Stringers and the Journalistic Field 2023-02-28 Nimmagadda Bhargav This book is one of the first ethnographic works on small-town stringers or informal news workers in Indian journalism. It explores existing practices and cultures in the field of local journalism and the roles and spaces stringers occupy. The book outlines the caste, gender, class and region-based biases in the production of Indian-language journalism with a specific focus on stringers working in Telugu dailies in small towns or 'mofussil' areas of Andhra Pradesh and Telangana, states in south India. Further, it captures their daily work and processes of news production, and the precarious lives they often lead while working in small towns or mofussils. The author, by using Bourdieu's field theory, introduces the journalistic practices of stringers working on the margins and how they negotiate the complex hierarchies that exist within the journalistic field and outside it. This book will be of great interest to scholars and researchers of ethnography, media sociology, journalism and media studies, labour studies and Area studies, especially South Asian studies.

Rich White Men 2023-06-20 Garrett Neiman With a foreword by New York Times bestselling author Robin DiAngelo, this provocative book investigates major corporate boardrooms and presents a data-driven analysis of how rich white men have preserved their monopoly on power—and what we can do to stop them. It's no secret that our country has a serious problem when it comes to wealth inequality – and systemic racism and patriarchy have only exacerbated the advantages of wealthy white men. Over the past three decades, America's richest white men have only become richer, while those suffering in poverty have only gotten poorer. The divide may seem too great to bridge, but Rich White Men exposes the hidden and insidious ways that white male elites inherit, increase, and preserve their status—and, in this book, we get clear on how to uproot their monopoly on power. □ Serial nonprofit entrepreneur Garrett Neiman's day job is to get rich white men to donate money to good causes and organizations. In Rich White Men, Neiman brings us into corner offices of billionaires and the boardrooms of Goldman Sachs, McKinsey, Stanford,

Harvard, and other enclaves of silver-spooned white men to illuminate the role of rich white men in the world and how they justify inequality. He uses the analogy of compound interest to illustrate how the advantages wealthy white men inherit give them a leg up at key moments in their lives, gilding their trajectories and shutting others out. Through this rare, insider access, readers will discover new ways to persuade the elite toward progressive solutions. A hopeful polemic, the book sheds light on dark truths about inequality and the people invested in preserving it while also providing a blueprint for how America can become an equitable democracy. Rich White Men reveals that to realize America's founding aspiration of life, liberty, and the pursuit of happiness, we must recognize, dismantle, and transform our current system into one that liberates us all – including this nation's morally and spiritually impoverished wealthy white men.

Family Planning Communication in India 2023-09-08 Shashwati Goswami This book is the first systematic study on the historiography of the family planning communication process in India. It traces the history of the development of a highly technical health communication process. It discusses how the discourse on India's population problem was at the heart of the development dialogue which was being promoted by the British colonial administration. The book examines the role of the censuses and the Five-Year plans in the development of the discussion on the population 'explosion' in India. Also, it critically discusses the role of the Ford Foundation's leadership in institutionalising the communication process in India. The book essentially argues that population control communication

enabled the ideas of a homogenised nation, an 'ideal' Indian woman and an 'ideal' Indian family. This, in turn, led to the obliteration of cultural, ethnic, geographical and economic specificities of India as a country. The volume will be of great interest to scholars and researchers of public policy, media and communication studies, Indian politics, modern Indian history and South Asian Studies.

Digital India and the Poor 2020-04-21

Handbook of Research on New Dimensions of Gender Mainstreaming and Women Empowerment 2020-06-12  
Kuruvilla, Moly Globally, women are facing social, economic, and cultural barriers impeding their autonomy and

agency. Accelerated women empowerment programs often fail to attain their targets as envisaged by the policymakers due to a variety of reasons, with the most prominent being the deep-rooted cultural norms ingrained within society. In the era of globalization, empowerment of women demands new approaches and strategies that encourage the mainstreaming of gender equality as a societal norm. The Handbook of Research on New Dimensions of Gender Mainstreaming and Women Empowerment is a critical scholarly publication that examines global gender issues and new strategies for the promotion of women empowerment and gender mainstreaming in various spheres of women's lives, including education and ICT, economic participation, health and sexuality, mental health, aging, law and judiciary, leadership, and decision making. It provides a comprehensive coverage of all major gender issues with novel ideas on gender mainstreaming being contributed by men and women authors from multidisciplinary backgrounds. Gender perspective and intersectional approach in the discourses make this handbook a unique contribution to the scholarship of social sciences and humanities. The book provides new theoretical inputs and practical directions to academicians, sociologists, social workers, psychologists, managers, lawyers, policy makers, and government officials in their efforts at gender mainstreaming. With a wide range of conceptual richness, this handbook is an excellent reference guide to students and researchers in programs pertaining to gender/women's studies, cultural studies, economics, sociology, social work, medicine, law, and management.

Capturing Caste in Law 2022-05-11  
Annapurna Waughray This book is about

the legal regulation of caste discrimination. It highlights the difficulty of capturing caste in international and domestic law, and suggests solutions. Its aim is to contribute to the task of understanding how to secure effective legal protection from and prevention of discrimination on grounds of caste, and why this is important and necessary. It does this by examining the legal conceptualization and regulation of caste as a social category and as a ground of discrimination, in international law and in two national jurisdictions (India and the UK), identifying their complexities, strengths, limitations and potential. Adopting a broadly chronological approach, the book aims to present an account of the role of law in the construction of caste inequality and discrimination, and the subsequent legal efforts to dismantle it. The book will be of value to lawyers and non-lawyers, academics and students of human rights, international law, equalities and discrimination, descent-based and caste-based discrimination, minority rights, and South Asia and its diaspora. It will be a resource for legal practitioners and those in the public and non-governmental sectors involved in the implementation, interpretation and enforcement of equality law in the UK – the first European country to introduce the word "caste" into domestic equality legislation – and in countries with South Asian diasporas such as the USA.

India After Modi 2018-11-18 Ajay Gudavarthy Have you realized that the divide between 'Us' and 'Them' has grown steadily in Indian politics? Do you sometimes wonder whether it will be repaired at all in the near future? Do you ever pause to reflect why emotions spill on the streets and why democratic institutions in India have become dysfunctional? Have you thought about why we get hurt easily and how this gets reflected in everyday politics? India after Modi attempts to address these questions through an analysis of events like Award Wapsi, demonetization, the crisis in JNU and higher education, and electoral outcomes, including in the states of Bihar, Delhi and Uttar Pradesh. Through this collection of essays, Ajay Gudavarthy focuses exclusively on Indian democracy after Narendra Modi took over as the prime minister in 2014. He looks at the

politics that India has been witnessing since then and addresses emerging issues in Indian democracy, including that of women's participation, new urban spaces, and the role of youth.

Traditional Knowledge in Modern India  
2018-09-29 Nirmal Sengupta This book demonstrates how traditional knowledge can be connected to the modern world. Human knowledge of housing, health and agriculture dates back thousands of years, with old wisdom developing and becoming modern. But in the past few decades, global communities have increasingly become aware that some of this valuable knowledge has fallen by the wayside. This has sparked systematic efforts at the local, national and global levels to connect this neglected knowledge to the modern world. It discusses the origin of the topic, its importance, recent developments in India and abroad, and what is being done and still needs to be done in order to preserve India's traditional knowledge. The discussions address a broad range of fields and organizations: from Basmati rice to Ayurvedic cosmetics; from traditional irrigation and folk music to modern drug discovery and climate change adaptation; and from the Biodiversity Convention to the WHO, WTO and WIPO.

The Investment Opportunities and Risks of the Belt and Road Initiative

2023-08-23 Fan Zhang The Belt and Road Initiative (BRI) is an ambitious infrastructure construction program designed and financially supported by the Chinese government. It spans the globe and is active in about 150 countries, affecting the international order, government policies, and ordinary people's daily lives. The BRI uses a version of China's domestic development model, set in an international environment. Using a wealth of documents, cases, multi-country input-output models, and a project database created by the authors, this book provides a complete picture of the BRI: its benefits, risks, and implications. The book explores the institutional roots of the problems of the BRI (including debt problems), argues that the debt problem is a soft budget constraint problem, and discusses the redesign and reorganising of its future versions. This book aims to help policymakers, researchers, students, and everyone interested in political science, economics, and country-specific research to understand and rethink the advantages and risks of the BRI.

Re-Interrogating Civil Society in South Asia 2021-03-31 Peter B. Andersen This book offers an overview of the history and development of civil society in three major nations of South Asia – Pakistan, India and Bangladesh – from colonial times to the present. It examines the liberalization of civil society since the 1980s, the needs it created for civil action, the professionalization of civil society organizations, and the extent to which civil society may benefit society at large in the context of local, national and global transformations in the economy, political regime and ideology. The reader will find new insights on the interaction between the

liberalization of multifaceted civil societies in the three countries, presenting contrasts such as restrictions put on women's organizations or labour unions and acceptance of religious organizations' activities. The volume looks at forms of transfer of civil society models, representation and democratic legitimacy of civil society organizations such as nongovernmental organizations, government organized NGOs and faith-based organizations, along with the structuring of civil society through legal frames as well as female, religious, and ethnic mobilizations around language and literature. Using wide-ranging empirical data and theoretical analyses, it deals with civil society issues relating to human rights and political challenges, justice, inequality, empowerment, and the role of bureaucracy, women's movements, and ethnic and linguistic minorities. It also presents early responses to the Covid-19 crisis in 2020 which created significant pressure on the states and on civil society. This book will be useful to scholars and researchers of political studies, development studies, sociology, public policy and governance, law and human rights, as also to professionals in think tanks, civil society activists and NGOs.

Majoritarian State 2019-08 Angana P. Chatterji Majoritarian State traces the ascendance of Hindu nationalism in contemporary India. Led by Prime Minister Narendra Modi, the BJP administration has established an ethno-religious and populist style of rule since 2014. Its agenda is also pursued beyond the formal branches of government, as the new dispensation portrays conventional social hierarchies as intrinsic to Indian culture while condoning communal and caste- and gender-based violence. The

contributors explore how Hindutva ideology has permeated the state apparatus and formal institutions, and how Hindutva activists exert control over civil society via vigilante groups, cultural policing and violence. Groups and regions portrayed as 'enemies' of the Indian state are the losers in a new order promoting the interests of the urban middle class and business elites. As this majoritarian ideology pervades the media and public discourse, it also affects the judiciary, universities and cultural institutions, increasingly captured by Hindu nationalists. Dissent and difference silenced and debate increasingly sidelined as the press is muzzled or intimidated in the courts. Internationally, the BJP government has emphasised hard power and a fast-expanding security state. This collection of essays offers rich empirical analysis and documentation to investigate the causes and consequences of the illiberal turn taken by the world's largest democracy.

Regulation in India: Design, Capacity, Performance 2019-04-04 Devesh Kapur The rise of the regulatory state has been a major feature of modern constitutional democracies. India, the world's largest democracy, is no exception to this trend. This book is the first major study of regulation in India. It considers how the development of regulation in India has altered the nature and functions of the state; how it is reshaping the relationship between business and the state; how it has called for the refashioning of established legal principles; and how it has raised new questions about the relationship between technical expertise and the rule of law. The chapters cover topics ranging from the foundations of the Indian

regulatory state to the form of regulation across different sectors to regulation in practice. Together, the chapters reveal the challenges, promise, and limitations offered by contemporary regulatory practices, and they capture the close if sometimes fraught relationship that regulation must inevitably share with the political economy and constitutional schema within which it operates.

Reflections on Myanmar 2023-02-17  
Reshmi Banerjee Myanmar is known for its engaging history, rich cultural heritage, and diverse ethnic communities. Its tumultuous political past has been discussed by academics and policy makers for decades; however, the land of the Shwedagon cannot only be defined by conflict and contestation. Myanmar is complex and multi-layered with innumerable issues shaping its identity and manifold interpretations creating its distinctiveness. A deeper comprehension of its past glory with thoughtful deliberation on its socio-economic challenges helps to understand the country better. This book fills this gap by focusing on four broad themes—reminiscence, restoration, re-evaluation, and resurrection. It studies interconnected issues ranging from nostalgia and belonging to Myanmar's contribution to art and heritage (through its museums, cinema, folk traditions); from the problems of landlessness, resource dispossession, and climate change to the experience of marginalized groups. The author weaves these themes into a common narrative of discovering Myanmar through a holistic lens. The book aims to explore the country through its history, culture, communities, and challenges. A unique contribution, the book highlights the myriad facets of Myanmar by

contemplating on its inherent strengths and visible weaknesses. It would be indispensable for scholars and researchers of Southeast Asian studies, Asian studies, area studies, Myanmar studies, political studies, cultural studies, and sociology.

Motherhood and Choice 2017-10-02  
Amrita Nandy How can women live fully? If autonomy is critical for humans, why do women have little or no choice vis-à-vis motherhood? Do women know they have a choice, if they do? How 'free' are these choices in a context where the self is socially mired and deeply enmeshed into the familial? What are implications of motherhood on how human relatedness and belonging are defined? These questions underlie Amrita Nandy's remarkable research on motherhood as an institution, one that conflates 'woman' with 'mother' and 'personal' with 'political'. As the bedrock of human survival and an unchallenged norm of 'normal' female lives, motherhood expects and even compels women to be mothers—symbolic and corporeal. Even though the ideology of pronatalism and motherhood reinforce reproductive technology and vice versa, the care work of mothering suffers political neglect and economic devaluation. However, motherhood (and non-motherhood) is not just physiological. As the pivot to a web of heteronormative institutions (such as marriage and the family), motherhood bears an overwhelming and decisive influence on women's lives. Against the weight of traditional and contemporary histories, socio-political discourse and policies, this study explores how women, as embodiments of multiple identities, could live stigma-free, 'authentic' lives without having to abandon reproductive 'self'-determination. Economic and Financial Integration in South Asia 2020-10-25 Sanjay Sehgal  
This book analyses the current state and potential of economic and financial integration in South Asia, which has emerged as one of the most dynamic regions of the world. It looks at how regional convergences and cooperation would reinforce ties amongst the diverse economies of South Asia in the changing global economic landscape. Drawing on empirical research, the book looks at the degree of economic and financial integration in South Asia, which according to the World Bank includes the least integrated regions in the world, and explores the fundamental factors that drive integration amongst these countries. It offers important insights into the financial landscape of the region, as well as the dynamics of the interlinkages in the banking system, the stock markets, and the debt markets. The book examines the role of bilateral trade in augmenting regional economic ties, the opportunities for growth these will foster, and the major challenges and roadblocks for the leaders of the region. It also provides an overview of China's role in South Asia's financial integration and the interdependence of these economies for economic opportunities, macroeconomic and financial stability, jobs, sustainable growth, and inclusive development. Detailed and insightful, this book will be of great interest to investors and regional policymakers. It will also be of interest to researchers and students of economics, public and foreign policy, finance, international relations, and South Asia studies.

COVID 19 and Migrant Health Anish KR  
COVID 19 impacted the migrant population significantly compared to the general population. The increased

Bread, Cement, Cactus 2020-05-28  
Annie Zaidi In this exploration of the meaning of home, Annie Zaidi reflects on the places in India from which she derives her sense of

identity. She looks back on the now renamed city of her birth and the impossibility of belonging in the industrial township where she grew up. From her ancestral village, in a region notorious for its gangsters, to the mega-city where she now lives, Zaidi provides a nuanced perspective on forging a sense of belonging as a minority and a migrant in places where other communities consider you an outsider, and of the fragility of home left behind and changed beyond recognition. Zaidi is the 2019/ 2020 winner of the Nine Dots Prize for creative thinking that tackles contemporary social issues. This title is also available as Open Access.

Mobile News 2020-12-17 Andrew Duffy  
The rise of the smartphone has shifted news from fixed publication to a flow of updateable information. The chapters in this book investigate the implications for audiences, industry and society as news becomes mobile. Wherever we go, news from anywhere can reach us on our smartphones. And wherever we are, we can search up information specific to that place. News is produced by mobile journalists (MoJos) as well as by citizens armed with smartphones, reporting breaking news from crisis zones where information is uncertain, or hyperlocal news from neighbourhoods where little happens. Mobile technology allows citizens to engage deeply with a cause or to skim headlines so they know a little about a lot of things. News is distributed on mobile networks and consumed by mobile audiences as they make their daily way through time and space coloured by their mobile devices. It is consumed in the niches of life. It intersects with place in new ways as geolocated news. It pursues us wherever we are through push notifications. And news has moved

from fixed to fluid, a flow of updateable information rather than a regularly issued product. In this book, the contributors take varied viewpoints on mobility and news, its impact on what news is, how journalists produce it and how it fits into everybody's everyday life. The chapters in this book were originally published as a special issue of Digital Journalism.

to the policy-focused discussions of the IISS Shangri-La Dialogue, Asia's premier defence summit convened by the International Institute for Strategic Studies. It is published and launched at the Dialogue and the issues analysed within its covers are central to discussions at the event. Since February 2022, the war in Ukraine has provided a bleak backdrop for discussions about international security. While the war has affected many aspects of security and defence in the Asia-Pacific, the region also has its own dynamics, and important security-related developments have occurred there since the invasion. Among these, China's ever-growing power and increasingly assertive posture remain the leading long-term challenges for the region. This tenth edition of the Asia-Pacific Regional Security Assessment contains an introduction and six chapters, authored by IISS experts, which investigate important dimensions of the regional security environment, supported by maps, graphs, charts and tables. Topics include: the war in Ukraine and the Asia-Pacific balance of power; strained US- China relations and the growing threat to Taiwan; Asia-Pacific naval and maritime capabilities; China's Belt and Road Initiative; Japanese security and defence policy; and the conflict in Myanmar and the international response. Authors include leading regional analysts and academics at the forefront of research and analysis: James Crabtree, Euan Graham, Nigel Inkster, Nick Childs, Meia Nouwens, Robert Ward, Yuka Koshino, Aaron Connelly and Shona Loong
