A Part of the Heart Can't Be Eaten Tristan Taormino 2023-09-05 In A Part of the Heart Can't Be Eaten, award-winning author, sex educator, filmmaker, and podcast host Tristan Taormino shares her coming-of-age story, revealing how her radical sexuality and unconventional career grew out of an extraordinary queer father-daughter relationship. Raised by a hard-working single mother on Long Island, Tristan got her sex ed from the 1980s TV show Solid Gold and The Joy of Sex. She spent summers at drag shows in Provincetown with her father, Bill, who had come out as gay in the mid-1970s. Her sexual identity bloomed during her college years at Wesleyan University, where she discovered her desire for butches and kinky sex. Tristan's world began to fall apart when her dad was diagnosed with AIDS. After a series of devastating events, she moved to the messy, glorious world of 1990s New York City. In the midst of grief and depression, she helped change queer sexual subculture with her zine Pucker Up, her infamous The Village Voice column, and her editorship of legendary lesbian porn magazine On Our Backs. After the publication of her first book, The Ultimate Guide to Anal Sex for Women, Tristan followed her own path that marked the beginning of her work as a trailblazing feminist pornographer. After a lifetime of outrageous adventures, Tristan reflects on the bonds, loss, and mental-health struggles that shaped her. She weaves together history from her father's unpublished memoir, exploring the surprising ways their personal patterns converge and diverge. Bracingly emotional and erotically charged, A Part of the Heart Can't Be Eaten reveals the transformative power of queer pleasure and defiance.

The Hate In Their Heart, Should Not Be Part Of Your American Management Journey Donnalakshmi Selvaraj 2020-05-05 (July 2020) Just released the book titled, "The Hate In Their Heart, Should Not Be Part Of Your American Management Journey." This is a timely release of a book that identifies and discusses Hate-Based (i.e. to dislike, detest, abhor, loathe, despise someone) verses Management-Based (i.e. referring to laws, company policy, strategic intent, data, analysis of information) decision making. This is the SAME Hate-Based and racially motivated decision making used by police, causing violence in America, sparking protests and demonstrations that have quickly spread throughout America and worldwide in 2020. Hate and unethical practices by the police, including murder, have stirred the hearts of people in America and worldwide to demand fairness and justice from police personnel when they perform their job duties. This is the SAME fairness and justice people expect at work when they perform their job duties; however, often times they do not receive this fairness based upon perceived racial and gender injustice, which is the subtle form of Hate-Based decision making that Managers so often explain away to justify and hide "the hate in their heart" and their Hate-Based decision making.This book has been written by two women of color, a mother and her daughter, based upon over 60 years of their combined work experiences in Human Resources/corporate level (mom was an EEO/AA Officer), public, educational, health-care, community-service and faith-based environments and a combined educational background of degrees in Business, Environmental Science and Ministry. These authors take you through this book on a private journey of YOUR Management-decision making to identify "if" YOU make Hate-Based verses Management-Based decisions at work, which is the place where most people try to "live out their American Dream" to make money and/or sustain their respective lifestyles.This is an EXCELLENT book to take a journey through the development of AMERICAN MANAGEMENT theories and practices and to also identify Hate-Based versus Management-Based decision-making. Please note, it was thought the inception of Title VII of the Civil Rights Act of 1964 protected employees against Hate-Based decisions such as discriminatory and retaliatory practices based on race, color, religion, sex or national origin; unfortunately, this Hate-based decision making is back in the workplace.The book starts with references by American politicians encouraging ALL to listen to our better angels. This is a book about Management from an Employee's perspective and also includes multiple WORK BOOKS for Management to privately self-assess Hate-Based verses Management-Based decision-making and also includes EXAMPLES of "best practice behavior" so Managers can self-correct their own behavior. This book is to essentially encourage humane, moral and ethical Management-Based decision making.This book is a follow-up book to the Employee resource book titled, How To Work In Hell Successfully And Not Get Burned By The Flames. Both books have been written as a RESOURCE BOOK for Employees and Managers in the post-2008 Great Recession workplace where economies have been shaken worldwide and getting and/or keeping a job has become more and more challenging due to Hate-Based decisions by Managers.These authors take you on an informational, entertaining, and humorous journey of the history of American Management and American Startups while highlighting one's ability to make Management-Based verses Hate-Based decisions. The Authors gently challenge your heart to self-assess YOUR decision-making process to ENCOURAGE you to make Management-Based decisions as opposed to Hate-Based decisions in an effort to allow YOU and/or the organization you work for to move to your next level of well-being and prosperity - a Management Model to transform your organization from "surviving to thriving" is also included.The Authors hope you will ENJOY this American Management Journey and that this becomes an American classic because they bring to light an age-old and timeless issue of HATE and how "hate can enter into one's heart," which can adversely affect one's ability to thrive, verses just survive, at work or in life - Amen. Membrane Potential Imaging in the Nervous System and Heart Marco Canepari 2015-08-03 This volume discusses membrane potential imaging in the nervous system and in the heart and modern optical recording technology. Additionally, it covers organic and genetically-encoded voltage-sensitive dyes; membrane potential imaging from individual neurons, brain slices, and brains in vivo; optical imaging of cardiac tissue and arrhythmias; bio-photonics modelling. This is an expanded and fully-updated second edition, reflecting all the recent advances in this field. Twenty chapters, all authored by leading names in the field, are cohesively structured into four sections. The opening section focuses on the history and principles of membrane potential imaging and lends context to the following sections, which examine applications in single neurons, networks, large neuronal populations and the heart. Topics discussed include population membrane potential signals in development of the vertebrate nervous system, use of membrane potential imaging from dendrites and axons, and depth-resolved optical imaging of cardiac activation and repolarization. The final section discusses the potential – and limitations – for new developments in the field, including new technology such as non-linear optics, advanced microscope designs and genetically encoded voltage sensors. Membrane Potential Imaging in the Nervous System and Heart is ideal for neurologists, electro physiologists, cardiologists and those who are interested in the applications and the future of membrane potential imaging.

Heart of the Messenger – Part 1: Book One of the Falcon Chronicles Melody Styles 2017-08-20 Erina loved listening to her Uncle Bower's stories, even now when she was only eight hafmons from adulthood. She loved the excitement, the adventure, the magic and the heroes, where good always conquered evil and the damsel was always rescued by the dashing knight. She was also certain none of those things would ever happen to her, safely trapped as she was in her quiet village life. She had no idea that every five thousand turings one person was required to save the world from decent into an eon of cruelty and suffering at the hands of the Shadis. Nor that she could be forced to take on such a perilous journey to the Isle of Cloud, where good and evil are not so easily identified, and where legends and monsters leap from their fairytales to become sword-wieldingly larger than life. The trigger in those tales was always by the arrival of a mythical creature, like a white unicorn, which Erina saw this morning... Start an adventure in a fantasy world on the brink of uncertainty that is decided by heart and actions of one emerging young woman and her deadly protector.
