**Cryptotrading Pro** Alan T. Norman 2018-12-05 This book will provide you with the fastest and the most profitable tool for cryptocurrency earnings in 2019. It requires almost no investment and generates profit even when the market falls. There are dozens of ways to make money in the cryptocurrency market and the new ones appear almost every day: Mining Investment ICO Sale of equipment Consulting Creating cryptocurrency startups However, there is a tool that stands out among the rest. It allows even a newbie to quickly "enter" the cryptocurrency market and start to make money with little or no investment. It is cryptocurrency trading. "Forget everything you know or heard about trading. The rules of the game have changed a lot with the advent of the cryptocurrency era. Only those, who quickly adapt to the new trend, will be able to make money." How did cryptocurrency change the rules of the game in trading? 1. Transactions become more profitable Despite the fact that cryptocurrency does not grow temporarily, the profits from transactions involving cryptocurrency are still very large 2. Almost zero

competition Nowadays, one person in three is afraid of and does not trust cryptocurrency. It plays into the hands of brave traders who do not feel competition 3. Trading strategies become easier Due to the fact that cryptocurrency exchanges are at an early stage of development, complex trading strategies have faded away 4. Barrier to entry falls New trading technologies make it more open and allow you to start with minimum investment Having read the book, you will find out: Reason why active cryptocurrency trading is now almost the best way to make money Step-by-step plan of further development to get profit in a month, in six months and in a year Specific earnings strategy: when you should buy and sell to make profit Reason why simple techniques still work in cryptocurrency trading whereas they stopped to yield results on conventional exchanges Key rules of reaping profits in cryptocurrency trading even on your first day on the exchange Resources that help to puzzle out trading and give buy / sell tips The purpose of the book: You understand and feel where the price will go, "stay on track" knowing how to behave in every trading situation. It comes with experience, and, perhaps, only when working along with an experienced trader. You have a sharp eye of the psychology of crowd and large market participants. You build your trading strategies while analyzing and projecting their behavior. You create your own system of risk and money management, clearly understanding what part of your capital you can use to enter a position, how to exit, how to buy some more. You control your temper by switching off fear and greed in trading. Play a well-thought-out "chess game." You make money not only on the market growth, but on its decline as well.
