Journal, 1955-1962 2000-01-01 Mouloud Feraoun ?This honest man, this good man, this man who never did wrong to anyone, who devoted his life to the public good, and who was one of the greatest writers in Algeria, has been murdered. . . . Not by accident, not by mistake, but called by his name and killed with preference.? So wrote Germaine Tillion in Le Monde shortly after Mouloud Feraoun’s assassination by a right wing French terrorist group, the Organisation Armée Secr_ite, just three days before the official cease-fire ended Algeria’s eight-year battle for independence from France. However, not even the gunmen of the OAS could prevent Feraoun’s journal from being published. Journal, 1955?1962 appeared posthumously in French in 1962 and remains the single most important account of everyday life in Algeria during decolonization. Feraoun was one of Algeria’s leading writers. He was a friend of Albert Camus, Emmanuel Robl_s, Pierre Bourdieu, and other French and North African intellectuals. A committed teacher, he had dedicated his life to preparing Algeria’s youth for a better future. As a Muslim and Kabyle writer, his reflections on the war in Algeria afford penetrating insights into the nuances of Algerian nationalism, as well as into complex aspects of intellectual, colonial, and national identity. Feraoun’s Journal captures the heartbreak of a writer profoundly aware of the social and political turmoil of the time. This classic account, now available in English, should be read by anyone interested in the history of European colonialism and the tragedies of contemporary Algeria.

Uncivil War 2021-10-19 James D. Le Sueur Uncivil War is a provocative study of the intellectuals who confronted the loss of France’s most prized overseas possession: colonial Algeria. Tracing the intellectual history of one of the most violent and pivotal wars of European decolonization, James D. Le Sueur illustrates how key figures such as Albert Camus, Jean-Paul Sartre, Simone de Beauvoir, Germaine Tillion, Jacques Soustelle, Raymond Aron, Claude Lévi-Strauss, Albert Memmi, Frantz Fanon, Mouloud Feraoun, Jean Amrouche, and Pierre Bourdieu agonized over the “Algerian question.” As Le Sueur argues, these individuals and others forged new notions of the nation and nationalism, giving rise to a politics of identity that continues to influence debate around the world. This edition features an important new chapter on the intellectual responses to the recent torture debates in France, the civil war in Algeria, and terrorism since September 11.

European Overseas Empire, 1879 - 1999 2018-05-01 Matthew G. Stanard A Timely Look Back at the Era That Shaped Our World Thousands of years of recorded history show that the main way in which human societies have been organized is as empires. Today, the evidence of recent European overseas empire’s lasting effects is all around us: from international frontiers and fusion cuisine to multiplying apologies for colonial misdeeds. European Overseas Empire, 1879-1999: A Short History explores the major events in this critical period that continue to inform and affect our world today. At the same time, current events are once again beginning to echo the past, bringing historical perspective into the spotlight to guide our actions going forward. This book examines our collective past, providing new insight and fresh perspectives as it: Traces current events to their roots in the European overseas imperialism of the 19th and 20th centuries Challenges the notion of political, cultural, social, and economic exchanges of the era as being primarily “Europe-outward” Examines the complexity and contingency of colonial rule, and the range of outcomes for the various territories involved Explores the power dynamics of overseas empires, and their legacies that continue to shape the world today

We are no longer in France 2014-11-01 Allison Drew This book recovers the lost history of colonial Algeria’s communist movement. Meticulously researched – and the only English-language book on the Parti Communiste Algérien – it explores communism’s complex relationship with Algerian nationalism. During international crises, such as the Popular Front and Second World War years, the PCA remained close to its French counterpart, but as the national liberation struggle intensified, the PCA’s concern with political and social justice attracted growing numbers of Muslims. When the Front de Libération Nationale launched armed struggle in November 1954, the PCA maintained its organisational autonomy – despite FLN pressure. They participated fully in the national liberation war, facing the French state’s wrath. Independence saw two conflicting socialist visions, with the PCA’s incorporated political pluralism and class struggle on the one hand, and the FLN demand for a one-party socialist state on the other. The PCA’s pluralist vision was shattered when it was banned by the one-party state in November 1962. This book is of particular interest to students and scholars of Algerian history, French colonial history and communist history.

Decolonizing Christianity 2016-06-20 Darcie Fontaine Decolonizing Christianity traces the dramatic transformation of Christianity from its position as the moral foundation of European imperialism to its role as a radical voice of political and social change in the era of decolonization. As Christians renegotiated their place in the emerging Third World, they confronted the consequences of racism and violence that Christianity had reinforced in European colonies. This book tells the story of Christians in Algeria who undertook a mission to ‘decolonize the Church’ and ensure the future of Christianity in postcolonial Algeria. But it also recovers the personal aspects of decolonization, as many of these Christians were arrested and tortured by the French for their support of Algerian independence. The consequences of these actions were immense, as the theological and social engagement of Christians in Algeria then influenced the groundbreaking reforms developing within global Christianity in the 1960s.

The Sober Revolution 2018-12-15 Joseph Bohling Burgundy, Bordeaux, Champagne. The names of these and other French regions bring to mind time-honored winemaking practices. Yet the link between wine and place, in French known as terroir, was not a given. In The Sober Revolution, Joseph Bohling inverts our understanding of French wine history by revealing a modern connection between wine and place, one with profound ties to such diverse and sometimes unlikely issues as alcoholism, drunk driving, regional tourism, Algeria’s independence from French rule, and integration into the European Economic Community. In the 1930s, cheap, mass-produced wines from the Languedoc region of southern France and French Algeria dominated French markets. Artisanal wine producers, worried about the impact of these “inferior” products on the reputation of their wines, created a system of regional appellation labeling to reform the industry in their favor by linking quality to the place of origin. At the same time, the loss of Algeria, once the world’s largest wine exporter, forced the industry to rethink wine production. Over several decades, appellation producers were joined by technocrats, public health activists, tourism boosters, and other dynamic economic actors who blamed cheap industrial wine for hindering efforts to modernize France. Today, scholars, food activists, and wine enthusiasts see the appellation system as a counterweight to globalization and industrial food. But, as The Sober Revolution reveals, French efforts to localize wine and integrate into global markets were not antagonistic but instead mutually dependent. The time-honored winemaking practices that we associate with a pastoral vision of traditional France were in fact a strategy deployed by the wine industry to meet the challenges and opportunities of the post-1945 international economy. France’s luxury wine producers were more market savvy than we realize.

Our Civilizing Mission 2019-05-30 Nicholas Harrison Our Civilizing Mission is both an exploration of colonial education and a response to current anxieties about the foundations of the ‘humanities’. Focusing on the example of Algeria, it asks what can be learned by treating colonial education not just as an example of colonialism but as a provocative, uncomfortable example of education.

Albert Camus 2014-12-05 John Foley Adopting an interdisciplinary approach, encompassing philosophy, literature, politics and history, John Foley examines the full breadth of Camus’ ideas to provide a comprehensive and rigorous study of his political and philosophical thought and a significant contribution to a range of debates current in Camus research. Foley argues that the coherence of Camus’ thought can best be understood through a thorough understanding of the concepts of ‘the absurd’ and ‘revolt’ as well as the relation between them. This book includes a detailed discussion of Camus’ writings for the newspaper ‘Combat’, a systematic analysis of Camus’ discussion of the moral legitimacy of political violence and terrorism, a reassessment of the prevailing postcolonial critique of Camus’ humanism, and a sustained analysis of Camus’ most important and frequently neglected work, ‘L’Homme revolté’ (The Rebel).

The Battlefield 2017-03-14 Hugh Roberts The violence that has ravaged Algeria has often defied explanation. Regularly invoked in debates about political Islam, transitions to democracy, globalization, and the right of humanitarian interference, Algeria’s tragedy has been reduced to a clash of stereotypes: Islamists vs. a secular state, terrorists vs. innocent civilians, or generals vs. a defenseless society. The prevalence of such simplistic representations has disabled public opinion inside as well as outside the country and contributed to the intractability ofthe conflict. This collection of essays offers a radical corrective to Western misconceptions. Rejecting the usual tautological approaches of inherent, predetermined conflict, Hugh Roberts explores the outlook and evolution of the various internal forces as they emerged - the Islamists, the Berberists, the factions within the army, and the regime in general - and he looks at external interests and actors. He explains their strategies and the maneuvers in which they haveengaged. The resulting analyses illuminate the startling dynamics of the conflict and the real issues at stake, and identify the implications not only for Algeria but also for this crucial region. Informed by a deep knowledge of Algeria and Algerian history, these accessible essays guide the reader through the extraordinary politics of the drama in all its complexity.

Philosophy and Political Engagement 2016-04-30 Allyn Fives Do philosophers have a responsibility to their society that is distinct from their responsibility to its citizens? This edited volume explores both what type of contribution philosophy can make and what type of reasoning is appropriate when addressing public matters now. These questions are posed by leading international scholars working in the fields of moral and political philosophy. Each contribution also investigates the central issue of how to combine critical, rational analysis with a commitment to politically relevant public engagement. The contributions to this volume analyse issues raised in practical ethics, including abortion, embryology, and assisted suicide. They consider the role of ethical commitment in the philosophical analysis of contemporary political issues, and engage with matters of public policy such as poverty, the arts, meaningful work, as well as the evidence base for policy. They also examine the normative legitimacy of power, including the use of violence.

Electric News in Colonial Algeria 2019-08-08 Arthur Asseraf How do the things which connect us also serve to divide us? Electric News in Colonial Algeria traces how news circulated in a particularly divided society: Algeria under French rule in the late nineteenth and early twentieth centuries. It tells a different history of globalization, one which puts the experience of everyday people at the centre. The years between 1881 and 1940 were those of maximum colonial power in North Africa; a period of intense technological revolution, global high imperialism, and the expansion of settler colonialism. Algerians became connected to international networks of news, and local people followed distant events with great interest. But once news reached Algeria, accounts of recent events often provoked conflict as they moved between different social groups. In a society split between its native majority and a substantial settler minority, distant wars led to riots. Circulation and polarisation were two sides of the same coin. Examining a range of sources in multiple languages across colonial society, Electric News in Colonial Algeria offers a new understanding of the spread of news. News was a whole ecosystem in which new technologies such as the printing press, telegraph, cinema, and radio interacted with older media like songs, rumours, letters, and manuscripts. The French government watched anxiously over these developments, monitoring Algerians’ reactions to news through an extensive network of surveillance that often ended up spreading news rather than controlling its flow. By tracking what different people thought of as news, this history helps us reconsider the relationship between time, media, and historical change.

The Battle for Algeria 2016 Jennifer Johnson The Battle for Algeria offers a new interpretation of the Algerian War (1954-1962) that highlights the social dimensions of the National Liberation Front’s winning strategy, specifically its health care and humanitarianism programs, which targeted the local and international arenas and directly contributed to Algerian sovereignty.

The Spaces of the Modern City 2021-06-08 Gyan Prakash By United Nations estimates, 60 percent of the world’s population will be urban by 2030. With the increasing speed of urbanization, especially in the developing world, scholars are now rethinking standard concepts and histories of modern cities. The Spaces of the Modern City historicizes the contemporary discussion of urbanism, highlighting the local and global breadth of the city landscape. This interdisciplinary collection examines how the city develops in the interactions of space and imagination. The essays focus on issues such as street design in Vienna, the motion picture industry in Los Angeles, architecture in Marseilles and Algiers, and the kaleidoscopic paradox of post-apartheid Johannesburg. They explore the nature of spatial politics, examining the disparate worlds of eighteenth-century Baghdad, nineteenth-century Morelia, Cold War-era West Berlin, and postwar Los Angeles. They also show the meaning of everyday spaces to urban life, illuminating issues such as crime in metropolitan London, youth culture in Dakar, ‘memory projects’ in Tokyo, and Bombay cinema. Informed by a range of theoretical writings, this collection offers a fresh and truly global perspective on the nature of the modern city. The contributors are Sheila Crane, Belinda Davis, Mamadou Diouf, Philip J. Ethington, David Frisby, Christina M. Jiménez, Dina Rizk Khoury, Ranjani Mazumdar, Frank Mort, Martin Murray, Jordan Sand, and Sarah Schrank.

War in the Mountains 2020-10-15 Neil Macmaster The role of the peasantry during the Algerian War of Independence (1954-1962) has long been neglected by historians, in part because they have been viewed as a ‘primitive’ mass devoid of political consciousness. War in the Mountains: Peasant Society and Counterinsurgency in Algeria, 1918-1958 challenges this conventional understanding by tracing the ability of the peasant community to sustain an autonomous political culture through family, clan, and village assemblies. The long-established system of indirect rule by which the colonial state controlled and policed the vast mountainous interior of Algeria began to break down after the 1920s. War in the Mountains explains how competing guerrilla forces and the French military sought to harness djemâas as part of a hearts-and-minds strategy. Djemâas formed a pole of opposition to the patron-client relations of the rural élites, with clandestine urban-rural networks emerging that prepared the way for armed resistance and a system of rebel governance. Contrary to accepted historical analysis suggesting that rural society was massively uprooted and dislocated, War in the Mountains demonstrates that the peasantry demonstrated a high level of social cohesion and resistance based on powerful family and kin networks.

Education and Development in Colonial and Postcolonial Africa 2020-01-03 Damiano Matasci This open access edited volume offers an analysis of the entangled histories of education and development in twentieth-century Africa. It deals with the plurality of actors that competed and collaborated to formulate educational and developmental paradigms and projects: debating their utility and purpose, pondering their necessity and risk, and evaluating their intended and unintended consequences in colonial and postcolonial moments. Since the late nineteenth century, the “educability” of the native was the subject of several debates and experiments: numerous voices, arguments, and agendas emerged, involving multiple institutions and experts, governmental and non-governmental, religious and laic, operating from the corridors of international organizations to the towns and rural villages of Africa. This plurality of expressions of political, social, cultural, and economic imagination of education and development is at the core of this collective work.

Frantz Fanon, Psychiatry and Politics 2017-09-25 Nigel C. Gibson Frantz Fanon was a foundational figure in postcolonial and decolonial thought, yet his medical work has only been studied peripherally. With a focus on Fanon’s key psychiatry texts, Frantz Fanon: Psychiatry and Politics considers Fanon’s medical writings as materials anticipating as well as accompanying Fanon’s better known work.

North Africa, Islam and the Mediterranean World 2013-11-05 Julia Clancy-Smith Long regarded as the preserve of French scholars and Francophone audiences due to its significance to France’s colonial empire, North Africa is increasingly recognized for its own singular importance as a crossover region. Situated where Islamic, Mediterranean, African, and European histories intersect, the Maghrib has long acted as a cultural conduit, mediator and broker. From the medieval era, when the oasis of Sijilmassa in the Moroccan wilderness funnelled caravan loads of gold into international networks, through the 16th century when two superpowers, the Ottomans and the Spanish Hapsburgs, battled for mastery of the Mediterranean along the North African frontier, and well into the 20th century which witnessed one of Africa’s cruellest wars unfold in ‘French Algeria’, the Maghrib has retained its uniqueness as a place where worlds meet.

Muslim Girls and the Other France 2006-02-27 Trica Danielle Keaton In this vivid, evocative study, the author draws on ethnographic research in schools, housing projects, and other settings among Muslim teenagers of North and West African origin to explore the life worlds of Muslim girls and youth of African origin in French society.

Mecca of Revolution 2016-03-15 Jeffrey James Byrne Mecca of Revolution traces the ideological and methodological evolution of the Algerian Revolution, showing how an anticolonial nationalist struggle culminated in independent Algeria’s ambitious agenda to reshape not only its own society, but international society too. In this work, Jeffrey James Byrne first examines the changing politics and international strategies of the Algerian National Liberation Front (FLN) during its war with France, including the embrace of more encompassing visions of “decolonization” that necessitated socio-economic transformation on a global scale along Marxist/Leninist/Fanonist/Maoist/Guevarian lines. After independence, the Algerians played a leading role in Arab-African affairs as well as the far-reaching Third World project that challenged structural inequalities in the international system and the world economy, including initiatives such as the Non-Aligned Movement, the G77, and the Afro-Asian movement. At the same time, Algiers, nicknamed the “Mecca of Revolution,” became a key nexus in an intercontinental transnational network of liberation movements, revolutionaries, and radical groups of various kinds. Drawing on unprecedented access to archival materials from the FLN, the independent Algerian state, and half a dozen other countries, Byrne narrates a postcolonial, or “South-South,” international history. He situates dominant paradigms such as the Cold War in the larger context of decolonization and sheds new light on the relationships between the emergent elites of Africa, the Middle East, Asia, and Latin America. Mecca of Revolution shows how Third Worldism evolved from a subversive transnational phenomenon into a mode of elite cooperation that reinforced the authority of the post-colonial state. In so doing, the Third World movement played a key role in the construction of the totalizing international order of the late-twentieth century.

The French empire between the wars 2017-03-01 Martin Thomas By considering the distinctiveness of the inter-war years as a discrete period of colonial change, this book addresses several larger issues, such as tracing the origins of decolonization in the rise of colonial nationalism, and a re-assessment of the impact of inter-war colonial rebellions in Africa, Syria and Indochina. The book also connects French theories of colonial governance to the lived experience of colonial rule in a period scarred by war and economic dislocation.

The Poor Man’s Son 2005 Mouloud Feraoun A direct response to Albert Camus’ call for Algerians to tell the world their story, The Poor Man’s Son remains after half a century the definitive map of the Kabyle soul.

Historians Without Borders 2019-04-11 Lawrence Abrams This text explores a variety of themes developed from successive years of the University of California, Davis, multidisciplinary graduate conference. It draws out connections on a wide array of topics among the arts, humanities, and sciences in history for multidisciplinary study. This text presents a rare forum for multidisciplinary connections researched and presented by junior specialists in their respective fields. It enables both creativity and flexibility in drawing out connections that are frequently overlooked by more specialized senior scholars. This book is a unique exercise in the promotion of junior scholarly achievement and multidisciplinary research.

Hannah Arendt and the Uses of History 2008-09 Richard H. King Hannah Arendt first argued the continuities between the age of European imperialism and the age of fascism in Europe in ‘The Origins of Totalitarianism’. This text uses Arendt’s insights as a starting point for further investigations into the ways in which race, imperialism, slavery and genocide are linked.

Securitization Revisited 2019-07-23 Michael J. Butler This book seeks to interrogate how contemporary policy issues become ‘securitized’ and, furthermore, what the implications of this process are. A generation after the introduction of the concept of securitization to the security studies field, this book engages with how securitization and desecuritization ‘works’ within and across a wide range of security domains including terrorism and counter-terrorism, climate change, sexual and gender-based violence, inter-state and intra-state conflict, identity, and memory in various geographic and social contexts. Blending theory and application, the contributors to this volume – drawn from different disciplinary, ontological, and geographic ‘spaces’ – orient their investigations around three common analytical objectives: revealing deficiencies in and through application(s) of securitization; considering securitization through speech-acts and discourse as well as other mechanisms; and exposing latent orthodoxies embedded in securitization research. The volume demonstrates the dynamic and elastic quality of securitization and desecuritization as concepts that bear explanatory fruit when applied across a wide range of security issues, actors, and audiences. It also reveals the deficiencies in restricting securitization research to an overly narrow set of issues, actors, and mechanisms. This volume will be of great interest to scholars of critical security studies, international security, and International Relations. Chapter 6 of this book is freely available as a downloadable Open Access PDF at http://www.taylorfrancis.com under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

Killing Strangers 2020-09-02 T. K. Wilson A bewildering feature of so much contemporary political violence is its stunning impersonality. Every major city centre becomes a potential shooting gallery; and every metro system a potential bomb alley. Victims just happen, as the saying goes, to ‘be in the wrong place at the wrong time’. We accept this contemporary reality - at least to some degree. But we rarely ask: where has it come from historically? Killing Strangers tackles this question

head on. It examines how such violence became ‘unchained’ from inter-personal relationships. It traces the rise of such impersonal violence by examining violence in conjunction with changing social and political realities. In particular, it traces both ‘push’ and ‘pull’ - the ability of modern states to force the violence of their challengers into niche forms: and the disturbing new opportunities that technological changes offer to cause mayhem in fresh and original ways. Killing Strangers therefore aims to highlight the very strangeness of contemporary experience when it is viewed against a long-term perspective. Atrocities regularly capture media attention - and just as quickly fade from public view. That is both tragic - and utterly predictable. Deep down we expect no different. And that is why such atrocities must be repeated if our attention is to be re-engaged. Deep down we expect that, too. So Killing Strangers deliberately asks the very simplest of questions. How on earth did we get here?

Terrorism 2013-04-26 Randall D. Law Terrorism is one of the forces defining our age, but it has also been around since some of the earliest civilizations. This one-of-a-kind study of the history of terrorism — from ancient Assyria to the post-9/11 War on Terror — puts terrorism into broad historical, political, religious and social context. The book leads the reader through the shifting understandings and definitions of terrorism through the ages, and its continuous development of themes allows for a fuller understanding of the uses of and responses to terrorism. The study of terrorism is constantly growing and ever changing. In Terrorism: A History, Randall Law gives students and general readers access to this rich field through the most up-to-date research combined with a much-needed long-range historical perspective. He extensively covers jihadism, the Israeli/Palestinian conflict, Northern Ireland and the Ku Klux Klan plus lesser known movements in Uruguay, Algeria and even the pre-modern uses of terror in ancient Rome, medieval Europe and the French Revolution, among other topics.

Assassination! July 14 2001-01-01 Ben Abro July 14. One of Europe's most sinister terrorist organizations hatches a brilliant plan to assassinate the feared and powerful leader of France, President Charles de Gaulle. Max Palk, an extraordinarily talented British secret agent, is summoned to Paris to hunt down the assassins before it is too late. Ensnared in a terrifying web of doublecross and death, Palk races against the clock to outmaneuver, outshot, and outthink his increasingly desperate foes. A decade before The Day of the Jackal appeared, Ben Abro's Assassination! July 14 became an international sensation, thanks to its sizzling plot, an ingenious, intellectual hero, and a realistic depiction of France's volatile political scene in the 1960s. In fact, the novel proved too real, provoking outrage and a lawsuit that shut down its publication. For the first time in decades, this gripping, underground thriller is again widely available. The equally riveting story behind the novel and the controversy it spawned are carefully explained in an informative essay by James D. Le Sueur. Drawing upon interviews with the authors, court transcripts, and recent evidence and scholarship, Le Sueur examines how an item of popular culture could have had such national and international repercussions.

A Desert Named Peace 2011 Benjamin Claude Brower In the mid-nineteenth century French colonial leaders in Algeria descended southward into the Sahara, initiating a fifty-year period of violence. The French Empire in the Sahara sought power through physical force as it had elsewhere, yet this did not yield empire on the cheap, and violence in colonial Algeria followed a shifting political logic. A Desert Named Peace presents four cases: the military conquests of the French army in the oases and officers' predisposition to use extreme violence in colonial conflicts; a spontaneous nighttime attack made by Algerian pastoralists on a French village, as notable for its brutality as for its obscure causes; the violence of indigenous forms of slavery and the colonial accommodations that preserved it during the era of abolition; and the struggles of French Romantics whose debates about art and politics arrived from Paris with disastrous consequences. These different perspectives reveal the unexpected causes of colonial violence, such as France's troubled revolutionary past and its influence on the military's institutional culture, the aesthetics of the sublime and its impact on colonial thinking, the ecological crises suffered by Saharan pastoralists under colonial rule, and the conflicting paths to authority inherent in Algerian Sufism.
