Positive Psychology in Racial and Ethnic Groups 2016 Edward Chin-Ho Chang Positive psychology has become a vibrant, well-regarded field of study, and a powerful tool for clinicians. But, for many years, the research in areas relevant to positive psychology, such as happiness, subjective well-being, and emotional intelligence, has been based on findings from largely White samples and has rarely taken the concerns of the ethnic community into consideration. Now, for the first time, leaders in the field have come together to provide a comprehensive reference that focuses specifically on how a culturally-informed approach to positive psychology can help capitalize on the strengths of racial minority groups and have a greater potential to positively impact their psychological well-being. Taking into account the rich and diverse cultural histories of ethnic groups, the information presented in this volume can help clinicians use positive psychology to inspire minorities to be effective agents in their environments and communities. Acting as a bridge between positive psychology theory and research -- largely based on an essentialist view of human behavior -- and the realities of practice and assessment in diverse groups, Positive Psychology in Racial and Ethnic Groups focuses on four main ethnic groups: Asian Americans, Latin Americans, African Americans, and American Indians. Broken into five major sections -- an introduction to the field, theory and research, assessment, clinical interventions, and a discussion of what the future may hold -- this is a unique volume in the field, and a call to action for researchers and clinicians everywhere.

Dare to Lead 2018-10-09 Brené Brown #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 500 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read Daring Greatly and Rising Strong or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

The Myth of Racial Color Blindness 2016 Helen A. Neville "Is the United States today a "postracial" society? In this volume, top scholars in psychology, education, sociology, and related fields dissect the concept of color-blind racial ideology (CBRI), the widely held belief that skin color does not affect interpersonal interactions and that interpersonal and institutional racism therefore no longer exist in American society. The chapter authors survey the theoretical and empirical literature on racial color blindness; discuss novel ways of assessing and measuring color-blind racial beliefs; examine related characteristics such as lack of empathy (among Whites) and internalized racism (among people of color); and assess the impact of CBRI in education, the workplace, and health care--as well as the racial disparities that such beliefs help foster"--Provided by publisher.
