Theory: From Margin to Center was first published in

The Single Woman 2013-03-01 Jill Reynolds The
increase in numbers of single people has been described
as one of the greatest social phenomena of western
society. Most women will spend periods of their lives
alone, without a committed partner relationship. Yet
there is still a degree of social stigma attached to this
status. Single women are a crucial group for study in

relation to perceived changes in family life and relationships. This book provides a new understanding of what is often taken-for-granted – female single identity. In an examination of extracts from her interviews with women aged 30 to 60 years and living alone, Jill Reynolds explores how women deal with this potentially stigmatized identity. She focuses on identity and self-representation through consideration of discourse and the conversational moves made by the participants. Her analysis highlights that the culturally available and familiar resources for understanding singleness are highly polarized. Single women weave their way through the extreme contrasts of a denigrated or an empowered identity. Thus, while most participants give very positive accounts, they also pay attention to widespread social expectations that success in life involves a long-term committed relationship. This book makes an important contribution to the understanding of the lives of single women and represents a challenge to the considerable literature on gender and family life which has inadequately theorized singleness. It will be of

great interest to academics and students in social psychology, sociology, social work and social policy. It will also be of particular interest to students of gender studies, qualitative research, narrative studies, conversation analysis and discourse analysis.

Single Lives 2022-05-13 Katherine Fama Single Lives is a collection of singleness studies essays from the interdisciplinary humanities that explores the last two hundred years of literature and popular media by, about, and for single women in the US and the UK. Independent women have always been a center around which social anxieties and excitement coalesced. Moving between the family home and domestic independence, between household and public labor, and between celibacy and a range of sexual relations, the single woman remains a literary and cultural focus, as she has been from the 19th to the 21st centuries. This collection offers readers the opportunity to uncover the social, political, economic, and cultural connections between the "singly blessed" women and "bachelor girls"

of the 19th and early 20th century and "all the single ladies" of the 21st century. Essays read singleness across genre and field, offering new approaches to studying modern and contemporary single women in literature, film, and history. Authors engage scholarship from wide ranging fields of social history, women's studies, queer theory, and Black feminism. The collection reads familiar texts against the grain, rethinking archival resources, revisiting familiar figures, and exploring new sources: cookbooks, ephemera, personal documents, recovered film histories, and forms of domestic space and labor. This is a book for scholars of gender and sexuality, social history, feminist film and media scholars, and literary historians, and reflects the urgent contemporary interest in single women as a political, economic, and cultural force.

Contestations Over Gender in Asia 2017-10-02 Lyn Parker This book brings together the work of scholars from around the world in a consideration of how gender is contested in various parts of Asia – in China, India,

Indonesia, Japan, and the Philippines. Part I of this collection explores notions of agency in relation to women's domestic and everyday lives. While 'agency' is one of the key terms in contemporary social science, scholarship on women in Asia recently has focussed on women's political activism. Women's private lives have been neglected in this new scholarship. This volume has a special focus on women's relational and emotional lives, domestic practices, marriage, singlehood and maternity. Papers consider how women negotiate enhanced space and reputations, challenging negative representations and entrenched models of intra-family and intimate relations. There is also a warning about too free feminist expectations of agency and the repercussions of the exercise of agency. The three essays in Part II examine the historical construction of masculinities in colonial and postcolonial South and Southeast Asia, and the ways that manhood is interpreted, experienced and performed in daily life in the past and in present times. They highlight the centrality and continued relevance of masculinity to

analyses of empire and nation and underscore the highly gendered and (hetero)sexualized nature of political, military, and economic institutions. Collectively, the essays explore a wide range of competing articulations and experiences of gender within Asia, emphasising the historical and contemporary plurality and variability of femininity and masculinity, and the dynamic and intersectional nature of gender identities and relations. This book was published as a special issue of Asian Studies Review.

Voices from the Global Margin 2010-01-01 William P. Mitchell Voices from the Global Margin looks behind

the generalities of debates about globalization to explore the personal impact of global forces on the Peruvian poor. In this highly readable ethnography, William Mitchell draws on the narratives of people he has known for forty years, offering deep insight into how they have coped with extreme poverty and rapid population growth—and their creation of new lives and customs in the process. In their own passionate words they describe their struggles to make ends meet, many abandoning rural homes for marginal wages in Lima and the United States. They chronicle their terror during the Shining Path guerrilla war and the government's violent military response. Mitchell's long experience as an anthropologist living with the people he writes about allows him to put the stories in context, helping readers understand the impact of the larger world on individuals and their communities. His book reckons up the human costs of the global economy, urging us to work toward a more just world.

Roseneil The Tenacity of the Couple-Norm explores the ongoing strength and insidious grip of couple-normativity across changing landscapes of law, policy and everyday life in four contrasting national contexts: the UK, Bulgaria, Norway and Portugal. By investigating how the couple-norm is lived and experienced, how it has changed over time, and how it varies between places and social groups, this book provides a detailed analysis of changing intimate citizenship regimes in Europe, and makes a major intervention in understandings of the contemporary condition of personal life. The authors develop the feminist concept of 'intimate citizenship' and propose the new concept of 'intimate citizenship regime', offering a study of intimate citizenship regimes as normative systems that have been undergoing profound change in recent decades. Against the backdrop of processes of de-patriarchalization, liberalization, pluralization and homonormalization, the ongoing potency of the couple-norm becomes ever clearer.

Finding God in the Margins 2018 Carolyn Custis James
In four short episodes, readers encounter refugees, undocumented immigrants, poverty, hunger, women's rights, male power and privilege, discrimination, and injustice. Carolyn Custis James reveals how the book of Ruth is about God, the questions that surface when life falls apart, and how God reaches into the margins and chooses two totally marginalized women who, in the eyes of the patriarchal culture, are zeros.

Mobilities in India 2021-07-26 Bhaswati Mondal This book presents commuting as a new paradigm in mobility studies in the context of global south. It delves into suburban train commuting in Eastern India. The book interprets commuting not only as a means to attend work but also as a process producing kinetic event-space infused with different mobile practices, which is not determined by their locational fixity, rather can be cognized. It analyses the role of suburban train commuting in the metropolitan expansion of Kolkata,

and the transformation of rural space into urban. The significant contribution of the book lies in explaining commuters' experiencescape and the production of spatial fluidity in time capsule through commuting. It also explores the subjective reality of gendered commuting. The book uses a trans-disciplinary research design, blending quantitative and ethnographic research methods. The area selected for the empirical research is the Howrah-Bardhaman Main Railway Line (108 km), the first suburban railway line in Eastern India. Commuters originating from three adjacent districts of Purba Bardhaman, Hooghly and Howrah took part in this research. Besides the commuters, non-commuting passengers and hawkers in the train were also interviewed to understand the diverse perceptions of the process of commuting. This book may be considered as a reference book for mobility studies, transport studies, urban geography and regional planning.

Pavia In this collection, both individually and collectively, the authors explore the gendering of women's experiences in academia through the lens of narratives of lived experience. This is a cogent theme throughout the book, reflecting on women's experiences as intersectional-always raced, classed, gendered, nuanced and complex. Jointly, the chapters provide important insights into individual and collective contemporary women's experiences in academia from international perspectives, such as gender equity, barriers to success, and achievement. This comprehensive volume provides a reference point for all women and their colleagues working in universities and colleges across the world.

The Culture of Education and Experiential Polemics

*Single Women On The Margins Pdf Pdf

2021-07-18 Alonzo C. DeCarlo A private conversation
about the culture of education related to Black
Americans always yields poignant and sometimes
painful truths. As the reader of this text, you are on the
receiving end of a personal dialogue based on
experiential polemics unrestrained by the politics of
academic marketing. In this treatise of thought on the
intersectionality of education, society, and Black
Americans, Alonzo DeCarlo engages the reader with
textbook flair in some places and subtle diatribes in
others about a philosophy of Being Black in the United
States while pursuing educational mainstays. In a world
where the legal and constitutional support promises so
much yet delivers so little, this book is in part a research
text that specifically puts Black American education at
front and center. It polemically discusses the academic
enterprise in the United States. It offers novel insights
for all parties involved in the educational ecosystem,
which continues to disfavor Black Americans and others
in the general population. The book can be thought of as
a flowchart that connects factors, which contribute to

underachievement in many educational domains and over-representation in institutions that wittingly or unwittingly stifle Black American's socioeconomic mobility. It explores within-group and between-group differences on an array of issues that affect Black Americans' educational state and well-being. A discussion on topics as diverse as psychiatry, sexual orientation, religion, culture, social justice, neuroscience, identity, psychology, and technology is undertaken, as they correlate with Black Americans traversing the academic enterprise from preschool through pre-med. This is admittedly as intriguing as it is ambitious. It is what distinguishes the text from others surrounding it on the bookseller's shelves. In sum, this book is a result of thoughts and ideas compiled from observations on the connectedness of many areas related to and affected by the education of Black Americans.

The Gospel of Ruth 2011-01-07 Carolyn Custis James Traditionally, the Book of Ruth is viewed as a beautiful love story between Ruth and Boaz. But if you dig

deeper, you'll find startling revelations---that God makes much of broken lives, he calls men and women to serve him together, and he's counting on his daughters to build his kingdom. Now in softcover.

Just Don't Get Sick 2007-08-20 Karen Seccombe The ability to obtain health care is fundamental to the security, stability, and well-being of poor families. Government-sponsored programs provide temporary support, but as families leave welfare for work, they find themselves without access to coverage or care. The low-wage jobs that individuals in transition are typically able to secure provide few benefits yet often disqualify employees from receiving federal aid. Drawing upon statistical data and in-depth interviews with over five hundred families in Oregon, Karen Seccombe and Kim Hoffman assess the ways in which welfare reform affects the well-being of adults and children who leave the program for work. We hear of asthmatic children whose uninsured but working mothers cannot obtain the preventive medicines to keep them well, and stories of

pregnant women receiving little or no prenatal care who end up in emergency rooms with life-threatening conditions. Representative of poor communities nationwide, the vivid stories recounted here illuminate the critical relationship between health insurance coverage and the ability to transition from welfare to work.

Sister Wives, Surrogates and Sex Workers 2016-04-01
Angela Campbell Did she choose that? Or, more normatively, 'Why would she choose that?' This book critiques and offers an alternative to these questions, which have traditionally framed law and policy discussions circulating around controversial genderized practices. It examines the simplicity and incompleteness of choice-based rhetoric and of presumptions that women's conduct is shaped, in an absolute way, either by choice or by coercion. This book develops an analytical framework that aims to discern the meaning and value that women may ascribe to morally ambiguous practices. An analysis of law's approach to polygamy, surrogacy

and sex work, particularly in Canada, the United Kingdom and Australia, provides a basis for evaluating the choice-coercion binary and for contemplating alternate modes for assessing, from a law and policy standpoint, the palatability of social practices that appear pernicious to women. Weaving together interdisciplinary research, an innovative analytical framework for assessing choices ostensibly harmful to women, and a critique of the legal rules governing such choices, this book bears relevance for students, scholars, practicing jurists and policymakers seeking a richer understanding of conduct that moves women to the margins of law and society.

Narrating from the Margins 2011 Nagihan Haliloğlu
In Narrating from the Margins, Nagihan Haliloglu casts a discerning look at Jean Rhys' OCOs protagonists and the ways in which they engage in self-narration. The book offers a close reading of Rhys' OCOs novels, with particular attention to the links between identity construction and self-narration, in a modernist and

postcolonial idiom. It draws attention to particular subject-categories that RhysOCOs protagonists fall into, such as the amateur and the white Creole, and delineates narrating personas such as the mad witch and the zombie, to explore aspects of de-essentialization, narrative agency, and dynarrativia. The way in which RhysOCOs protagonists engage in self-narration reveals the close link between race and gender, and how both are contained by similar metaphors, or how, indeed, they become metaphors for each other. The narrators are defined in relation to their place in the OCyholly English familyOCO and how they transgress the rules of that family to become OCyexilesOCO. The study explores the ways in which the self-narrator responds when her narrative is obstructed by society, such as creating a community of stories in which her own makes sense, and/or resorting to third-person narration."

Speaking With One Voice 2021-09-23 Chantal Benoit-Barné This book explores the dynamics and challenges that underlie the ability of organizations to speak with

one voice. Contributions by experienced and emerging scholars shed light on the nature and regulation of the communication processes whereby the many and diverse voices of a collective can unite, act, and speak as a distinct entity, thus contributing to its organizing. By focusing on communicational events, whether in the context of for-profit and non-profit organizations, political protests or social movements, chapters guide the reader through the diverse manifestations and concrete ways of dealing with the imperative for organizations of all kinds to speak with one voice. In doing so, the book creates bridges between different perspectives with regard to the notion of voice and its significance for the study of organizing; between fields of study; and between theory and empirical research aimed at investigating organizing beyond the boundaries of the formal organization. Offering a thorough and comprehensive investigation of the dynamics between multivocality and univocality in the organizing of various collectives, this book will be an important resource for scholars and students of organizational

communication, management studies, media studies and rhetorical studies.

How Girls Achieve 2019 Sally A. Nuamah This bold and necessary book points out a simple and overlooked truth: most schools never had girls in mind to begin with. That is why the world needs what Sally Nuamah calls feminist schools, deliberately designed to provide girls with achievement-oriented identities. And she shows why doing so would help all students, regardless of their gender.

Negotiating Terrain in Local Governance 2021-03-30 Riya Banerjee This book explores and analyses women's participation in local urban governance in West Bengal, India. It is developed from empirical research with in-depth understanding of ground situations of freedom, functioning and obstacles of women councilors in India. The central idea of this book revolves around two central research questions: 1. How are women's positions and spaces changing due to their political

participation in the urban local governance? and 2. What are the major hurdles they face in their day to day lives barring their emancipation? The main strength of the book lies in the in-depth grounded research in four small cities (Darjiling, Balurghat, Raniganj and Hugli-Chinsurah) using both quantitative and qualitative research methods. This volume can be considered as a reference book for Gender Studies, Women's Studies, Urban Governance, Women and Policy Research, Gender Development Studies.

The Place of the Social Margins, 1350-1750 2016-08-12 Andrew Spicer This interdisciplinary volume illuminates the shadowy history of the disadvantaged, sick and those who did not conform to the accepted norms of society. It explores how marginal identity was formed, perceived and represented in Britain and Europe during the medieval and early modern periods. It illustrates that the identities of marginal groups were shaped by their place within primarily urban communities, both in terms of their socio-economic status and the spaces in which they

lived and worked. Some of these groups – such as executioners, prostitutes, pedlars and slaves – performed a significant social and economic function but on the basis of this were stigmatized by other townspeople. Language was used to control and limit the activities of others within society such as single women and foreigners, as well as the victims of sexual crimes. For many, such as lepers and the disabled, marginal status could be ambiguous, cyclical or short-lived and affected by key religious, political and economic events. Traditional histories have often considered these groups in isolation. Based on new research, a series of case studies from Britain and across Europe illustrate and provide important insights into the problems faced by these marginal groups and the ways in which medieval and early modern communities were shaped and developed.

true. The Claire Donovan, editor-in-chief of the most successful romance publishing company in the country, has requested to see the manuscript Savannah's been secretly writing. The only problem: she's an editor for a different company, and their philosophy is only highbrow works are worth printing and romance should be reserved for the lowest level of Dante's inferno. But when Savannah drops her manuscript during a staff meeting and nearly exposes herself to the whole company—including William Pennington, the new boss and son of the romance-despising CEO herself—she has no choice but to hide the manuscript in a hidden room. When she returns, she's dismayed to discover that someone has not only been in her hidden nook but has written notes in the margins—quite critical ones. But when Claire's own reaction turns out to be nearly identical to the scribbled remarks, and worse, Claire announces that Savannah has six weeks to resubmit before she retires, Savannah finds herself forced to seek the help of the shadowy editor after all. As their notes back and forth start to fill up the pages, however,

Savannah finds him not just becoming pivotal to her work but her life. There's no doubt about it: she's falling for her mystery editor. If she only knew who he was. Leadership From the Margins 2010-07-23 Serena Cosgrove Women have experienced decades of economic and political repression across Latin America, where many nations are built upon patriarchal systems of power. However, a recent confluence of political, economic, and historical factors has allowed for the emergence of civil society organizations (CSOs) that afford women a voice throughout the region. *Leadership from the Margins* describes and analyzes the unique leadership styles and challenges facing the women leaders of CSOs in Argentina, Chile, and El Salvador. Based on ethnographic research, Serena Cosgrove's

analysis offers a nuanced account of the distinct struggles facing women, and how differences of class, political ideology, and ethnicity have informed their outlook and organizing strategies. Using a gendered lens, she reveals the power and potential of women's leadership to impact the direction of local, regional, and global development agendas.

Gender, Violence, and Justice 2019-03-20 Pamela Cooper-White *Gender, Violence, and Justice* is a volume of collected essays by an expert in the field of violence against women and pastoral theology. It represents over three decades of research, advocacy, and pastoral theological reflection on the subject of sexual and domestic violence. Topics include intimate partner violence, sexual abuse and trauma, and clergy sexual misconduct; controversial theological issues such as forgiveness; and, as well, positive frameworks for fostering well-being in families, church, and society. Framed by a foreword and an introduction that place this work in the context of new and contemporary

challenges in theory and practice, these essays show an evolution of issues and frameworks for theology, care, and activism arising over time from the movement to end violence against women (both within and beyond religious communities)—while at the same time demonstrating an unchanging core commitment to gender justice.

Moving in the Shadows 2016-04-15 Liz Kelly In the UK the number of people who came from a minority ethnic group grew by 53 per cent between 1991 and 2001, from 3.0 million in 1991 to 4.6 million in 2001. Whilst much has been written about the impact of these demographic changes in relation to policy issues, black and minority women and children remain under-researched. Recent publications have tended to focus on South Asian women, forced marriage and 'honour' related violence. Moving in the Shadows brings together for the first time in a single volume, an examination of violence against women and children within the diverse communities of the UK. Its strength lies in its gendered focus as well as its understanding of the need for an integrated approach to all forms of violence against women, whilst foregrounding the experiences of minority women, the communities they are part of, and the organizations which have advocated for their rights and given them voice. The chapters contained within this volume explore a set of core themes: the forms and contexts of violence minority women experience; the

continuum of violence; the role of culture and faith in the control of women and girls; the types of intervention within multi-cultural and social cohesion policies; the impacts of violence on British-born and migrant women and girls; and the intersection of race, class, gender and sexuality highlighting issues of similarity and difference. Taken together, they provide a valuable resource for scholars, students, activists, social workers and policy-makers working in the field.

Challenges and Opportunities for Women in Higher Education Leadership 2018-12-07 Schnackenberg, Heidi L. Gender studies in the professional realm has long been a heavily researched field, with many feminist texts studying topics including the wage gap and family life. However, female administration in higher education remains largely understudied, particularly on the influence of personal, professional, and societal factors on women. There is a need for studies that seek to understand how gender intersects with the multiple dimensions of women leaders' personhoods, such as

family status, marital status, age, race, ethnicity, and sexual orientation, to inform women's career path experiences and leadership aspirations. Challenges and Opportunities for Women in Higher Education Leadership is a pivotal reference source that provides vital research on the specific challenges, issues, strategies, and solutions that are associated with diverse leadership in higher education. While highlighting topics such as educational administration, leader mentorship, and professional promotion, this publication explores evidence-based professional practice for women in higher education who are currently in or are seeking positions of leadership, as well as the methods of nurturing women in administrative positions. This book is ideally designed for educators, researchers, academicians, scholars, policymakers, educational administrators, graduate-level students, and pre-service teachers seeking current research on the state of educational leadership in regard to gender.

From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and

women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

Teen Lives around the World [2 volumes] 2019-11-08
Karen Wells This two-volume encyclopedia looks at the lives of teenagers around the world, examining topics from a typical school day to major issues that teens face today, including bullying, violence, sexuality, and social and financial pressures. Teenagers are living in a rapidly changing and increasingly interconnected yet unequal world. Whether they live in Australia or Zimbabwe, they have in common that they are between childhood and adulthood and increasingly aware of how inequality is affecting their lives and futures. This encyclopedia gives

a different perspective based on the experiences of teens in 60 countries. Each entry gives the reader a brief sketch of a country to help readers to understand how geography, history, economics, and politics shape teen life. The entries include a country overview and cover the following topics: Schooling and Education; Extracurricular Activities: Art, Music, and Sports; Family and Social Life; Religions and Cultural Rites of Passage; Rights and Legal Status; and Issues Today. Special sidebars, called Teen Voices, appear throughout the text, and include a description of a typical day in the life of a teen in various countries. Students will be able to gain a better understanding of what life is like around the world for their peers and will be able to easily make cross-cultural comparisons between different countries.
