**Network Project with HP Switch** B. T. Ricci 2016-07-28 Despite having a good knowledge related to computer networks and even have some certifications on the subject, Luke, a 26-year-old IT analyst has just received a mission to deploy a new network using only HP switches. Despite being confident in his skills, Luke realizes that he does not know how to configure this brand of equipment and after researching this subject for a while was able to notice a lack of such documentation on the market. Throughout this book, we will follow all stages of Luke's story, which in addition to the installation of a new corporate network will also be responsible for its operation at the end of the project. This book can be used in a couple of ways. If you read it in a linear way, you will follow the story of Luke, learn how to configure network equipment, how to troubleshoot network issues, how to improve your network environment already established and how to create a virtual laboratory. If you don't want to read in a linear way, each chapter also works individually. Therefore, you can just skip to a particular section and use the book as a reference material.

**Reel Time** Robert Morris Seiler 2013 In this authoritative work, Seiler and Seiler argues that the establishment and development of moviegoing and movie exhibition in Prairie Canada is best understood in the context of changing late-nineteenth-century and early-twentieth-century social, economic, and technological developments. From the first entrepreneurs who attempted to lure customers in to movie exhibition halls, to the digital revolution and its impact on moviegoing, Reel Time highlights the pivotal role of amusement venues in shaping the leisure activities of working- and middle-class people across North America. As marketing efforts, the lavish interiors of the movie palace and the romantic view of the local movie theatre concealed a competitive environment in which producers, exhibitors, and distributors tried to monopolize the industry and drive their

rivals out of business. The pitched battles and power struggles between national movie theatre chains took place at the same time that movie exhibitors launched campaigns to reassure moviegoers that theatres were no longer the "unclean and immoral places of amusement" of yesteryear. Under the leadership of impresarios, the movie theatre rose up from these attacks to become an important social and cultural centre - one deemed "suitable for women and children." An innovative examination of moviegoing as a social practice and movie exhibition as a commercial enterprise, *Reel Time* depicts how the industry shaped the development of the Canadian Prairie West and propelled the region into the modern era. Robert M. Seiler is associate professor emeritus in communication and culture at the University of Calgary. Tamara P. Seiler is professor emeritus of Canadian studies at the University of Calgary. *Reel Time* is their second joint publication.
