**We Still Hold These Truths** Matthew Spalding 2014-04-08 The Essential Guide to Rolling Back the Progressive Assault and Putting America Back on Course Many Americans are concerned, frightened, angry. The country, it seems, is on the wrong track. But what is the right course for America? Knowing what we stand against is not the same as knowing what we stand for. Just in time, Matthew Spalding provides the plan for translating angst into proper action in this bestselling book. *We Still Hold These Truths* offers a bracing analysis of how and why we have lost our bearings as a nation and lays out the strategy to rescue our future from arbitrary and unlimited government.

**The Big Lie** Dinesh D'Souza 2017-07-31 "Of course, everything [D'Souza] says here is accurate... But it's not going to sit well with people on the American left who, of course, are portraying themselves as the exact opposite of all of this." —RUSH LIMBAUGH The explosive new book from Dinesh D'Souza, author of the #1 New York Times bestsellers *Hillary's America*, *America*, and *Obama's America*. What is "the big lie" of the Democratic Party? That conservatives—and President Donald Trump in particular—are fascists. Nazis, even. In a typical comment, MSNBC host Rachel Maddow says the Trump era is reminiscent of "what it was like when Hitler first became chancellor." But in fact, this audacious lie is a complete inversion of the truth. Yes, there is a fascist threat in America—but that threat is from the Left and the Democratic Party. The Democratic left has an ideology virtually identical with fascism and routinely borrows tactics of intimidation and political terror from the Nazi Brownshirts. To cover up their insidious fascist agenda, Democrats loudly accuse President Trump and other Republicans of being Nazis—an obvious lie, considering the GOP has been fighting the Democrats over slavery, genocide, racism and fascism from the beginning. Now, finally, Dinesh D'Souza explodes the Left's big lie. He expertly exonerates President Trump and his supporters, then uncovers the Democratic Left's long, cozy relationship with Nazism: how the racist and genocidal acts of early Democrats inspired Adolf

Hitler's campaign of death; how fascist philosophers influenced the great 20th century lions of the American Left; and how today's anti-free speech, anti-capitalist, anti-religious liberty, pro-violence Democratic Party is a frightening simulacrum of the Nazi Party. Hitler coined the term "the big lie" to describe a lie that "the great masses of the people" will fall for precisely because of how bold and monstrous the lie is. In *The Big Lie*, D'Souza shows that the Democratic Left's orchestrated campaign to paint President Trump and conservatives as Nazis to cover up its own fascism is, in fact, the biggest lie of all.

**The Far Right Today** Cas Mudde 2019-10-25 The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world's largest democracies – Brazil, India, and the United States – now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time.

**Liberal Fascism** Jonah Goldberg 2009-01-29 Today the word 'fascist' is usually an insult aimed at those on the right, from neocons to big business. But what does it really mean? What if the true heirs to fascism were actually those who thought of themselves as being terribly nice and progressive - the liberals? Jonah Goldberg's scorching, opinion-driving, US bestseller explains why. Here he destroys long-held myths to reveal why the most insidious attempts to control our lives originate from the left, whether it's smoking bans or security cameras. Journeying through history and across culture, he uses surprising examples ranging from

Woodrow Wilson's police state to the Clinton personality cult, the military chic of 60s' student radicals to Hollywood's totalitarian aesthetics, to show that it is modern progressivism - and not conservatism - that shares the same intellectual roots as fascism. This angry, funny, smart and contentious book looks behind the friendly face of the well-meaning liberal, and turns our preconceptions inside out.

The Anatomy of Fascism Robert O. Paxton 2007-12-18 What is fascism? By focusing on the concrete: what the fascists did, rather than what they said, the esteemed historian Robert O. Paxton answers this question. From the first violent uniformed bands beating up "enemies of the state," through Mussolini's rise to power, to Germany's fascist radicalization in World War II, Paxton shows clearly why fascists came to power in some countries and not others, and explores whether fascism could exist outside the early-twentieth-century European setting in which it emerged. "A deeply intelligent and very readable book. . . . Historical analysis at its best." -The Economist The Anatomy of Fascism will have a lasting impact on our understanding of modern European history, just as Paxton's classic Vichy France redefined our vision of World War II. Based on a lifetime of research, this compelling and important book transforms our knowledge of fascism—"the major political innovation of the twentieth century, and the source of much of its pain."

*Three New Deals* Wolfgang Schivelbusch 2007-04-01 From a world-renowned cultural historian, an original look at the hidden commonalities among Fascism, Nazism, and the New Deal Today Franklin Delano Roosevelt's New Deal is regarded as the democratic ideal, the positive American response to an economic crisis that propelled Germany and Italy toward Fascism. Yet in the 1930s, shocking as it may seem, these regimes were hardly considered antithetical. Now, Wolfgang Schivelbusch investigates the shared elements of these three "new deals" to offer a striking explanation for the popularity of Europe's totalitarian systems. Returning to the Depression, Schivelbusch traces the emergence of a new type of state: bolstered by mass propaganda, led by a charismatic figure, and projecting stability and power. He uncovers stunning similarities among the three regimes: the symbolic importance of gigantic public works programs like the TVA dams and the German autobahn, which not only put people back to work but embodied the state's authority; the seductive persuasiveness of Roosevelt's fireside chats and Mussolini's radio talks; the vogue for monumental architecture stamped on Washington, as on Berlin; and the omnipresent banners enlisting citizens as loyal followers of the state. Far from equating Roosevelt, Hitler, and Mussolini or minimizing their acute differences, Schivelbusch proposes that the populist and paternalist qualities common to their states hold the key to the puzzling allegiance once granted to Europe's most tyrannical regimes.

*Our Oldest Enemy* John J. Miller 2007-12-18 Liberté? Egalité? Fraternité? Or just plain gall? In this provocative and brilliantly researched history of how the French have dealt with the United States, John J. Miller and Mark

Molesky demonstrate that the cherished idea of French friendship has little basis in reality. Despite the myth of the "sister republics," the French have always been our rivals, and have harmed and obstructed our interests more often than not. This history of French hostility goes back to 1704, when a group of French and Indians massacred American settlers in Deerfield, Massachusetts. The authors also debunk the myth of French aid during the Revolution: contrary to popular notions, the French did not enter the war until very late and were mainly interested in hurting their rivals, the British. After the war, the French continued to see themselves as major players in the Western hemisphere and shaped their policies to limit the growth and power of the new nation. The notorious XYZ affair, involving French efforts to undermine the government of George Washington, led to an undeclared naval war with France in 1798. During the Civil War, the French supported the Confederacy and installed a puppet emperor in Mexico. In the twentieth century, Americans clashed with the French repeatedly. The French victory over President Wilson at Versailles imposed a short-sighted and punitive settlement on Germany that paved the way for the rise of fascism in the 1930s. During World War II, Vichy French troops killed hundreds of American soldiers in North Africa, and diehard French fascist units fought against the Allies in the rubble of Berlin. During the Cold War, Charles DeGaulle yanked France out of NATO and obstructed our efforts to roll back Soviet expansion. The legacy of French imperial power has been no less disastrous. The French left Haiti in a shambles, got us into Vietnam, and educated many of the world's worst tyrants at their elite universities, including Pol Pot, the genocidal Cambodian dictator. The fascist Baath regimes in Iraq and Syria are another legacy of failed French colonialism. Americans have been particularly irritated by French cultural arrogance—their crusades against American movies, McDonalds, Disney, and the exclusion of American words from their language have always rubbed us the wrong way. This irritation has now blossomed into outrage. Our Oldest Enemy shows why that outrage is justified.

*Liberal Socialism* Carlo Rosselli 2017-03-14 First published in 1930, amidst the collapse of socialist ideals and the onset of fascism throughout parts of Europe, Liberal Socialism is a powerful and timely document on the ethics of political action. During his confinement for his anti-fascist beliefs, the Italian political philosopher Carlo Rosselli (1899-1937) wrote this work not only as a critique of fascism, but also as an investigation into the history of Marxism and the need for a liberal reformulation of socialism. In this first English-language edition, Nadia Urbinati highlights both the historical and theoretical importance of Liberal Socialism, which continued to inspire the anti-fascist movement "Giustizia e Liberta." long after Rosselli's assassination by Mussolini's agents, and which outlines a possible rebirth of the socialist and democratic movements. Rosselli's analysis provides an illuminating interpretation of the ideological crisis of Marxism, in its positivistic version,

during the late nineteenth century and exposes the intellectual weakness of revisionist efforts to delineate new versions of Marx's doctrine. He encourages readers to view socialism as an ethical ideal and to consider whether Marxist or liberal methods combine better with socialism to achieve that ideal. Rosselli opts for a liberal socialism that avoids the shortcomings of uncontrolled laissez-faire but favors state intervention to secure public services and social rights. Originally published in 1994. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

**The Birth of Fascist Ideology** Zeev Sternhell 1994 When *The Birth of Fascist Ideology* was first published in 1989 in France and at the beginning of 1993 in Italy, it aroused a storm of response, positive and negative, to Zeev Sternhell's controversial interpretations. In Sternhell's view, fascism was much more than an episode in the history of Italy. He argues here that it possessed a coherent ideology with deep roots in European civilization. Long before fascism became a political force, he maintains, it was a major cultural phenomenon. This important book further asserts that although fascist ideology was grounded in a revolt against the Enlightenment, it was not a reactionary movement. It represented, instead, an ideological alternative to Marxism and liberalism and competed effectively with them by positing a revolt against modernity. Sternhell argues that the conceptual framework of fascism played an important role in its development. Building on radical nationalism and an "antimaterialist" revision of Marxism, fascism sought to destroy the existing political order and to uproot its theoretical and moral foundations. At the same time, its proponents wished to preserve all the achievements of modern technology and the advantages of the market economy. Nevertheless, fascism opposed every "bourgeois" value: universalism, humanism, progress, natural rights, and equality. Thus, as Sternhell shows, the fascists adopted the economic aspect of liberalism but completely denied its philosophical principles and the intellectual and moral heritage of modernity.

**From Liberal Democracy to Fascism** Peter Caldwell 2021-10-01 This book reexamines the crucial debates on law and politics, which rose during the Weimar Republic. The authors show the continued relevance of these debates for the constitutional culture of the Federal Republic, and indeed for liberal democracy in general.

**The Pope and Mussolini** David I. Kertzer 2014-01-28 PULITZER PRIZE WINNER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SAN FRANCISCO CHRONICLE From National Book Award finalist David I. Kertzer comes the gripping story of Pope Pius XI's secret relations with Italian dictator Benito Mussolini. This

groundbreaking work, based on seven years of research in the Vatican and Fascist archives, including reports from Mussolini's spies inside the highest levels of the Church, will forever change our understanding of the Vatican's role in the rise of Fascism in Europe. *The Pope and Mussolini* tells the story of two men who came to power in 1922, and together changed the course of twentieth-century history. In most respects, they could not have been more different. One was scholarly and devout, the other thuggish and profane. Yet Pius XI and "Il Duce" had many things in common. They shared a distrust of democracy and a visceral hatred of Communism. Both were prone to sudden fits of temper and were fiercely protective of the prerogatives of their office. ("We have many interests to protect," the Pope declared, soon after Mussolini seized control of the government in 1922.) Each relied on the other to consolidate his power and achieve his political goals. In a challenge to the conventional history of this period, in which a heroic Church does battle with the Fascist regime, Kertzer shows how Pius XI played a crucial role in making Mussolini's dictatorship possible and keeping him in power. In exchange for Vatican support, Mussolini restored many of the privileges the Church had lost and gave in to the pope's demands that the police enforce Catholic morality. Yet in the last years of his life—as the Italian dictator grew ever closer to Hitler—the pontiff's faith in this treacherous bargain started to waver. With his health failing, he began to lash out at the Duce and threatened to denounce Mussolini's anti-Semitic racial laws before it was too late. Horrified by the threat to the Church-Fascist alliance, the Vatican's inner circle, including the future Pope Pius XII, struggled to restrain the headstrong pope from destroying a partnership that had served both the Church and the dictator for many years. *The Pope and Mussolini* brims with memorable portraits of the men who helped enable the reign of Fascism in Italy: Father Pietro Tacchi Venturi, Pius's personal emissary to the dictator, a wily anti-Semite known as Mussolini's Rasputin; Victor Emmanuel III, the king of Italy, an object of widespread derision who lacked the stature—literally and figuratively—to stand up to the domineering Duce; and Cardinal Secretary of State Eugenio Pacelli, whose political skills and ambition made him Mussolini's most powerful ally inside the Vatican, and positioned him to succeed the pontiff as the controversial Pius XII, whose actions during World War II would be subject for debate for decades to come. With the recent opening of the Vatican archives covering Pius XI's papacy, the full story of the Pope's complex relationship with his Fascist partner can finally be told. Vivid, dramatic, with surprises at every turn, *The Pope and Mussolini* is history writ large and with the lightning hand of truth.

**Listen, Liberal** Thomas Frank 2016-03-15 From the bestselling author of *What's the Matter With Kansas*, a scathing look at the standard-bearers of liberal politics -- a book that asks: what's the matter with Democrats? It is a widespread belief among liberals that if only Democrats can continue to dominate national elections, if

only those awful Republicans are beaten into submission, the country will be on the right course. But this is to fundamentally misunderstand the modern Democratic Party. Drawing on years of research and first-hand reporting, Frank points out that the Democrats have done little to advance traditional liberal goals: expanding opportunity, fighting for social justice, and ensuring that workers get a fair deal. Indeed, they have scarcely dented the free-market consensus at all. This is not for lack of opportunity: Democrats have occupied the White House for sixteen of the last twenty-four years, and yet the decline of the middle class has only accelerated. Wall Street gets its bailouts, wages keep falling, and the free-trade deals keep coming. With his trademark sardonic wit and lacerating logic, Frank's Listen, Liberal lays bare the essence of the Democratic Party's philosophy and how it has changed over the years. A form of corporate and cultural elitism has largely eclipsed the party's old working-class commitment, he finds. For certain favored groups, this has meant prosperity. But for the nation as a whole, it is a one-way ticket into the abyss of inequality. In this critical election year, Frank recalls the Democrats to their historic goals—the only way to reverse the ever-deepening rift between the rich and the poor in America.

**Bland Fanatics** Pankaj Mishra 2020-10-06 A wide-ranging, controversial collection of critical essays on the political mania plaguing the West by one of the most important public intellectuals of our time. In America and in England, faltering economies at home and failed wars abroad have generated a political and intellectual hysteria. It is a derangement manifested in a number of ways: nostalgia for imperialism, xenophobic paranoia, and denunciations of an allegedly intolerant left. These symptoms can be found even among the most informed of Anglo-America. In *Bland Fanatics*, Pankaj Mishra examines the politics and culture of this hysteria, challenging the dominant establishment discourses of our times. In essays that grapple with the meaning and content of Anglo-American liberalism and its relations with colonialism, the global South, Islam, and “humanitarian” war, Mishra confronts writers such as Jordan Peterson, Niall Ferguson, and Salman Rushdie. He describes the doubling down of an intelligentsia against a background of weakening Anglo-American hegemony, and he explores the commitments of Ta-Nehisi Coates and the ideological determinations of *The Economist*. These essays provide a vantage point from which to understand the current crisis and its deep origins.

**The Heritage Guide to the Constitution** David F. Forte 2014-09-16 A landmark work of more than one hundred scholars, *The Heritage Guide to the Constitution* is a unique line-by-line analysis explaining every clause of America's founding charter and its contemporary meaning. In this fully revised second edition, leading scholars in law, history, and public policy offer more than two hundred updated and incisive essays on every clause of the Constitution. From the stirring words of the Preamble to the Twenty-seventh Amendment, you

will gain new insights into the ideas that made America, important debates that continue from our Founding, and the Constitution's true meaning for our nation

[You're Nose Is in My Crotch! and Other Things You Shouldn't Know about Liberal Fascism](#) Sophia Kemp 2013-04 In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "Liberal Fascism: The Secret History of the American Left, From Mussolini to the Politics of Meaning." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

[Fire and Blood](#) Enzo Traverso 2016-02-16 Europe's second Thirty Years' War—an epoch of blood and ashes *Fire and Blood* looks at the European crisis of the two world wars as a single historical sequence: the age of the European Civil War (1914–1945). Its overture was played out in the trenches of the Great War; its coda on a ruined continent. It opened with conventional declarations of war and finished with “unconditional surrender.” Proclamations of national unity led to eventual devastation, with entire countries torn to pieces. During these three decades of deepening conflicts, a classical interstate conflict morphed into a global civil war, abandoning rules of engagement and fought by irreducible enemies rather than legitimate adversaries, each seeking the annihilation of its opponents. It was a time of both unchained passions and industrial, rationalized massacre. Utilizing multiple sources, Enzo Traverso depicts the dialectic of this era of wars, revolutions and genocides. Rejecting commonplace notions of “totalitarian evil,” he rediscovers the feelings and reinterprets the ideas of an age of intellectual and political commitment when Europe shaped world history with its own collapse.

**LIBERAL FASCISM: the Secret History of American Nazism** exposed by Dr. Rex Curry Dead Writers Club 2015-07-31 The Pledge of Allegiance was the origin of the Nazi salute and Nazi behavior. Under Germany's Nazis, the swastika symbol was crossed "S" letters for "SOCIALIST" (for the National Socialist German Workers Party). Those are only two of the amazing discoveries in this blockbuster that have been left out of similar books on this topic. This blood drenched book offers eye-popping new analysis of the origins of fascism and explores the discoveries of the historian Dr. Rex Curry. Replacing conveniently manufactured myths with surprising research, the author Micky Barnetti reminds us of the history of robotic chanting en masse and on cue, accompanied by violence for anyone who refused to submit. Discover the secret of how the military salute was the origin of the fascist salute. Study the Wholecaust (of which the Holocaust was a part). Learn how the word "Fascist" is related to the word "faggot." Calling someone a fascist is the fastest

way to shut someone up, defining their views as beyond the pale. But who are the real fascists in our midst? According to the author Micky Barnetti, the pledge remains the first fascist bullying that begins each day in government schools (fascist schools) in Police State USA. The quintessential Liberal Fascist isn't an SS storm trooper; it is a public school teacher brainwashing children every day for 12 years of their lives. These revelations may sound odd to modern ears, but that is because we have forgotten what fascism is. In this smart, contentious book, Barnetti turns our preconceptions upside down and shows us the unvarnished meaning of Liberal Fascism. Find out why, if the truth were taught about the Pledge of Allegiance, then everyone (other than fascist kooks) would refuse to perform Francis Bellamy's quotidian mechanical ritual. The fascist salute was performed by public officials in the USA from 1892 through 1942. What happened to the photographs and films of the American fascist salute performed by federal, state, county, and local officials? Those photos and films are rare because people don't want to know the truth. Public officials in the USA who preceded the Adolf Hitler and the Benito Mussolini were sources for the stiff-armed salute (and robotic chanting) in those countries and other foreign countries. Explore how the "ancient Roman salute" myth originated from the city of Rome in the state of New York (not Italy), Francis Bellamy's hometown. Learn about Mussolini's strange gift to the city of Rome, NY: a statue of two human male infants suckling on a female wolf. That statue remains on display in Rome, NY. Find out who you are, what you are, and how you got to be that way. Also learn who you should blame: your government's schools (fascist schools). Remove the pledge from the flag; remove flags from schools; remove schools from government. The Pointer Institute proudly presents another news-breaking volume from the Dead Writers Club (DWC) and Micky Barnetti. A portion of the proceeds of the sale of this book will aid the "Stop the Pledge Foundation" to liberate children and adults from the Pledge of Allegiance. For more information, write to: [pledge-of-allegiance@earthlink.net](mailto:pledge-of-allegiance@earthlink.net)

Topic of the book include these and more: Everything You Know About Fascism Is Wrong American Fascist Francis Bellamy Edward Bellamy's Fascism Fascist Salutes & the Pledge of Allegiance Flags of Fascism? *The Righteous Mind* Jonathan Haidt 2013-02-12 NEW YORK TIMES BESTSELLER • The acclaimed social psychologist challenges conventional thinking about morality, politics, and religion in a way that speaks to conservatives and liberals alike—a “landmark contribution to humanity’s understanding of itself” (The New York Times Book Review). Drawing on his twenty-five years of groundbreaking research on moral psychology,

Jonathan Haidt shows how moral judgments arise not from reason but from gut feelings. He shows why liberals, conservatives, and libertarians have such different intuitions about right and wrong, and he shows why each side is actually right about many of its central concerns. In this subtle yet accessible book, Haidt gives you the key to understanding the miracle of human cooperation, as well as the curse of our eternal divisions and conflicts. If you're ready to trade in anger for understanding, read *The Righteous Mind*.

*How to Stop Fascism* Paul Mason 2021-08-26 'For its historical depth, analytical vigour and mobilizational potential, this book is unparalleled ... every page is an urgent invitation to resist' David Lammy MP The bestselling author of *PostCapitalism* offers a guide to resisting the far right The far right is on the rise across the world. From Modi's India to Bolsonaro's Brazil and Erdogan's Turkey, fascism is not a horror that we have left in the past; it is a recurring nightmare that is happening again - and we need to find a better way to fight it. In *How to Stop Fascism*, Paul Mason offers a radical, hopeful blueprint for resisting and defeating the new far right. The book is both a chilling portrait of contemporary fascism, and a compelling history of the fascist phenomenon: its psychological roots, political theories and genocidal logic. Fascism, Mason powerfully argues, is a symptom of capitalist failure, and it has haunted us throughout the twentieth century. History shows us the conditions that breed fascism, and how it can be successfully overcome. But it is up to us in the present to challenge it, and time is running out. From the ashes of COVID-19, we have an opportunity to create a fairer, more equal society. To do so, we must ask ourselves: what kind of world do we want to live in? And what are we going to do about it?

*Suicide of the West* Jonah Goldberg 2020-01-14 NEW YORK TIMES BESTSELLER • An urgent argument that America and other democracies are in peril because they have lost the will to defend the values and institutions that sustain freedom and prosperity. Now updated with a new preface! “Epic and debate-shifting.”—David Brooks, *New York Times* Only once in the last 250,000 years have humans stumbled upon a way to lift ourselves out of the endless cycle of poverty, hunger, and war that defines most of history. If democracy, individualism, and the free market were humankind’s destiny, they should have appeared and taken hold a bit earlier in the evolutionary record. The emergence of freedom and prosperity was nothing short of a miracle. As Americans we are doubly blessed, because the radical ideas that made the miracle possible were written not just into the Constitution but in our hearts, laying the groundwork for our uniquely prosperous society. Those ideas are: • Our rights come from God, not from the government. • The government belongs to us; we do not belong to it. • The individual is sovereign. We are all captains of our own souls, not bound by the circumstances of our birth. • The fruits of our labors belong to us. In the last few decades, these political virtues have been turned into vices. As we are increasingly taught to view our

traditions as a system of oppression, exploitation, and privilege, the principles of liberty and the rule of law are under attack from left and right. For the West to survive, we must renew our sense of gratitude for what our civilization has given us and rediscover the ideals and habits of the heart that led us out of the bloody muck of the past—or back to the muck we will go.

**What was Liberalism?** James Traub 2019

**How Fascism Works** Jason Stanley 2018-09-04 “No single book is as relevant to the present moment.”—Claudia Rankine, author of *Citizen* “One of the defining books of the decade.”—Elizabeth Hinton, author of *From the War on Poverty to the War on Crime* NEW YORK TIMES BOOK REVIEW EDITORS’ CHOICE • With a new preface • Fascist politics are running rampant in America today—and spreading around the world. A Yale philosopher identifies the ten pillars of fascist politics, and charts their horrifying rise and deep history. As the child of refugees of World War II Europe and a renowned philosopher and scholar of propaganda, Jason Stanley has a deep understanding of how democratic societies can be vulnerable to fascism: Nations don’t have to be fascist to suffer from fascist politics. In fact, fascism’s roots have been present in the United States for more than a century. Alarmed by the pervasive rise of fascist tactics both at home and around the globe, Stanley focuses here on the structures that unite them, laying out and analyzing the ten pillars of fascist politics—the language and beliefs that separate people into an “us” and a “them.” He knits together reflections on history, philosophy, sociology, and critical race theory with stories from contemporary Hungary, Poland, India, Myanmar, and the United States, among other nations. He makes clear the immense danger of underestimating the cumulative power of these tactics, which include exploiting a mythic version of a nation’s past; propaganda that twists the language of democratic ideals against themselves; anti-intellectualism directed against universities and experts; law and order politics predicated on the assumption that members of minority groups are criminals; and fierce attacks on labor groups and welfare. These mechanisms all build on one another, creating and reinforcing divisions and shaping a society vulnerable to the appeals of authoritarian leadership. By uncovering disturbing patterns that are as prevalent today as ever, Stanley reveals that the stuff of politics—charged by rhetoric and myth—can quickly become policy and reality. Only by recognizing fascists politics, he argues, may we resist its most harmful effects and return to democratic ideals. “With unsettling insight and disturbing clarity, *How Fascism Works* is an essential guidebook to our current national dilemma of democracy vs. authoritarianism.”—William Jelani Cobb, author of *The Substance of Hope*

**The Tyranny of Clichés** Jonah Goldberg 2013-04-30 “An indispensable and enduring field guide to the arguments the left makes—and the ones it tries to avoid.” —The Claremont Review of Books According to

Jonah Goldberg, if the greatest trick the devil ever pulled was convincing the world he didn’t exist, the greatest trick liberals ever pulled was convincing themselves they’re not ideological. Today, “objective” journalists, academics, and “moderate” politicians peddle some of the most radical arguments by hiding them in homespun aphorisms. Barack Obama casts himself as a disciple of reason: He’s a pragmatist, opposed to the ideology and drama of the Right, solely concerned with “what works.” And today’s liberals follow his lead, spouting countless clichés such as: • One man’s terrorist is another man’s freedom fighter: Sure, if the other man is an idiot. Was Martin Luther King Jr. a terrorist? Was Bin Laden a freedom fighter? • Violence never solves anything: Really? It solved our problems with King George III and ended slavery. • We need complete separation of church and state: In other words, all expressions of faith should be barred from politics . . . except when they support liberal programs. With humor and passion, Goldberg dismantles these and many other Trojan horses that liberals use to cheat in the war of ideas. He shows that the Progressive tradition of denying an ideological agenda while pursuing it vigorously under the false flag of reasonableness is alive and well. And he reveals how this dangerous game may lead us further down the path of self-destruction.

**Fascism: A Warning** Madeleine Albright 2019-01-29 #1 New York Times Bestseller A personal and urgent examination of Fascism in the twentieth century and how its legacy shapes today’s world, written by one of the most admired public servants in American history, the first woman to serve as U.S. secretary of state A Fascist, observed Madeleine Albright, “is someone who claims to speak for a whole nation or group, is utterly unconcerned with the rights of others, and is willing to use violence and whatever other means are necessary to achieve the goals he or she might have.” The twentieth century was defined by the clash between democracy and Fascism, a struggle that created uncertainty about the survival of human freedom and left millions dead. Given the horrors of that experience, one might expect the world to reject the spiritual successors to Hitler and Mussolini should they arise in our era. *Fascism: A Warning* is drawn from Madeleine Albright’s experiences as a child in war-torn Europe and her distinguished career as a diplomat to question that assumption. Fascism, as she shows, not only endured through the twentieth century but now presents a more virulent threat to peace and justice than at any time since the end of World War II. The momentum toward democracy that swept the world when the Berlin Wall fell has gone into reverse. The United States, which historically championed the free world, is led by a president who exacerbates division and heaps scorn on democratic institutions. In many countries, economic, technological, and cultural factors are weakening the political center and empowering the extremes of right and left. Contemporary leaders such as Vladimir Putin and Kim Jong-un are employing many of the tactics used by Fascists in the 1920s and 30s. *Fascism: A Warning* is a book for our times that is relevant to all times. Written by someone who not only studied history

but helped to shape it, this call to arms teaches us the lessons we must understand and the questions we must answer if we are to save ourselves from repeating the tragic errors of the past.

*The Closing of the Liberal Mind* Kim R. Holmes 2017-12-12 A former U.S. Assistant Secretary of State and currently Acting Senior Vice President for Research at The Heritage Foundation, Kim R. Holmes surveys the state of liberalism in America today and finds that it is becoming its opposite—illiberalism—abandoning the precepts of open-mindedness and respect for individual rights, liberties, and the rule of law upon which the country was founded, and becoming instead an intolerant, rigidly dogmatic ideology that abhors dissent and stifles free speech. Tracing the new illiberalism historically to the radical Enlightenment, a movement that rejected the classic liberal ideas of the moderate Enlightenment that were prominent in the American Founding, Holmes argues that today's liberalism has forsaken its American roots, incorporating instead the authoritarian, anti-clerical, and anti-capitalist prejudices of the radical and largely European Left. The result is a closing of the American liberal mind. Where once freedom of speech and expression were sacrosanct, today liberalism employs speech codes, trigger warnings, boycotts, and shaming rituals to stifle freedom of thought, expression, and action. It is no longer appropriate to call it liberalism at all, but illiberalism—a set of ideas in politics, government, and popular culture that increasingly reflects authoritarian and even anti-democratic values, and which is devising new strategies of exclusiveness to eliminate certain ideas and people from the political process. Although illiberalism has always been a temptation for American liberals, lurking in the radical fringes of the Left, it is today the dominant ideology of progressive liberal circles. This makes it a new danger not only to the once venerable tradition of liberalism, but to the American nation itself, which needs a viable liberal tradition that pursues social and economic equality while respecting individual liberties.

*Liberal Fascism* Jonah Goldberg 2009-06-02 Fierce, funny, and controversial, Jonah Goldberg's #1 New York Times bestseller traces fascism back to its surprising roots—in liberalism. “Fascists,” “Brownshirts,” “jackbooted stormtroopers”—such are the insults typically hurled at conservatives by their liberal opponents. Calling someone a fascist is the fastest way to shut them up, defining their views as beyond the political pale. But who are the real fascists in our midst? *Liberal Fascism* offers a startling new perspective on the theories and practices that define fascist politics. Replacing conveniently manufactured myths with surprising and enlightening research, Jonah Goldberg reminds us that the original fascists were really on the left, and that liberals from Woodrow Wilson to FDR to Hillary Clinton have advocated policies and principles remarkably similar to those of Hitler's National Socialism and Mussolini's Fascism. Contrary to what most people think, the Nazis were ardent socialists (hence the term “National socialism”). They believed in free health care and

guaranteed jobs. They confiscated inherited wealth and spent vast sums on public education. They purged the church from public policy, promoted a new form of pagan spirituality, and inserted the authority of the state into every nook and cranny of daily life. The Nazis declared war on smoking, supported abortion, euthanasia, and gun control. They loathed the free market, provided generous pensions for the elderly, and maintained a strict racial quota system in their universities—where campus speech codes were all the rage. The Nazis led the world in organic farming and alternative medicine. Hitler was a strict vegetarian, and Himmler was an animal rights activist. Do these striking parallels mean that today's liberals are genocidal maniacs, intent on conquering the world and imposing a new racial order? Not at all. Yet it is hard to deny that modern progressivism and classical fascism shared the same intellectual roots. We often forget, for example, that Mussolini and Hitler had many admirers in the United States. W.E.B. Du Bois was inspired by Hitler's Germany, and Irving Berlin praised Mussolini in song. Many fascist tenets were espoused by American progressives like John Dewey and Woodrow Wilson, and FDR incorporated fascist policies in the New Deal. Fascism was an international movement that appeared in different forms in different countries, depending on the vagaries of national culture and temperament. In Germany, fascism appeared as genocidal racist nationalism. In America, it took a “friendlier,” more liberal form. The modern heirs of this “friendly fascist” tradition include the New York Times, the Democratic Party, the Ivy League professoriate, and the liberals of Hollywood. The quintessential Liberal Fascist isn't an SS storm trooper; it is a female grade school teacher with an education degree from Brown or Swarthmore. These assertions may sound strange to modern ears, but that is because we have forgotten what fascism is. In this angry, funny, smart, contentious book, Jonah Goldberg turns our preconceptions inside out and shows us the true meaning of Liberal Fascism.

*It Can't Happen Here* Sinclair Lewis 2014-01-07 “The novel that foreshadowed Donald Trump's authoritarian appeal.”—Salon *It Can't Happen Here* is the only one of Sinclair Lewis's later novels to match the power of *Main Street*, *Babbitt*, and *Arrowsmith*. A cautionary tale about the fragility of democracy, it is an alarming, eerily timeless look at how fascism could take hold in America. Written during the Great Depression, when the country was largely oblivious to Hitler's aggression, it juxtaposes sharp political satire with the chillingly realistic rise of a president who becomes a dictator to save the nation from welfare cheats, sex, crime, and a liberal press. Called “a message to thinking Americans” by the *Springfield Republican* when it was published in 1935, *It Can't Happen Here* is a shockingly prescient novel that remains as fresh and contemporary as today's news. Includes an Introduction by Michael Meyer and an Afterword by Gary Scharnhorst

*Liberalism* Domenico Losurdo 2014-02-04 In this definitive historical investigation, Italian author and philosopher Domenico Losurdo argues that from the outset liberalism, as a philosophical position and

ideology, has been bound up with the most illiberal of policies: slavery, colonialism, genocide, racism and snobbery. Narrating an intellectual history running from the eighteenth through to the twentieth centuries, Losurdo examines the thought of preeminent liberal writers such as Locke, Burke, Tocqueville, Constant, Bentham, and Sieyès, revealing the inner contradictions of an intellectual position that has exercised a formative influence on today's politics. Among the dominant strains of liberalism, he discerns the counter-currents of more radical positions, lost in the constitution of the modern world order.

**End of History and the Last Man** Francis Fukuyama 2006-03-01 Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic.

**Hangover Wisdom, 100 Thoughts on Liberal Fascism** Owen Anning 2013-03 In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "Liberal Fascism: The Secret History of the American Left." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

**Politics of Culture in Liberal Italy** Axel Körner 2008-08-18 With chapters on theatre and opera, architecture and urban planning, the medieval revival and the rediscovery of the Etruscan and Roman past, *The Politics of Culture in Liberal Italy* analyzes Italians' changing relationship to their new nation state and the monarchy, the conflicts between the peninsula's ancient elites and the rising middle class, and the emergence of new belief systems and of scientific responses to the experience of modernity.

**Liberalism, Fascism, Or Social Democracy** Gregory M. Luebbert 1991 An analysis of the political development of Western Europe in the late 19th and early 20th centuries, which argues that the evolution of nations into liberal democracies, social democracies or fascist regimes was attributable to a set of social and class alliances within the individual nations.

**Liberalism in Dark Times** Joshua L. Cherniss 2023-02-21 A timely defense of liberalism that draws vital lessons from its greatest midcentury proponents Today, liberalism faces threats from across the political spectrum. While right-wing populists and leftist purists righteously violate liberal norms, theorists of liberalism seem to have little to say. In *Liberalism in Dark Times*, Joshua Cherniss issues a rousing defense of the liberal tradition, drawing on a neglected strand of liberal thought. Assaults on liberalism—a political order

characterized by limits on political power and respect for individual rights—are nothing new. Early in the twentieth century, democracy was under attack around the world, with one country after another succumbing to dictatorship. While many intellectuals dismissed liberalism as outdated, unrealistic, or unworthy, a handful of writers defended and reinvigorated the liberal ideal, including Max Weber, Raymond Aron, Albert Camus, Reinhold Niebuhr, and Isaiah Berlin—each of whom is given a compelling new assessment here. Building on the work of these thinkers, Cherniss urges us to imagine liberalism not as a set of policies but as a temperament or disposition—one marked by openness to complexity, willingness to acknowledge uncertainty, tolerance for difference, and resistance to ruthlessness. In the face of rising political fanaticism, he persuasively argues for the continuing importance of this liberal ethos.

**Liberal Fascism** Jonah Goldberg 2007 Den konservative kommentator gør op med begreberne højre og venstre i det politiske spektrum.

**Why Liberalism Failed** Patrick J. Deneen 2019-02-26 "One of the most important political books of 2018."—Rod Dreher, *American Conservative* Of the three dominant ideologies of the twentieth century—fascism, communism, and liberalism—only the last remains. This has created a peculiar situation in which liberalism's proponents tend to forget that it is an ideology and not the natural end-state of human political evolution. As Patrick Deneen argues in this provocative book, liberalism is built on a foundation of contradictions: it trumpets equal rights while fostering incomparable material inequality; its legitimacy rests on consent, yet it discourages civic commitments in favor of privatism; and in its pursuit of individual autonomy, it has given rise to the most far-reaching, comprehensive state system in human history. Here, Deneen offers an astringent warning that the centripetal forces now at work on our political culture are not superficial flaws but inherent features of a system whose success is generating its own failure.

**Liberal Fascism** Jonah Goldberg 2008-01-08 "Fascists," "Brownshirts," "jackbooted stormtroopers"—such are the insults typically hurled at conservatives by their liberal opponents. Calling someone a fascist is the fastest way to shut them up, defining their views as beyond the political pale. But who are the real fascists in our midst? *Liberal Fascism* offers a startling new perspective on the theories and practices that define fascist politics. Replacing conveniently manufactured myths with surprising and enlightening research, Jonah Goldberg reminds us that the original fascists were really on the left, and that liberals from Woodrow Wilson to FDR to Hillary Clinton have advocated policies and principles remarkably similar to those of Hitler's National Socialism and Mussolini's Fascism. Contrary to what most people think, the Nazis were ardent socialists (hence the term "National socialism"). They believed in free health care and guaranteed jobs. They confiscated inherited wealth and spent vast sums on public education. They purged the church from public

policy, promoted a new form of pagan spirituality, and inserted the authority of the state into every nook and cranny of daily life. The Nazis declared war on smoking, supported abortion, euthanasia, and gun control. They loathed the free market, provided generous pensions for the elderly, and maintained a strict racial quota system in their universities—where campus speech codes were all the rage. The Nazis led the world in organic farming and alternative medicine. Hitler was a strict vegetarian, and Himmler was an animal rights activist. Do these striking parallels mean that today's liberals are genocidal maniacs, intent on conquering the world and imposing a new racial order? Not at all. Yet it is hard to deny that modern progressivism and classical fascism shared the same intellectual roots. We often forget, for example, that Mussolini and Hitler had many admirers in the United States. W.E.B. Du Bois was inspired by Hitler's Germany, and Irving Berlin praised Mussolini in song. Many fascist tenets were espoused by American progressives like John Dewey and Woodrow Wilson, and FDR incorporated fascist policies in the New Deal. Fascism was an international movement that appeared in different forms in different countries, depending on the vagaries of national culture and temperament. In Germany, fascism appeared as genocidal racist nationalism. In America, it took a "friendlier," more liberal form. The modern heirs of this "friendly fascist" tradition include the New York Times, the Democratic Party, the Ivy League professoriate, and the liberals of Hollywood. The quintessential Liberal Fascist isn't an SS storm trooper; it is a female grade school teacher with an education degree from Brown or Swarthmore. These assertions may sound strange to modern ears, but that is because we have

forgotten what fascism is. In this angry, funny, smart, contentious book, Jonah Goldberg turns our preconceptions inside out and shows us the true meaning of Liberal Fascism.

*The Conservative Ascendancy* Donald T Critchlow 2007 Listen to a short interview with Donald Critchlow  
Host: Chris Gondek

*The Apprentice's Sorcerer* Ishay Landa 2009-11-23 This book contends incisively that fascism, far from being the antithesis of liberalism, ought to be seen centrally as an effort to unknot the longue durée tangle of the liberal order, as it finally collided, head on, with mass democracy.

The Lost History of Liberalism Helena Rosenblatt 2020-02-04 "The Lost History of Liberalism challenges our most basic assumptions about a political creed that has become a rallying cry - and a term of derision - in today's increasingly divided public square. Taking readers from ancient Rome to today, Helena Rosenblatt traces the evolution of the words "liberal" and "liberalism," revealing the heated debates that have taken place over their meaning. In this timely and provocative book, Rosenblatt debunks the popular myth of liberalism as a uniquely Anglo-American tradition centered on individual rights. It was only during the Cold War and America's growing world hegemony that liberalism was refashioned into an American ideology focused so strongly on individual freedoms."--
