101 Danish Design Icons

2016 Lars Dybdahl Denmark has long since written international design history. Today, Danish furniture, textiles, and home appliances and utensils from the sixties and seventies are more popular than ever. The beautiful pieces are meanwhile for sale at design galleries and have become a rarity at flea markets. In short, Nordic items for everyday use have become internationally sought-after trophies for sophisticates. This publication provides an extensive overview of those everyday objects that have to this day written design history both in Denmark as well as worldwide. Along with thirty-two leading scholars and journalists, the head of the library and research at the Designmuseum Danmark in Copenhagen, Lars Dybdahl, advances into the fascinating history of the individual objects. Playfully presented and situated in their historical context, the catalogue sheds new light on this unique world of objects.

Integrated Practice

2011-07-08 Pedro de Alcantara To be a musician is to "speak

music." When you have something to say and the means to say it, your gestures and sounds become both meaningful and free. Offering an innovative, comprehensive approach to musicians' health and wellbeing, *Integrated Practice* gives you the tools to combine total-body awareness with a deep and practical understanding of the rhythmic structure of the musical language, so that you can use the musical text itself as your guide toward psychophysical and creative freedom. The book shows you how to establish an imaginative dialogue between the relatively inflexible structure of music and your individual personality as a singer, instrumentalist, or conductor, and it explains how you can use the acoustic phenomenon of the harmonic series to make big, beautiful sounds with little muscular effort. *Integrated Practice* comes with more than a hundred and fifty exercises demonstrated by video and audio clips on an extensive companion website that will inform your daily practice, improvising, rehearsing, and performing. With this array of resources for every learning style, *Integrated Practice* is the essential handbook to personal achievement in successful, expressive musical performance.

Making Futures

2014-10-31 Pelle Ehn Experiments in innovation, design, and democracy that search not for a killer app but for a collaboratively created sustainable future. Innovation and design need not be about the search for a killer app. Innovation and design can start in people's everyday activities. They can encompass local services, cultural production, arenas for public discourse, or technological platforms. The approach is participatory, collaborative, and engaging, with users and consumers acting as producers and creators. It is concerned less with making new things than with making a socially sustainable future. This book describes experiments in innovation, design, and democracy, undertaken largely by grassroots organizations, non-governmental organizations, and multi-ethnic working-class neighborhoods. These stories challenge the dominant perception of what constitutes successful innovations. They recount efforts at social innovation, opening the production process, challenging the creative class, and expanding the public sphere. The wide range of cases considered include a collective of immigrant women who perform collaborative services, the development of an open-hardware movement, grassroots journalism, and hip-hop performances on city buses. They point to the possibility of democratized innovation that goes beyond solo entrepreneurship and crowdsourcing in the service of corporations to include multiple futures imagined and made locally by often-marginalized publics.
