A CLOSER LOOK OF QUALITATIVE RESEARCH (A Handbook Guide for Novice Researcher)

2021-11-04 Dwi Poedjiastutie Qualitative approaches are now growing its popularity among novice researchers. Thus, they need to be well-informed step by step in conducting the qualitative studies. Particularly, this book will benefit students who keen to focus on finding solution on the language related issues and concerns. A number of features are provided for novice scholars and researchers in order to be able to select the appropriate design for their study. The first feature is detail characteristic information on each type of the research approach. Each approach is elaborated in detail manner so that readers will possess comprehensible input of what and when a particular approach will be appropriately selected and employed. The detail characteristics of each approach in qualitative have been discussed in many research methodology books published earlier. However, this book can be used as the supplementary resources for those who specifically focus on the qualitative approach when they are dealing for the first time and more specifically for the language research and its related issues. The second feature is the example of each approach. Since qualitative approaches have a lot of similarities, the researchers are supposed to have careful thought when selecting a particular approach. This can be very difficult for novice researchers. Therefore, in order to guide them selecting the most appropriate approach for their study, the examples of the previous research using similar approach are provided. The examples of the previous research on each particular approach are carefully chosen so that it possibly relates and represents Indonesian contexts. Another distinguished feature of this book is supplied the information on several common fallacies that scholars or novice researcher usually argue about the qualitative approach. For example, many novice researchers in Indonesian context still believe that in qualitative approach, they are not supposed to use numerical data. That might not be true. The discussion on some fallacies like the above-mentioned example hopefully can guide them to have no more doubts of employing qualitative approach.

THEORY AND PRACTICE IN SECOND LANGUAGE TEACHER IDENTITY

2022-09-16 Karim Sadeghi This book brings together the current theory, research and practical perspectives from different parts of the world on language teacher identity in an attempt to better understand the nature of identities teachers in different contexts develop. By linking theory to pedagogy, the book examines how second language teacher identities are shaped and explores the various links between teacher identities and variables that affect the formation of identities. Theory and Practice in Second Language Teacher Identity includes a foreword by Jack Richards (University of Sydney and RELC), an afterword by Peter de Costa (Michigan State University) and holds 20 invited chapters by established and active scholars and teacher educators to discuss the various aspects of in-service and pre-service second language teacher identity development. It also addresses the way the COVID-19 pandemic has impacted teacher identities and examines under-researched issues, such as the intersection between gender and race in second language teacher identity development and identity construction in second languages other than English. What does it mean to be a teacher of English as a second language in an age of globalization, new media, technological revolution and de-institutionalized knowledge? How do teachers gain pre-service and in-service expertise, a sense of professional identity, and educational integrity? And how have they dealt with the extra-burden imposed by the pandemic? This thought-provoking volume offers

valuable perspectives on these important issues in the professional development of English teachers worldwide. — Prof. Claire Kramsch, University of California, Berkeley, USA. The way we see ourselves and are seen by others influences our social and professional interactions. Teacher identity and sense of agency is therefore not merely a matter of research interest for it impacts learners and learning, which makes the topic of this book extremely important. With chapters located in a wide range of countries - from USA to Australia via UAE, Thailand and others - and drawing on a variety of research methods, the book synthesizes extant research and develops many new research avenues. It does so not only with theory in mind but with practical lessons for teachers and teacher educators and thus becomes an essential volume for our libraries and studies. — Prof. Michael Byram, University of Durham, UK. In this compelling collection, co-edited by Karim Sadeghi and Farah Ghaderi, the authors address key questions about language teacher identity in contemporary applied linguistics: What is the relationship between language teacher identity and language teacher agency? To what extent does ideology impact language teacher identity? How do language teachers navigate an increasingly globalized and unequal world? Authors from different regions of the world draw on diverse methodologies to share insightful research on both pre-service and in-service language teacher identity, making an important contribution to applied linguistics and TESOL at a time of great social and educational change. — Prof. Bonny Norton (FRSC), University Killam Professor and Distinguished University Scholar, University of British Columbia, Canada. "Theory and Practice in Second Language Teacher Identity" captures recent thinking about language teacher identity. The broad array of excellent chapter contributions explores multiple dimensions of identity, from teacher agency and emotions to the disruptive effects of the Covid pandemic on teachers' professional lives and practices. The studies draw on a number of theoretical perspectives and demonstrate the use of both familiar and innovative research methodologies. The relevant topics, the up-to-date bibliographic sources, and the useful research findings make this edited volume an essential addition to your bookshelf. — Prof. Gary Barkhuizen, University of Auckland, New Zealand.

Second Language Writing Instruction in Global Contexts

2019-10-11 Lisya Seloni This book revisits second language (L2) writing teacher education by exploring the complex layers of L2 writing instruction in non-English dominant contexts (i.e. English as a foreign language contexts). It pushes the boundaries of teacher education by specifically examining the development of teacher literacy in writing in under-represented L2 writing contexts, and re-envision L2 writing teacher education that is contextually and culturally situated, moving away from the uncritical embracement of Western-based writing pedagogies. It explores and expands on writing teacher education – how language teachers come to understand their own writing practices and instruction, and what their related experiences are in non-English dominant contexts across the globe. English Language Teaching and Teacher Education in East Asia

2020-11-05 Amy Bik May Tsui The spread of English is so much an integral part of globalization that it has become an essential global literacy skill. In Asia, this poses immense challenges to governments and English language teaching and teacher education professions as they attempt to meet this demand from students for a high level of English proficiency. This volume examines English language education policies across ten Asian jurisdictions, the corresponding teacher education policies, and how these policies affect teachers and teacher educators. Each chapter covers a different jurisdiction, and is written by a scholar engaged in the implementation of government policies on English language and teacher education, providing the reader with insiders' perspectives. It gives a fascinating glimpse into the remarkable similarities in the challenges posed to these countries and the critical issues that have emerged from the local responses despite their markedly different socioeconomic, political, cultural and historical backgrounds.
