Prebles' Artforms, Books a la Carte Edition Patrick Frank 2010-09-30 Prebles' Artforms continues to lead the field with its steadfast focus on contemporary art, global artists, and cutting edge technology for the art appreciation classroom. We form Art. Art forms us. The title of this book has a dual meaning. Besides the expected discussion of the various forms of art, the title also reflects the fact that art does indeed help to form us as people. As we create forms, we are in turn formed by what we have created. Several years ago, the title was changed to Prebles' Artforms, acknowledging the pioneering contribution of the original authors, Duane and Sarah Preble, to the study of art. Their vision and spirit have touched hundreds of thousands of students who have studied this book. Artforms grew out of a desire to introduce art through an engaging visual experience, and to expose students to a culturally diverse canon of work. It is written and designed to help readers build an informed foundation for individual understanding and enjoyment of art. By introducing art theory, practice, and history in a single volume, this book aims to draw students into a new or expanded awareness of the visual arts. Beyond fostering appreciation of major works of art, this book's primary concern is to open students' eyes and minds to the richness of the visual arts as unique forms of human communication and to convey the idea that the arts enrich life best when we experience, understand, and enjoy them as integral parts of the process of living.

Posada's Broadsheets Patrick Frank 1998 Jose Guadalupe Posada is one of the most important graphic artists of modern Mexico. This book offers a close examination of his extensive broadsheet work in its original context: the murders, disasters, revolts, and popular heroes that engaged the attention of the public in Mexico City in the declining years of Porfirio Diaz's dictatorship. Patrick Frank analyzes the sources of Posada's style in Mexican and European prints and cartoons and shows how he altered them to fill his illustrations with vigor and life. Frank shows that Posada's outlook was that of the working class and that he depicted the stories of his day from a vantage point belonging neither to the defenders of the regime nor to its organized opposition. This book brings fresh insights to the work of a major figure in Mexican art history.

Progeny Ray Jay Perreault 2015-04-09 Their society was efficient and controlled by the Conformity Council who enforced the Four Laws. All was well until Helen followed the laws and discovered how her kind were created. Helen followed the third law, to Expand Their Knowledge, and studied a lesser creator on their planet. Within that creature's DNA she found a second DNA string which described another creature. That information along with artifacts of the lower creatures provided important clues. Who created them, and why? Should she use the second set of DNA, to clone their creators? Some Reader's Comments. "Thought provoking and unique..." "This is true science fiction..." Longmen's Stone Buddhas and Cultural Heritage Dong Wang 2020-06-02 This thoroughly researched book provides the first comprehensive history of how a UNESCO World Heritage site on the Central China Plain, Longmen's caves and the Buddhist statuary of Luoyang, was rediscovered in the twentieth and twenty-first centuries. Drawing on original research and archival sources in Chinese, English, French, German, Japanese, and Swedish, as well as extensive fieldwork, Dong Wang traces the ties between cultural heritage and modernity, detailing how this historical monument has been understood from antiquity to the present. She highlights the manifold traffic and expanded contact between China and other countries as these nations were reorienting themselves in order to adapt their own cultural traditions to newly industrialized and industrializing societies. Unknown to much of the world, Longmen and its mesmerizing modern history takes readers to the heartland of China, known as "Chinese Babylon" a century ago. With remarkable depth and

breadth, this book unravels both a bygone and a continuing human pursuit of artefacts—shared, spiritual, modern, and above all beautiful that have linked so many lives, Chinese and foreign.

The Donkey That No One Could Ride Anthony DeStefano 2012-02-01 "... You will see a young donkey tied there that no one has ever ridden." Bestselling author Anthony DeStefano begins his creative telling of the beloved Bible story of Christ's triumphant entry by introducing the young donkey who has yet to realize his important mission. The lowly creature believes he can do nothing noble, but that's before he meets the Master... Then Jesus said to the donkey, "It's time that you knew About the great thing That you're destined to do..." He hears the sad donkey cry, "Just leave me alone and cast me aside. I'm just a poor donkey that no one can ride." Richard Cowdrey's colorful illustrations pair beautifully with Anthony's charming rhymes. Together, they bring this timeless story of the donkey who carries Jesus into Jerusalem to a joyful finish. While especially appropriate as an Easter gift, this year-round story is for all time and for young and old alike. M O. C. Ferrell 2010-02

Manifestos and Polemics in Latin American Modern Art Patrick Frank 2017-02-15 Bringing together sixty-five primary documents vital to understanding the history of art in Latin America since 1900, Patrick Frank shows how modern art developed in Latin America in this important new work complementing his previous book, Twentieth-Century Art of Latin America, Revised and Expanded Edition. Besides autobiographies, manifestos, interviews, and artists' statements, the editor has assembled material from videos, blogs, handwritten notes, flyers, lectures, and even an after-dinner speech. As the title suggests, many of the texts have a polemical or argumentative cast. In these documents, many of which appear in English for the first time, the artists themselves describe what they hope to accomplish and what they see as obstacles. Designed to show how modern art developed in Latin America, the documents begin with early modern expressions in the early twentieth century, then proceed through the avant-garde of the 1920s, the architectural boom of midcentury, and the Cold War years, and finally conclude with the postmodern artists in the new century.

Artspeak Robert Atkins 1997 More than 115 entries clearly explain the who, what, when, and where of art since 1945. Some entries deal with concepts, such as formalism, multiculturalism, and the picture plane; some discuss specific movements, such as Abstract Expressionism and Fluxus; some describe various ways of making art, such as collage, performance, and video. Together they provide an invaluable key to the specialized, often baffling vocabulary so often used in today's art world. Complementing the entries are two additional noteworthy features. The first, a one-page ArtChart, presents the movements of the postwar years in a concise format that makes their chronological connections immediately visible. The second is a twenty-eight-page timeline - illustrated with full-color reproductions of paintings, sculptures, and installations - that

chronicles events in the art world and the world at large, providing a context for the entries that follow, in addition, for this updated and revised edition, birth and death dates for the artists have been added to the index, along with their nationalities, making this easy-to-use reference even more informative.

The Humanities Through the Arts F. David Martin 1978 "Humanities through the Arts" is intended for introductory-level, interdisciplinary courses offered across the curriculum in the Humanities, Philosophy, Art, English, Music, and Education departments. Arranged topically by art form from painting, sculpture, photography, and architecture to literature, music, theater, film, and dance. This beautifully illustrated text helps students learn how to actively engage a work of art. The new sixth edition retains the popular focus on the arts as an expression of cultural and personal values..

Readings in Latin American Modern Art Patrick Frank 2008-10-01 This important and welcome volume is the first English-language anthology of writings on Latin American modern art of the twentieth century. The book includes some fifty seminal essays and documents—including statements, interviews, and manifestoes by artists—that encompass the broad diversity of this emerging field. Many of these materials are difficult to access and some are translated here for the first time. Together the selections explore the breadth and depth of Latin American modern art as well as its distinctive evolution apart from American and European art history. Included in this collection are fascinating ideas and insights on the impact of the avant-garde in the 1920s, the Mexican mural movement, Surrealism and other fantasy-based styles, modern architecture, geometric and optical art, concrete and neo-concrete art, and political conceptualism. For students and scholars of Latin American art, the volume offers an invaluable collection of primary and secondary sources. **Artforms** Duane Preble 1999 A visually exciting experience, this book is a one-volume course in art appreciation. It introduces art theory and vocabulary, art media and disciplines, historic styles, and art forms of the recent past and the present.

Practical Argument Laurie G. Kirsznner 2010-07-30 From the best-selling authors of the most successful reader in America comes Practical Argument. No one writes for the introductory composition student like Kirsznner and Mandell, and Practical Argument simplifies the study of argument. A straightforward, full-color, accessible introduction to argumentative writing, it employs an exercise-driven, thematically focused, step-by-step approach to get to the heart of what students need to understand argument. In clear, concise, no-nonsense language, Practical Argument focuses on basic principles of classical argument and introduces alternative methods of argumentation. Practical Argument forgoes the technical terminology that confuses students and instead explains concepts in understandable, everyday language, illustrating them with examples that are immediately relevant to students' lives.
