The Annihilation Wave has come!

Annihilation 2014-02-04 Jeff VanderMeer A MAJOR MOTION PICTURE FROM ALEX GARLAND, STARRING NATALIE PORTMAN AND OSCAR ISAAC The Southern Reach Trilogy begins with Annihilation, the Nebula Award-winning novel that "reads as if Verne or Wellsian adventurers exploring a mysterious island had warped through into a Kafkaesque nightmare world" (Kim Stanley Robinson). Area X has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; the second expedition ended in mass suicide; the third expedition in a hail of gunfire as its members turned on one another. The members of the eleventh expedition returned as shadows of their former selves, and within weeks, all had died of cancer. In Annihilation, the first volume of Jeff VanderMeer's Southern Reach trilogy, we join the twelfth expedition. The group is made up of four women: an anthropologist; a surveyor; a psychologist, the de facto leader; and our narrator, a biologist. Their mission is to map the terrain, record all observations of their surroundings and of one another, and, above all, avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it's the surprises that came across the border with them and the secrets the expedition members are keeping from one another that change everything.

Annihilation 2014-02-04 Jeff VanderMeer Describes the 12th expedition to "Area X," a region cut off from the continent for decades, by a group of intrepid women scientists who try to ignore the high mortality rates of those on the previous 11 missions. Original. 75,000 first printing.

Acceptance 2014-09-02 Jeff VanderMeer The New York Times bestselling final installment of Jeff VanderMeer's wildly popular Southern Reach Trilogy It is winter in Area X, the mysterious wilderness that has defied explanation for thirty years, rebuffing expedition after expedition, refusing to reveal its secrets. As Area X expands, the agency tasked with investigating and overseeing it--the Southern Reach--has collapsed on itself in confusion. Now one last, desperate team crosses the border, determined to reach a remote island that may hold the answers they've been seeking. If they fail, the outer world is in peril. Meanwhile, Acceptance tunnels ever deeper into the circumstances surrounding the creation of Area X--what initiated this unnatural upheaval? Among the many who have tried, who has gotten close to understanding Area X--and who may have been corrupted by it? In this last installment of Jeff VanderMeer's Southern Reach trilogy, the mysteries of Area X may be solved, but their consequences and implications are no less profound--or terrifying.

Authority 2014-05-06 Jeff VanderMeer John Rodriguez, the new head of a secret agency tasked to monitor Area X—a lush and remote terrain mysteriously sequestered from civilization—is faced with disturbing truths about himself and the agency he has sworn to serve when the secrets of Area X begin to reveal themselves. Original. 50,000 first printing.

City of Saints and Madmen 2022-01-11 Jeff VanderMeer From Jeff VanderMeer, the author of Borne and Annihilation, comes the paperback reissue of his cult classic City of Saints and Madmen. In this reinvention of the literature of the fantastic, you hold in your hands an invitation to a place unlike any you've ever visited—an invitation delivered by one of our most audacious and astonishing literary magicians. City of elegance and squalor. Of religious fervor and wanton lusts. And everywhere, on the walls of courtyards and churches, an incandescent fungus of mysterious and ominous origin. In Ambergis, a would-be suitor discovers that a sunlit street can become a killing ground in the blink of an eye. An artist receives an invitation to a beheading—and finds himself enchanted. And a patient in a mental institution is convinced that he's made up a city called Ambergis, imagined its every last detail, and that he's really from a place called Chicago . . . By turns sensuous and terrifying, filled with exotica and eroticism, this interwoven collection of stories, histories, and "eyewitness" reports invokes a universe within a puzzle box where you can lose—and find—yourself again.

The Strange Bird 2017-08-01 Jeff VanderMeer The Strange Bird—from New York Times bestselling novelist Jeff VanderMeer—is a novella-length digital original that expands and weaves deeply into the world of his "thorough marvel"\* of a novel, Borne. The Strange Bird is a new kind of creature, built in a laboratory—she is part bird, part human, part many other things. But now the lab in which she was created is under siege and the scientists have turned on their animal creations. Flying through tunnels, dodging bullets, and changing her colors and patterning to avoid capture, the Strange Bird manages to escape. But she cannot just soar in peace above the earth. The sky itself is full of wildlife that rejects her as one of their own, and also full of technology—satellites and drones and other detritus of the human civilization below that has all but destroyed itself. And the farther she flies, the deeper she finds herself in the orbit of the Company, a collapsed biotech firm that has populated the world with experiments both failed and successful that have outlived the corporation itself: a pack of networked foxes, a giant predatory bear. But of the many creatures she encounters with whom she bears some kind of kinship, it is the humans—all of them now simply scrambling to survive—who are the most insidious, who still see her as simply something to possess, to capture, to trade, to exploit. Never to understand, never to welcome home. With The Strange Bird, Jeff VanderMeer has done more than add another layer, a new chapter, to his celebrated novel Borne. He has created a whole new perspective on the world inhabited by Rachel and Wick, the Magician, Mord, and Borne—a view from above, of course, but also a view from deep inside the mind of a new kind of creature who will fight and suffer and live for the tenuous future of this world. Praise for Borne \*"Jeff VanderMeer's Southern Reach Trilogy was an ever-creeping map of the apocalypse; with Borne he continues his investigation into the malevolent grace of the world, and it's a thorough marvel." —Colson Whitehead "VanderMeer is that rare novelist who turns to nonhumans not to make them approximate us as much as possible but to make such approximation impossible. All of this is magnified a hundredfold in Borne . . . Here is the story about biotech that VanderMeer wants to tell, a vision of the nonhuman not as one fixed thing, one fixed destiny, but as either peaceful or catastrophic, by our side or out on a rampage as our behavior dictates—for these are our children, born of us and now to be borne in whatever shape or mess we have created. This coming-of-age story signals that eco-fiction has come of age as well: wilder, more reckless and more breathtaking than previously thought, a wager and a promise that what emerges from the twenty-first century will be as good as any from the twentieth, or the nineteenth." —Wai Chee Dimock, The New York Times Book Review

Dead Astronauts 2019-12-03 Jeff VanderMeer A 2020 LOCUS AWARD FINALIST Jeff VanderMeer's Dead Astronauts presents a City with no name of its own where, in the shadow of the all-powerful Company, lives human and otherwise converge in terrifying and miraculous ways. At stake: the fate of the future, the fate of Earth—all the Earths. A messianic blue fox who slips through warrens of time and space on a mysterious mission. A homeless woman haunted by a demon who finds the key to all things in a strange journal. A giant leviathan of a fish, centuries old, who hides a secret, remembering a past that may not be its own. Three ragtag rebels waging an endless war for the fate of the world against an all-powerful corporation. A raving madman who wanders the desert lost in the past, haunted by his own creation: an invisible monster whose name he has forgotten and whose purpose remains hidden.

Be Very Afraid 2010-04-07 Robert Wuthnow Examines the human response to existential threats--once a matter for theology, but now looming before us in multiple forms. Nuclear weapons, pandemics, global warming: each threatens to destroy the planet, or at least to annihilate our species. Freud, Wuthnow notes, famously taught that the standard psychological response to an overwhelming danger is denial. In fact, Wuthnow argues, the opposite is true: we seek ways of positively meeting the threat, of doing something--anything--even if it's wasteful and time-consuming. It would be one thing if our responses were merely pointless, Wuthnow observes, but they can actually be harmful.--From publisher description.

Finch 2009 Jeff VanderMeer In a world where mysterious underground dwellers rule the state of Ambergis and control its residents with addictive drugs, internment camps and random acts of terror, John Finch and his partner, Wyte, must solve a double murder for their oppressive masters, all while trying to make contact with the scattered rebel resistance.

Wonderbook 2018-07-03 Jeff VanderMeer Now expanded: The definitive visual guide to writing science fiction and fantasy—with exercises, diagrams, essays by superstar authors, and more. From the New York Times–bestselling, Nebula Award–winning author, Wonderbook has become the definitive guide to writing science fiction and fantasy by offering an accessible, example-rich approach that emphasizes the importance of playfulness as well as pragmatism. It also embraces the visual nature of genre culture and employs bold, full-color drawings, maps, renderings, and visualizations to stimulate creative thinking. On top of all that, it features sidebars and essays—most original to the book—from some of the biggest names working in the field today, among them George R. R. Martin, Lev Grossman, Neil Gaiman, Michael Moorcock, Charles Yu, Kim Stanley Robinson, and Karen Joy Fowler. For the fifth anniversary of the original publication, Jeff VanderMeer has added fifty more pages of diagrams, illustrations, and writing exercises, creating the ultimate volume of inspiring advice. “One book that every speculative fiction writer should read to learn about proper worldbuilding.” —Bustle “A treat . . . gorgeous to page through.” —Space.com

A Peculiar Peril 2020-07-07 Jeff VanderMeer A Peculiar Peril is a head-spinning epic about three friends on a quest to protect the world from a threat as unknowable as it is terrifying, from the Nebula Award–winning and New York Times bestselling author of Annihilation, Jeff VanderMeer. Jonathan Lamshead stands to inherit his deceased grandfather's overstuffed mansion—a veritable cabinet of curiosities—once he and two schoolmates catalog its contents. But the three soon discover that the house is filled with far more than just oddities: It holds clues linking to an alt-Earth called Aurora, where the notorious English occultist Aleister Crowley has stormed back to life on a magic-fueled rampage across a surreal, through-the-looking-glass version of Europe replete with talking animals (and vegetables). Swept into encounters with allies more unpredictable than enemies, Jonathan pieces together his destiny as a member of a secret society devoted to keeping our world separate from Aurora. But as the ground shifts and allegiances change with every step, he and his friends sink ever deeper into a deadly pursuit of the profound evil that is also chasing after them.

Program Earth 2016-04-13 Jennifer Gabrys Sensors are everywhere. Small, flexible, economical, and computationally powerful, they operate ubiquitously in environments. They compile massive amounts of data, including information about air, water, and climate. Never before has such a volume of environmental data been so broadly collected or so widely available. Grappling with the consequences of wiring our world, Program Earth examines how sensor technologies are programming our environments. As Jennifer Gabrys points out, sensors do not merely record information about an environment. Rather, they generate new environments and environmental relations. At the same time, they give a voice to the entities they monitor: to animals, plants, people, and inanimate objects. This book looks at the ways in which sensors converge with environments to map ecological processes, to track the migration of animals, to check pollutants, to facilitate citizen participation, and to program infrastructure. Through discussing particular instances where sensors are deployed for environmental study and citizen engagement across three areas of environmental sensing, from wild sensing to pollution sensing and urban sensing, Program Earth asks how sensor technologies specifically contribute to new environmental conditions. What are the implications for wiring up environments? How do sensor applications not only program environments, but also program the sorts of citizens and collectives we might become? Program Earth suggests that the sensor-based monitoring of Earth offers the prospect of making new environments not simply as an extension of the human but rather as new “technogeographies” that connect technology, nature, and people.

Hummingbird Salamander 2021-04-06 Jeff VanderMeer Named one of NPR's Best Books of 2021 From the author of Annihilation, a brilliant speculative thriller of dark conspiracy, endangered species, and the possible end of all things. Security consultant “Jane Smith” receives an envelope with a key to a storage unit that holds a taxidermied hummingbird and clues leading her to a taxidermied salamander. Silvina, the dead woman who left the note, is a reputed ecoterrorist and the daughter of an Argentine industrialist. By taking the hummingbird from the storage unit, Jane sets in motion a series of events that quickly spin beyond her control. Soon, Jane and her family are in danger, with few allies to help her make sense of the true scope of the peril. Is the only way to safety to follow in Silvina's footsteps? Is it too late to stop? As she desperately seeks answers about why Silvina contacted her, time is running out—for her and possibly for the world. Hummingbird Salamander is Jeff VanderMeer at his brilliant, cinematic best, wrapping profound questions about climate change, identity, and the world we live in into a tightly plotted thriller full of unexpected twists and elaborate conspiracy.

Surreal Entanglements 2021-05-18 Louise Economides This edited collection approaches the most pressing discourses of the Anthropocene and posthumanist culture through the surreal, yet instructive lens of Jeff VanderMeer's fiction. In contrast to universalist and essentializing ways of responding to new material realities, VanderMeer's work invites us to re-imagine human subjectivity and other collectivities in the light of historically unique entanglements we face today: the ecological, technological, aesthetic, epistemological, and political challenges of life in the Anthropocene era. Situating these messy, multi-scalar, material complexities of life in close relation to their ecological, material, and colonialist histories, his fiction renders them at once troublingly familiar and strangely generative of other potentialities and insight. The collection measures VanderMeer's work as a new kind of speculative surrealism, his texts capturing the strangeness of navigating a world in which "nature" has become radically uncanny due to global climate change and powerful bio-technologies. The first collection to survey academic engagements with VanderMeer, this book brings together scholars in the fields of environmental literature, science fiction, genre studies, American literary history, philosophy of technology, and digital cultures to reflect on the environmentally, culturally, aesthetically, and politically central questions his fiction poses to predominant understandings of the Anthropocene.

Anthropocene Fictions 2015-04-20 Adam Trexler Since the Industrial Revolution, humans have transformed the Earth's atmosphere, committing our planet to more extreme weather, rising sea levels, melting polar ice caps, and mass extinction. This period of observable human impact on the Earth's ecosystems has been called the Anthropocene Age. The anthropogenic climate change that has impacted the Earth has also affected our literature, but criticism of the contemporary novel has not adequately recognized the literary response to this level of environmental crisis. Ecocriticism's theories of place and planet, meanwhile, are troubled by a climate that is neither natural nor under human control. Anthropocene Fictions is the first systematic examination of the hundreds of novels that have been written about anthropogenic climate change. Drawing on climatology, the sociology and philosophy of science, geography, and environmental economics, Adam Trexler argues that the novel has become an essential tool to construct meaning in an age of climate change. The novel expands the reach of climate science beyond the laboratory or model, turning abstract predictions into subjectively tangible experiences of place, identity, and culture. Political and economic organizations are also being transformed by their struggle for sustainability. In turn, the novel has been forced to adapt to new boundaries between truth and fabrication, nature and economics, and individual choice and larger systems of natural phenomena. Anthropocene Fictions argues that new modes of inhabiting climate are of the utmost critical and political importance, when unprecedented scientific consensus has failed to lead to action. Under the Sign of Nature: Explorations in Ecocriticism

Fear and Nature 2021-05-10 Christy Tidwell Ecohorror represents human fears about the natural world—killer plants and animals, catastrophic weather events, and disquieting encounters with the nonhuman. Its portrayals of animals, the environment, and even scientists build on popular conceptions of zoology, ecology, and the scientific process. As such, ecohorror is a genre uniquely situated to address life, art, and the dangers of scientific knowledge in the Anthropocene. Featuring new readings of the genre, Fear and Nature brings ecohorror texts and theories into conversation with other critical discourses. The chapters cover a variety of media forms, from literature and short fiction to manga, poetry, television, and film. The chronological range is equally varied, beginning in the nineteenth century with the work of Edgar Allan Poe and finishing in the twenty-first with Stephen King and Guillermo del Toro. This range highlights the significance of ecohorror as a mode. In their analyses, the contributors make explicit connections across chapters, question the limits of the genre, and address the ways in which our fears about nature intersect with those we hold about the racial, animal, and bodily “other.” A foundational text, this volume will appeal to specialists in horror studies, Gothic studies, the environmental humanities, and ecocriticism. In addition to the editors, the contributors include Kristen Angierski, Bridgitte Barclay, Marisol Cortez, Chelsea Davis, Joseph K. Heumann, Dawn Keetley, Ashley Kniss, Robin L. Murray, Brittany R. Roberts, Sharon Sharp, and Keri Stevenson.

The Mote in God's Eye 1974 Larry Niven Science fiction-roman.

Fantasy and Myth in the Anthropocene 2022-02-24 Marek Oziewicz The first study to look at the intersection of the discourse of the Anthropocene within the two highly influential storytelling modes of fantasy and myth, this book shows the need for stories that articulate visions of a biocentric, ecological civilization. Fantasy and myth have long been humanity's most advanced technologies for collective dreaming. Today they are helping us adopt a biocentric lens, re-kin us with other forms of life, and assist us in the transition to an ecological civilization. Deliberately moving away from dystopian narratives toward anticipatory imaginations of sustainable futures, this volume blends chapters by top scholars in the fields of fantasy, myth, and Young Adult literature with personal reflections by award-winning authors and illustrators of books for young audiences, including Shaun Tan, Jane Yolen, Katherine Applegate and Joseph Bruchac. Chapters cover the works of major fantasy authors such as J. R. R. Tolkien, Terry Pratchett, J. K. Rowling, China Miéville, Barbara Henderson, Jeanette Winterson, John Crowley, Richard Powers, George R. R. Martin and Kim Stanley Robinson. They range through narratives set in the UK, USA, Nigeria, Ghana, Pacific Islands, New Zealand and Australia. Across the chapters, fantasy and myth are framed as spaces where visions of sustainable futures can be designed with most detail and nuance. Rather than merely criticizing the ecoidal status quo, the book asks how mythic narratives and fantastic stories can mobilize resistance around ideas necessary for the emergence of an ecological civilization.

Weird Realism 2012-09-28 Graham Harman As Hölderlin was to Martin Heidegger and Mallarmé to Jacques Derrida, so is H.P. Lovecraft to the Speculative Realist philosophers. Lovecraft was one of the brightest stars of the horror and science fiction magazines, but died in poverty and relative obscurity in the 1930s. In 2005 he was finally elevated from pulp status to the classical literary canon with the release of a Library of America volume dedicated to his work. The impact of Lovecraft on philosophy has been building for more than a decade. Initially championed by shadowy guru Nick Land at Warwick during the 1990s, he was later discovered to be an object of private fascination for all four original members of the twenty-first century Speculative Realist movement. In this book, Graham Harman extracts the basic philosophical concepts underlying the work of Lovecraft, yielding a weird realism capable of freeing continental philosophy from its current soul-crushing impasse. Abandoning pious references by Heidegger to Hölderlin and the Greeks, Harman develops a new philosophical mythology centered in such Lovecraftian figures as Cthulhu, Wilbur Whately, and the rat-like monstrosity Brown Jenkin. The Miskatonic River replaces the Rhine and the Ister, while Hölderlin's Caucasus gives way to Lovecraft's Antarctic mountains of madness.

The Other Side of the Mountain 2010-09-14 Thomas Merton With the election of a new Abbot at the Abbey of Gethsemani, Merton enters a period of unprecedented freedom, culminating in the opportunity to travel to California, Alaska, and finally the Far East – journeys that offer him new possibilities and causes for contemplation. In his last days at the Abbey of Gethsemani, Merton continues to follow the tumultuous events of the sixties, including the assassinations of Martin Luther King, Jr., and Robert Kennedy. In Southeast Asia, he meets the Dalai Lama and other Buddhist and Catholic monks and discovers a rare and rewarding kinship with each. The final year is full of excitement and great potential for Merton, making his accidental death in Bangkok, at the age of fifth-three, all the more tragic.

Annihilation 2018-03-12 Alex Garland Following on from the success of his thriller, Ex Machina, Alex Garland returns to cerebral sci-fi with his adaptation of Jeff VanderMeer's cult novel – a tale of a biologist attempting to uncover the mystery of her husband's disappearance into a restricted zone.What she and her fellow scientists discover is a world populated by mysterious life forms that might offer answers, but which exposes them to madness and death.Beside the screenplay, the book also includes 20 pages of behind-the-scenes photos.

The Time Traveler's Almanac 2014-03-18 Ann VanderMeer A definitive collection of time-travel stories from more than a century of literature features pieces by such leading authors as Douglas Adams, Isaac Asimov and Ray Bradbury and is complemented by a selection of informative nonfiction articles, including Charles Yu's "Top Ten Tips For Time Travelers."

Shriek: An Afterword 2022-01-11 Jeff VanderMeer From the author of Borne and Annihilation comes the paperback reissue of his cult classic Shriek: An Afterword. An epic yet personal look at several decades of life, love, and death in the imaginary city of Ambergis—previously chronicled in Jeff VanderMeer's acclaimed City of Saints and Madmen—Shriek: An Afterword relates the scandalous, heartbreaking, and horrifying secret history of two squabbling siblings and their confidantes, protectors, and enemies. Narrated with flamboyant intensity and under increasingly urgent conditions by the ex-society figure Janice Shriek, this afterword presents a vivid gallery of characters and events, emphasizing the adventures of Janice's brother Duncan, a historian obsessed with a doomed love affair and a secret that may kill or transform him; a war between rival publishing houses that will change Ambergis forever; and the gray caps, a marginalized people armed with advanced fungal technologies, who have been waiting underground for their chance to mold the future of the city. After reading this introduction to the Family Shriek—part academic treatise, part tell-all biography—you'll never look at history in quite the same way.

Avenging Nature 2020-09-28 Eduardo Valls Oyarzun "Nature, thou art my goddess"—Edmund's bold assertion in King Lear could easily inspire and, at the same time, function as a lamentation of the inadequate respect of nature in culture. In this volume, international experts provide multidisciplinary exploration of the insubordinate representations of nature in modern and contemporary literature and art. The work foregrounds the need to reassess how nature is already, and has been for a while, striking back against human domination. From the perspective of literary studies, art, history, media studies, ethics and philosophy, and ethnology and anthropology, Avenging Nature highlights the need of assessing insurgent discourses that—converging with counter-discourses of race, gender or class—realize the empowerment of nature from its subaltern position. Acknowledging the argument that cultural representations of nature establish a relationship of domination and exploitation of human discourse over nonhuman reality and that, in consequence, our regard for nature as humanist critics is instrumental and anthropocentric, the present volume advocates for the view

that the time has come to finally perceive nature’s vengeance and to critically probe into nature’s ongoing revenge against the exploitation of culture.

Tender Is the Flesh 2020-08-04 Agustina Bazterrica Working at the local processing plant, Marcos is in the business of slaughtering humans–though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think too hard about how he makes a living. After all, it happened so quickly. First, it was reported that an infectious virus has made all animal meat poisonous to humans. Then governments initiated the “Transition.” Now, eating human meat–“special meat”–is legal. Marcos tries to stick to numbers, consignments, processing. Then one day he’s given a gift: a live specimen of the finest quality. Though he’s aware that any form of personal contact is forbidden on pain of death, little by little he starts to treat her like a human being. And soon, he becomes tortured by what has been lost–and what might still be saved.

Veniss Underground 2023-03-07 Jeff VanderMeer From the New York Times bestselling author of Annihilation, Jeff VanderMeer’s first novel, Veniss Underground, takes readers on a journey to a labyrinthine city of tunnels, and the dangers lurking behind each turn. Set in the mysterious and magical city of Veniss, a surreal metropolis that sits over an underground labyrinth of tunnels and mines. In this tale, epic and mythological in scope, VanderMeer takes the reader below the surface of the earth to the dark and decadent future. It’s a world where Living Artists craft works out of biological material, and humans are either tossed out or recycled into something wholly unrecognizable. Told from three distinct viewpoints–Nicholas, a not-quite-talented-enough Artist; his twin sister, Nicola; and Nicola’s former lover, Shadrach–Veniss Underground follows these characters as they embark on a journey to hell and back, replete with the blend of horrors (biological, environmental, and ethical) that also animate VanderMeer’s subsequent blockbuster novels. Veniss Underground explores the limits of love, memory, and obsession in a landscape that defies the boundaries of imagination. This reissue will include a new introduction by the National Book Award–winning author Charles Yu and more new material from Jeff VanderMeer.

The Steampunk Bible 2012-06-01 Jeff VanderMeer “Wonderful essays on everything steampunk, written by well-known names in the movement who are living steampunk every day” (Wired.com). Steampunk–a grafting of Victorian aesthetic and punk rock attitude onto various forms of science-fiction culture–is a phenomenon that has come to influence film, literature, art, music, fashion, and more. The Steampunk Bible is the first compendium about the movement, tracing its roots in the works of Jules Verne and H. G. Wells through its most recent expression in movies such as Sherlock Holmes. Its adherents celebrate the inventor as an artist and hero, re-envisioning and crafting retro technologies including antiquated airships and robots. A burgeoning DIY community has brought a distinctive Victorian-fantasy style to their crafts and art. Steampunk evokes a sense of adventure and discovery, and embraces extinct technologies as a way of talking about the future. This ultimate manual will appeal to aficionados and novices alike as author Jeff VanderMeer takes the reader on a wild ride through the clockwork corridors of Steampunk history. Praise for The Steampunk Bible “An informed, informative and beautifully illustrated survey of the subject.” –The Financial Times “The Steampunk Bible is far and away the most intriguing catalog of all things steam yet written.” –The Austin Chronicle

Rupetta 2019-11-07 N. A. Sulway Four hundred years ago, in a small town in rural France, a young woman creates the future in the shape of Rupetta. Part mechanical, part human, Rupetta’s consciousness is tied to the women who wind her. In the years that follow she is bought and sold, borrowed, forgotten and revered. By the twentieth century, the Rupettan four-fold law rules everyone’s lives, but Rupetta–the immortal being on whose existence and history those laws are based–is the keeper of a secret that will tear apart the world her followers have built in her name. The closeness between women is mirrored in the relationship between Henri and Miri, a woman at the college with whom she fall in love, and also between mothers and daughters and grandmothers and granddaughters - a heritage of affection that loops down over the centuries.

Station 2021-03 Jarrett Early The sunless city of Station was supposed to be a nocturnal utopia. What Marlin Hadder found, however, was a city filled with nightmares on the edge of civil war. Now, he and the other residents must fight to keep their second chances at life.

In the House Upon the Dirt Between the Lake and the Woods 2013 Matt Bell Escaping the busy confusion of his homeland and moving to an almost-uninhabited lakeshore where he plans on living simply and raising a family, a man descends into rage, obsession and an abstract sense of reality when his wife suffers multiple miscarriages. A first novel by the author of How They Were Found.

The Weird and the Eerie 2017-01-31 Mark Fisher A noted British cultural critic takes on some of the strangest works of art from the 20th century and dissects our fascination with the unsettling in popular music, film, and writing What exactly are the Weird and the Eerie? Two closely related but distinct modes, and each possesses its own distinct properties. Both have often been associated with Horror, but this genre alone does not fully encapsulate the pull of the outside and the unknown. In several essays, Mark Fisher argues that a proper understanding of the human condition requires examination of transitory concepts such as the Weird and the Eerie. Featuring discussion of the works of: H. P. Lovecraft, H. G. Wells, M.R. James, Christopher Priest, Joan Lindsay, Nigel Kneale, Daphne Du Maurier, Alan Garner and Margaret Atwood, and films by Stanley Kubrick, Jonathan Glazer and Christopher Nolan.

The Thackery T. Lamshead Cabinet of Curiosities 2011-07-12 Ann VanderMeer “Some of the most interesting fantasist-fabulists writing today.” –Los Angeles Times “A science-fiction symphony of strangeness...The Cabinet of Curiosities will give you a good jolt of wonder.” –Gainesville Times You’ll be astonished by what you’ll find in The Thackery T. Lamshead Cabinet of Curiosities. Editors Ann and Jeff Vandermeer have gathered together a spectacular array of exhibits, oddities, images, and stories by some of the most renowned and bestselling writers and artists in speculative and graphic fiction, including Ted Chiang, Mike Mignola (creator of Hellboy), China Miéville, and Michael Moorcock. A spectacularly illustrated anthology of Victorian steampunk devices and the stories behind them, The Thackery T. Lamshead Cabinet of Curiosities is a boldly original, enthrallingly imaginative, and endlessly entertaining entry into a hidden world of weird science and unnatural nature that will appeal equally to fantasy lovers and graphic novel aficionados.

The Invention of Angela Carter 2017-02-01 Edmund Gordon Widely acknowledged as one of the most important English writers of the last century, Angela Carter’s work stands out for its bawdiness and linguistic zest, its hospitality to the fantastical and the absurd, and its extraordinary inventiveness and range. Her life was as vigorously modern and unconventional as anything in her fiction. This is the story of how Angela Carter invented herself - as a new kind of woman and a new kind of writer - and how she came to write such seductive and distinctive masterworks as The Bloody Chamber, Nights at the Circus, and Wise Children. Because its subject so powerfully embodied the spirit of the times, the book also provides a fresh perspective on Britain’s social and cultural history in the second half of the twentieth century. It examines such topics as the 1960s counterculture, the social and imaginative conditions of the nuclear age, and the advent of second wave feminism. Author Edmund Gordon has followed in Angela Carter’s footsteps - travelling to the places she lived in Britain, Japan, and the USA - to uncover a life rich in adventure and incident. With unrestricted access to her manuscripts, letters, and journals, and informed by interviews with Carter’s friends and family, Gordon offers an unrivalled portrait of one of the twentieth century’s most dazzlingly original writers. This sharply written narrative will be the definitive biography for years to come.
