Chasing Redbird

2012-04-24 Sharon Creech "Intriguing, delightful, and touching." —School Library Journal (starred review) "Creech's best yet." —Publishers Weekly (starred review) It started out as an ordinary summer. But the minute thirteen-year-old Zinny discovered the old, overgrown trail that ran through the woods behind her family's house, she realized that things were about to change. It was her chance to finally make people notice her, and to have a place she could call her very own. But more than that, Zinny knew that the trail somehow held the key to all kinds of questions. And that the only way to understand her family, her Aunt Jessie's death, and herself, was to find out where it went. From Newbery Medal-winning author Sharon Creech comes a story of love, loss, and understanding, an intricately woven tale of a young girl who sets out in search of her place in the world—and discovers it in her own backyard. An ALA Best Book for Young Adults

Noise, Water, Meat

2001-08-24 Douglas Kahn An examination of the role of sound in twentieth-century arts. This interdisciplinary history and theory of sound in the arts reads the twentieth century by listening to it—to the emphatic and exceptional sounds of modernism and those on the cusp of postmodernism, recorded sound, noise, silence, the fluid sounds of immersion and dripping, and *Learning Not To Drown Anna Shinoda Pdf Pdf* upload Mita f Boyle

the meat voices of viruses, screams, and bestial cries. Focusing on Europe in the first half of the century and the United States in the postwar years, Douglas Kahn explores aural activities in literature, music, visual arts, theater, and film. Placing aural activity at the center of the history of the arts, he revisits key artistic questions, listening to the sounds that drown out the politics and poetics that generated them. Artists discussed include Antonin Artaud, George Brecht, William Burroughs, John Cage, Sergei Eisenstein, Fluxus, Allan Kaprow, Michael McClure, Yoko Ono, Jackson Pollock, Luigi Russolo, and Dziga Vertov.

The Power of Archetypes

2017-07-24 Marie D. Jones Deep within your mind is a realm filled with powerful symbols that drive your thoughts, behaviors, and actions-- often without your knowledge. This is the hidden world of "archetypes": universal symbols responsible for who you are, how the world sees you, and what you believe about yourself and your life's purpose. The Power of Archetypes will help you identify, understand, and work with the archetypes that exist beyond your conscious awareness to create your reality "behind the scenes." You will also learn how to clear out old symbols that may be blocking you from the happiness and success you dream of. You will examine: •The roles of the subconscious and collective unconscious in shaping your identity, and why it is so hard to change "you." •The most common archetypes and what they symbolize. •Global archetypes in religion, politics, and pop culture, and how they affect you. •Ways to identify archetypes working in your life and the skills to change them and become more authentic. Archetypes reveal your plot and your purpose. The good news is, if you don't like them, you can choose more empowering symbols to create a completely new

story of your life.

Socio-Cultural Perspectives on Science Education

2012-12-06 W.W. Cobern Global science education is a reality at the end of the 20th century - albeit an uneven reality - because of tremendous technological and economic pressures. Unfortunately, this reality is rarely examined in the light of what interests the everyday lives of ordinary people rather than the lives of political and economic elites. The purpose of this book is to offer insightful and thought-provoking commentary on both realities. The tacit question throughout the book is 'Whose interests are being served by current science education practices and policies?' The various chapters offer critical analysis from the perspectives of culture, economics, epistemology, equity, gender, language, and religion in an effort to promote a reflective science education that takes place within, rather than taking over, the important cultural lives of people. The target audience for the book

includes graduate students in education, science education and education policy professors, policy and government officials involved with education.

2019-05-07 Anna Shinoda "Anna Shinoda's deeply informed story is not to be missed." —Dr. Drew Pinsky, Celebrity Rehab and Teen Mom Family secrets cut to the bone in this mesmerizing debut novel about a teen whose drug-addicted brother is the prodigal son one time too many. There is a pecking order to every family. Seventeen-year-old Clare is the overprotected baby; Peter is the typical, rebellious middle child; and Luke is the can't-do-wrong favorite. In their eyes, they are a normal, happy family. But sometimes it's the people who are closest to us who are the hardest to see. Clare loves her older brother, Luke—it's not his fault that he's always in the wrong place at the wrong time. Life as Luke's sister hasn't been easy—their community hasn't been nearly as forgiving of his transgressions as she and her parents are—but he's done his time and is on his way home again, and she has to believe this time will be different. But when the truths behind his arrests begin to surface, everything Clare's always known is shaken to its core. Clare has to decide if sticking up for herself and her future means selfishly turning her back on family...or if it's the only way to keep herself from drowning along with them.
