In a lucid and accessible style, he unfolds a comprehensive "story" of literary theory in all its manifestations. Literary Theory 2011-11-30 Terry Eagleton A quarter of a century on from its original publication, *Literary Theory: An Introduction* still conjures the subversion, excitement and exoticism that characterized theory through the 1960s and 70s, when it posed an unprecedented challenge to the literary establishment. Eagleton has added a new preface to this anniversary edition to address more recent developments in literary studies, including what he describes as "the growth of a kind of anti-theory", and the idea that literary theory has been institutionalized. Insightful and enlightening, *Literary Theory: An Introduction* remains the essential guide to the field. 25th Anniversary Edition of Terry Eagleton's classic introduction to literary theory First published in 1983, and revised in 1996 to include material on developments in feminist and cultural theory Has served as an inspiration to generations of students and teachers Continues to function as arguably the definitive undergraduate textbook on literary theory Reissue includes a new foreword by Eagleton himself, reflecting on the impact and enduring success of the book, and on developments in literary theory since it was first published

literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

Superstructuralism 2013-10-08 Richard Harland First Published in 2002. It is easy to see that we are living in a time of rapid and radical social change. It is much less easy to grasp the fact that such change will inevitably affect the nature of those disciplines that both reflect our society and help to shape it. Yet this is nowhere more apparent than in the central field of what may, in general terms, be called literary studies. 'New Accents' is intended as a positive response to the initiative offered by such a situation. Each volume in the series will seek to encourage rather than resist the process of change. To stretch rather than reinforce the boundaries that currently define literature and its academic study.

On Reading 2012-04-01 Jeremy Fernando This text attempts to read the unreadable. To read the possibility of reading as response: one that doesn't claim to know, to understand, to have read. Hence, all reading(s) are always already haunted by the fictionality of reading itself. And it is as though the form of the fiction that we can make any statement - provisional as it may be - about the object of reading.

The Theory of Criticism 2019-12-01 Murray Krieger Originally published in 1976. Representing years of critical reflection, *The Theory of Criticism* attempts to construct a poetics of "presence." Within a wide range of critical terminology, Murray Krieger has sought to create a new vision. In language that is passionate and often dramatic, he looks at the multidimensionality of the poetic world through the lens of Western poetics. His work clearly addresses itself to post-New Critical questions: how to preserve the literary object as a thing to be perceived, valued, and enjoyed and yet to account for its presence in, and interaction with, our culture as a whole, always in danger of being dissolved into man's language-making and -forming activity in general. Our awareness of the poem as object must be modified by our awareness that it is an "intentional" object. Krieger develops his balanced vision in three parts. Part 1 defines the problem and defends the very activity of theorizing both in its own terms and in terms of the critic's function throughout the history of Western criticism. By asking at the outset whether criticism is vain or valuable, Krieger already confronts the basic tension between system and world and the need to account for both. By creating a heuristic system that examines the possibility of form, the critic serves also the world of history and thought as a whole. Part 2 pursues that history from the classical encounter with mimesis in Greek thought to the Romantic and post-Romantic elevation of consciousness as a main criterion of poetic art. Defining a "humanistic aesthetic" as it has been viewed since Aristotle, the author shows how, during and after the eighteenth century, form was opened up under the impact of a Kantian and post-Kantian view, epitomized finally by Coleridge's imagination and its consequences for recent theorists. Part 3 deals with the image of the world struggling against its enclosure within a poetic context. It expands our view of metaphor as a reflection of the dual nature of poetic language, simultaneously locked into the poem and referring to history and nature outside. Our reading of the poem, Krieger concludes, must be double: we must see the poem as a linear and chronological sequence reflecting real life, and we must read it as a circular, imitative, mutually implicative mode.

Rethinking Mimesis 2012-04-25 Saija Isomaa Literary mimesis is an age-old concept which has been variously interpreted and at times highly contested, and which has recently been brought back to the forefront of scholarly interest. The debate around mimesis has been reactivated by approaches that re-evaluate its meaning both in the ancient texts in which it first appeared, and in the contemporary discussions of the power of literary representation. This volume presents a selection of central contributions to both the theoretical debate on mimesis and to its up-to-date critical practice. This volume approaches mimesis by emphasising the principles of knowledge, understanding and imagination that have been associated with mimesis since Aristotle's *Poetics*. The articles consider the various aspects of the concept throughout history, and explore the ways in which literature produces its peculiar reality effects and negotiates its relationship to value systems connecting it to the world of everyday experience and ethics, as well as to different ideologies, emotions, world views and fields of knowledge. Building on this rich theoretical background, the articles examine the limits and possibilities of mimesis through detailed textual analyses that present acute challenges to our current understanding of literary representation.

A Lover's Discourse 1978 Roland Barthes "Barthes's most popular and unusual performance as a writer is "A Lover's Discourse," a writing out of the discourse of love. This language primarily the complaints and reflections of the lover when alone, not exchanges of a lover with his or her partner is unfashionable. Thought it is spoken by millions of people, diffused in our popular romances and television programs as well as in serious literature, there is no institution that explores, maintains, modifies, judges, repeats, and otherwise assumes responsibility for this discourse . . . Writing out the figures of a neglected discourse, Barthes surprises us in "A Lover's Discourse" by

making love, in its most absurd and sentimental forms, an object of interest." Jonathan Culler

Hegel and the Foundations of Literary Theory 2019 Rafey Habib Hegel and the Foundations of Literary Theory: Do the various forms of literary theory - deconstruction, Marxism, new historicism, feminism, post-colonialism, and cultural/digital studies - have anything in common? If so, what are the fundamental principles of theory? What is its ideological orientation? Can it still be of use to us in understanding basic intellectual and ethical dilemmas of our time? These questions continue to perplex both students and teachers of literary theory. Habib finds the answers in theory's largely unacknowledged roots in the thought of German philosopher Hegel. Hegel's insights continue to frame the very terms of theory to this day. Habib explains Hegel's complex ideas and how they have percolated through the intellectual history of the last century. This book will interest teachers and students of literature, literary theory and the history of ideas, illuminating how our modern world came into being, and how we can better understand the salient issues of our own time.

La dissémination 1972 Jacques Derrida "In *Dissemination* - more than in any previous work - Derrida weaves a complex pattern of puns, verbal echoes and allusions, intended to 'deconstruct' both the pretension of criticism to tell the truth about literature, and the pretension of philosophy to be the literature of truth." New Statesman Jacques Derrida (1930-) is Professor of Philosophy at Ecole Normale Supérieure, Paris. Regarded as the founding father of Deconstruction, his influence on contemporary thought has been enormous. His impact on philosophy and literary criticism was assured by the publication of *Speech and Phenomena*, *Writing and Difference* and *Of Grammatology*. First published in 1972, *Dissemination* contains three of Derrida's most central and seminal works: 'Plato's Pharmacy', 'The Double Session' and 'Dissemination'. The essays present a re-evaluation of the logic of meaning and the function of writing in Western discourse. This is a groundbreaking work on the relationship and interplay between language, literature and philosophy. Translated, with an Introduction and Additional Notes by Barbara Johnson

Landscape Theory in Design 2016-12-08 Susan Herrington Phenomenology, Materiality, Cybernetics, Palimpsest, Cyborgs, Landscape Urbanism, Typology, Semiotics, Deconstruction - the minefield of theoretical ideas that students must navigate today can be utterly confusing, and how do these theories translate to the design studio? *Landscape Theory in Design* introduces theoretical ideas to students without the use of jargon or an assumption of extensive knowledge in other fields, and in doing so, links these ideas to the processes of design. In five thematic chapters Susan Herrington explains: the theoretic groundings of the theory of philosophy, why it matters to design, an example of the theory in a work of landscape architecture from the twentieth and twenty-first centuries, debates surrounding the theory (particularly as they elaborate modern and postmodern thought) and primary readings that can be read as companions to her text. An extensive glossary of theoretical terms also adds a vital contribution to students' comprehension of theories relevant to the design of landscapes and gardens. Covering the design of over 40 landscape architects, architects, and designers in 111 distinct projects from 20 different countries, *Landscape Theory in Design* is essential reading for any student of the landscape.

Doing Literary Criticism 2010 Tim Gillespie One of the greatest challenges for English language arts teachers today is the call to engage students in more complex texts. Tim Gillespie, who has taught in public schools for almost four decades, has found the lenses of literary criticism a powerful tool for helping students tackle challenging literary texts. Tim breaks down the dense language of critical theory into clear, lively, and thorough explanations of many schools of critical thought---reader response, biographical, historical, psychological, archetypal, genre based, moral, philosophical, feminist, political, formalist, and postmodern. *Doing Literary Criticism* gives each theory its own chapter with a brief, teacher-friendly overview and a history of the approach, along with an in-depth discussion of its benefits and limitations. Each chapter also includes ideas for classroom practices and activities. Using stories from his own English classes--from alternative programs to advance placement and everything in between--Tim provides a wealth of specific classroom-tested suggestions for discussion, essay and research paper topics, recommended texts, exam questions, and more. The accompanying CD offers abbreviated overviews of each theory (designed to be used as classroom handouts, examples of student work, collections of quotes to stimulate discussion and writing, an extended history of women writers, and much more. Ultimately, *Doing Literary Criticism* offers teachers a rich set of materials and tools to help their students become more confident and able readers, writers, and critical thinkers.

Dissemination 2021-01-28 Jacques Derrida Interpretations of Plato, Stéphane Mallarmé, and Philippe Sollers' writings in three essays: "Plato's Pharmacy," "The Double Session," and "Dissemination." "The English version of *Dissemination* [is] an able translation by Barbara Johnson . . . Derrida's central contention is that language is haunted by dispersal, absence, loss, the risk of unmeaning, a risk which is starkly embodied in all writing. The distinction between philosophy and literature therefore becomes of secondary importance. Philosophy vainly attempts to control the irrecoverable dissemination of its own meaning, it strives--against the grain of language--to offer a sober revelation of

truth. Literature—on the other hand—flaunts its own meretriciousness, abandons itself to the Dionysiac play of language. In Dissemination—more than any previous work—Derrida joins in the revelry, weaving a complex pattern of puns, verbal echoes and allusions, intended to ‘deconstruct’ both the pretension of criticism to tell the truth about literature, and the pretension of philosophy to the literature of truth.” —Peter Dews, *The New Statesman*

The Language of Literature and its Meaning 2019-04-23 Ashima Shrawan There is a marked awareness about the language of literature and its meaning both in Indian and Western aesthetic thinking. The aestheticians of both schools hold that the language of literature embodies a significant aspect of human experience, and represents a creative pattern of verbal structure to impart meaning effectively. Modern Western aesthetic thinking, which includes theories like formalism, new criticism, stylistics, structuralism, post-structuralism, deconstruction, discourse analysis, semiotics and dialogic criticism, in one way or another emphasizes the study of the language of literature in order to understand its meaning. Similarly, there is a distinct focus on the language of literature and its meaning in Indian literary theories which include the theory of rasa (aesthetic experience), alamkāra (the poetic figure), rīti (diction), dhvani (suggestion), vakrokti (oblique expression) and aucitya (propriety). This book explores how the language of literature and its meaning have been dealt with in both Indian and Western aesthetic thinking. In doing so, the study concentrates on Kuntaka’s theory of vakrokti and Ānandavardhana’s theory of dhvani in Indian aesthetic thinking and Russian formalism and deconstruction in Western thinking. The book categorically focuses on the intersection between the theory of vakrokti and Russian formalism and the meeting-point between the theory of dhvani and deconstruction.
