**Inge Morath. La Vita, la Fotografia. Catalogo Della Mostra (Treviso, 28 Febbraio-9 Giugno 2019). Ediz. Italiana E**

**Inglese** Marco Minuz 2019 This book provides a survey of the work of Austrian-born American photographer Inge Morath (1923-2002). Surviving the Allied bombing of the Berlin factory where she worked, Morath, originally a journalist, became one of the woman photographers to join the Magnum agency. A formidable intellectual and diversely talented, Morath eventually established herself as a photographer with an unsentimental and direct approach, and also became an early pioneer and champion of color photography. This volume gathers more than 150

photographs and documents that delineate the main phases of Morath's career, emphasizing the humanitarian empathy that characterized all of her production. Included here are some of Morath's most influential reportages, from her portrayal of Venice to her gorgeous images of the Danube river; and images taken in countries ranging from Spain to Russia, from Iran to China, to Romania, the US and her native Austria.

*Journal of Researches Into the Geology and Natural History of the Various Countries Visited by H. M. S. Beagle* Charles Darwin 1839  
*Auguste Rodin* Rainer Maria Rilke 1919 Rodin has pronounced Rilke's essay the supreme interpretation of his work. A few years ago the sculptor expressed to the translators the wish that some day the book might be placed before the English-speaking public. The appreciation was published originally as one of a series of Art Monographs under the editorship of the late Richard Muther. To estimate and interpret the work of an artist is to be creatively just to him. For this reason there are fewer critics than there are artists, and criticism with but few exceptions is almost invariably negligible and futile.

**The Politics of the Picturesque** Stephen Copley 1994-03-10  
The Picturesque (a set of theories, ideas, and conventions which grew up around the question of how we look at landscape) offers a valuable focus for new investigations into the literary, artistic, social, and cultural history of the late eighteenth and nineteenth centuries. This volume of essays by scholars from various disciplines in Britain and America incorporates a range of historically and theoretically challenging approaches to the topic. It covers the writers most closely identified with the exposition of the Picturesque as a theory, and also traces the influence and implications of its aesthetic in a variety of fields in the Romantic period, including literary and pictorial works, estate management, and women's fashion. Several essays deal more specifically with radical critiques and appropriations of the Picturesque in the nineteenth century, while in others, its influence is traced beyond traditionally accepted geographical or historical bounds.

**The Cube and the Face** Georges Didi-Huberman 2015  
This monograph of French art theorist and philosopher Georges Didi-Huberman centers around a single sculpture: Alberto Giacometti's "Cube" from 1934 (Kunsthaus Zurich), possibly his most peculiar and atypical creation, being his only abstract sculptural work within a wider oeuvre, which consistently had the exploration of reality as its main objective. By conducting a meticulous formal analysis of the sculpture, and consulting sketches, etchings, other sculptural works and texts of Giacometti originating from 1932 to 1935, the formative years of "Cube," Didi-Huberman unwinds a net of questions, hypotheses, and historical contextualizations in which he envelops his investigation to unfold for the reader a wide spectrum of new perspectives. "Cube," as it turns out, marks an exception. It is a self-containing work, barred from any stylistic kinship and functions prismatically at the same time, delineates Giacometti's transition from his surrealist to his realist phase and thus contains in nuce principles which underlie his entire aesthetic understanding: the relation of the body to geometry, the problem of dimensionality, the separation between face and skull, the question of the portrait, which, in regards to this sculpture, prompts Didi-Huberman to develop the new notion of an abstract anthropomorphism. Referencing the works of Freud, Bataille, Leiris and Carl Einstein, which had a lasting influence on Giacometti as well, this study presents the reader with an exuberant plurality of methodological approaches and readings. Out of a newly arising sensibility for a formal analysis, Didi-Huberman develops his very own anthropological perspective on the notion of the image."

[Omega Watches](#) John Goldberger 2005 John Goldberger has been collecting and studying vintage watches for over 25 years, which means he's spent many happy hours at jewelers' shops, flea markets, conventions and auctions around the world. His comprehensive and detailed illustrated book on the Omega family of Swiss timepieces is an indispensable asset to others who share his obsession, and to those who would love to--to armchair collectors. Omega Watches covers the history of more than 240 vintage models, with emphasis on their outer aspects--including the shape and outline of each case and its dial and movements, which are governing features for the collector, as well as clues to exceptional internal design. Goldberg has created a beautiful visual guide to Omega timepieces from the classic pocketwatch to the modern chronograph. Starting with the first models of the past century, Omega Watches displays the beauty, complexity and the collectibility of classic watches such as the Speedmaster, first produced in 1957, and the Seamaster, both of which are still produced today. All examples depicted are from private collections.

**Hell's Foundations** Geoffrey Moorhouse 2011-11-03  
There is no shortage of books on the ill-fated Gallipoli campaign of 1915 but this one stands out. In it Geoffrey Moorhouse moves the focus

from the more familiar aspects to concentrate on one small mill town, Bury, in Lancashire, and to anatomize the long-lasting effect the Dardanelles had on it. Bury was the regimental home of the Lancashire Fusiliers. In the Gallipoli landings of 25 April 1915 it lost a large proportion of its youth. By May 1915, some 7,000 Bury men had already gone to war, to be followed by many others before Armistice Day. More than 1,600, from just three local battalions of the Fusiliers were among those who never returned. The regiment left 1,816 dead men on Gallipoli alone: it lost 13,642 soldiers in the Great War as a whole. This terrifying sacrifice left its mark. Bury commemorates Gallipoli on a scale similar to Anzac Day in Australia and New Zealand and yet as the Second World War approached, recruitment to the regiment fell far behind that in other Lancashire towns. 'Hurtles one from rage and cynicism to involvement and tenderness . . . Moorhouse offers one of the most fascinating revelations of the orthodox British spirit, religious, political and social . . . This book makes wonderful reading.' Ronald Blythe, *Sunday Times* 'A fascinating new approach to this tragedy . . . Moorhouse's contribution (to the bibliography of Gallipoli) is of quite outstanding value.' Robert Rhodes James, *The Independent* 'A subtle and moving exploration of the way that memories of slaughter and loss shaped the town's post-first world war identity.' Terry Eagleton, *New Statesman*

**Histories of Peirene** Betsey Ann Robinson 2011 The Peirene Fountain as described by its first excavator, Rufus B. Richardson, is "the most famous fountain of Greece." Here is a retrospective of a wellspring of Western civilization, distinguished by its long history, service to a great ancient city, and early identification as the site where Pegasus landed and was tamed by the hero Bellerophon. Spanning three millennia and touching a fourth, Peirene developed from a nameless spring to a renowned source of inspiration, from a busy landmark in Classical Corinth to a quiet churchyard and cemetery in the Byzantine era, and finally from free-flowing Ottoman fountains back to the streams of the source within a living ruin. These histories of Peirene as a spring and as a fountain, and of its watery imagery, form a rich cultural narrative whose interrelations and meanings are best appreciated when studied together. The author deftly describes the evolution of the Fountain of Peirene framed against the underlying landscape and its ancient, medieval, and modern settlement, viewed from the perspective of Corinthian culture and spheres of interaction. Published with the assistance of the Getty Foundation. Winner of the 2011 Prose Award for Professional and Scholarly Excellence in the category of Archaeology/Anthropology. The Prose Awards are given annually by the Professional and Scholarly Publishing division of the American Association of Publishers.

**Magic in the Ancient World** Fritz Graf 1997 Ancient Greeks and Romans often turned to magic to achieve personal goals. Magical rites were seen as a route for direct access to the gods, for material gains as well as spiritual satisfaction. In this survey of magical beliefs and practices from the sixth century B.C.E. through late antiquity, Fritz Graf sheds new light on ancient religion. Graf explores the important types of magic in Greco-Roman antiquity, describing rites and explaining the theory behind them. And he characterizes the ancient magician: his training and initiation, social status, and presumed connections with the divine world. With trenchant analysis of underlying conceptions and vivid account of illustrative cases, Graf gives a full picture of the practice of magic and its implications. He concludes with an evaluation of the relation of magic to religion.
