The work "Analyzing Casual Conversation" by Suzanne Eggins and Diana Slade, originally issued in 1997, creates a systematic model for the analysis and depiction of casual conversation in English. The scholars argue that notwithstanding its at times aimless look and seemingly unstructured material, casual conversation is an extremely structured task and performs a vital part in the social building of reality. The work goes through genuine instances of casual conversations involving participants varying in age, gender, ethnicity, and socio-economic class<sup>12</sup>. Deriving on understandings from sociology, linguistics, and critical semiotics, the work provides readers with the examinative skills to describe the layers of structure and critical interpretive structures to clarify the 'social work' that goes on through chat.

Engineering Economics and Cost Estimation is a crucial aspect of any engineering project. It involves present and future economic factors, making it vital to obtain reliable estimates of future costs, benefits, and other economic parameters. Engineers frequently deal with projects whose scale, complexity, and uncertainty call for advanced approaches to planning and budgeting<sup>[2]</sup>. A number of methods are used for cost estimation, including rough estimates, semi-detailed estimates, or detailed estimates, depending on the needs for the estimates<sup>[1]</sup>. Key concepts in this field include overhead costs, cost driver identification, cost allocation methods, capital budgeting, flexible budgeting, zero-based budgeting, budgets, and estimates. Various models are available for developing cost (or benefit) estimates, such as the per-unit model, the segmenting model, cost indexes, the power-sizing model, and learning curve cost estimating. The quality of a cost estimate generally increases as the resources allocated to developing the estimate increase.

It was a gloomy and turbulent night. The drizzle was pouring down, and the gale was howling. In the middle of the metropolis, there was an exhibition, where an invaluable diamond was on show. The diamond was called the Star of Africa, and it was the largest and most stunning diamond in the earth. It was protected by a sophisticated security mechanism, and a team of weaponized guards. No one could pilfer it, or so they believed. But somebody did. Someone managed to circumvent the security, to evade the watchmen, to smash the pane, and to grab the diamond. And no one noticed them, no one overheard them, no one knew who they were. They left no sign, no hint, no testimony. They disappeared into the darkness, with the African Star. And the enigma of the missing diamond commenced.
