The Peabody Picture Vocabulary Test Fourth Edition (PPVT-4) is a well-respected vocabulary assessment that has been in practice for close to 50 years. Formulated by Lloyd M. Dunn and Douglas M. Dunn, the evaluation is designed to assess vocabulary comprehension for American English. It is fast and easy to administer, conserving important time so that concentration can be put on implementing intelligent approaches.

The PPVT-4 evaluation material includes a extensive array of receptive vocabulary levels, ranging from preschool through adult age. The test items widely include words that portray 20 subject fields (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and home and educational vocabulary.

The test provides two equal forms which include different vocabulary terms, ensuring that the test-taker has not “mastered” the assessment. One version can be utilized ahead of intervention implementation to assess test-takers’ vocabulary understanding and the alternative form can be utilized for re-evaluation to evaluate and document improvement. The PPVT-4 also features a special Growth Scale Value (GSV) which is reactive to small changes with time.
