Douglas M. Dunn, the assessment is made to assess vocabulary comprehension for American English. It is swift and easy to administer, conserving important time so that concentration can be put on implementing successful strategies.

The PPVT-4 evaluation subject matter includes a broad range of receptive vocabulary grades, ranging from preschool through adult age. The assessment problems extensively sample words that depict 20 content areas (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and educational vocabulary.

The assessment provides two equivalent editions which contain various vocabulary words, ensuring that the individual has not “mastered” the assessment. One version can be utilized ahead of intervention to assess people’s vocabulary understanding and the alternative edition can be employed for re-evaluation to measure and record progress. The PPVT-4 also includes a unique Growth Scale Value (GSV) which is reactive to slight changes in time.
