The Art of Homemaking

Daryl V. Hoole It is intended that women be happy and successful in their homemaking. Being a homemaker is a divine appointment and is a woman's greatest calling. It should be rich in the rewards of joy, satisfaction and accomplishment. All too often, however, women feel confused, distraught or bored with their role as homemakers. They frequently dread each day, live for the time when their children will be raised so they can be released from it all, or they escape from their responsibilities to their home and family and return to the business world. Other women do enjoy their homemaking activities but find their work consumes most of their day and there is little time for other interests. Many women are wonderful homemakers and managers but are eager for new ideas and skills to make their homemaking even more effective and satisfying. To all of these women, this book offers a practical guide to happier homemaking. It recalls to mind the significance of homemaking and gives their attitude a lift. When the

suggestions concerning order and efficiency, methods and approaches are applied, coupled with the workable plan which systematizes the routine duties, women will find their interest in homemaking greatly increasing and that there will be time to get their work done and enjoy creative activities, family fun and personal development. This is not just a book on how to keep house; it offers a way of life which will bring joy and satisfaction to the homemaker and rich, happy experiences to every family member.

The Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a well-respected vocabulary evaluation that has been in operation for nearly half a century. Created by Lloyd M. Dunn and Douglas M. Dunn, the evaluation is made to measure receptive vocabulary for Standard American English. It is fast and effortless to carry out, saving precious time so that concentration can be placed on executing intelligent interventions.

The PPVT-4 evaluation subject matter includes a broad array of receptive vocabulary ranks, spanning from pre-kindergarten through adulthood. The evaluation items extensively include words that represent 20 topic domains (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and school vocabulary.

The test provides two identical versions which include different vocabulary terms, making sure that the test-taker has not "mastered" the evaluation. One form can be used prior to intervention implementation to assess test-takers' vocabulary comprehension and the alternative form can be used for re-testing to evaluate and record advancement. The PPVT-4 also features a special Growth Scale Value (GSV) which is reactive to small changes with time.
