Keine Angst vor dem Erröten 2019-01-01 Doris Wolf Erröten ist eigentlich eine ganz normale menschliche Reaktion wie Lachen oder Weinen. In peinlichen Situationen kennt sie fast jeder. Und doch kann das Erröten zu einem großen, ja sogar lebensbedrohlichen Problem werden. In der Fachsprache wird die Furcht vor dem Erröten als Erythrophobie bezeichnet. Die Zahl der Betroffenen lässt sich nur schwer schätzen. Wer unter dem Erröten leidet, versucht, es vor anderen zu verbergen, denn das Erröten wird als Schwäche, als peinlich und entwürdigend angesehen. Alle Gedanken und Aktivitäten kreisen darum, das Erröten zu vermeiden. Dem Berufswunsch wird deshalb erst gar nicht entsprochen, Karrierechancen werden nicht wahrgenommen, betriebliche Anforderungen wie direkter Kundenkontakt oder mündliche Berichterstattung werden nicht erfüllt. Mütter können ihre Kinder nicht zum Spielplatz, Einkaufen oder zu sozialen Aktivitäten begleiten. Partnerschaftskrisen treten auf, weil die Betroffenen den Kontakt zu Freunden und Bekannten meiden. Viele Betroffene leiden unter Einsamkeit, weil sie sich nicht zutrauen, eine Partnerschaft einzugehen. Um die Angst abzuschwächen und den Alltagsverpflichtungen nachkommen zu können, nehmen Betroffene häufig Beruhigungsmittel oder trinken sich Mut an. Andere legen ein dickes Make-up auf, hüllen sich in Schals oder versuchen durch Willenskraft Herr ihres Errötens zu werden. Am Ende stehen häufig eine Suchtmittelabhängigkeit, schwere Depressionen oder gar Selbstmordgedanken. Bisher gab es auf dem deutschen Markt keinen Ratgeber, der sich dieses Themas annahm. Die Psychotherapeutin und Angstexpertin Dr. Doris Wolf vermittelt nun Betroffenen in ihrem Ratgeber psychologische, hochwirksame Strategien zur Selbsthilfe. Sie zeigt, welche körperlichen und seelischen Faktoren das Erröten bewirken und wie man Schritt für Schritt die Angst und die mit dem Erröten verknüpfte körperliche Anspannung abbauen kann. Darüber hinaus lernt der Leser, wie er seine negativen Einstellungen überwinden, sein Selbstvertrauen stärken und seine Meidung aufgeben kann. Jeder Mensch ist in der Lage, die Furcht vor dem Erröten zu überwinden. Spontaneität und entspannte Kommunikation können wieder Bestandteile seines Lebens werden.

Why Men Don't Have a Clue and Women Always Need More Shoes 2004-01-13 Barbara Pease Do you know the top seven things men do that drive women nuts? Or the real reason women cry more than men do? What are men really looking for in a woman-both at first sight and for the long-term? These are only the starting points for Barbara and Allan Pease as they discuss the very real-and often very funny-differences between the sexes. Why Men Don't Have a Clue and Women Always Need More Shoes takes a look at some of the issues that have confused men and women for centuries. Using new findings on the brain, studies of social changes, evolutionary biology, and psychology, the Peases teach you how to make the most of your relationships-or at least begin to understand where your partner is coming from. They help women understand why men avoid commitment, what drives them to like and how to decode male speech to find out what they are really saying. They explain to men why women nag, how they use emotional blackmail, and how to understand (and take advantage of) the top-secret scoring system all women apply. They also dish about the top women-ness-and turn-offs-for both sexes. Laced with their trademark humor, Why Men Don't Have a Clue and Women Always Need More Shoes addresses a host of nitty-gritty battlegrounds as well, from channel surfing and toilet seats to shopping and communication. Already a #1 bestseller in the United Kingdom, Germany, Japan, Holland, Spain, Brazil, Portugal, Belgium, Ireland, France, Czech Republic, India, Singapore, Malaysia, South Africa, New Zealand, and Australia, Why Men Don't Have a Clue and Women Always Need More Shoes is the answer to understanding the opposite sex.

They can also extract a heavy mental and emotional toll on you, impacting how you think, the choices that you make, and the level of success and abundance you are able to achieve. Perhaps most damaging of all, trapped emotional energies can gather around your heart, cutting off your ability to give and receive love. The Emotion Code is a powerful and simple way to rid yourself of this unseen baggage. Dr. Nelson's method gives you the tools to identify and release the trapped emotions in your life, eliminating your "emotional baggage," and opening your heart and body to the positive energies of the world. Affairs of State 2009-12-01 Dominique Manotti Dominique Manotti is back on form with a tale of intrigue and corruption. A call-girl whose black book lists her elite international clients is found murdered in an underground garage; a plane bound for Iran laden with illegal arms disappears from the skies over Turkey, and the president's closest adviser Bornard, head of a controversial Elysee security unit, manipulates the system with consummate ease - and illegality. Until the day when rookie investigator Noria Ghozali determines to untangle the threads which bind these events together. In doing so she penetrates the Elysee's innermost system, confronts the workings of money and corruption within government, and in the process is forced to combat the institutional - and overt - racism which repeatedly stalls her.

W. A. Mozart: Così Fan Tutte 1995-11-24 Bruce Alan Brown At once the most light-hearted and disturbing of Mozart and Da Ponte's Italian comic works, the opera has provoked widely differing reactions from listeners for more than two centuries. This study provides a detailed account of the libretto's complex origins in myth and Italian literary classics.

Foucault's Analysis of Modern Governmentality 2019-02-26 Thomas Lemke Lemke offers the most comprehensive and systematic account of Michel Foucault's work on power and government from 1970 until his death in 1984. He convincingly argues, using material that has only partly been translated into English, that Foucault's concern with ethics and forms of subjectivation is always already integrated into his political concerns and his analytics of power. The book also shows how the concept of government was taken up in different lines of research in France before it gave rise to "governmentality studies" in the Anglophone world. A Critique of Political Reason: Foucault's Analysis of Modern Governmentality provides a clear and well-structured exposition that is theoretically challenging but also accessible for a wider audience. Thus, the book can be read both as an original examination of Foucault's concept of government and as a general introduction to his "genealogy of power".

Golden Rules for Everyday Life 2012-06-14 Omraam Mikhaël Aïvanhov Presentation Be actors in our daily life. Daily life is a matter that we must work on to transform it because that is truly spiritual life. In this book, the author gives us no less than 115 methods and advice so as not to suffer what happens to us and to be actors in our daily life. "Get into the habit of seeing the whole of your daily life, with all the things that you are obliged to do, the events that occur and the beings with whom you have to live or whom you meet in your work as a raw material, a matter that you have to transform. Don't be passive. Don't be content to accept whatever comes and submit to events: always add an element to that raw material that will animate, vivify and spiritualize it. This is what the spiritual life really is: the ability to introduce into every activity a yeast capable of catapulting it on to a higher plane. You will ask, "What about meditation and prayer? Where do they come into it?" That is just the point: it is by meditation and prayer that you pick up that subtler, purer element that enables you to give a new dimension to all your acts." Omraam Mikhaël Aïvanhov Excerpts from the Table of Contents 1 - Life: our most precious possession 2 - Let your material life be consistent with your spiritual life 3 - Dedicate your life to a sublime goal 4 - Our daily life: a matter that must be transformed by the spirit 5 - Nutrition as Yoga 6 - Deep breathing 7 - How to recuperate energy 8 - Love makes us tireless 9 - Technical progress frees man for spiritual work 10 - Furnishing your inner dwelling 11 - The outer world is a reflection of your inner world 12 - Make sure of a good future by the way you live today 13 - Live in the fullness of the present 14 - The importance of beginnings 15 - Becoming conscious of mental habits 16 - Attention and vigilance 17 - Sticking to a spiritual path 18 - Practice is more important than theory 19 - Moral qualities are more valuable than talent 20 - Be contented with your lot and discontented with yourself 21 - Spiritual work is never wasted 22 - The regeneration of our physical, astral and mental bodies 23 - Look for spiritual food every day 24 - Periodically review your life 25 - Choosing the means to fit the end 26 - Correct your mistakes immediately

The App Generation 2013-10-22 Howard Gardner No one has failed to notice that the current generation of youth is deeply--some would say totally--involved with digital media. Professors Howard Gardner and Katie Davis name today's young people The App Generation, and in this spellbinding book they explore what it means to be "app-dependent" versus "app-enabled" and how life for this generation differs from life before the digital era. Gardner and Davis are concerned with three vital areas of adolescent life: identity, intimacy, and imagination. Through innovative research, including interviews of young people, focus groups of those who work with them, and a unique comparison of youthful artistic productions before and after the digital revolution, the authors uncover the drawbacks of apps: they may foreclose a sense of identity, encourage superficial relations with others, and stunt creative imagination. On the other hand, the benefits of apps are equally striking: they can promote a strong sense of identity, allow deep relationships, and stimulate creativity. The challenge is to venture beyond the ways that apps are designed to be used, Gardner and Davis conclude, and they suggest how the power of apps can be a springboard to greater creativity and higher aspirations.

Retrieving Realism 2015-06-11 Hubert Dreyfus For Descartes, knowledge exists as ideas in the mind that represent the world. In a radical critique, Hubert Dreyfus and Charles Taylor argue that knowledge consists of much more than the representations we formulate in our minds. They affirm our direct contact with reality--both the physical and the social world--and our shared understanding of it.

High-maintenance Relationships 1997-02 Les Parrott How do you cope with impossible people? The author offers clear and direct answers for dealing with relationships that give so little but demand so much.

Numbers in the Dark 2014-11-18 Italo Calvino From the acclaimed, genre-bending Italian fabulist author, a posthumous collection of career-spanning stories previously unavailable in English. "Everybody telephones everybody at every possible moment, and nobody can speak to anybody . . . Distance has been the warp that supports the weft of every love story." --from Numbers in the Dark Written between 1943 and 1984, the stories in Numbers in the Dark span the career of one of fiction's modern masters: from Italo Calvino's earliest fables, to tales informed by life in World War II-era Italy, to the delightful experimentation that would define his later work. Here are speculative stories on life in the digital age, genre-bending wonders, and "impossible interviews" with the likes of Montezuma and a Neanderthal. Deftly translated by Tim Parks, Numbers in the Dark shows off Calvino's lifelong gift for subtle humor and shimmering philosophical insight. Praise for Numbers in the Dark "Numbers in the Dark is a glorious grab-bag . . . [with] enough gems from every phase in Calvino's career to make it feel indispensable." --Seattle Times "These stories reward the patient reader with wisdom, humor, and insight." --Library Journal "Calvino . . . is well-represented in this continually surprising collection . . . . Novelist Parks's superb translations capture Calvino's quirky, iconoclastic voice, helping to make this a worthy addition to the Calvino shelf." --Publishers Weekly

Why Love Hurts 2013-05-20 Eva Illouz Few of us have been spared the agonies of intimate relationships. They come in many shapes: loving a man or a woman who will not commit to us, being heartbroken when we're abandoned by a lover, engaging in Sisyphean internet searches, coming back lonely from bars, parties, or blind dates, feeling bored in a relationship that is so much less than we had envisaged - these are only some of the ways in which the search for love is a difficult and often painful experience. Despite the widespread and almost collective character of these experiences, our culture insists they are the result of faulty or insufficiently mature psyches. For many, the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love. Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives. The purpose of this book is to change our way of thinking about what is wrong in modern relationships. The problem is not dysfunctional childhoods or insufficiently self-aware psyches, but rather the institutional forces shaping how we love. The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice. The samples from which men and women choose a partner, the modes of evaluating prospective partners, the very importance of choice and autonomy and what people imagine to be the spectrum of their choices: all these aspects of choice have transformed the very core of the will, how we want a partner, the sense of worth bestowed by relationships, and the organization of desire. This book does to love what Marx did to commodities: it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors.

The Language of Silence 2004-11-23 Ernestine Schlant Focusing on individual authors from Heinrich Boll to Gunther Grass, Hermann Lenz to Peter Schneider, The Language of Silence offers an analysis of West German literature as it tries to come to terms with the Holocaust and its impact on postwar West German society. Exploring postwar literature as the barometer of Germany's unconsciously held values as well as of its professed conscience, Ernestine Schlant demonstrates that the confrontation with the Holocaust has shifted over the decades from repression, circumvention, and omission to an open acknowledgement of the crimes. Yet even today a 'language of silence' remains since the victims and their suffering are still overlooked and ignored. Learned and exacting, Schlant's study makes an important contribution to our understanding of postwar German culture.

Boris 2012 Andrew Gimson A fully updated edition of Gimson's 2006 biography, with new material covering Boris's years as Mayor of London. His distinctive appearance ("Like a haystack on a bicycle"), befuddled manner and ready wit have assured a high media profile and a large fanbase with the general public. In 2008 he was elected Mayor of London with over 1 million votes, the largest personal mandate of any UK politician. In this, the first and most authoritative biography of Boris, Andrew Gimson investigates Boris' twin-faced dilemma - politics or entertainment - and asks how deep his political ambition runs. Boris has transcended his class, education and his various occupations (Mayor of London, Conservative MP for Henley-on-Thames, Conservative spokesman for Higher Education, columnist on the Daily Telegraph, motoring correspondent for *GO*, novelist, TV presenter) to become a paradoxical character - the old Etonian who fascinates teenagers as well as grandparents, the classical scholar who is also a TV quiz-show contestant.

Despite being a comic actor of genius, he is not just an act and Andrew Gimson's biography covers all facets of this complex individual. There is his exotic Turkish ancestry, his place among five siblings, his competitive relationship with his father Stanley, the distinguished university career, his five years as a journalist in Brussels, his first failed venture into politics ('I fought Clwyd South - and Clwyd South fought back'), overseeing the Spectator during the David Blunkett affair and the Liverpool editorial fiasco which led to Boris' sacking from the shadow cabinet, his exile and return under David Cameron, his two marriages, four children and love affairs. Interviewing Boris' contemporaries, his family and his detractors, Andrew Gimson has created a fascinating and amusing portrait of this unique man of our times.

Temperament as a Regulator of Behavior 2008 Jan Strelau Psychology can be a faddish field, not really solving problems but tiring of them and then running after a new fad. This book demonstrates the value of such long-term dedication to a systematic program of research.

The Adventurous Simplicissimus 2013-12-01 Hans Jacob Christoph von Grimmelshausen The novel follows a boy from the Spessart named Simplicius in the Holy Roman Empire during the 30 Years War as he grows up in the depraved environment and joins the armies of both warring sides, switching allegiances several times. Born to an illiterate peasant family, he is separated from his home by foraging dragoons and is eventually adopted by a forest hermit. He is conscripted at a young age into service, and from there embarks on years of foraging, military triumph, wealth, prostitution, disease, travels to Russia, and countless other adventures.

In the Shadow of Olympus 1992-01-28 Katherine R. Goodman This anthology represents the first sustained feminist examination of eighteenth-and nineteenth-century German women writers in English. These essays highlight the literature produced by German women in the period 1790-1810, framing the discussions with a comparative orientation. The book analyzes in culturally specific detail how these authors came to constitute the first generation of writing women in Germany at a time when Goethe set the standard for literary production. Each essay focuses on the ambivalence of the author(s) toward literary and social models. The authors treated include Rahel Varnhagen, Charlotte von Stein, Friederike Helene Unger, Bettine von Arnim, Caroline Schlegel-Schelling, Sophie Albrecht, Therese Huber, Sophie Mereau, Sophie von La Roche, Henriette Frolich, and Benedikte Naubert.

Pawns in the Game 2014-02-06 William Guy Carr Here is a true story of international intrigue, romances, corruption, graft, and political assassinations, the like of which has never been written before. It is the story of how different groups or atheistic- materialistic men have played in an international chess tournament to decide which group would win ultimate control of the wealth, natural resources, and man- power of the entire world. It is explained how the game has reached the final stage. The International Communists, and the International Capitalists, (both of whom have totalitarian ambitions) have temporarily joined hands to defeat Christian-democracy. The solution is to end the game the International Conspirators have been playing right now before one or another totalitarian-minded group imposes their ideas on the rest of mankind. The story is sensational and shocking, but it is educational because it is the TRUTH. The author offers practical solutions to problems so many people consider insoluble.

The Wanderer 2018-11-06 P. E. Harris Writing 'The Wanderer' was the most fun I've had writing a children's book. Living in several different countries and visiting many more has helped mold a more universal perspective that I hope will be visible in the writing. Hopefully you will enjoy not only the new direction of the poems, but the new illustrations as well. Thanks again for your support!

Second-Hand Knowledge 1983-08-24 Patrick Wilson The author uses social epistemology to develop the cognitive authority theory. The fundamental concept of cognitive authority is that people construct knowledge in two different ways: based on their first-hand experience or on what they have learned second-hand from others. What people learn first-hand depends on the stock of ideas they bring to the interpretation and understanding of their encounters with the world. People primarily depend on others for ideas as well as for information outside the range of direct experience. Much of what they think of the world is what they have gained second-hand. All that people know of the world beyond the narrow range of their own lives is what others have told them. However, people do not count all hearsay as equally reliable; only those who are deemed to “know what they are talking about” become cognitive authorities. --
