With a nose for a good recipe and an ear for an extraordinary story, Caroline Eden travels from Odesa to Bessarabia, Romania, Bulgaria and Turkey's Black Sea region, exploring interconnecting culinary cultures. From the Jewish table of Odesa, to meeting the last fisherwoman of Bulgaria and charting the legacies of the White Russian émigrés in Istanbul, Caroline gives readers a unique insight into a part of the world that is both shaded by darkness and illuminated by light. In this updated edition of the book, Caroline reflects on the events of the full-scale Russian invasion of Ukraine and the subsequent impact of the war on the people of the wider region. How Odesa, defiant against shelling and blackouts, has gained UNESCO protection while in Istanbul, over lunch with a Bosphorus ship-spotter, she finds out about the role of the Black Sea in the war and how Russians are smuggling stolen grain from Ukraine. Meticulously researched and documenting unprecedented meetings with remarkable individuals, Black Sea is like no other piece of travel writing. The Life and Death of Sophie Stark 2015-05-19 Anna North Winner of the 2016 Lambda Literary Award for Bisexual Fiction "I read The Life and Death of Sophie Stark with my heart in my mouth. Not only a dissection of genius and the havoc it can wreak, but also a thunderously good story."—Emma Donoghue, New York Times bestselling author of Room "This novel is perceptive, subtle, funny and lingers in unexpected ways. The analysis of a woman who puts her art above all else is equal parts inspiration and warning story. Anna North makes prose look easy."—Lena Dunham Gripping and provocative, The Life and Death of Sophie Stark is a haunting story of fame, love, and legacy told through the propulsive rise of an iconoclastic artist. Sophie Stark begins her filmmaking career by creating a documentary about her obsession, Daniel, a college basketball star. But when she becomes too invasive, she finds herself the victim of a cruel retribution. The humiliation doesn't stop her. Visionary and unapologetic, Sophie begins to use stories from the lives of those around her to create movies, and as she gains critical recognition and acclaim, she risks betraying the one she loves most. Told in a chorus of voices belonging to those who knew Sophie best, The Life and Death of Sophie Stark is an intimate portrait of an elusive woman whose monumental talent and relentless pursuit of truth reveal the cost of producing great art. It is "not only a dissection of genius and the havoc it can wreak, but also a thunderously good story" (Emma Donoghue).

Forbidden Literature 2020-03-08 Erik Erlanson Freedom of the printed word is a defining feature of the modern world. Yet censorship and the suppression of literature never cease, and remain topical issues even in the most liberal of democracies. Today, just as in the past, advances in media technology are followed by new regulatory mechanisms. Similarly, any attempt to control cultural expression inevitably spurs fresh discussions about freedom of speech. In Forbidden Literature scholars from a variety of disciplines address censorship's past and present, whether in liberal democracies or totalitarian regimes. Through in-depth case studies they trace a historical continuum in which literature reveals its two-sided nature: it demands both regulation and protection. The contributors investigate the logic of literary repression, particularly in the twentieth and twenty-first centuries, and analyze why it is thought essential to control literature. Moreover, the authors determine how literary practices are shaped and transformed by regulation and censorship.

The Prosthetic Imagination 2020-09-03 Peter Boxall In The Prosthetic Imagination, leading critic Peter Boxall argues that we are now entering an artificial age, in which our given bodies enter into new conjunctions with our prosthetic extensions. This new age requires us to reimagine our relation to our bodies, and to our environments, and Boxall suggests that the novel as a form can guide us in this imaginative task. Across a dazzling range of prose fictions, from Thomas More's Utopia to Margaret Atwood's Oryx and Crake, Boxall shows how the novel has played a central role in forging the bodies in which we extend ourselves into the world. But if the novel has helped to give our world a human shape, it also contains forms of life that elude our existing human architectures: new amalgams of the living and the non-living that are the hidden province of the novel imagination. These latent conjunctions, Boxall argues, are preserved in the novel form, and offer us images of embodied being that can help us orient ourselves to our new prosthetic condition.

Anatomist of Power 2019-10-15 Despiniadis Costas Despiniadis Few twentieth-century writers remain as potent as Franz Kafka—one of the rare figures to maintain both a major presence in the academy and on the shelves of general readers. Yet, remarkably, no work has yet fully focused on his politics and anti-authoritarian sensibilities. The Anatomist of Power: Franz Kafka and the Critique of Authority is a fascinating new look at his widely known novels and stories (including The Trial, Metamorphosis, In the Penal Colony and Amerika), portraying him as a powerful critic of authority, bureaucracy, capitalism, law, patriarchy, and prisons. Making deft use of Kafka's diaries, his friends' memoirs, and his original sketches, Costas Despiniadis addresses his active participation in Prague's anarchist circles, his wide interest in anarchist authors, his skepticism about the Russian Revolution, and his ambivalent relationship with utopian Zionism. The portrait of Kafka that emerges is striking and fresh—rife with insights and a refusal to accept the structures of power that dominated his society.

Symbols 2011 Raymond Firth This book first published in 1973 offers a broad survey of the study of symbolic ideas and behaviour. The study of symbolism is popular nowadays and anthropologists have made substantial contributions to it. Raymond Firth has long been internationally known for his fieldresearch in the

Solomons and Malaysia, and for his theoretical work on kinship, economics and religion. Here from a new angle, he has produced a broad survey of the study of symbolic ideas and behaviour. Professor Firth examines definitions of symbol. He traces the history of scientific inquiry into the symbolism of religious cults, mythology and dreams back into the eighteenth century. He compares some modern approaches to symbolism in art, literature and philosophy with those in social anthropology. He then cites examples in anthropological treatment of symbolic material from cultures of varying sophistication. Finally he offers dispassionate analyses of symbols used in contemporary Western situations – from hair-styles to the use and abuse of national flags; from cults of Black Jesus to the Eucharistic rite. In all this Professor Firth combines social and political topicality with a scholarly and provocative theoretical inquiry.

The Body Language Phrasebook 2005-09-20 Nick Marshallsay While the art of speech is, of course, the most accepted form of communication, body language is no less important. Speech is no substitute for physical expression. In fact evidence suggests that 55% of people's opinions of us are formed by body language and only 7% from the words we use. Be it a wave, a smile, a shrug or frown we all, whether consciously or unconsciously, constantly use body language in our daily lives. But what does it mean? What do crossed legs signify? How does the body language of males and females differ? What can be learnt about someone from their handshake? Which actions signify powerful versus submissive personalities? 'The Body Language Phrasebook', the first in a new series of pocket reference body language books, provides all the answers in an easily accessible way. It takes 500 of the most common forms of physical expression, split into several chapters – including The Power of Gestures, Master and Servant and Under Pressure – and explains what each means. Each entry is supported by a single colour image and concise explanatory caption which help to answer these questions and a myriad of others. For readers with specific queries, a comprehensive themed index directs him or her straight to their area of interest.

Voice of the Leopard 2010-01-06 Ivor L. Miller In Voice of the Leopard: African Secret Societies and Cuba, Ivor L. Miller shows how African migrants and their political fraternities played a formative role in the history of Cuba. During the eighteenth and nineteenth centuries, no large kingdoms controlled Nigeria and Cameroon's multilingual Cross River basin. Instead, each settlement had its own lodge of the initiation society called Ékpè, or "leopard," which was the highest indigenous authority. Ékpè lodges ruled local communities while also managing regional and long-distance trade. Cross River Africans, enslaved and forcibly brought to colonial Cuba, reorganized their Ékpè clubs covertly in Havana and Matanzas into a mutual-aid society called Abakuá, which became foundational to Cuba's urban life and music. Miller's extensive fieldwork in Cuba and West Africa documents ritual languages and practices that survived the Middle Passage and evolved into a unifying charter for transplanted slaves and their successors. To gain deeper understanding of the material, Miller underwent Ékpè initiation rites in Nigeria after ten

years' collaboration with Abakuá initiates in Cuba and the United States. He argues that Cuban music, art, and even politics rely on complexities of these African-inspired codes of conduct and leadership. Voice of the Leopard is an unprecedented tracing of an African title-society to its Caribbean incarnation, which has deeply influenced Cuba's creative energy and popular consciousness.

Posthumanism in Young Adult Fiction 2018-04-27 Anita Tarr Contributions by Torsten Caeners, Phoebe Chen, Mathieu Donner, Shannon Hervey, Angela S. Insenga, Patricia Kennon, Maryna Matlock, Ferne Merrylees, Lars Schmeink, Anita Tarr, Tony M. Vinci, and Donna R. White For centuries, humanism has provided a paradigm for what it means to be human: a rational, unique, unified, universal, autonomous being. Recently, however, a new philosophical approach, posthumanism, has questioned these assumptions, asserting that being human is not a fixed state but one always dynamic and evolving. Restrictive boundaries are no longer in play, and we do not define who we are by delineating what we are not (animal, machine, monster). There is no one aspect that makes a being human--self-awareness, emotion, artistic expression, or problem-solving--since human characteristics reside in other species along with shared DNA. Instead, posthumanism looks at the ways our bodies, intelligence, and behavior connect and interact with the environment, technology, and other species. In Posthumanism in Young Adult Fiction: Finding Humanity in a Posthuman World, editors Anita Tarr and Donna R. White collect twelve essays that explore this new discipline's relevance in young adult literature. Adolescents often tangle with many issues raised by posthumanist theory, such as body issues. The in-betweenness of adolescence makes stories for young adults ripe for posthumanist study. Contributors to the volume explore ideas of posthumanism, including democratization of power, body enhancements, hybridity, multiplicity/plurality, and the environment, by analyzing recent works for young adults, including award-winners like Paolo Bacigalupi's Ship Breaker and Nancy Farmer's The House of the Scorpion, as well as the works of Octavia Butler and China Miéville.

Dishing It Out 2011-12-20 Robert Appelbaum From the hamburger haven to the temple of gastronomy, the restaurant is a fixture of modern life. But why is that so? What needs has the restaurant come to satisfy, and what needs has it come to impose upon the experience of the modern world? In Dishing It Out, Robert Appelbaum travels around America and Europe and through the annals of literature and history to explore the social meaning of the restaurant--and to discover what we ought to be asking of the restaurant experience today. Since its founding in pre-Revolutionary France, the restaurant has always inspired contradictory feelings and served contradictory purposes. It has stood for a kind of liberation: the embrace of pleasure and sociability for their own sake. But it has also encouraged narcissistic consumerism at the cost of the exploitation of restaurant workers, and the self-deception of restaurant-goers. Drawing on the work of such writers as Grimod de la Reynière, Jean-Paul Sartre, Isak Dinesen and M.F.K. Fisher, and sampling fare from macaroni cheese in workaday London to oysters and sausages in seaside France, Appelbaum argues that though restaurants are inherently problematic as social institutions, they are characteristic of who and what we are. They are expressions of what we need as human beings. And for that reason, though they contribute to inequality they can also be used to promote the interests of cultural democracy. A unique rethinking of the restaurant experience, at once entertaining and learned, Dishing It Out is an important contribution to our knowledge of food, literature, history and society.

Translation Changes Everything 2013 Lawrence Venuti
Lawrence Venuti is one of the most important theorists in translation studies and his work has helped shape the development of this vibrant field. Translation Changes Everything brings together thirteen of his most significant articles.

The Old Men at the Zoo 2015-07-30 Angus Wilson Set in a near future (the novel was first published in 1961 and is set in the period 1970-73), this is Angus Wilson's most allegorical novel, about a doomed attempt to set up a reserve for wild animals. Simon Carter, secretary of the London Zoo, has accepted responsibility and power to the prejudice of his gifts as a naturalist. But power is more than just the complicated game played by the old men at the zoo in the satirical first half of this novel: it lies very near to violence, and in the second half real life inexorably turns to fantasy - the fantasy of war. This tense and at times brutal story offers the healing relationship between man and the natural world as a solution for the power dilemma.

The Turns of Translation Studies 2006-06-09 Mary Snell-Hornby What's new in Translation Studies? In offering a critical assessment of recent developments in the young discipline, this book sets out to provide an answer, as seen from a European perspective today. Many "new" ideas actually go back well into the past, and the German Romantic Age proves to be the starting-point. The main focus lies however on the last 20 years, and, beginning with the cultural turn of the 1980s, the study traces what have turned out since then to be ground-breaking contributions (new paradigms) as against what was only a change in position on already established territory (shifting viewpoints). Topics of the 1990s include nonverbal communication, gender-based Translation Studies, stage translation, new fields of interpreting studies and the effects of new technologies and globalization (including the increasingly dominant role of English). The author's aim is to stimulate discussion and provoke further debate on the current profile and future perspectives of Translation Studies.

Exiled Memories 2010-09-23 Zohreh Sullivan "I feel I am the wandering Jew who has no place to which she belongs. I thought I could settle down, but can't imagine staying. Whenever I bought a bar of soap and two came in the package, I thought there would be no need to buy a package of two because I would never last through the second. Why? Because I knew I was returning to Iran -- tomorrow. So too, I would buy the smallest size of toothpastes and jars of oil. Putting down roots here is an impossibility." These are the words of one Iranian emigre, driven from Tehran by the revolution of 1979. They are echoed time and again in this powerful portrayal of loss and survival. Impelled by these word and her own concerns about nationality and identity, Zohreh Sullivan has gathered together here the voices of sixty exiles and emigres. The speakers come from various ethnic and religious backgrounds and range in age from thirteen to eighty-eight. Although most are from the middle class, they work in a variety of occupations in the United States. But whatever their differences, here they engage in remembering the past, producing a discourse about their lives, and negotiating the troubled transitions from one culture to another. Unlike man other Iranian oral history projects, Exiled Memories looks at the reconstruction of memory and identity through diasporic narratives, through a focus on the Americas rather than on Iran. The narratives included here reveal the complex ways in which events and places

transform identities, how overnight radicals become conservatives, friends become enemies, the strong become weak. Indeed, the narratives themselves serve this function -- serving to transfer or transform power and establish credibility. They reveal a diverse group of people in the process of knitting the story of themselves with the story of the collective after it has been torn apart.
