Arab Human Development Report 2016

2016-12-29 United Nations Development Programme (United Nations Development Programme (UNDP)) This report addresses the development challenges facing young people in the Arab region. The current young generation is the largest this region has had over the past 50 years, making up 30% of its population. In light of the youth-led movements during and after the 2011 uprisings, the report argues for a renewed policy focus on youth development in the region. It deals with the pillars of human development (income, education and health) with the attainment, achievement and equitable distribution of education, and with the challenges of finding stable and decent jobs. With protracted conflict in several Arab countries, young Arabs have become victims or perpetrators of violence, challenged by difficulties of mobility and migration. AHDR 2016 aims to engage youth in building a better future.

The Science of Motorsport

2018-10-25 David P. Ferguson Despite its worldwide following, high levels of investment and scientific complexity, there is a lack of evidence-based literature on the science of human performance in motorsport. Focusing on the physiological, psychological and sport medicine aspects of training, performance, injury and safety, The Science of Motorsport is the first book to provide an accessible and up-to-date resource for stakeholders at all levels of motorsport. Addressing the physiological and psychological stresses of racing across a full range of sports, from Formula 1 and IndyCar to NASCAR and endurance racing, the book includes chapters on: • nutritional and physical training strategies for drivers; • the driver's neck; • injury rates and pathologies of open-wheel driving; • return to competition from concussion; • driver safety; • and considerations for pit crews and safety staff. Accessibly written and made up of contributions from world-leading authorities in motorsport science research, this is a crucial resource for racing drivers, physical trainers, pit crew members and safety personnel, as well as researchers and students with an interest in applied sport physiology, applied sport psychology or sport medicine.

A Practical Guide to Trading and Tracing for the Energy Blockchain

2022-05-07 Giuseppe Sciumè This book discusses the main features, fundamental principles, and application areas of blockchain technology. It explains how this technology can contribute to the electricity market by enabling the implementation of new business models and new energy scenarios. The first chapter is an introductory section which covers the basic elements for framing the blockchain in

the different application fields. The following chapters describe the various phases of the Italian electricity market and the players involved in each phase, the new business models and the main regulations; the features of blockchain that are useful for the energy system; and the integration of a blockchain platform for the execution of Demand Response events in an existing power grid. In the fifth chapter the results of the experimental implementation of the architecture described previously are presented, and in the final chapter the BloRin project is presented, which aims to create a blockchain-based platform for renewable energy deployment and energy exchange management. The volume targets graduate students, researchers and practitioners, and addresses the development of a new methodology for the implementation of energy services using blockchain technology, providing a guide in the blockchain area for the energy sector.
