The Banquet in Blitva

2004 Miroslav Krleža "Having freed his country from foreign oppressors, Colonel Kristian Barutanski governs Blitva with an iron fist. He is opposed by Niels Nielsen, a melancholy intellectual who rails against the dictator and the hypocrisy and moral bankruptcy of society Barutanski recognizes in Nielsen a genuine foe; yet Nielsen, haunted by his own lapses of conscience, struggles to escape both the regime and the role of opposition leader thrust upon him. He flees to the neighboring state of Blatvia - and finds his new country as corrupt and as tyrannical as the one he called home." --Book Jacket.

Fire

2019-08-12 Stephen J. Pyne Over vast expanses of time, fire and humanity have interacted to expand the domain of each, transforming the earth and what it means to be human. In this concise yet wide-ranging book, Stephen J. Pyne—named by Science magazine as “the world’s leading authority on the history of fire”—explores the surprising dynamics of fire before humans, fire and human origins, aboriginal economies of hunting and foraging, agricultural and pastoral uses of fire, fire ceremonies, fire as an idea and a technology, and industrial fire. In this revised and expanded edition, Pyne looks to the future of fire as a constant, defining presence on Earth. A new chapter explores the importance of fire in the twenty-first century, with special attention to its role in the Anthropocene, or what he posits might equally be called the Pyrocene.

Judith

1991 Marko Marulić From the preeminent writer of Taiwanese nativist fiction and the leading translator of Chinese literature come these poignant accounts of everyday life in rural and small-town Taiwan. Huang is frequently cited as one of the most original and gifted storytellers in the Chinese language, and these selections reveal his genius. In "The Two Sign Painters," TV reporters ambush two young workers from the country taking a break atop a twenty-four-story building. "His Son's Big Doll" introduces the tortured soul inside a walking advertisement, and in "Xiaoqi's Cap" a dissatisfied pressure-cooker salesman is fascinated by a young schoolgirl. Huang's characters—generally the uneducated and disadvantaged who must cope with assaults on their traditionalism, hostility from their urban brethren and, of course, the debilitating effects of poverty—come to life in all their human uniqueness, free from idealization.

Fire on Earth

2013-10-31 Andrew C. Scott Earth is the only planet known to have fire. The reason is both simple and profound: fire exists because Earth is the only planet to possess life as we know it. Fire is an expression of life on Earth and an index of life's history. Few processes are as integral, unique, or ancient. Fire on Earth puts fire in its rightful place as an integral part of the study of geology, biology, human history, physics, and global chemistry. Fire is ubiquitous in various forms throughout Earth, and belongs as part of formal

inquiries about our world. In recent years fire literature has multiplied exponentially; dedicated journals exist and half a dozen international conferences are held annually. A host of formal sciences, or programs announcing interdisciplinary intentions, are willing to consider fire. Wildfire also appears routinely in media reporting. This full-colour text, containing over 250 illustrations of fire in all contexts, is designed to provide a synthesis of contemporary thinking; bringing together the most powerful concepts and disciplinary voices to examine, in an international setting, why planetary fire exists, how it works, and why it looks the way it does today. Students, lecturers, researchers and professionals interested in the physical, ecological and historical characteristics of fire will find this book, and accompanying web-based material, essential reading for undergraduate and postgraduate courses in all related disciplines, for general interest and for providing an interdisciplinary foundation for further study. A comprehensive approach to the history, behaviour and ecological effects of fire on earth. Timely introduction to this important subject, with relevance for global climate change, biodiversity loss and the evolution of human culture. Provides a foundation for the interdisciplinary field of Fire Research. Authored by an international team of leading experts in the field. Associated website provides additional resources

Gold, Frankincense and Myrrh

2007 Slobodan Novak Philadelphia firefighter and bartender Joey Novak experiences a life-changing experience when he discovers an old suitcase holding the lost gold presented to the Christ Child by the Three Kings. In a materialistic, seemingly uncaring world, this everyday father and husband learns he has been selected as the next Keeper of the Coins. His job: to share his newfound riches and powers with the desperate and needy who will cross his path. With the help of an ornery, impatient mentor, Joey Novak eventually learns, and lives, the wisdom of the proverb: It is better to give than to receive.
