form of healthcare, why don't you see what acupuncture can do for you? It is painless and cost effective. In fact, it is just one of many you can try to help treat a chronic condition.

### **Study case candles in the storm a powerful and; Services in Financial Accounting**

Offices and companies have various activities everyday and that includes accounting. Whether the company is private or government-owned, it still makes use of accounting. Companies, offices, and various organizations or institutions cannot operate successfully without an accounting staff. However, having an accounting staff can get very expensive and so most companies resort to auditing services or financial accounting services. Chartered accountants are not hard to find; with the use of the internet, you can easily locate them and hire their services.

A company needs to seek help from a competent and experienced auditor or accountant so that all financial activities of the company are monitored and evaluated. This way, the company can gain a lot of benefits which can lead to its success. It is now easy to monitor the sales as well the operating expenses. All expenditures and income are recorded and the accountant can even provide you with strategies to help increase the profit and sales of a company.

Outsourcing is quite popular nowadays because it is a cost-effective measure for companies who want to cut-down their operation costs. That is why most companies are looking for services of chartered accountants. These accounting services can provide any company or organization with auditing services, company laws, taxation, and other related matters.

Have you looked at the steps carefully? By now, you can already tell if you still have a chance to reach your goals or not. Age should not hinder your ambitions. Besides, by now you're probably a senior accountant in the company and you're earning big money. Still, if you're not contented with your current position, you can always take advanced career trainings to improve and develop up-to-date accounting skills.

Don't be left behind and don't stop learning. Bear in mind that every year, new accounting graduates are produced and you have to stay as competitive as ever to maintain your seniority in the office.

The licensing requirements for accountants vary from state to state. This is a very important consideration when choosing a degree program in accounting. Before you can take the exams to become a CPA, you will need a 150 hours course. By 2009, almost all the states in the US will follow the same requirements.

**candles in the storm a powerful and.** Suppose you're not a graduate of accountancy and you're already too old to attend classes in traditional classroom-based colleges. Don't you worry because there are now online colleges that let's you earn a degree in accounting from your very own home. You simply need an internet connection at home and then you have to comply with the requirements of the online college and that's it.

Are you already a CPA? If you're not, then you can also get a certification online. Comply with all the requirements and pass the exams and you can become a CPA.

State requirements vary when it comes to accounting degrees. You have to ensure that the accounting degree you've taken fulfills all the requirements of the state you live in or in the state that you plan to have your accounting career.

*Life Lessons from candles in the storm a powerful and-*The imbalance in the Qi may go one way or the other because of Yin and Yang. The person can only be normal if there is harmony between the two which is what acupuncture is trying to achieve. This can only be restored by stimulating these acupuncture points so your Qi can be adjusted, balanced and harmonized.

Apart from using needles, practitioners also use friction, heat, impulses of electromagnetic energy and pressure to stimulate these points in order to balance the movement of energy in the body to reduce one's health.

An example of this is sonopuncture where an ultrasound device that transmits sound waves is applied to these points in the body. Some use a tuning fork and other vibration devices.

Adolescents face many oral health problems which may require them to visit a dentist or any other healthcare professional. Irregular teeth growth is a common problem and adolescents with braces are a common sight. Another problem is wisdom teeth extraction or the removal of the third molar. Dental cavities are yet another common problem in adolescents.

Orthodontics is a specialty in dentistry which deals with correction, development and prevention of irregular teeth, jaw and bite.

Orthodontics also helps to correct jaw disorders and facial abnormalities. If a general dentist feels abnormalities in the adolescent, he/she will refer the patient to an orthodontist. The American Dental Association suggests that every adolescent above the age of seven should get an orthodontic evaluation done. Problems which require orthodontic treatment are crowded or crooked teeth, extra teeth, missing teeth, under-bite, overbite, jaw joint disorder, and incorrect or misaligned jaw position.

To get braces or any other orthodontic treatments, the appropriate age is ten to fourteen years. But regardless of the age, the same physical and biological process is used in correcting and moving the teeth alignments. Braces are also known as fixed orthodontic appliances. There are three types of braces used to move and reposition the teeth. The first consists of brackets which are made out of plastic or metal. They are either of tooth color or clear and are bonded onto the teeth. The second type is the lingual type of brackets which are attached to the back teeth and cannot be seen while talking. The third type is a band. It is a metal band which covers the teeth and wraps around the last ones.

It sounds like a made-up explanation with no basis in reality, but there are numerous scientific studies which support the effects of acupuncture. Although the exact scientific basis is still unknown, recent theories seem to suggest involvement of complicated neurochemical effects in the brain, nerve to spinal cord impulse modulation, and microscopic connective tissue changes.

What risks and side effects are of concern?

The use of things not completely understood for the treatment of medical conditions is nothing new. Penicillin and aspirin were used for decades solely on the basis of their beneficial effects, without doctors knowing exactly how they worked. Results are what are truly important. However, it is equally important is to ensure that the technique is used safely.

Seventy four percent of females above fourteen years and sixty percent of females below fifteen years have reported to have involuntary sex. Fifty percent of the adolescent pregnancies are within the time period of six months after the initial sexual intercourse. More than nine hundred thousand teenagers are reported to have become pregnant every year in the United States. Fifty one percent of the adolescent pregnancies result in live birth, thirty five percent result in induced abortion and fourteen percent result in stillbirths or miscarriages. Four out of ten adolescent females get pregnant, before they turn twenty, at least once. Twenty five percent of adolescent deliveries aren't the mother's first child. When a teenager gives birth to her first child, she increases the risk of begetting another child. One third of the adolescent parents are themselves result of adolescent pregnancies.

There are many reasons why adolescents choose to become sexually active at an early stage in life. The reasons can be early pubertal development, poverty, sexual abuse in childhood, lack of parent's attention, lack of career goals, family and cultural patterns of early sex, substance abuse, dropping out from school and poor school performance. Factors which discourage an adolescent to become sexually active are stable family environment, parental supervision, good family income, regular prayers, connectedness with parents and living with complete family and both the parents. The factors which are responsible for the consistent use of contraceptive among adolescents are academic success, anticipation for successful future, and involvement in a stable relationship.

There are many medical risks associated with adolescent pregnancies. Adolescents who are less than seventeen years are at a greater risk of developing medical complications, when compared to adult females. The risk is even more in teenagers below seventeen. The weight of the child, given birth by an adolescent, is very low in these pregnancies. It is usually below 2.5 kilogram. The rate of neonatal birth is also three times greater in adolescents, when compared to adults. Other problems caused by adolescent pregnancies are prematurity of the child, birth of underweight child, poor maternal weight gain, poor nutritional status, anemia, STDs and hypertension induced due to pregnancy.

Teens get anemia as they grow rapidly the amount of iron intake may not be enough to keep up with the pace of the growth as it needs more nutrients in this process. In the case of girls they need more iron after puberty and are at risk due to heavy blood loss during menstrual periods. In some cases pregnancies also leads to anemia. Also, teens who diet excessively to lose weight may also be at risk of having iron deficiency. Meat eaters especially red meat eaters are at less risk compared to vegetarians as meat has rich iron in it.

#### **Asthma in Adolescents**

Most of the teenagers who have asthma are also allergic to many things. The asthma can get severe even if the people with asthma are exposed to allergens of low grade. Allergies play an important role in asthma cases which are undiagnosed. Other factors that also trigger childhood asthma include upper respiratory infections like colds, second hand smoke, and certain climate conditions like cold air and due to emotional physical expressions like laughing, crying or yelling. However, it is not the end of the road for asthmatics as they can live active and healthy if they manage asthma properly by avoiding asthma triggers, regular intake of prescribed medications, being alert of the warnings and be aware of the ways to deal with an asthma attack.

**example candles in the storm a powerful and** Allergic reactions can range from mild symptoms like runny nose to more severe ones such as difficulty in breathing. Teenagers suffering from asthma often have allergic reaction to cold and get asthma attack is another example of allergies. Some kinds of allergies trigger multiple symptoms. Allergic reactions in very rare cases also produce severe reaction known as "anaphylaxis" for which the signs are difficulty in breathing, difficulty in swallowing, swelling in tongue, lips and throat and dizziness. This allergic reaction occurs as soon as the system is exposed to substances that trigger allergic reactions like peanut although some reactions are delayed by as much as four hours.

The reasons why people get allergies can be various and one of the reasons could be hereditary but that that does not necessarily mean that children are bound to get allergies from their parents. Some of the common allergens include food, airborne particles, insect bite and sting, medicines, chemicals etc. Food allergies typically occur in infants and usually vanish as the child grows. The list of food allergens includes milk & dairy products, wheat, soy, eggs, peanuts, and seafood. Some people are allergic to stings and bites of certain insects. The venom in the bite is the one which actually causes reaction and can be as serious as anaphylactic in some teens. Some teens are also allergic to airborne particles which are also known as environmental allergens. They are also the commonest of all the allergens. Examples of these allergens include dust mites, animal dander, mold spores, grass pollens, trees and ragweed. Some adolescents are also allergic to certain antibiotic medicines. Another common allergen is chemical, certain chemicals present in laundry detergents or cosmetics can cause rashes that are itchy in nature.

Allergists usually treat allergic problems. They may ask questions like symptoms of the allergy and whether it is hereditary. They may also prescribe certain diagnostic tests like blood or skin test depending on the type of allergy. The best way to treat allergies is to completely avoid the substances that cause allergies. However there are certain medications and injections are also available to treat allergies.

There are a lot of myths with regards to acupuncture. Some of these are true; others are silly while the rest only have a half truth. As you read on, you will learn which ones are worth believing.

The first myth is that acupuncture is painful. This is not true because those who have tried it claimed they only experienced a tiny prick while others did not feel anything at all. There is no tissue damage when the needle is inserted into the skin or pulled out and only in very rare cases are there traces of bruising.

The second myth is that you can get hepatitis or AIDS from acupuncture. This is true only if the needles used are not sterilized. In the US, this will never happen because acupuncturists are required to use disposable needles thus you are not at risk from these two diseases.

If you are thinking about trying acupuncture but are wondering if it is safe or if it's the right treatment for you, the following information may aid you in making a more informed decision.

#### **Description and Origin**

Acupuncture is the practice of inserting fine needles into specific points in the body for therapeutic purposes. According to theory, these specific points called "acupuncture points" lie along pathways of the body along which one's vital energy is said to flow. The needles are used to promote free-flow of energy in areas of the body that circulation may have stagnated. Although acupuncture is practiced in many Asian cultures such as Japan, Tibet, and Korea the practice is commonly known to have originated in China.

Women who are pregnant are also advised not to undergo acupuncture treatment. However, they can engage in that once the baby is born.

How well the acupuncture treatment will go depends also on specialist who will be performing it. You have to take into account their years of experience and skill so they are able to make the correct diagnosis, finding the acupoints in the body, the angle at which the needles will be inserted and the techniques they know as there are different types of acupuncture.

This brings us to asking ourselves how to find a skill acupuncturist. For this to work, we have to do ask our doctor if they can refer anyone. It wouldn't hurt to also do some research online. After all, there are about 3,000 acupuncturists all across the country so it won't be that hard to find one.

The profit & loss of a certain company is determined by finance professionals through accounting. They can determine what created the profits as well as the losses. Accountants form some sort of business equation so justify the profits & losses of a business. By doing so, they can easily tell a company's net worth.

It seems that by simply starting to define one accounting term, it eventually leads to defining other terms as well. Net worth is another term that is quite difficult to understand. It refers to the resulting amount after deducting the liabilities of a company from the assets.

Private companies refer to net worth as owner's equity.

Why owner's equity? Well, after deducting all the liabilities, what's left basically belongs to the owner. In the case of public companies, the profit of the business is returned as dividends to shareholders. As you can see, before owner or shareholders of a company can take hold of the profits, all liabilities must be deducted first.

#### Behind the candles in the storm a powerful and **Obsessive Compulsive Disorder in Adolescents**

Obsessive compulsive disorder or OCD starts from adolescence onwards. OCD is feeling of strong obsessions and compulsions which result in intense discomfort and affects daily functioning. Obsessions are thoughts which are persistent and recurrent. They even include unwanted images and impulses which lead to distress and anxiety. These feelings and thoughts are usually irrational or unrealistic. Compulsions are repetitive rituals or behavior such as checking something again & again, or mental acts such as counting. These obsessions & compulsions cause intense distress and anxiety and can interfere with the daily activities, relationships, social activities and academic functioning. The person with OCD thinks that he has no control over his actions. OCDs are relapsing and chronic illness.

The thoughts change as the adolescent grows. Younger children suffering from OCD often have thoughts of harm befalling on them and their family such as thief getting into the house through an unlocked door. This will make the children to recheck the door and windows again and again fearing that they might have left the door unlocked accidentally. Teenagers suffering from OCD fear that they might get fall sick due to germs, contaminated food and AIDS. The adolescent develops certain rituals, such as washing hands innumerable times, in order to get over the fear. These rituals help them to think that they have overcome the problem for the time being and give them temporary relief. If they do not perform these rituals, they become more and more anxious.

Adolescence is the time when there is sudden transformation in the body and many questions arises in the minds of the adolescents.

Firstly they are not able to cope with the changes and secondly the changes bring along problems with them. The most challenging problems are related to menses, in girls. Menstrual conditions are many that may require physician's attention or any other healthcare professional's attention. The most common of the menstrual disorders are premenstrual syndrome, dysmenorrheal and amenorrhea. Before the onset of the menses, females face many uncomfortable symptoms which last for a short period, stretching from few hours to few days. But some of them can be very intense and can disturb the normal functioning of the person. These symptoms are grouped as premenstrual syndrome. In usual cases, the symptoms come to a halt when the menses begin, but for some they may last even after the menstrual periods are over. Eighty five percent of the females experience some of the symptoms of premenstrual syndrome at one time or the other. Nearly forty percent experience the symptoms so intensely that their daily chores are affected by it and ten percent are disabled by it.

#### **How does sticking needles into your body help manage the stress?**

In traditional Chinese medicine, much of the treatments depend on an understanding of the balance in our bodies and its internal organs. The sicknesses we sometimes develop are seen to be caused by imbalances in our lifestyles and environment. Stress is also affected by this imbalance. That is why when there is something wrong with your body, youd typically have less of an ability to deal with stress. Youd get more irritable and find it really to difficult to relax.

By sticking these very thin needles past the surface of our skin, the acupuncturist stimulates nerves in our body. These nerves send signals to our brain and scientists believe that the brain then releases its natural painkillers into our system. This immediately causes a feeling of relaxation for many people.

The needles could also help your body by stimulating its circulation. With the circulation between the organs of the body improved, a lot of the bodys wastes could be cleansed properly. Your organs would also receive the full benefit of the oxygen from your lungs making its way into the cells of your body without any blockages. This makes your organs much healthier and leaves you feeling much better in the long term as well.

An infant will have a normal blood pressure reading of 80/45, where as an adolescent will have a normal blood pressure reading of 110/70. Therefore, age, gender, and height are important factor when determining the normal blood pressure level. Adults will have a higher blood pressure than the infants and teenagers. Also, boys have a higher blood pressure when compared to girls and tall people have a higher blood pressure than short people. An adolescent is said to have high blood pressure when the blood pressure is more than the blood pressure of ninety percent people of his/her age, gender and height.

There are many risks associated with hypertension or high blood pressure. The risk of developing coronary heart disease increases proportionally. The arteries will develop greater resistance towards the blood flow, because of which the heart will pump blood harder. Stroke is also another risk. Adolescents who have had high blood pressure as a child, develop harmful effects on the blood vessels and heart till the time they turn twenty.

The causes of high blood pressure can be classified as primary and secondary. If the causes are definite, they are primary and if the cause is linked to some illness, it is secondary. Primary causes are high blood cholesterol levels, smoking, stagnant lifestyle and overweight. Secondary causes are obesity, immobility due to chronic illness, prescription drugs, intense pain due to burns or cancer and illegal drugs. High blood pressure can develop due to hereditary reasons.

There are many premenstrual syndrome symptoms which can be broadly classified as neurologic & vascular symptoms, psychological symptoms, gastrointestinal symptoms, fluid retention, eye problems and respiratory problems. The cause of premenstrual syndrome are fluctuations in the levels of progesterone & estrogen, hypoglycemia, hyperprolactinemia, psychogenic factors, changes in carbohydrate metabolism, excessive aldosterone, progesterone allergy and water retention by kidneys. The good thing is that premenstrual syndrome can be prevented by exercising regularly, eating balanced diet and sleeping adequately.

Dysmenorrhea is feeling intense menstrual pain and cramps. Depending on the severity, dysmenorrhea is stated as primary dysmenorrhea or secondary dysmenorrhea. Primary dysmenorrhea symptoms are felt from the onset of the menstrual periods and are felt life-long. Because of abnormal uterine contractions due to chemical imbalance, severe menstrual cramping is experienced.

Secondary dysmenorrhea starts in the later stages. The causes are different for primary and secondary dysmenorrhea. Secondary dysmenorrhea can be blamed on medical conditions such as endometriosis, uterine fibroids, pelvic inflammatory disease, tumors, infections, and abnormal pregnancy.

Dysmenorrhea symptoms are lower abdomen cramping & pain, lower back pain, nausea, diarrhea, vomiting, fatigue, fainting, weakness and headaches. Females who are overweight, smoke, and have started to menstruate before turning eleven are at a higher risk of developing dysmenorrhea. Females who drink alcohol during menstrual period experience prolonged pain. After studying the health conditions, age, cause of dysmenorrhea, and extent of condition of the individual, corresponding treatment will be recommended. Regular exercise, abdominal massage, hot bath, vitamin supplements, and dietary modifications can help overcome dysmenorrhea.

There are basically two types of diabetes that will affect an adolescent. It is type 1 diabetes and type 2 diabetes. Type 1 diabetes affects the immune system's function as the systems attacks the pancreas' insulin producing cells, also known as the beta cells. Because of this, the pancreas loses the ability to manufacture insulin. This is the reason why people with type 1 diabetes take insulin everyday. The symptoms are weight loss, increase in urination & thirst, blurred vision, tiredness and constant hunger. And if the adolescent isn't treated at the right time, he/she can slip in to diabetic coma which can endanger his/her life. In type2 diabetes, the body is incapable of properly using the insulin produced by the body and requires insulin from an external source, too. The symptoms of type 2 diabetes are similar to type 1 diabetes. The teenager feels sick, tired, nauseated, and thirsty. The wounds will recover very slowly; he/she will get infections frequently, will develop blurred vision and will experience weight loss.

Parents play a vital role in determining the problem. They should constantly observe their child for eating disorders or signs of

depression. Although cigarette, drugs and alcohol should be avoided by all adolescents and children, it is even more important that youngster with diabetes should stay away from these things as they can worsen the situation. A person with diabetes, who switches to smoking, is at risk of developing cardiovascular diseases and circulatory problems. Consumption of alcohol can cause hypoglycemia or low blood sugar. It is the duty of the parents to make their child aware of the possible risk they would face if they start to smoke, drink alcohol or take drugs.

Children and adolescents, who have diabetes, face many challenges while trying to lead a normal life. They have to think twice before doing simple things as going to a party, playing sports and even when staying over with friends. This is because they require to intake oral medication or insulin. Their blood sugar level must be checked many times through out the day. Also, at gatherings, they have to avoid many food items. Because of this they will feel different from the crowd and can feel left out. Not only does diabetes pose behavioral challenges, but also emotional challenges.

Results have showed that of 30 respondents in the test, majority showed functional improvement of various degrees depending on the age and severity of their disabilities. Some improvement was noticeable within a few TAC sessions, especially for drooling, spasticity (scissoring or tiptoeing), ataxia, and poor balance in walking. Functional improvement was noted after one to two courses of TAC. Most children tolerated TAC well, with only occasional pain and minor bleeding in some patients.

The reason why tongue acupuncture is being experimented with is because there is a connection between the tongue and the heart through the meridians that spread to all the organs in the body. It is believed that the points on the tongue can influence the state of the other body organs thus giving relief to the one suffering from autism.

But many believe that acupuncture alone cannot help autism sufferers. It has to be combined with other things like maintaining a certain diet to help improve one's mood and communication schools. Although it is only short term, it is better than nothing until a cure is found.

Until such time that other results are published, patients will have to rely on conventional medicine that is prescribed by a doctor.

But you don't have to wait for the results to come out. If you think it is worth a try, go for it. Just ask for a referral from your doctor as there are many practitioners who have accepted the fact that alternative forms of medicine can also help a patient.

You can also find someone online. You can be sure they are certified if they are recognized by the National Certification Commission for Acupuncture and Oriental Medicine.

One way is called the multi-targeted approach which is designed to lower the body's weight by increasing the output of the pituitary gland.

The areas where the needles will be inserted will be in the ear and in two of three body points. These areas could also include the mouth, the stomach, the lung, the endocrine, the spleen, kidney or thyroid.

During the initial treatment, the "Four Gate" points would be used to circulate energy throughout the entire body. It is also possible that electro simulation will also be done to increase endorphin release and stimulate metabolism.
